Important Notices

Applications/

O SE/ T cannot undertake to recommend for admission every applicant who meets the minimum admission requirements.

Changes to Fees

At time of publication, the 2016/2017 fees schedule has not yet been established. The amounts quoted in the Fees section, pages 19-192, are from the 2015/2016 schedule. The university reserves the right to alter the fees and other charges described in this *Bulletin*.

Changes in Programs of Study and/or Courses

The programs of study that our *Bulletin* lists and describes are available for the year(s) to which the *Bulletin* applies. They may not necessarily be available in later years. If the university or O SE/ T must change the content of programs of study or withdraw them, all reasonable possible advance notice and alternative instruction will be given. The university will not, however, be liable for any loss, damages, or other expenses that such changes might cause.

For each program of study offered by the university through O SE/ T, the courses necessary to complete the minimum requirements of the program will be made available annually. We must, however, reserve the right otherwise to change the content of courses, instructors and instructional assignments, enrollment limitations, prerequisites and co-requisites, grading policies, requirements for promotion and timetables without prior notice.

Copyright in Instructional Settings

If a student wishes to tape-record, photograph, video-record or otherwise reproduce lecture presentations, course notes or other similar materials provided by instructors, he or she must obtain the instructor's written consent beforehand. Otherwise all such reproduction is an infringement of copyright and is absolutely prohibited. In the case of private use by students with disabilities, the instructor's consent will not be unreasonably withheld.

Course Deadlines, Prerequisites, Limits

Students should note the deadline for course selection (see Sessional Dates and Deadlines, pages 1-11). There are enrollment limits, as well as prerequisites, for certain courses, with the result that it will not always be possible for students to gain admission to the course of first choice.

VOTE. Students with unsatisfied conditions of admission will not be permitted to select courses.

Enrollment Limitations

The university makes every reasonable effort to plan and control enrollment to ensure that all of our students are qualified to complete the programs of study to which they are admitted, and to strike a practicable balance between enrollment and available instructional resources. Sometimes such a balance cannot be struck and the number of qualified students exceeds the instructional resources that we can reasonably make available while at the same time maintaining the quality of instruction. In such cases, we must reserve the right to limit enrollment in the programs of study, courses, or sections listed in the *Bulletin*, and to withdraw courses or sections for which enrollment or resources are insufficient. The university will not be liable for any loss, damages, or other expenses that such limitations or withdrawals might cause.

English Language Facility

O SE/ T reserves the right to require evidence of English language facility from any applicant educated outside Canada whose mother tongue or first language is not English. Language proficiency requirements are detailed on pages 30-31.

Full Time/Part Time Course Load

Six half-courses ordinarily constitute a full-time program of study in the Fall and Winter Sessions (typically three in each session). Each half-course normally meets for thirteen weeks of two and one-half hour classes per week or for twelve weeks of three-hour classes per week. A full course normally meets for two sessions. Two half-courses constitute a full-time program of study in each term of the Summer Session - May/June and July/August. Each half-course normally meets for six hours a week.

Students wishing to change their status must submit a written request to the Registrar's Office, Graduate Studies Registration Unit. **Restrictions may apply.**

Person ID Number (Student Number)

Each student at the university is assigned a unique identification number. The number is confidential. The university, through the Policy on Access to Student Academic Records, strictly controls access to Person ID numbers. The university assumes and expects that students will protect the confidentiality of their Person ID numbers.

Policies and Regulations

The University has several policies which are approved by the governing Council and which apply to all students. Each student must become familiar with the policies. The University will assume that he or she has done so. In applying to OSE/ T, the student assumes certain responsibilities to the University and to OSE/ T and, if admitted and registered, shall be subject to all rules, regulation and policies as amended from time to time.

In addition, all graduate degree programs are subject to the academic regulations of the University of Toronto, School of Graduate Studies S S . For full details, applicants and students are advised to consult the *School of Graduate Studies Calendar* or visit their Website <www.sgs.utoronto.ca>.

History and Function of OISE/UT

Mission

OISE/UT is committed to the study of education and matters related to education in a societal context in which learning is a life-long activity. Its mission emphasizes equity and access and the improvement of the educational experiences of people of all age levels and backgrounds. It includes partnerships with others to address a wide array of problems, drawing upon the insights of academic disciplines and professional perspectives. OISE/UT is dedicated to national pre-eminence and international distinction in graduate studies, initial and continuing teacher education, research and field development in education, and to providing exemplary leadership within and outside the province of Ontario.

History

Beginning in 1827, several experiments involving model schools and training institutes were conducted with the aim of improving the academic and professional qualifications of teachers in Ontario. In 1829 all such operations were supplanted by a provincial school of pedagogy in Toronto. Seven years later this institution was moved to Hamilton and renamed the Ontario Normal College. In 1906, Faculties of Education were organized at the University of Toronto and at Queen's University to educate secondary teachers, following the recommendation of a Royal Commission that the education of teachers is best performed where theory and practice can be made to supplement each other.

The Faculty of Education at the University of Toronto offered professional secondary school courses in pedagogy. The Faculty established the University of Toronto Schools (UTS) in 1911, to serve as a laboratory school in order to improve the practical and experimental aspects of its program. In 1926, the St. George's School of Child Study, became the first university laboratory preschool in Canada. In 1939, it became the Institute of Child Study, the first of the University of Toronto's multi-disciplinary research centres.

In 1927, the Faculty of Education at Toronto was designated the Ontario College of Education (OCE), University of Toronto. During a period of forty-five years, the OCE was the sole institution in the province for the preparation of secondary school teachers. During these years the College expanded its program, services, and facilities, and added a number of important departments. The Guidance Centre in 1943 and the Vocational and Industrial Arts Department in 1946. It also included a department of Graduate Studies and Research.

In 1961, a special act of the Ontario legislature established the Ontario Institute for Studies in Education to provide graduate level programs, to conduct research and disseminate its findings, and to engage in field development activities in education. In 1966, the departments of Graduate Studies and Research were transferred from OCE to the Ontario Institute for Studies in Education (OISE), while teacher education remained at the University of Toronto, in a restructured and renamed College of Education with its own College Council and Advisory Board. The Educational Media Centre was added in 1966, the Department of Computer Studies in 1968. Effective July 1, 1972, the College was formally designated the Faculty of Education, University of Toronto (FE/UT).

In general, OISE and FE/UT each pursued their mandates and activities separately after 1961. Some FE/UT faculty members who held membership in the School of Graduate Studies were involved with OISE's graduate programs, particularly in the areas of child study, curriculum and educational administration. In 1976, CS began offering a two-year child development-based initial teacher education program.

As a graduate school of education affiliated with the University of Toronto, OISE provided most of the master's-level and nearly all of the doctoral programs in education in the province. Although OISE administered all admission procedures, program regulations, financial awards, and degree requirements, its admission procedures and programs were subject to the regulations of the University's School of Graduate Studies (SS). Graduating students received University of Toronto degrees. Most courses were offered on campus, but about 25% per year were offered through OISE's Field Centres or by distance education modes of delivery. While the vast majority of programs were in English, OISE offered a small number of French language courses within a French Studies focus.

OISE was also a major centre of educational research and development in Canada with a professional research staff to assist in carrying out its research and development mandate. OISE's exclusive focus on graduate studies, research, and development in education provided a unique setting for faculty, professional research staff, and students to address significant educational problems and issues through its seven academic departments. It developed a reputation as one of a small number of research and postgraduate education institutions in the world with a broad mission and mandate and with the resources to implement the full range of that mission.

In 1983, the University of Toronto and OISE structured a joint committee to explore the possibility of integrating FEIT and OISE. The committee, chaired by Professor Lorna Marsden, recommended that FEIT and OISE be integrated as an affiliate of the University of Toronto, i.e. with its own board of governors and direct funding from the province. Neither OISE nor FEIT fully supported this recommendation and it was not pursued. However, a tripartite Joint Council on Education was established OISE/FEIT/UT to explore areas of common interest.

In 1985, the provincial government's Treasurer announced his intention to transfer OISE's budget to the University of Toronto. Discussions broke down and the government did not pursue the matter. In 1986, OISE and the University entered into negotiations toward a possible integration of OISE and FEIT under the general framework of the Marsden Committee's report. Although there was no integration at that time, a new ten-year Affiliation Agreement between OISE and the University was negotiated and signed early in 1989.

Under the new Affiliation Agreement, there was a stronger working relationship than at any time in the past. The Agreement included the establishment of the Joint Centre for Teacher Development, the establishment of a Joint Committee on Education with representation from OISE, FEIT and SSU, a review of the libraries of both institutions, and mechanisms for increasing collaborative research and the involvement of FEIT faculty in graduate education.

In February 1994, the Minister of Education and Training wrote to the UoT and to OISE inviting the two institutions to explore formally the possibility of full integration. The Minister stated his belief that, through combining the objectives and academic resources of FEIT and OISE, the work of both institutions would be enhanced in the areas of educational research, graduate instruction, teacher education, dissemination of knowledge and the improvement of educational practice among professionals in the field. Consequently, the two institutions entered into discussions to explore the possibility of integration, and both institutions named external consultants to provide advice regarding a number of aspects.

On December 16, 1994, an Agreement was signed by the Ontario Institute for Studies in Education, the Governing Council of the University of Toronto, and the Ministry of Education and Training. The terms of the Agreement outlined the broad terms for the integration of OISE and FEIT, including CS and its Laboratory School and TS, into a new professional faculty of education under the Governing Council of the University of Toronto, and addressed its mandate, mission, administration, governance and resources.

The new faculty, named the Ontario Institute for Studies in Education of the University of Toronto OISE/UT, began operations on July 1, 1996. It is one of the largest faculties at the University and one of the largest faculties of education in North America. It enjoys all the rights and responsibilities pursuant to its status as a university faculty. Its five departments Adult Education and Counselling Psychology Curriculum, Teaching and Learning Human Development and Applied Psychology Sociology and Equity Studies and Theory and Policy Studies in Education, are members of Division Social Sciences of the University's School of Graduate Studies.

In response to a recommendation from the Royal Commission on Learning that the consecutive program for teacher education be extended to two years, and an endorsement of this recommendation by the Ministry of Education and Training, OISE/UT developed an M.T. program which began in 1996. In 2004, TS became an independent ancillary corporation within the University of Toronto, with its own board of Directors.

Division

OISE/UT strives to be an effective, interactive learning community which, through research, scholarship, and excellent instruction, provides the theoretical knowledge base for education as a domain of advanced study and professional practice. OISE/UT is a centre of excellence for graduate studies, research, field development, initial and continuing teacher education in Ontario. It also is a central and integral part of the University of Toronto with collaborative programs, joint appointments and linkages to a variety of professional faculties and departments.

Sessional Dates and Deadlines

Please note the following:

The **Academic Year** is comprised of three sessions - Fall, Winter, Summer - with the Summer Session subdivided into two terms - May/June and July/August.

In the following schedule of Sessional Dates and Deadlines, full-year courses refer to courses which run through both the Fall and Winter Sessions.

Each department may also have deadlines related to these general Sessional Dates and Deadlines.

University policy states that the first day of classes in the September session in all teaching divisions should not be scheduled on the first and second days of Rosh Hashanah from 1 1/2 hours before sunset on Friday, September 22, 2006 to about 1 1/2 hours after sunset on Sunday, September 24, 2006 or on Simchat Torah from about 1 1/2 hours before sunset on Sunday, October 1, 2006 to about 1 1/2 hours after sunset on Monday, October 2, 2006.

2006

- January 9 Lectures begin for the 2006 Winter Session
- January 1 Grade submission date for the 2006 Fall Session courses. Grades will be available on ROS via SWS approximately one week after this date
- January 1 Deadline for SDF designation for 2006 Summer Session, first and second term courses to be changed to a regular grade, an "C" or a failing grade
- January 13 Deadline for registration for students beginning their programs in the 2006 Winter Session. After this date a late registration fee will be charged
- January 13 Final date to request a deferral of admission from the 2006 Winter Session to the 2007 Winter Session
- January 17 Deadline for final oral examinations for Ed.D. and Ph.D. degrees to be conferred in absentia at the March meeting of the Governing Council. Arrangements must be made through the Registrar's Office, Graduate Studies Registration Unit, and taking into account the intervening Christmas holiday
 - For Ph.D. - at least eleven working weeks before this date
 - For Ed.D. - at least nine working weeks before this date
- January 17 Deadline for students who hold dual registration for both M.A. and Ph.D. degrees to be recommended for the master's degree. This date is crucial for meeting School of Graduate Studies deadlines
- January 17 Deadline for master's degree students who completed degree requirements in the 2006 Fall Session to submit appropriate documentation to the Registrar's Office, Graduate Studies Registration Unit, for master's degrees to be conferred in absentia at the March meeting of the Governing Council or at Spring Convocation. This date is crucial for meeting School of Graduate Studies deadlines
- January 24 Deadline for submitting the final Ph.D. or Ed.D. thesis for students whose degrees are to be conferred in absentia at the March meeting of Governing Council
- January 27 Deadline for adding 2006 Winter Session courses
- March 3 Deadline for withdrawing from the 2006 Winter Session and full-year courses without academic penalty

2006 continued

March 3	Final date for submitting application forms, together with all pertinent documentation, for admission to degree programs beginning in the 2006 Summer Session, first term. No guarantee can be given that the application will be considered for admission to either degree programs, or courses, or for financial support
March 13-17	Midwinter break in the Ontario school system - no O SE/ T classes scheduled
March 1	Deadline for Master's students to indicate on ROS their intent to graduate in June if all degree requirements, comprehensives and/or research will be completed in the 2006 Winter Session
March 2 -24	Course selection information will be available for continuing students, for the 2006 Summer Session, 2006 Fall Session and the 2007 Winter Session
April 7	Final date for Special Students to submit application forms, together with all pertinent documentation, for admission to 2006 Summer Session, first term
April 13	Last day of 2006 Winter Session and full-year lectures
April 14	Good Friday - University closed
April 1	Deadline for submission of Individual Reading and Research course approval forms to be submitted to the Registrar's Office, Graduate Studies Registration Unit, for 2006 Summer Session, first term courses
April 19	Deadline for submitting appropriate documentation to the Registrar's Office, Graduate Studies Registration Unit, for Masters' degrees to be awarded at Spring Convocation. This date is crucial for meeting School of Graduate Studies deadlines
April 19	Deadline for final oral examinations for Ed.D. and Ph.D. degrees to be conferred at Spring Convocation. Arrangements must be made through the Registrar's Office, Graduate Studies Registration Unit <ul style="list-style-type: none"> • For Ph.D. - at least nine working weeks before this date • For Ed.D. - at least seven working weeks before this date
April 21	Deadline for adding 2006 Summer Session courses May - June - May - August without instructor's approval. After this date, instructor's approval at the beginning of classes is required
April 2	Deadline for students whose degrees are to be conferred at Spring Convocation to submit the final Ph.D. or Ed.D. thesis
April 3	Continuing students should select courses for the 2006 Summer Session, the 2006 Fall Session and the 2007 Winter Session prior to this date. Maximum enrollment may be reached in some courses well before this date
May 1	Lectures begin for the 2006 Summer Session, first term
May	Final date for submitting application forms, together with all pertinent documentation, for admission to degree programs beginning in the 2006 Summer Session, second term, and the 2006 Fall Session. No guarantee can be given that the application will be considered for admission to either degree programs, or courses, or for financial support
May	Deadline for registration for 2006 Summer Session courses which begin in May
May 12	Deadline for registration for 2006 Summer Session Independent Study and Research
May 12	Deadline for adding 2006 Summer Session courses which begin in May
May 16	Grade submission date for 2006 Winter Session and full-year courses. Grades will be available on ROS via SWS approximately one week after this date

2006 continued

- May 16 Deadline for SDF designation for 2006 Fall Session courses to be changed to a regular grade, an A, B, C or a failing grade
- May 22 Victoria Day University closed
- June 2 Deadline for dropping 2006 Summer Session, first term courses
- June 2 Final date for Special Students to submit application forms, together with all pertinent documentation, for admission to 2006 Summer Session, second term
- June 9 Deadline for adding 2006 Summer Session, second term courses **without instructor's approval.** After this date, instructor's approval at the beginning of classes is required
- June 9 Last day of 2006 Summer Session, first term lectures
- June 9 Spring Convocation - M.A., Ph.D. 10:00 am
- June 12 Spring Convocation - M.Ed., Ed.D. 2:30 pm
- June 1 Deadline for submission of Individual Reading and Research course approval forms to be submitted to the Registrar's Office, Graduate Studies Registration Unit, for 2006 Summer Session, second term courses
- June 23 Spring Convocation - M.A. T, M.T. 10:00 am
- June 3 Deadline for dropping 2006 Summer Session, May to August courses
- June 3 Deadline for adding 2006 Summer Session, second term courses
- July 3 Canada Day University closed
- July 4 Lectures begin for the 2006 Summer Session, second term
- July 7 Deadline for registration, without late fee, for 2006 Summer Session, second term
- July 7 Final date to request a deferral of admission from the 2006 Summer Session to the 2007 Summer Session
- July 1 Deadline for Master's students to indicate on ROS their intent to graduate in the Fall if **all** degree requirements will be completed in the 2006 Summer Session
- July 2 Grade submission date for 2006 Summer Session, **first term courses.** Grades will be available on ROS via SWS approximately one week after this date
- July 28 Deadline for dropping 2006 Summer Session, second term courses
- July 31 Deadline for adding 2006 Fall Session and full-year courses, **without instructor's approval.** After this date, instructor's approval at the beginning of classes is required
- August 4 Final date for Special Students to submit application forms, together with all pertinent documentation, for admission to 2006 Fall Session
- August 7 Civic Holiday University closed
- August 14 Last day of 2006 Summer Session, second term lectures
- August 31 Recommended date for payment of fees for the 2006/2007 academic year

2006 continued

September 4	Labour Day – university closed
September	Deadline for submission of individual Reading and Research course approval forms for 2006 Fall Session and full-year courses, to be submitted to the Registrar's Office, Graduate Studies Registration Unit
September 11	Lectures begin for the 2006 Fall Session and full-year courses
September 12	Grade submission date for 2006 Summer Session, second term courses . Grades will be available on ROS via SWS approximately one week after this date
September 12	Deadline for SDF designation for 2006 Winter Session courses to be changed to a regular grade, an 'C' or a failing grade
September 14	Deadline for submitting appropriate documentation to the Registrar's Office, Graduate Studies Unit, for master's degrees to be awarded at Fall Convocation. This date is crucial for meeting School of Graduate Studies deadlines
September 1	Deadline for 2006/2007 Fall/Winter Session registration. After this date, a late registration fee will be charged
September 1	Final date to request a deferral of admission from the 2006 Fall Session to the 2007 Fall Session
September 18	Deadline for final oral examinations for Ed.D. and Ph.D. degrees to be conferred at Fall Convocation. Arrangements must be made through the Registrar's Office, Graduate Studies Registration Unit <ul style="list-style-type: none"> • For Ph.D. - at least nine working weeks before this date • For Ed.D. - at least seven working weeks before this date
September 26	Deadline for students whose degrees are to be conferred at Fall Convocation to submit the final Ph.D. or Ed.D. thesis
October 6	Deadline for adding 2006 Fall Session and full-year courses
October 6	Final date for submitting application forms, together with all pertinent documentation, for admission to degree programs beginning in the 2007 Winter Session. No guarantee can be given that the application will be considered for admission to either degree programs, or courses, or for financial support
October 9	Thanksgiving Day – university closed
November 1	Final date to request a change of start date from the 2006 Summer Session or the 2006 Fall Session to the 2007 Winter Session
November 3	Final date for Special Students to submit application forms, together with all pertinent documentation, for admission to the 2007 Winter Session
November 3	Deadline for withdrawing from 2006 Fall Session courses without academic penalty
November T A	Fall Convocation - Ed.D., M.Ed., M.A. T, M.T.
November T A	Fall Convocation - Ph.D., M.A.
December 1	Deadline for submitting application forms, together with all pertinent documentation, for admission to degree programs beginning in the 2007 Summer Session, the 2007 Fall Session and the 2008 Winter Session. While applications will be accepted after this date, no guarantee can be given that the application will be considered for admission to either degree programs, or courses, or for financial support

2006 continued

- December 1 Deadline for receipt of applications for a 2 7 Fall Session and 2 8 Winter Session Graduate Assistantship for full-time study only
- December 1 Last day of lectures for the 2 6 Fall Session
- December 11 Deadline for adding 2 7 Winter Session courses, **without instructor's approval**. After this date, instructor's approval at the beginning of classes is required
- December 1 Deadline for Master's students to indicate on ROS their intent to graduate in March in absentia or in the Spring if **all** degree requirements will be completed in the 2 6 Fall Session
- December 1 Deadline for submission of Individual Reading and Research course approval forms for the 2 7 Winter Session to be submitted to the Registrar's Office, Graduate Studies Registration Unit
- December 22 - January 3 University closed

2007

- January 8 Lectures begin for the 2 7 Winter Session
- January 12 Deadline for registration for students beginning their programs in the 2 7 Winter Session. After this date a late registration fee will be charged
- January 12 Final date to request a deferral of admission from the 2 7 Winter Session to the 2 8 Winter Session
- January 16 Graduate submission date for the 2 6 Fall Session courses. Grades will be available on ROS via SWS approximately one week after this date
- January 16 Deadline for SDF designation for 2 6 Summer Session, first and second term courses to be changed to a regular grade, an C or a failing grade
- January 17 Deadline for final oral examinations for Ed.D. and Ph.D. degrees to be conferred in absentia at the March meeting of the Governing Council. Arrangements must be made through the Registrar's Office, Graduate Studies Registration Unit, and taking into account the intervening Christmas holiday
- **For Ph.D. - at least eleven working weeks before this date**
 - **For Ed.D. - at least nine working weeks before this date**
- January 17 Deadline for students who hold dual registration for both M.A. and Ph.D. degrees to be recommended for the master's degree. This date is crucial for meeting School of Graduate Studies deadlines
- January 17 Deadline for master's degree students who completed degree requirements in the 2 6 Fall Session to submit appropriate documentation to the Registrar's Office, Graduate Studies Registration Unit, for master's degrees to be conferred in absentia at the March meeting of the Governing Council or at Spring Convocation. This date is crucial for meeting School of Graduate Studies deadlines
- January 19 Deadline for adding 2 7 Winter Session courses
- January 26 Deadline for submitting the final Ph.D. or Ed.D. thesis for students whose degrees are to be conferred in absentia at the March meeting of the Governing Council
- March 2 Deadline for withdrawing from the 2 7 Winter Session and full-year courses without academic penalty

2007 continued

March 2	Final date for submitting application forms, together with all pertinent documentation, for admission to degree programs beginning in the 2007 Summer Session, first term. No guarantee can be given that the application will be considered for admission to either degree programs, or courses, or for financial support
March 12-16	Midwinter break in the Ontario school system - no O SE/ T classes scheduled
March 1	Deadline for Masters students to indicate on ROS their intent to graduate in June if all degree requirements, comprehensives and/or research will be completed in the 2007 Winter Session
March 19-23	Course selection information will be available for continuing students, for the 2007 Summer Session, 2007 Fall Session and the 2008 Winter Session
April	Last day of 2007 Winter Session and full-year lectures
April 6	Final date for Special Students to submit application forms, together with all pertinent documentation, for admission to 2007 Summer Session, first term
April 6	Good Friday - University closed
April 19	Deadline for submitting appropriate documentation to the Registrar's Office, Graduate Studies Registration Unit, for Masters degrees to be awarded at Spring Convocation. This date is crucial for meeting School of Graduate Studies deadlines
April 19	Deadline for final oral examinations for Ed.D. and Ph.D. degrees to be conferred at Spring Convocation. Arrangements must be made through the Registrar's Office, Graduate Studies Registration Unit <ul style="list-style-type: none"> • For Ph.D. - at least nine working weeks before this date • For Ed.D. - at least seven working weeks before this date
April 27	Deadline for students whose degrees are to be conferred at Spring Convocation to submit the final Ph.D. or Ed.D. thesis
April 3	Continuing students should select courses for the 2007 Summer Session, the 2007 Fall Session and the 2008 Winter Session prior to this date. Maximum enrollment may be reached in some courses well before this date
May 4	Final date for submitting application forms, together with all pertinent documentation, for admission to degree programs beginning in the 2007 Summer Session, second term, and the 2007 Fall Session. No guarantee can be given that the application will be considered for admission to either degree programs, or courses, or for financial support
May 1	Grade submission date for 2007 Winter Session and full-year courses. Grades will be available on ROS via SWS approximately one week after this date
May 1	Deadline for SDF designation for 2006 Fall Session courses to be changed to a regular grade, an C or a failing grade
May 21	Victoria Day - University closed
June 1	Final date for Special Students to submit application forms, together with all pertinent documentation, for admission to 2007 Summer Session, second term
June T A	Spring Convocation

General Information

Travail et Thèses en Français

La plupart des cours qu'offre l'Institut d'études pédagogiques de l'Ontario de l'université de Toronto sont en anglais. Cependant, les étudiantes et les étudiants qui le désirent pourront soumettre leurs travaux en français en prenant les dispositions nécessaires avec les professeures et professeurs dont les noms apparaissent ci-dessous. Nous recommandons aux étudiantes et étudiants de bien vouloir rencontrer leurs professeures ou professeurs au préalable s'ils ou elles souhaitent remettre leurs travaux en français.

Il est à noter que l'OSE/UT n'offre que quelques cours en français sur le campus. Il est très peu probable qu'il soit possible de poursuivre un programme d'études entièrement en français sur le campus; toutefois, il est possible de le faire à distance par Internet. Prière de consulter la page 18 pour plus de renseignements sur ce programme.

Département d'éducation des adultes, apprentissage et psychologie du counselling

Course Selection for Continuing M.A., M.Ed., Ed.M., M.A. and Ph.D. Students

Course selection information for the 2016 Summer Session, the 2016 Fall Session and the 2017 Winter Session will be available near the end of March 2016 at www.ro.utoronto.ca.

Students should select courses before April 3 by using the Web service at www.rosi.utoronto.ca

VOTES

- For courses which require the instructor's approval or which are extra to your program of study, return the completed course Add/Drop Form to the Registrar's Office, Graduate Studies Registration Unit.
- Course selection does not constitute official registration in programs or courses. You must pay your fees to complete the process.
- If you are unable to get into the courses of your choice, we suggest that you attend the first class and speak to the instructor of the course regarding possible enrollment in the course.

Definition of Full Time Student

Full-time graduate students are defined according to government regulations as follows

- They must be pursuing their studies as a full-time occupation and identify themselves as full-time graduate students in all documentation.
- They must be considered by OSE/UT to be in full-time study.
- They must be geographically available and visit the campus regularly.
- They must be considered to be full-time graduate students by their supervisors.

Part Time Study/ Late Afternoon and Evening Classes in Hall and Winter Sessions

During the 2016 Fall Session and the 2017 Winter Session, it is anticipated that many of the courses will be offered in the late afternoon or evening.

Fully employed, part-time students interested in these classes may pursue one of the following patterns of study

- Two half-courses in each of the two sessions

- b Four half-courses which run for both the Fall and Winter Sessions
- c Two full courses which run for both the Fall and Winter Sessions
- d Where scheduling necessitates, two half-courses which run for both the Fall and Winter Sessions, along with one half-course which runs for the Fall Session and one half-course which runs for the Winter Session.

Study in Summer Session

During each term of the Summer Session (May-June and July-August), students eligible to register **full time** may take two half-courses. **part time** students may take one half-course.

VOTE Students enrolled in the following areas of study and who are undertaking their required period of full-time study in the Summer Session are exempt from the above

The EdN in Higher Education in the Higher Education Program

The EdN for Community College Leaders in the Higher Education Program

All Ph.D. candidates, and Ed.D. candidates who have completed the minimum full-time study requirement, will register for the Fall, Winter and Summer Sessions when they register in September or in January for those beginning their doctoral program of study then.

Off-campus/Distance Education

OISE/UT offers off-campus sections of some courses.

However, because of a limited selection of courses, it may not be possible to complete all program requirements off-campus. Most off-campus courses are offered in a distance education mode, mainly via computer conferencing. For computer conferencing courses, students must have regular access to a computer and modem.

Application Procedures

Applicants may contact their local OISE/UT Field Centre (see listing in Research and Field Activities section, pages 184 - 189). Application information and forms are available at <www.ro.oise.utoronto.ca>.

VOTE Application procedures are the same for all students (see pages 28-32).

Course Requirements

Course requirements are the same for both off- and on-campus students. Please consult the departmental sections, pages 3 - 169.

Students who have selected off-campus sections of courses by the deadline will receive written details about the site location and dates and times of classes before the

beginning of the course. **Students are urged to select courses by the deadline. Courses may be cancelled if enrollment is low.**

Registration

Course selection does not constitute official registration. You must pay your fees to complete the process.

Part-time, off-campus students who have already been admitted to a degree program will be mailed a fees invoice when all admission conditions have been satisfied. Please refer to registration materials which are mailed to students each year for appropriate dates and procedures.

Off-campus Library Services

The Education Commons makes available, either directly or through the local Field Centres, all essential reading materials for off-campus students to meet the requirements of their courses. In addition, full reference services are offered, including the preparation of computerized literature searches and the acquisition of materials through inter-library loan.

Required Period of Full Time Study

Many programs of study specify a period during which the student is required to be on campus and consequently in such geographical proximity as to be able to participate fully in the university activities associated with the program. This required period of full-time study provides the student with an opportunity to become immersed in the intellectual environment of the university. Full-time study requirements can be filled only through

- a consecutive Fall and Winter Sessions, i.e., September to December and January to April in the same academic year
- b the Winter Session in one academic year followed by the Fall Session in the next academic year.

VOTE Full-time study credit is not given for registration in the Summer Session except for those students enrolled in the following areas of study and who are undertaking their required period of full-time study in the Summer Session

The EdN in Higher Education in the Higher Education Program

The EdN for Community College Leaders in the Higher Education Program

Where full-time, on-campus study is required for a degree program, such study ordinarily begins in September. While it is possible to begin full-time study in January, the OISE/UT department in which the program of study is being undertaken must be in a position to offer that program beginning in January.

Flexible-time Ph.D. Programs

Flexible-time Ph.D. degree programs are offered in Adult Education and Community Development, Curriculum Studies and Teacher Development, Educational Administration, Higher Education and Second Language Education, Sociology and Equity Studies, and differ from the regular full-time Ph.D. degree programs in design, delivery, and funding. Consult page 27, and the departmental sections, on pages 31-169 for further details.

Dual Registration for M.A. and Ph.D. Candidates

Students in an M.A. degree program at the University of Toronto who have been offered admission to a Ph.D. program conditional on completion of the master's program may be dual registrants for only one session in both degree programs under the following conditions:

- The master's thesis committee has been officially formed and a minimal amount of work remains to complete the master's thesis.
- Permission has been granted by OSE/UT.
- The student will be engaged in full-time Ph.D. studies i.e., a minimum of two half-courses during the session of dual registration and will be registered full-time in the Ph.D. and part-time in the master's degree program.
VOTE. Only the appropriate Ph.D. fees will be charged.
- The period of dual registration will be either September 1 to January 31 or January 1 to May 1.

To receive full-time study credit for the Ph.D. for the period of dual registration, the student must be recommended for the master's degree by mid-January for September dual registrants, or by mid-April for January dual registrants. Otherwise the Ph.D. registration will be cancelled, no full-time study credit will be allowed, and the student will continue to be registered as a master's student only. Appropriate fees adjustment will be made so that the student will be charged fees only as a master's student. Courses completed during the period of dual registration will be credited to the master's degree.

Students who are not recommended for the master's degree by the deadline and whose enrollment in the Ph.D. is thereby cancelled, may not apply for dual registration a second time. They must successfully complete the requirements for the master's degree before registering in the Ph.D. degree program.

Transfer Credit

Candidates who have completed graduate courses beyond that required for admission to an OSE/UT degree program may be granted credit for up to two half-courses, or 25% of the course requirements for the degree, whichever is greater, provided that those courses were not credited toward another degree, diploma, certificate, or any other qualification.

This will not reduce the total degree program fee required.

Transfer Between Programs

M.A. and M.Ed. candidacy is not normally interchangeable. Similarly, the two doctoral degree programs, Ph.D. and Ed.D., are distinct in design and orientation and **candidacy is not normally interchangeable.** It is therefore most important for applicants to give serious consideration to their choice of program.

VOTE. Students from other University of Toronto departments/programs may request transfers to OSE/UT departments/programs.

Continuity of Registration

Doctoral candidates who have completed the required minimum period of full-time study but who have not completed other requirements for the degree must register annually in September and pay the full-time fee until all degree requirements have been completed.

VOTE. Flexible-time Ph.D. students may request permission to continue as part-time students at the end of the minimum period of full-time study.

Full-time master's students once they are past the minimum period of registration or have begun their last required course whichever comes first, must continue to register on a full-time basis and pay the full-time fee until all degree requirements have been completed.

VOTE. M.Ed. students registered in Option 1 are exempt from the above requirement.

If full-time master's students wish to change to part-time status, the change must be requested for the Fall/Winter session **before they are past the 'minimum period of registration' or before they have begun their last required course**, whichever comes first. If the last required course is taken in the Summer session, a change to part-time status must have been made in the previous Winter session. Students will be required to maintain continuous registration and to pay part-time fees until all degree requirements have been completed. A change of status in the summer session does not affect a student's status in the following Fall/Winter session.

Part time master s students register in those sessions in which they are completing course requirements for the degree. Once they have begun their last required course, these students must register annually and pay the part-time fee until all other requirements have been completed. Failure to register as required will cause a student s candidacy to lapse.

Leave of Absence

Graduate Students whose programs require continuous registration may apply to the O SE/ T Registrar s Office Graduate Studies Registration Unit for a one-session to three-session leave during their program of study for

serious health or personal problems which temporarily make it impossible to continue in the program, or parental leave by either parent at the time of pregnancy, birth or adoption, and/or to provide full-time care during the child s first year. Parental leave must be completed within twelve months of the date of birth or custody. Where both parents are graduate students taking leave, the combined total number of sessions may not exceed four.

Once on leave, students will neither be registered nor will they be required to pay fees for this period. In general, students on leave may not make demands upon the resources of the University, attend courses or expect advice from their supervisor. As an exception, students on leave for parental or serious health reasons who wish to consult with their supervisor or other faculty are advised to make special arrangements through their department. Students on leave will not be eligible to receive University of Toronto fellowships support. In the case of other graduate student awards, the regulations of the particular granting agency apply.

Students may make application for a leave by completing the Leave Request Form and submitting it to the O SE/ T Registrar s Office. The termination date of the degree program will be extended by the duration of the leave taken, i.e., one, two, or three sessions as appropriate. Except for parental leave or in exceptional circumstances, it is not expected that a student will be granted more than one leave under the terms of this policy. Normally the start and finish of the leave would coincide with the start and end of a session.

Leave requests that do not fall under the terms of this policy will require final approval from the School of Graduate Studies.

Course Changes and Course Completion

The deadlines for adding and dropping courses for the Fall, Winter and Summer Sessions are listed in the Sessional Dates and Deadlines, pages 1 - 1 . Students should pay special attention to these. After these dates no changes can be made. Should a student not continue in the course, the course itself will remain on the record transcript with a WDR (Withdrawal) notation. Should a student continue in the course but not complete the requirements for the course, it will remain on the record transcript and a grade of incomplete (C) or Failure (F) will be assigned. If a student has incomplete or failed courses, others must be added to fulfill the degree requirements.

The deadlines by which grades must be submitted are also listed in the Sessional Dates and Deadlines, pages 1 - 1 . These dates are mandatory. They represent the dates on which the grades are due in the O SE/ T Registrar s Office, Graduate Studies Registration Unit. Please note that sufficient time must be allowed for the instructor to grade students papers in order to comply with these dates. The deadline for submission of papers will therefore be determined by the instructor.

VOTES

1) Only in very rare circumstances would an appeal for an extension beyond the final deadline dates be considered.

2) Throughout a degree program at O SE/ T, it is the student s responsibility to ensure that the O SE/ T Registrar s Office, Graduate Studies Registration Unit, is notified, by the appropriate dates, of any changes in courses and of any other relevant information concerning their program of study.

Withdrawal from a Degree Program

In order to withdraw from a degree program, students must submit written notification along with their student card, to the Registrar s Office, Graduate Studies Registration Unit, Room 4-48 . A rebate of fees, if any, will be determined by the date on which written notification of withdrawal is received by the Registrar s Office. Application for re-admission by a student who has withdrawn will be considered in competition with all other applicants.

Grade Reports

Grades will be available on ROS via the Student Web Service at <www.rosi.utoronto.ca>. Please refer to the Sessional Dates in this *Bulletin* for further information.

Transcripts

Requests for transcripts of academic records, with the exceptions listed below, should be directed to the consolidated transcript centre at the following address

University of Toronto Transcript Centre (TTC)
Room 106, 1 St. George Street
Toronto, Ontario M5S 3G3
Telephone 416-978-3384
Website www.rosi.utoronto.ca

Exceptions

The Additional Qualification Program for Educators (including Principals' Qualification Program)

Requests for transcripts should be made to

The Records Officer
Office of the Registrar's Office
220 Bloor Street West, Room 4-4
Toronto, Ontario M5S 1G6
Telephone 416-926-4743
Office 416-926-4437
Fax 416-923-7884

Requests for transcripts for the following programs should be made directly to the respective division.

School of Continuing Studies

Toronto School of Theology

Woodsworth College Pre-University Program

At the time of printing this *Bulletin*, the charge for a transcript is \$1.00 for each copy. This charge is subject to change. Transcripts will not be issued for students who have outstanding obligations to the university. See pages 192 and 204. Other than periods of the year when the demand for transcripts is especially heavy, requests will be processed within 10 working days.

Criminal Record Report

School Board Requirements

The Child Study and Education two-year program and the Master of Teaching in Elementary and Intermediate Education program require successful completion of practice teaching in the schools. School boards require students on practice teaching assignments in Ontario schools to complete a satisfactory criminal background check prior to having direct contact with students.

Without a satisfactory criminal record report the schools will not allow candidates to participate in practice teaching. Questions regarding this process should be directed to

The Ontario Education Services Corporation
E-mail oes-cseo@opsba.org
Website www.oes-cseo.org

The Ontario College of Teachers Certification

The Ontario College of Teachers (OCT) is responsible for the licensing and regulation of the teaching profession in the public interest. In order to provide increased protection for elementary and secondary students in Ontario schools and to help to ensure that teachers are worthy of the trust placed in them, by students, parents and colleagues, the College requires that all new teacher education graduates who will be applicants for OCT membership and teacher certification (O.T.C. of), provide original documentation of criminal record reports and an Applicant's Declaration about their suitability for registration. Note that the report is valid for 6 months only. Questions regarding a criminal record report which might prevent meeting this teacher certification requirement should be directed to

The Ontario College of Teachers
Telephone 416-961-8888

Minimum Admission and Degree Requirements

OISE/UT conducts, within the School of Graduate Studies, programs of study leading to the following graduate degrees. Note that, with the exception of the Master of Arts in Child Study and Education Program and the Master of Teaching in Elementary and Intermediate Education Program, graduate degrees at OISE/UT do not lead to certification for teaching in Ontario's schools.

Master of Education M.Ed.
Master of Arts M.A.
Master of Teaching M.T.
Doctor of Education Ed.D.
Doctor of Philosophy Ph.D.

NOTE Application procedures are described on pages 28-32.

Following is an outline of the **minimum** admission, program of study and completion requirements for the various graduate degrees in Education. Individual OISE/UT departments may have additional requirements. Candidates will be required to undertake whatever additional studies OISE/UT considers necessary.

A bachelor's degree or other first degree does not necessarily confer eligibility for graduate admission to OISE/UT. The university reserves the right to determine whether or not credentials of degree-granting institutions meet the standards for admission to University of Toronto programs of study.

Applicants who hold professionally-oriented or applied degrees, and who wish to pursue graduate degrees in Education, must be prepared for the possibility of taking some academic makeup courses at the undergraduate level before being eligible for consideration for admission to graduate study.

Applicants who graduated five or more years ago without achieving sufficiently high standing in the bachelor's degree, for admission to the School of Graduate Studies as degree candidates, may be considered for admission if a department wishes to present a case for non-standard admission. Such applicants must present substantial evidence that they have done significant intellectual work and/or made a significant professional contribution. This contribution and its impact must be detailed and documented (e.g., publications, curriculum materials and usage data, policy reports) and presented as part of the application.

Master of Education (MEdN)

This degree is designed chiefly for the professional improvement of those who are already engaged in a career related to education. Students who anticipate going on to further study at the Ph.D. level are advised to apply for enrollment in an M.A. rather than an M.Ed. degree program.

Admission Requirements

- a An appropriate University of Toronto four-year bachelor's degree, or its equivalent from a recognized university, completed with standing equivalent to a University of Toronto **mid-B or better** in the final year. See the Admission Requirements section of individual departments for programs which require specified undergraduate disciplines and/or a higher standing, pages 3 - 169.

At the discretion of OISE/UT, it may be necessary to submit course descriptions of all academically-oriented courses not clearly defined on the transcript, in order to establish equivalency to an appropriate University of Toronto degree.

An applicant whose bachelor's degree is equivalent to an appropriate University of Toronto degree but which has been pursued on a part-time basis is evaluated on approximately five of the most recent and most senior level academic full courses or their equivalent. The number of courses may vary depending on the pattern of study.

Depending on the makeup of the degree, and the student's intended program of study at the master's level, some additional academic work may be required either within the degree program or prior to admission.

- b A year of professional education for teaching, or the equivalent in pedagogical content, is helpful.
- c At least one year of relevant, successful, professional experience.

Degree Requirements

Applicants must declare their choice of O SE/ T department, degree, program and field at the time of application. Upon admission, the student will be assigned to a faculty advisor who will assist in determining an appropriate program of study. While a student may request a transfer to a different home department en route to the degree, such change may result in a lengthened program and may increase the degree fee.

The minimum requirements for the M.Ed. degree are as follows

- a While in some O SE/ T departments additional requirements have been established, in keeping with their department's requirement, students must undertake one of the following options to complete their degree. Not all Options are available in all departments.

Option I - Coursework and Comprehensive Requirement:

ten half-courses plus a comprehensive examination/requirement.

Option II - Research Project:

eight half-courses plus a research project or a Master's Research Paper.

Option III - Thesis:

six half-courses plus a thesis.

Option IV - Coursework only:

ten half-courses

The M.Ed. degree requires that a minimum of half of the courses be taken in the home department unless otherwise specified by the department.

- b Full-time study, though desirable, is not required.
- c **Full-time master's students, once they are past the "minimum period of registration" or have begun their last required course (whichever comes first), must continue to register on a full-time basis and pay the full-time fee until all degree requirements have been completed.**

M.Ed. students registered in Option are exempt from the above requirement.

If full-time master's students wish to change to part-time status, the change must be requested for the Fall/Winter session **before they are past the "minimum period of registration" or before they have begun their last required course**, whichever comes first. If the last required course is taken in the Summer Session, a change to part-time status must have been made in the previous Winter Session. Students will be required to maintain continuous registration and to pay part-time fees until all degree requirements have been completed. A change of status in the Summer Session does not affect a student's status in the following Fall/Winter Session.

- d **Master's students proceeding to their degree on a part-time basis register in those sessions in which they are completing course requirements for the degree. Once they have begun their last required course, these students must register annually and pay the part-time fee until all other degree requirements have been completed.**

M.Ed. students registered in Option are exempt from the above requirement.

- e All requirements for the degree must be satisfactorily completed **within six years** of first enrollment.
- f **Candidates must indicate their intent to graduate on ROSI.** Those completing their program of study, including the comprehensive or the research requirement, in one of the sessions shown below must indicate their intent to graduate during the period listed and will receive their diplomas at the relevant convocation ceremony

Summer Session completion - June 1 to July 15

Candidates will receive their diploma at the Fall Convocation ceremony.

Fall Session completion - Nov. 1 to Dec. 15

Candidates will have the option of receiving their diploma through the mail in March, since there is not a ceremony at that time, or of receiving their diploma at the convocation ceremony in June.

Winter Session completion - Feb. 1 to Mar. 15

Candidates will receive their diploma at the Spring Convocation ceremony.

Master of Arts (M.A.)

This degree is designed to provide academic study and research training related to fields of professional specialisation in education. Students who anticipate going on to further study at the Ph.D. level are advised to apply for enrollment in an M.A. rather than an M.Ed. degree program.

Regulations concerning the M.A. degree are detailed in the University of Toronto *School of Graduate Studies Calendar*. What follows is an expansion of those regulations as they apply to the graduate degree programs in Education at O SE/ T.

Some M.A. degree programs at O SE/ T, e.g. History and Philosophy of Education, and Sociology in Education are one-year programs of study comprised of six half-courses after a four-year bachelor's degree in the same cognate area of specialisation. M.A. degree programs in, for example, Adult Education and Community Development, Curriculum, Educational Administration, and Higher Education are generally one-year programs of study comprised of eight half-courses after a four-year bachelor's degree in a relevant discipline or professional program. Consult departmental information for full details, pages 3 - 169.

Admission Requirements

- a An appropriate university of Toronto four-year bachelor's degree, or its equivalent from a recognized university, completed with standing equivalent to a university of Toronto **mid-B or better** in the final year. See the admission requirements section of individual departments for programs of study which require specified undergraduate disciplines and/or a higher standing, pages 3 - 169.

At the discretion of OSE/UT, it may be necessary to submit course descriptions of all academically-oriented courses which are not clearly defined on the transcript, in order to establish equivalency to an appropriate university of Toronto degree.

An applicant whose bachelor's degree is equivalent to an appropriate university of Toronto degree but which has been pursued on a part-time basis is evaluated on approximately five of the most recent and most senior level academic full courses or their equivalent. The number of courses may vary depending on the pattern of study.

Depending on the makeup of the degree, and the student's intended program of study at the master's level, some additional academic work may be required either within the degree program or prior to admission.

- b A year of professional preparation for education, or the equivalent, and at least one year of relevant successful professional experience are highly appropriate and desirable qualifications for admission.

Degree Requirements

Applicants must declare their choice of OSE/UT department, degree, program and field at the time of application. Upon admission, the student will be assigned to a faculty advisor who will assist in determining an appropriate program of study. While in some OSE/UT departments additional requirements have been established, the minimum requirements for the M.A. at OSE/UT are as follows

- a **A one year degree program** comprised of at least six half-courses, selected in accordance with requirements in the home department. A minimum of four half-courses must be taken in the home department unless otherwise specified by the department.
- b Candidates admitted to an extended program of study (**one and one half years**) on the basis of a four-year bachelor's degree which does not embrace the field of specialization proposed at the graduate level, plus a year of professional education for teaching and successful professional experience, will ordinarily be

required to complete at least ten half-courses. A minimum of five half-courses must be taken in the home department unless otherwise specified by the department.

- c Candidates admitted to a **two year degree program**, on the basis of a four-year bachelor's degree which does not embrace the field of specialization proposed at the graduate level, are required to complete twelve half-courses. A minimum of six half-courses must be taken in the home department unless otherwise specified by the department.
- d A thesis. All M.A. candidates, with the exception of the Child Study and Education Programs which do not require a thesis, must have their thesis committees officially formed as follows
if studying full time - April 1 of the year following completion of the full-time study requirement, or the minimum period of registration
if studying part time - upon the completion of two-thirds of the M.A. coursework.

All students using human subjects in their thesis research must have their proposals reviewed by the OSE/UT-wide Education Ethics Review Committee (EERC) administered by University of Toronto Research Services (TRS). Please consult the **OISE/UT Guidelines for Theses and Orals** regarding thesis and ethical review procedures.

VOTE. Proposals from students who do not have an active candidacy will not be considered by the EERC.

- e In most departments it is possible to pursue an M.A. degree on a part-time basis. A minimum of one academic year of full-time study is required for some programs of study. Consult departmental information for full details, pages 3 - 169.
- f **Full-time master's students, once they are past the "minimum period of registration" or have begun their last required course (whichever comes first), must continue to register on a full-time basis and pay the full-time fee until all degree requirements have been completed.**

If full-time master's students wish to change to part-time status, the change must be requested for the Fall/Winter session **before they are past the "minimum period of registration" or before they have begun their last required course**, whichever comes first. If the last required course is taken in the Summer Session, a change to part-time status must have been made in the previous Winter Session. Students will be required to maintain continuous registration and to pay part-time fees until all degree requirements have been completed. A change of status in the Summer Session does not affect a student's status in the following Fall/Winter Session.

- g **Master's students proceeding to their degree on a part-time basis register in those sessions in which they are completing course requirements for the degree. Once they have begun their last required course, they must register annually and pay the part-time fee until all other degree requirements have been completed.**
- h All requirements for the degree must be satisfactorily completed **within five years** of first enrollment for candidates admitted to one-year / six or eight half-course / degree programs and **within six years** of first enrollment for candidates admitted to one and one-half-year / ten half-course / or two-year / twelve half-course / degree programs.

Master of Teaching (M.T.)

The Curriculum, Teaching and Learning Department offers a two-year Master of Teaching degree. Upon successful completion of the degree requirements, students will be awarded a Master of Teaching degree and a recommendation to the Ontario College of Teachers for an Ontario Teachers' Certificate of Qualification which qualifies them to teach in either the primary and junior divisions or the junior and intermediate divisions of Ontario schools.

See pages 24 - 26 for further information.

Admission Requirements

An appropriate University of Toronto four-year bachelor's degree or its equivalent from a recognized university, completed with standing equivalent to a University of Toronto **mid B or better** in the final year.

At the discretion of OSE/UT, it may be necessary to submit course descriptions of all academically-oriented courses which are not clearly defined on the transcript, in order to establish equivalency to an appropriate University of Toronto degree.

An applicant whose bachelor's degree is equivalent to an appropriate University of Toronto degree but which has been pursued on a part-time basis is evaluated on approximately five of the most recent and most senior level academic full courses or their equivalent. The number of courses may vary depending on the pattern of study.

Depending on the makeup of the degree, and the student's intended program of study at the master's level, some additional academic work may be required either within the degree program or prior to admission.

Applicants normally must

- a Submit a Statement of Intent describing three significant teaching and/or teaching-related experiences, especially with groups of children. With reference to these experiences, applicants should identify insights gained about teaching and learning, and explain how, based on these insights, they might contribute to the education of students in today's schools.

- b be interviewed by a panel of faculty, teachers and students.

VOTE Even the limited number of students in this degree program, not all eligible applicants can be interviewed or admitted.

Because applicants are applying to a teacher education program, they also need to submit the following items with their application

- a a photocopy of a Canadian birth certificate, or in the case of a person who was not born in Canada, documents showing the basis upon which the applicant is present in Canada including date and place of birth
- b a photocopy of a certificate of change of name where applicable

VOTE In addition, a criminal record report is required for certification by the Ontario College of Teachers. See page 2 for further information.

Degree Requirements

The two-year M.T. degree is composed of the equivalent of 16 half-courses / 14 core and 2 electives, including practica, and is undertaken on a full-time basis. Normally, advance standing is not granted in this program. In addition to the coursework / including practica, all candidates must successfully complete a comprehensive examination at the end of the program of study in order to graduate and receive the M.T. degree and be recommended to the Ontario College of Teachers for an Ontario Teachers' Certificate of Qualification. Registration in the second year is contingent upon successful completion of all first-year work.

Doctor of Education (Ed.D.)

The Ed.D. degree program is designed to provide opportunities for more advanced study for those who are already engaged in a career related to education. The emphasis of the program is on the development of skills in the application of knowledge from theory and research findings to practical educational problems. The Ed.D. represents professional development at a high level in a particular field of education, pursued in depth. The average time to completion is approximately five years. For information on the availability of programs of study in various fields of specialization, see the appropriate departmental sections, pages 3 - 169.

Admission Requirements

- a A University of Toronto M.Ed. or M.A. in Education, or its equivalent from a recognized university, in the same field of specialization proposed at the doctoral level, completed with standing equivalent to a University of Toronto **B or better** in master's courses. Further documentation may be required to

establish equivalence. See the admission requirements section of individual departments for programs of study which require higher standing for admission, pages 3 - 169.

- b Appropriate letters of reference commenting on scholarly achievement and promise and on professional performance and promise.
- c Because the degree program is intended primarily for experienced professionals in the Ontario educational system, a personal interview will be conducted whenever possible.
- d Ordinarily, one year of professional preparation for education.
- e Successful professional experience in education, or in a relevant field.
- f Evidence of ability to identify a research or development problem, to design and conduct a study or project, and to report the findings or results, all in a rigorous manner. Examples of such evidence include a high-quality Project Report, a Qualifying Research Paper (QRP), or a master's thesis. Should a Qualifying Research Paper be required, please consult the *OISE/UT Guidelines for the QRP*, available from the Registrar's Office, Graduate Studies Admissions Unit or from www.utoronto.ca.
- g Additional requirements may be deemed appropriate for admission within the Ed.D. Such requirements are outlined in the departmental sections, pages 3 - 169.

Degree Requirements

Applicants must declare their choice of OISE/UT department, degree, program and field at the time of application. Upon admission, the student will be assigned to a faculty advisor, who will assist in determining an appropriate program of study. While additional requirements have been established in some OISE/UT departments, the minimum requirements for the Ed.D. are as follows

- a Normally, a minimum of one Fall Session and one Winter Session of full-time study taken consecutively (i.e., Fall Session - September to December, followed by Winter Session - January to April, or Winter Session - January to April, followed by Fall Session - September to December).

VOTE Full-time study credit is not given for registration in the Summer Session except for those students enrolled in the following and who are undertaking their required period of full-time study in the Summer Session

The EdD in Higher Education in the Higher Education Program

The EdD for Community College Leaders in the Higher Education Program

- b In most degree programs, students may begin their studies on a part-time basis. See departmental listings for exceptions, pages 3 - 169.

VOTE Once enrolled full-time, students must maintain continuous registration and pay the full-time fee until all degree requirements have been completed.

- c Eight half-courses are required for candidates who have an M.Ed. or M.A. degree or the equivalent in the same field of specialization proposed at the doctoral level.

An eight half-course Ed.D. degree program should include at least four half-courses in the home department except as otherwise stated in departmental program descriptions. Typically, when more than eight new half-courses are required, it is because the master's degree lacks equivalence to that in the particular area to which the student has been accepted. Thus, the additional courses should normally be taken within the OISE/UT home department.

- d Candidates in some departments or programs of study will be required to take a comprehensive examination. Consult specific departments for details.
- e A thesis embodying the results of original investigation conducted by the student under the direction of an OISE/UT thesis committee. The candidate must file the names of thesis committee members by April 1 of the year following the period of required full-time study.

The thesis will report the results of a study, which might address theoretical issues applicable to professional concerns and practice, or which might focus directly on the exploitation of knowledge in order to study or influence aspects of educational practice.

The thesis must conform to the tenets of scholarly writing in a rigorous style of presentation. All students using human subjects in their thesis research must have their thesis proposals reviewed by the OISE/UT-wide Education Ethics Review Committee (EERC) administered by University of Toronto Research Services (TRS). Please consult the *OISE/UT Guidelines for Theses and Orals* regarding thesis and ethical review procedures.

VOTE Proposals from students who do not have an active candidacy will not be considered by the EERC.

- f A final oral examination on the content and implications of the thesis, to determine the adequacy of both the thesis and its defense by the candidate.
- g All requirements for the Ed.D. degree must be completed within six years of first enrollment as an Ed.D. candidate.

Doctor of Philosophy (Ph.D.)

This degree is designed to provide opportunities for advanced study in the theoretical foundations of education as well as in the application of such knowledge to educational practice.

Regulations concerning the Ph.D. degree are detailed in the University of Toronto *School of Graduate Studies Calendar*. What follows is an expansion of those regulations as they apply to the graduate degree programs in Education at OISE/UT.

The Ph.D. represents a high level of scholarly achievement and research in a particular field of education, pursued in depth. For information on the programs of study, see the appropriate departmental sections. The average time to completion is approximately five years. **Please also see the section on page 27 regarding the flexible-time Ph.D.**

VOTE Transfer to the flexible-time Ph.D. is not normally permitted.

Admission Requirements

a A University of Toronto M.A. in Education, or its equivalent from a recognized university, in the same field of specialization proposed at the doctoral level, completed with standing equivalent to a University of Toronto **B or better** in master's courses. Further documentation may be required to establish equivalency. See the admission requirements section of individual departments for programs of study which require a higher standing for admission, pages 3 - 169.

Students in an M.A. degree program at the University of Toronto who have been offered admission to a Ph.D. program conditional upon completion of the master's degree program may be dual registrants for only one session in both programs under the conditions stipulated in the section Dual Registration for M.A. and Ph.D. Candidates on page 18.

b Holders of master's degrees other than the OISE/UT M.A. in the same field of specialization as proposed at the doctoral level, may be required to submit further evidence of scholarly proficiency satisfactory to OISE/UT and to the admission committee in an OISE/UT department. Ordinarily this will include reports on the master's thesis and/or other research work and publications, and recommendations from persons in positions to judge the applicant's scholarly and professional potential.

If a submitted thesis or research project does not meet the OISE/UT department's requirements, a project known as the Qualifying Research Paper (RP) must be completed satisfactorily before registration in the

doctoral program. Please consult the *OISE/UT Guidelines for the QRP*, available from the Registrar's Office, Graduate Studies Admissions Unit or from www.ro.oise.utoronto.ca.

c Holders of the University of Toronto M.Ed. degree with high standing may be admitted to the Ph.D. program. Depending on the previous degrees held and the candidate's intended field of specialization, some additional coursework and/or a research paper may be required. Since the M.Ed. degree does not necessarily include a thesis, the OISE/UT department may require a RP, which must be completed satisfactorily before registration in the doctoral degree program. Please consult the *OISE/UT Guidelines for the QRP*, available from the Registrar's Office, Graduate Studies Admissions Unit or from www.ro.oise.utoronto.ca.

Degree Requirements

Applicants must declare their choice of OISE/UT department, degree, program and field at the time of application. Upon admission, the student will be assigned a faculty advisor, who will assist in planning an appropriate program of study. While additional requirements have been established in some OISE/UT departments, the minimum requirements for the Ph.D. are as follows

a A minimum of three consecutive sessions of full-time, on-campus study to be undertaken at the beginning of the program. Ordinarily, this period of study begins in September.

Only under exceptional circumstances is it possible to interrupt this period of study after the completion of the first year of required full-time study. Students must apply by submitting a **Leave of Absence Form** requesting the leave and outlining the reasons, to the OISE/UT Registrar's Office, Graduate Studies Registration Unit.

Such interruption may be granted for a maximum of one year and the terminal date of the degree program will be extended by the duration of the leave taken. Students remain responsible for meeting the appropriate deadlines for courses previously taken.

b Once first registered in the degree program, students must maintain continuous registration and pay the full-time fee until all degree requirements have been completed.

c The number of courses in a Ph.D. degree program, as stated in the student's Offer of Admission, is determined by the total university academic background and its relevance to the proposed field of specialization.

ormally, a student accepted to a six half-course Ph.D. program following a master's degree in exactly the same field of specialization as at the doctoral level, would be expected to undertake at least four half-courses in the OSE/UT home department.

Typically, when more than six new half-courses are required in a degree program, it is because the master's degree lacks equivalence to that in the particular program of study to which the student has been accepted. Thus, the additional courses should normally be taken within the OSE/UT home department.

- d Candidates will be required to take a comprehensive examination. Consult specific departments for details.
- e A thesis embodying the results of original investigation conducted by the student under the direction of an OSE/UT thesis committee. The thesis must constitute a significant contribution to the knowledge of the field of study. The candidate must have an approved thesis topic, supervisor and an approved thesis committee by the end the third year of registration.

The thesis must conform to the tenets of scholarly writing in a rigorous style of presentation. All candidates using human subjects in their thesis research must have their thesis proposals reviewed by the OSE/UT-wide Education Ethics Review Committee (EERC) administered by University of Toronto Research Services (TRS). Please consult the *OISE/UT Guidelines for Theses and Orals* regarding thesis and ethical review procedures.

VOTE Proposals from students who do not have an active candidacy will not be considered by the EERC.

- f A final oral examination on the content and implications of the thesis, to determine the adequacy of both the thesis and its defense by the candidate.
- g All requirements for the Ph.D. degree program must be completed within six years of first enrollment as a Ph.D. candidate.

Flexible-time PhD Degree Programs

The Ph.D. programs in Adult Education and Community Development, Curriculum Studies and Teacher Development, Educational Administration, Higher Education, Second Language Education, and Sociology and Equity Studies may be undertaken on a flexible-time basis. The flexible-time program is intended for practicing professionals who can demonstrate that their employment or other professional work is related to their intended field

of study and research interests. The flexible-time Ph.D. differs from the full-time Ph.D. in design, delivery and funding. All requirements for the flexible-time Ph.D. are the same as those for the full-time Ph.D. Students who are considering the flexible-time Ph.D. should ensure that they will have adequate time on campus to attend classes and to fulfill the academic requirements of a Ph.D. program. Students must register full-time for the first four years of the flexible-time program, and may be part-time thereafter, with their Department's approval.

Students admitted to a flexible-time Ph.D. program are not eligible for an OSE/UT Graduate Assistantship or the Graduate Guaranteed Funding Package, nor can they transfer to the full-time Ph.D. Graduate Guaranteed Funded cohort at a later date. Applicants interested in a flexible-time Ph.D. program must review the relevant information in the current SSS Calendar, available at www.utoronto.ca.

Special Students

Special Students must submit an application for admission for each academic year of study. Effective September 2 and subject to approval, courses taken as a Special Student may count for up to one full course or equivalent or 2 of the course requirements for the degree, whichever is greater, in a subsequent degree program at the University of Toronto, provided that they have not already been credited towards another degree, diploma, certificate, or any other qualification.

Special Students are not enrolled in a program of study leading to a degree. Priority is given first to OSE/UT degree students, then other University of Toronto degree students, and finally to Special Students.

VOTE Students accepted to a doctoral degree program may be required to undertake some prerequisite study as Special Students. Such study can be taken on a full- or part-time basis.

Full-time Study

An applicant accepted as a full-time Special Student must have completed an appropriate University of Toronto four-year bachelor's degree, or its equivalent from a recognized university. The applicant must have attained standing in the final year or over senior level courses equivalent to a University of Toronto **mid B** or better.

Part-time Study

An applicant accepted as a part-time Special Student must have completed an appropriate University of Toronto four-year bachelor's degree, or its equivalent from a recognized university. If the degree was attained with standing lower than a University of Toronto **mid B**, the applicant may not apply for admission to a degree program at a later date.

Application Procedures

Applicants to Degree Programs

Application for Admission

Although based on the Web including the University of Toronto, School of Graduate Studies on-line application system, the OSE/ T graduate studies application is a self-administered application. Applicants are required to gather all relevant documentation and submit it together with completed signed and dated application forms all in hardcopy to the Registrar's Office, Graduate Studies Admissions Unit. An application should not be submitted to an academic department or to the University of Toronto, School of Graduate Studies.

It is essential to include two copies of each item with the exception of the sample of written work. The University of Toronto, School of Graduate Studies on-line applications system generates an Application Checklist which is for reference only and there is no need to submit it.

Complete applications will be processed upon receipt.

Incomplete applications including those with insufficient copies of documentation will result in a delay in processing and may not be considered.

All documents submitted in support of an application become and remain the property of the University of Toronto and are not returnable or transferable.

2. Information About Applying

For application information and forms, visit the Registrar's Office Website www.ro.oise.utoronto.ca

If you require further information, contact
OSE/ T Registrar's Office
Graduate Studies Admissions Unit, Room 4-48
2200 Street West
Toronto, Ontario M5S 1G6
Telephone 416-923-6641 ext. 2663
Fax 416-323-9964
E-mail gradstudy@oise.utoronto.ca

Deadlines

Applicants are encouraged to submit their application package as soon as possible. **Complete applications (including all supporting documentation) must have been submitted no later than December 1, 2005**, for registration in the 2006/2007 academic year.

While applications will be accepted after this date, no guarantee can be given that the application will be considered for admission to either degree programs or courses. As well, applications received after this date may not be considered for financial support.

If admission remains open, note the following secondary deadlines for receipt of a complete application

March 3, 2006 for 2006 Summer Session
First Term (May)

May 1, 2006 for 2006 Summer Session
Second Term (July)

May 1, 2006 for 2006 Fall Session
September

October 6, 2006 for 2007 Winter Session
January

VOTE The deadline for application for the 2007/2008 academic year will be December 1, 2006.

Non-refundable Application Fee Plus Non-refundable Supplementary Fee

All applicants (excluding those currently registered in an OSE/ T master's program and continuing into an OSE/ T doctoral program) must pay the non-refundable Application Fee plus the non-refundable Supplementary Fee. For former OSE/ T students with no current registration (e.g. inactive/incomplete program, degree conferred), the Application Fee and Supplementary Fee are applicable.

There are no refunds, exemptions or deferrals of the Application Fee or Supplementary Fee. A single Application Fee plus a single Supplementary Fee is applicable even if applying to more than one OSE/ T program of study.

VOTE For 2006/2007 the Application Fee is \$9 Canadian and the Supplementary Fee is \$7 Canadian for a total of \$16. Fees are subject to change for 2007/2008.

Payment of the Application Fee and Supplementary Fee must be received before an application will be considered. Applicants are encouraged to pay on-line (SA, Mastercard) via the University of Toronto, School of Graduate Studies on-line application system.

Applicants currently registered in an O SE/ T masters program and applying to an O SE/ T doctoral program, are not required to pay the Application Fee or Supplementary Fee. Such applicants must apply for a fee waiver verification of current registration status is necessary prior to approving a waiver of the application fee and supplementary fee. Note that if applicants choose to pay the application fee and supplementary fee, a request for a waiver at a later time will not be granted.

Supporting Documentation

Applicants are required to gather all relevant documentation and submit it together with completed, hardcopy signed and dated application for admission forms generated via the University of Toronto, School of Graduate Studies on-line application system.

In exceptional circumstances, applicants may make arrangements for supporting documentation to be sent directly to the O SE/ T Registrar's Office. All documents sent directly to the Registrar's Office must be sent to the attention of the Graduate Studies Admissions Unit. Further, the University of Toronto, School of Graduate Studies on-line application system assigns an Applicant Number. If submitting supporting documents separate from application for admission forms, this reference number must be included. If documents are not correctly identified, there will be a delay in processing, or the documents may not be received.

All documents submitted in support of your application become and remain the property of the University of Toronto and are not returnable or transferable.

a) Transcripts

Two official transcripts of an academic record from each and every university attended must be included in an application. University study includes degree programs, pre- and post-degree courses (even a single course), and professional development (e.g. Additional Qualification Courses for Educators). If applying to a doctoral program, official transcripts pertaining to both bachelor's and master's degrees must be submitted.

Official transcripts are transcripts received in the O SE/ T Registrar's Office in a sealed, signed/stamped envelope directly from the issuing institution. Applicants must make arrangements to have official transcripts sent to them and then include them in the issuing institution's unopened envelopes as part of an application. Transcripts must be received in our office in a sealed envelope, signed/stamped by the issuing institution. Do not open the envelope. Transcripts received in an unsealed envelope are not considered official. Faxed copies of transcripts, or transcripts issued to the student, or informal grade reports, or electronically transmitted transcripts will not be considered official.

Official English language translations must accompany all non-Canadian documentation not written in English. An official translation is one received in the O SE/ T Registrar's Office in a sealed, signed/stamped envelope directly from an accredited Translation Service.

b) Letters of Reference

A minimum of two supporting letters of reference, one academic and one professional, must be included in an application.

Some degree programs require additional letters of reference. Applicants may also submit supplemental letters of reference at their discretion.

The academic reference should be from a university instructor with whom the applicant has studied. The professional reference should be from a referee who is familiar with the applicant's professional work and promise.

c) 'Resumé'

Two copies of your up-to-date resumé or curriculum vitae must be included in your application.

The resumé should detail employment history including names of employers, job titles, position responsibilities, dates employed, whether full- or part-time, education history (both academic and professional), awards, business and professional achievements, community activities, as well as any special skills.

d) Statement of Intent

Two copies of a Statement of Intent (also known as a plan of study) must be included in an application. The Statement of Intent should detail study and/or research interests, career goals and reasons for seeking admission. Applicants may also wish to identify O SE/ T faculty members with whom they are interested in working. The length of a Statement of Intent can vary, but generally it should be between one and three pages.

e) Other Documentation

Some departments or programs require additional supporting documentation. Two copies of all other supporting documentation must be included in an application with the exception of the sample of written work. Refer to the relevant departmental sections in the O SE/ T *Bulletin* for further information. For example

Applicants to the School and Clinical Child Psychology Program are requested to submit an additional academic letter of recommendation.

Applicants to some M.Ed. or Ed.D. degree programs are required to submit documents attesting to teacher education and certification.

Application Procedures

Applicants to the Department of Sociology and Equity Studies in Education are required to submit a sample of their written work in the area of the social sciences.

Applicants to the Higher Education program excluding M.Ed. degree are required to submit a sample of their written work

Applicants to the two-year Child Study and Education Program and the Master of Teaching in Elementary and Intermediate Education Program are required to submit a photocopy of a Canadian birth certificate or in the case of a person who was not born in Canada, documents showing the basis upon which the applicant is present in Canada including date and place of birth.

VOTE In addition, a criminal record report is required for certification by the Ontario College of Teachers. See page 2 for further information.

6 English Language Facility

OSE/UT reserves the right to require evidence of English language facility from any applicant educated outside Canada whose mother tongue or first language is not English.

Applicants must demonstrate their facility in the English language if their mother tongue or first language is not English and they graduated from a non-Canadian university where the language of instruction and examination was not English.

If applicable, applicants are strongly encouraged to submit satisfactory evidence of English language facility as part of a complete application for admission. When evidence of English language facility is required, an Offer of Admission will not be issued until the requirement is fully satisfied.

In addition, because available spaces in a program are limited a department may not reserve an offer of admission if the English language requirement is not satisfied at the time of application.

Evidence of English language facility must be demonstrated by providing satisfactory results of one of the following tests. Test scores must be forwarded directly from the testing service to the OSE/UT Registrar's Office, Graduate Studies Admissions Unit, to be considered official. Test scores are valid for two years from the date of testing.

Test of English as a Foreign Language (TOEFL)

Educational Testing Service, P.O. Box 611
Princeton, New Jersey

The University of Toronto, School of Continuing Studies, English Language Academic Preparation Course completed at level 6 Advanced with a grade of at least C is required.

7N Graduate Assistantships

OISE/UT Graduate Assistantships are available for full-time registration only, within any program of study. Application forms must be received by December 1 prior to the academic year for which the application is being submitted.

For more information on OISE/UT Graduate Assistantships contact

OISE/UT Student Services Office
22loor Street West, Room 222
Toronto, Ontario M5S 1A6
Telephone 416-923-6641 ext. 217
E-mail gradfinasst@oise.utoronto.ca
Website www.oise.utoronto.ca/student-services

VOTE The University of Toronto is unable to provide adequate financial assistance to international Students students who are neither Canadian Citizens nor Permanent Residents. If an international Student is not awarded a funding package at the time of admission, there are negligible opportunities for financial assistance thereafter as a continuing student. International Students should carefully and thoughtfully consider the serious financial implications of being an OISE/UT graduate student. It is very unfortunate when a student cannot continue in their program of study due to financial hardship. See pages 193 - 197 for information on graduate student financial support. Also see pages 19 and 191 for information on International Student Fees.

Proceeding to Doctoral Degrees

All OISE/UT master's degree candidates wishing to proceed to doctoral degree programs in education must apply for admission and be considered in competition with all other doctoral applicants.

Deferrals

Deferral of Admission

Normally, admission is valid only for the beginning date specified on the Offer of Admission in the section Program to begin. Applicants unable to attend the session for which they have been accepted must normally re-apply and must compete with all other applicants for admission to the later session.

In exceptional circumstances a department may recommend deferral of admission for a maximum of twelve months i.e. to the next academic year following the date of initial acceptance. Requests for deferral should be submitted in writing to the Registrar's Office, Graduate Studies Admissions Unit, as soon as possible but must be received prior to registration, and no later than the deadline to register for the session to which the applicant has been accepted. For example, if a student is admitted for the 2006 Fall Session but is not able to begin the program until the 2007 Fall Session, the student's request for deferral must be received no later than September 1, 2006. Requests for deferral received in the Registrar's Office too late for consideration will be denied and the applicant will be required to re-apply for admission.

Applicants whose requests for deferral of admission have been approved should be aware that any changes made to degree program requirements will be operative in the deferred program. As well, an official transcript will be required to document any new university-level study completed in the interim period.

Applicants whose requests for deferral of admission have been approved and who have been awarded an OISE/UT Graduate Assistantship may not defer the award to the next academic year, unless the offer of admission is within the guaranteed funding cohort. OISE/UT Graduate Assistantship applications are available in September for the following academic year.

Delay to the Winter Session

Some degree programs permit students to begin their program of study in the Winter Session of the year of acceptance i.e. January. Requests for a change of start date to the Winter Session should be submitted in writing to the Registrar's Office, Graduate Studies Admissions Unit, as soon as possible but must be received prior to registration in the program, and no later than November 1 of the year of acceptance. Requests received in the Registrar's Office after November 1 of the year of acceptance will not be considered.

Applicants who have been awarded an OISE/UT Graduate Assistantship may delay the award to the Winter Session if their request for a change of start date to the Winter Session is approved.

Special Student Applicants

Special Students must submit an application for admission for each academic year of study. Effective September 2 and subject to approval, courses taken as a Special Student may count for up to one full course or equivalent or 2 of the course requirements for the degree, whichever is greater, in a subsequent degree program at the University of Toronto, provided that they have not already been credited towards another degree, diploma, certificate, or any other qualification.

Special Students are not enrolled in a program of study leading to a degree. Priority is given first to OSE/ T degree students, then other University of Toronto degree students, and finally to Special Students.

VOTE Students accepted to a doctoral degree program may be required to undertake some prerequisite study as Special Students. Such study can be taken on a full- or part-time basis.

Full Time Study

Students who are changing disciplines or who require preparatory work may be admitted as full-time Special Students and may enroll in a full-time program of study which does not lead to a degree. See the section Minimum Admission and Degree Requirements, pages 21 - 27.

Part Time Study

Students wishing to take one or two graduate courses outside of a current degree program are admitted as part-time Special Students.

Those accepted with standing lower than a University of Toronto **mid B** may not apply for admission to a degree program at a later date.

Graduate Programs, Department

On the following pages is information about graduate studies offered by OISE/UT's five departments - their programs, fields, courses and faculty. Applicants and students may wish to consult the individual OISE/UT department regarding faculty who may be on sabbatical leave during the coming academic year.

Summary of OISE/UT's Departments, Programs and Fields

VOTE. Applicants select a program of study in the following sequence: Department, Program, and Field if applicable.

Adult Education and Counselling Psychology

- 1 Adult Education and Community Development Program
- 2 Counselling Psychology Program

AE
T
F
SES
TFS

Curriculum, Teaching and Learning

- 1 Curriculum Studies and Teacher Development Program
- 2 Master of Teaching in Elementary and Intermediate Education Program (P/ /)
- 3 Second Language Education Program

Human Development and Applied Psychology

- 1 Child Study and Education Program
- 2 Developmental Psychology and Education Program
- 3 School and Clinical Child Psychology Program

Sociology and Equity Studies in Education

- 1 Sociology in Education Program

Theory and Policy Studies in Education

- 1 Educational Administration Program
- 2 Higher Education Program
- 3 History and Philosophy of Education Program

Collaborative Programs

OISE/UT also participates in several Collaborative Programs. Please see pages 17 - 17 for more information.

Course Numbering Explained

Most courses are offered as half-courses, identified by an 'A' following the course number. Full courses are identified by a 'B' after the course number. At the time of publication the actual session in which a course is to be offered is not known.

The three-letter course prefixes indicate the OISE/UT department with which they are identified (see below). Prior to the 1998 Summer Session, OISE/UT graduate courses were prefixed with EDT.

- AE: Adult Education and Counselling Psychology
 T: Curriculum, Teaching and Learning
 F: Human Development and Applied Psychology
 SES: Sociology and Equity Studies in Education
 TFS: Theory and Policy Studies in Education

Joint courses are indicated by a 'Y' as the first letter in the three-letter prefix, or by a three-prefix code of 'YIE'.

Course Number Series. Students should refer to departmental listings for information on master's and doctoral course number series - e.g., in the Curriculum Studies and Teacher Development Program, CTL1 to 1799 series refers to master's level courses; CTL1 to 1999 series refers to doctoral level courses, etc.

Research Methodology Courses

OISE/UT has a great deal of expertise in the area of qualitative, quantitative and mixed research methodology. We offer a wide variety of research methodology courses through our various programs that range from introductory to advanced levels. We also offer courses that are specific to a particular topic or discipline. Many programs require students to take one or more methodology courses to complete their program of study. It is the student's responsibility to understand the requirements for their program. In some cases, it may be possible to take a research methodology course in another program or department to fulfill their program requirements but students should consult with their supervisor or program advisor before enrolling in any course outside of their program. Research methodology courses are flagged by an 'R' in the courses listed for each program.

Individual Reading and Research Courses

Individual Reading and Research courses can be arranged between a student and a faculty member with expertise in a very specific area of the student's interest not covered in the regular course offerings. When an Individual Reading and Research course is undertaken for graduate credit it must be supervised and evaluated by a member of OSE/ T's graduate faculty. A course description and a rationale explaining the relevance of the course to the individual degree program must be submitted and approved by the student's home department and then placed on file in the Registrar's Office, Graduate Studies Registration Unit.

Students should carefully note the deadlines by which the forms must be in the Registrar's Office. See Sessional Dates and Deadlines, pages 1 - 1 .

Special Topics Courses

Each department also offers a number of Special Topics courses in specific areas not already covered in regular course offerings.

Adult Education and Counselling Psychology (AE/C)

The Department of Adult Education and Counselling Psychology consists of two distinct programs

Adult Education and Community Development Counselling Psychology

Each program offers the following degrees: M.Ed., M.A., Ed.D. and Ph.D. In the Counselling Psychology Program the M.A. and Ph.D. degrees lead to eligibility for registration as a Psychological Associate or Psychologist, respectively, with the College of Psychologists of Ontario. The M.Ed. degree provides the basic preparation for Certification as a Certified Canadian Counsellor (CCC) with the Canadian Counselling Association.

The Adult Education and Community Development Program also offers a Certificate in Adult Education for those whose academic preparation makes them ineligible for graduate accreditation programs. In addition, there is a Certificate in Adult Training and Development for those with an interest in that area. The Counselling Psychology Program offers a Certificate of Completion in Cognitive Behavioural Therapy.

The Department is also involved in several graduate collaborative programs (page 4) as well as the initial Teacher Education program (page 4).

The Department welcomes applications to its graduate programs from qualified candidates from Ontario, Canada, and abroad.

Initial Teacher Education Program

Faculty members in this department participate in the Initial Teacher Education program through the Secondary Program 4 Education and Work and preservice or cross-listed Related Studies courses.

This option is designed for Initial Teacher Education candidates in Business Studies or Technological Studies subject areas with an interest in workplace issues and transitions to the M.Ed. program. This arrangement involves three graduate programs - Sociology in Education, Adult Education and Community Development, and Counselling Psychology.

The M.Ed. has a co-ordinated set of offerings of courses related to workplace issues. In total, students complete 1 one-semester courses, including options from outside the research area, and a comprehensive paper consisting of an integrated discussion of workplace issues. Students can enroll in the M.Ed. either part-time or full-time. Part-

time students can take up to 6 years to complete their degree, whereas it is possible for full-time students to complete the degree in one academic year plus two summers.

Collaborative Graduate Degree Programs

Collaborative Program in Addiction Studies

The Department of Adult Education and Counselling Psychology as well as other York University of Toronto departments, participate in this collaborative program. The purpose of the program is to develop and integrate graduate training in the multidisciplinary field of addictions, an area that includes the use and abuse of alcohol, tobacco, and psychoactive substances, as well as gambling and other addictive behaviours. Further information is available on page 17 of this *Bulletin* and from the *School of Graduate Studies Calendar*.

Collaborative Program in Aging and the Life Course

This Collaborative Program prepares students for specialization in the field of aging, an area that includes individual human aging and population aging, with an emphasis on viewing aging issues within the perspective of the life course. Further information is available on pages 17 - 171 in this *Bulletin* and from the *School of Graduate Studies Calendar*.

Comparative International and Development Education

Program Directors

Jaren Bundy • Adult Education and Counselling Psychology

Joseph FN Harrell • Curriculum, Teaching and Learning

Contact

Website www.oise.utoronto.ca

E-mail office@oise.utoronto.ca

Participating Faculty

Angela Miles, Iran Mirchandani, Shahrad Moab, Karen Mundy, Roxanna G, Daniel Schugurensky.

The Collaborative Program in Comparative, International and Development Education (CDE) is jointly offered at the M.Ed., M.A., Ed.D. and Ph.D. levels in the Departments of the Adult Education and Counselling Psychology Curriculum, Teaching and Learning Sociology and Equity Studies in Education and Theory and Policy Studies in Education. Students enrolled in any of the four collaborating departments receive a notation on their transcript identifying their specialization in Comparative, International and Development Education.

The CDE program will be of interest to Canadian students who wish to work and live in other cultures or want to better understand the educational and social systems of the many learners in Canada's multicultural society. It will also be of interest to international students who wish to relate their studies at OISE/UT directly to their own societies and learning systems.

Prospective applicants should review the detailed information about the CDE program available in the **Collaborative Graduate Degree Programs** section on pages 172 - 177 in this *Bulletin* and on the CDE Website at oise.utoronto.ca. You are strongly advised to contact one of the participating CDE faculty members listed above, to discuss your research interests and goals. You should also review the information provided in the **School of Graduate Studies Calendar**.

Courses

The following is a list of courses offered by the department of Adult Education and Counselling Psychology that are accepted for credit by CDE. Not all of the courses listed are offered in any given year. Students should also see course lists under the **Collaborative Degree Programs** section in this *Bulletin* pages 172 - 177.

- AEC112 Community Development Innovation Models
- AEC1114 Comparative and International Perspectives in Adult Education
- AEC114 Participatory Research in the Community and the Workplace
- AEC1146 Women, War and Learning
- AEC118 Aboriginal Worldviews Implications for Education
- AEC119 Embodied Learning and the Living
- AEC314 Political Economy of Adult Education in Global Perspectives
- AEC3119 Global Perspectives on Feminist Education, Community Development Community Transformation
- AEC3131 Special Topics Popular Education Comparative and International Perspectives

- AEC3131 Special Topics Citizenship Learning and Participatory Democracy
- AEC3132 Special Topics in Women in Development and Community Transformation
- AEC3133 Social Theories and Adult Education
- AEC314 Post-colonial Relations and Transformative Education
- AEC3179 Work, Technology and the Knowledge Economy
- AEC318 Global Governance and Educational Change
- C E1 1 Introduction to Comparative, International and Development Education

A wide selection of additional courses is available across participating departments. See the entry on pages 172 - 177 in this *Bulletin* or visit the CDE Website oise.utoronto.ca.

Environmental Studies

OISE/UT offers, in cooperation with the University of Toronto Centre for Environment, a Collaborative Program in Environmental Studies. This program is offered within OISE/UT jointly through the Departments of Adult Education and Counselling Psychology and Sociology and Equity Studies in Education. Further information is available on page 177 of this *Bulletin* and from the School of Graduate Studies Calendar. **The contact person in the Adult Education and Counselling Psychology Department is:**

Jennifer Sumner
E-mail sumner@oise.utoronto.ca

Graduate Collaborative Program in Women's Studies (GWS)

The Departments of Adult Education and Counselling Psychology Curriculum, Teaching and Learning Sociology and Equity Studies in Education and Theory and Policy Studies in Education participate in the University's Graduate Collaborative Program in Women's Studies (GWS). All programs of study should be planned in consultation with the Graduate Women's Studies Program Director at Innis College and the program advisor in the student's OISE/UT home department. Further information is available on page 176 in this *Bulletin* and from the **School of Graduate Studies Calendar**.

Collaborative Masters Program in Community Development

The two programs in the Department of Adult Education and Counselling Psychology, as well as three other university of Toronto programs, participate in this collaborative program. Students must register in the master's degree program through one of the participating graduate units, and must meet all respective degree requirements of the School of Graduate Studies and their home graduate unit. Students completing this Collaborative Program receive a special notation on their transcripts. Further information is available on page 171 of this *Bulletin*, at www.utoronto.ca/~aec/communitydevelopment.html and from the School of Graduate Studies.

Participating AEC faculty

Angela Miles, academic adviser, Daniel Schugurensky

Courses (from page 72)

- AEC112 Community Development Innovative Models
- AEC114 Community Education and Organizing
- AEC128 Community Mental Health
- AEC3119 Global Perspectives on Feminist Education, Community Development and Community Transformation
- AEC3131 Special Topics Citizenship Learning and Participatory Democracy
- AEC3211 Counselling and Researching in Context Critical Perspectives on Counselling and Health Promotion Research

E-mail dschugurensky@oise.utoronto.ca

Adult Education and Community Development Program

The Adult Education and Community Development Program provides a place to study and contribute to theory, practice, and policy concerning formal and informal adult learning in organizations, communities, workplaces, and social movements in local, national and international contexts. The program situates learning within a broad framework, including the impact of various hierarchies for example, social class, gender, race and ethnicity. Faculty emphasize collaborative, relational, mutual orientations to learning. Perspectives include Aboriginal and indigenous anti-racist and anticolonial arts-informed, environmental/ecological embodied feminist holistic international comparative/global labour political economy transformative. Knowledge and learning/teaching outside the academy are honoured and importance is placed on building mutually beneficial connections with diverse individuals, groups, organizations and communities in Canada and abroad.

Faculty members have research interests in the areas of Aboriginal Adult Education, Community Education, Creative Inquiry and Adult Learning, Environmental Adult Education, International/Global Adult Education, Social Movement Learning, Transformative Learning, and Workplace Learning. Faculty and students each pursue diverse and overlapping combinations of these interests. Applicants must list in their Statement of Intent, two faculty members whose interests most closely relate to their own. For faculty profiles see page 3 and, for more detail, the Departmental Webpage

www.utoronto.ca/depts/aecdc/aec.html

E-mail cfung@oise.utoronto.ca

Admission

Admissions procedures are described in the Application Procedures section, pages 28-32.

Each year, the admissions committee receives many more applications for this Program than can be accommodated. Selection must be made from a large number of applicants who satisfy admission requirements as stated in the Minimum Admission and Degree Requirements section, pages 21 - 27. Consequently, a number of qualified applicants are disappointed.

Applicants must submit a Letter of Intent which states their scholarly interests and how these will relate to listed Adult Education and Community Development Program interest areas and faculty research areas, and 2) enhance their own contributions to the field. Doctoral applicants must submit the names of two Adult Education and Community Development faculty whose interests most closely match their own thesis-related interests. The Program also requires that the resume submitted with all applications provide clear and complete information about the applicant's experience related to their proposed studies a minimum of one year.

Students may include in their program of study, courses offered by other OISE/UT and University of Toronto graduate departments. With the approval of the faculty advisor and the Registrar's Office Graduate Studies Registration Unit students are permitted to take the equivalent of two half-courses at another recognized graduate institution for credit in this Program, but must commence their program of study with OISE/UT courses.

Degrees

Master of Education

An appropriate four-year University of Toronto degree in a relevant discipline or professional program or its equivalent from a recognized university, with standing equivalent to a University of Toronto **mid B or better** in the final year, is required for admission to the M.Ed.

The M.Ed. is a non-thesis degree which can be taken on either a full- or part-time basis. The program of study normally consists of ten half-courses, usually at the 1000-level. At least half of the courses must be from the Adult Education and Community Development Program. Students are required to take course AEC111, the Introduction to Adult Education, as well as one research methods course.

Master of Education students can also pursue research in **Research, or, and Career**, an area of study which is offered jointly by the Adult Education and Community Development Program and the Counselling Psychology Program.

Further information about the program and career research area is available from:

Dr. Iran Mirchandani, Adult Education and Community Development Program
Telephone 416-923-6641 ext. 239
E-mail iran@oise.utoronto.ca

Master of Arts

An appropriate four-year University of Toronto degree in a relevant discipline or professional program, or its equivalent from a recognized university, with standing equivalent to a University of Toronto **B or better** in the final year, is required for admission to the M.A.

The M.A. is a research-based degree program which can be taken on a full- or part-time basis. Students normally take eight half-courses, mainly at the 1000-level, at least four of which must be from the Adult Education and Community Development program. Additional courses may be required of some students. Students must take AEC111 Outline of Adult Education and AEC112 Master's Thesis Seminar. During their program, students are expected to have exposure to both qualitative and quantitative approaches to research. One half-course in research methods is required. A list of appropriate courses will be maintained in the department. M.A. students complete a thesis which may lay the groundwork for doctoral research.

Doctor of Education

VOTE: The Doctor of Education degree program has been suspended for an indefinite period and has been replaced with the flexible-time Ph.D. program (see details follow in EN)

Doctor of Philosophy

For admission information, see the Minimum Admission and Degree Requirements section, pages 21 - 27.

The Ph.D. degree program is designed to provide opportunities for advanced study in the theoretical foundations of adult education and in the application of such knowledge to educational practice. AECDD offers both a full-time and flexible-time Ph.D. program.

Full-time Ph.D. students must complete their degree within six years. They begin as a cohort and it is highly recommended that they take AEC312 the required doctoral thesis seminar in the first term of their program.

Flexible-time Ph.D. students must complete their degree within eight years. It is also recommended that they take AEC312, preferably in the first term of their program. Degree requirements for both full-time and flexible-time Ph.D. students are six half-courses, at least four of which must be from the Adult Education and Community Development Program. Students with little background in

the field of Adult Education and Community Development will be required to do a seventh half-course providing such background. A minimum of four half-courses must be at the doctoral/3rd-level, normally including course AEC312. Students would also normally take at least one specialized research methods course.

In addition, all students are expected to complete a comprehensive requirement and a thesis.

Centres

The following research centres are based in the Department

- Centre for Arts Informed Research
- Comparative International and Development Education Centre
- Transformative Learning Centre

Through its faculty, the Department is also involved in other research centres at OISE/UT such as
Centre for Integrated Anti-Racism Studies
Centre for the Study of Education and Work
Centre for Women's Studies in Education

For more detailed information about these and other OISE/UT research and field centres, see pages 134 - 139 of this *Bulletin*.

Centre for Arts Informed Research (CAIR)

Heads Andrea L. Cole and Gary Nowles
Location 22loor Street West,
Rooms 7-133 and 7-136
Telephone 416-923-6641 ext. 2497 243
E-mail acole@oise.utoronto.ca
E-mail gary.nowles@oise.utoronto.ca
Website home.oise.utoronto.ca/~aresearch

The mission of the Centre for Arts-Informed Research is to articulate, explore and support alternative forms of qualitative research and representation which infuse elements, processes and forms of the arts into scholarly work.

The purpose of the centre is to contribute to the advancement of the genre of arts-informed research to create a context for emerging and established researchers to explore methodological issues associated with arts-informed research to work toward the development of a local, national, and international community of arts-informed researchers to promote open dialogue and collaboration among researchers, professional artists, communities, and schools and to provide opportunities and spaces for public access to alternative forms of research.

Centre activities include seminars, colloquia, exhibits, workshops, and conferences publishing a database and resource library funded research training support and facilities coordination and support of research activities for faculty and students international exchanges and exhibits collaborations with art education institutions connections with community organizations and the public and artist-in-residence programs.

The Comparative International and Development Education Centre (CIDEC)

Program Directors

Jarenundy Adult Education and Counselling Psychology
Yoseph FN Harrell Curriculum, Teaching and Learning

Contact

Website www.oise.utoronto.ca
E-mail cidec@oise.utoronto.ca

Academic coordination of the interdepartmental CIDE Collaborative Program is provided by the Comparative, International and Development Education Centre, which is housed on the 7th floor in the AECD program. The centre is staffed by an administrative officer, and boasts a state of the art smart room, research lab and resource centre. CIDE administers a wide variety of research and development projects. It also provides a gathering place to connect students and faculty with comparative and international education interests throughout OISE/UT via a seminar series, an electronic list serve, electronic newsletters, Website and research projects. For more information see our Web page at www.oise.utoronto.ca

Transformative Learning Centre (TLC)

Head Daniel Schugurensky
Location 22loor Street West, Room 7-119
Telephone 416-923-6641 ext. 29
E-mail dschugurensky@oise.utoronto.ca
Website www.tlcentre.org

The Transformative Learning Centre TLC is a unique interdisciplinary centre for the study and practice of transformative learning in adult and community education contexts. It looks at ways of combining inter-disciplinary practices, new knowledges, and alternative strategies for local and global change. Faculty interests include social movement learning the transformation of contemporary educational and social paradigms the role of learning in local and global change and university and community partnerships in research and field development. See page 139 for more information.

Interdepartmental Research Areas

Aboriginal Education

The Adult Education and Community Development program, along with the departments of Curriculum Teaching and Learning and Sociology and Equity Studies in Education, collaborate in this interdepartmental research area and in the development of Aboriginal Education studies. The Indigenous Education Network is the OISE/UT-wide forum for students and faculty to work together on shared research and teaching interests. The E and the Aboriginal Student Caucus offices are located in the department of Adult Education and Counselling Psychology.

Participating AEC faculty

Sean-Paul Restoule, Bonnie Hurstow, Angela Miles

Further information is available from

Sean-Paul Restoule
Telephone 416-923-6641 ext. 282
E-mail restoule@oise.utoronto.ca

Transformative Learning

The Adult Education and Community Development Program supports involvement in this OISE/UT-wide interdepartmental research area. See page 182 or contact Anne Goodman agoodman@oise.utoronto.ca for more information.

Certificate Programs

Certificate in Adult Education

This Certificate is available for those whose previous academic study does not qualify them for admission to graduate degree programs. It provides an opportunity to broaden their knowledge of theory and methods in adult education. Typically, students come from a wide spectrum of adult education contexts.

Students may pursue this Certificate on a full- or part-time basis. It consists of a minimum of six half-courses, with an opportunity for additional courses. Students must take at least four courses in the Adult Education and Community Development Program.

Courses taken as a Certificate student cannot be counted for credit toward a graduate degree at the University of Toronto. Fees for the Certificate are those that apply to the equivalent category of Special Student. Incidental fees

are not required unless the student is pursuing the Certificate on a full-time basis, in which case the campus services fee must be paid (see Fees section, pages 191 - 192).

Further information is available from

Amelia Anni, Business Officer
Telephone 416-923-6641 ext. 2379
E-mail ananni@oise.utoronto.ca

Certificate in Adult Training and Development

Director Marilyn Lai
Location 222loor Street West, Room 7-112

This Certificate is designed for trainers, facilitators, leaders and managers who want to facilitate the learning of others. The program of study consists of the following five modules and a practicum.

- Understanding the Adult Learner
- Needs Assessment
- Instructional Design
- Presentation Design and Delivery
- Facilitation Skills

The Certificate in Adult Training and Development is awarded upon completion of all modules and a practicum dealing with all areas covered in the program. A Practicum Report must be submitted to the Program Coordinator and the Practicum Supervisor for feedback and approval. Candidates have one year from the end of the program of study to complete their Practicum Report. Modules are offered by experienced trainers and consultants who are grounded in adult education theory and have worked in both the public and private sectors.

Tuition for the complete program of study for 2012/13 was \$3,200. Fees information is not yet available for 2013/14. Modules may be taken individually.

For further information and/or to register contact

E-mail adulttraining@oise.utoronto.ca
Telephone 416-923-6641 ext. 282
Fax 416-926-4719
Website www.oise.utoronto.ca/training/

Courses

The following list demonstrates the range of courses offered in the Adult Education and Community Development Program. **Not all of the courses listed are offered in any given year.**

AE 00 Outline of Adult Education

Designed to assist students to develop an understanding of and an identity with the field of adult education. Major philosophical, historical, and conceptual bases are examined also contemporary agencies and programs, issues, and trends in the practice of adult education. It is highly required that all masters students include AEC11 in their program of study.

AE 01 Program Planning in Adult Education

Introduction to the basic principles and processes of alternative theory bases for approaches to program planning in adult education. Theory bases are tested experientially in relation to the real life program planning for this course.

AE 02 Community Development Innovative Models

This course involves the study of innovative models of community development in such areas as housing, childcare, healthcare including mental health services, social service provision, and education, as well as models of community economic development. There is a combination of case studies both Canadian and international, papers on alternative policies, and critical social analyses both of why there is a need for community development and the significance of this phenomenon for a broader social-change strategy. The community development strategies utilized in the course are based primarily on non-profit and cooperative approaches.

AE 03 Introduction to Research Methods in Adult Education

A critical examination of the research process. Qualitative and quantitative research approaches will be explored as an introduction to the formal inquiry process. Typically, students will be exposed to a range of research perspectives through conversational interviews, readings, and small group and whole class discussions. Students will begin to conceptualize their own research project. Particular attention will be given to fostering understandings of the ethical, procedural, and political implications of research work as well as an understanding of what it means to be the researcher and the researched.

AE 04 Community Education and Organizing

This course involves the study of a variety of perspectives in critical and community education as they relate to development and social change. Key issues in theory and practice will be examined through the study of classic writing in popular education, community organizing, feminist, socialist, anti-racist, anti-colonial and indigenous education/organizing.

AE 07 Developing and Leading High Performing Teams: Theory and Practice

This course examines the application of small group theory and leadership models to team development within organizational settings. It addresses such issues as power and difference among members, equity in leadership, peer performance assessment, multi-rater feedback and team process consultation. It provides an opportunity to examine, both theoretically and experientially, the development of a team as it forms, confronts interpersonal and group conflict, and evolves from dependence on the team leader to interdependence and shared leadership among team members. This course is particularly relevant to current workplace designs, where matrix models, cross-functional team arrangements and ad hoc project teams dominate new organizational forms. The course is held on seven alternate weeks for a full day each session, in order to permit both conceptual exploration and the application of theory to actual team development.

AE 08 Adult Learning

Through reading, interviews, and self-reflection, students in this course will gain insight into adult learning, including self-directed learning. What, why and how do adults learn and change? What are the implications for educators?

AE 09 Basic Processes in Teaching Adults

A theoretical and experiential study of adult learning processes, and of the procedures educators can use in group settings to enhance the development of learning processes. Students will explore personal, institutional and societal variables involved in adult learning, examine the factors that promote or hinder them, experience and analyze different teaching approaches, and develop a personal approach to the teaching/learning process.

AE 10 Gender and Hierarchy at Work

This course will focus on gender processes in workplace settings. We will identify patriarchal rules and expectations which run through contemporary workplaces: factories, offices, homes, hospitals, shop floors, etc. and propose ways in which normalizing discourses which reify gender hierarchies can be challenged. The course will focus on how gender, race and class can be conceptualized as processes rather than demographic attributes possessed by individual workers. We will trace the connections between gendered jobs and gendered workers and explore how individuals learn to do gender in organizational settings.

AE 10 Comparative and International Perspectives in Adult Education

An exploration of adult learning in several societies, with attention given to the historic, demographic, political, and economic factors. This course introduces a number of methods of comparison particularly applicable to adult education, and provides an introduction to the field of comparative studies.

AE 17 Consulting Skills for Adult Educators

The purposes of this course are fourfold: 1) to explore different consulting styles; 2) to explore the stages of the consulting process; 3) to explore the models of consulting stages; 4) to emphasize the practice of consulting skills in simulated consulting situations.

AE 21 Creating a Learning Organization

The course is a study of theory, research, and experience based on a view of organizations as contexts for learning and as learning systems. The course will employ a variety of learning strategies including participant and instructor presentation, organizational simulation and experiential learning, guest speakers, and field study. Students will gain an appreciation of approaches to the integration of work and learning for continuous development, the assumptions upon which action learning is built, and the centrality of developing their own critical reflection skills as agents for change.

AE 22 Practicum in Adult Education and Community Development (Fass/Hail)

This course provides an opportunity for students to put theoretical ideas they have learned in other courses into practice. Students will identify a placement setting and develop a project in consultation with the instructor. The practicum can be situated within any setting: examples include schools, private sector organizations, community groups, hospitals, etc. within local, regional, national or international contexts. Suitable projects may include field-based work or internships which leads to the development of an associated research project, reflective paper, or the development of a curriculum or programme. Weekly discussions will normally be arranged which will provide for support, feedback and reflection.

AE 23 Contemporary Issues in Adult Literacy

An examination of the problems, issues, literature, and research relating to adult basic education and literacy in Canada and abroad: the relationship between adult literacy and poverty, social change, and community and human development.

AE 30 A Participant Directed Seminar: Learning in Organizations

This course is intended for students who have an interest in exploring the dynamics and development of an organization which supports individual, group and systemic learning and

change. Through designing and operating an organization intended to meet the learning needs of its members, participants learn experientially as well as theoretically about the disciplines of developing an organizational vision, sustaining personal mastery, engaging in team learning, examining mental models, and encouraging systems thinking.

AE 31 Special Topics in Adult Education

A course that will examine in depth a topic of particular relevance not already covered in regular course offerings in the department. The topics will be announced each spring in the Winter Session and Summer Session course schedules.

AE 32 Practicum in Action Research for Organizational Change (Fass/Hail)

This course provides an opportunity to enhance professional skills and knowledge in the use of action research methodologies to enable organizational learning and change. Students and instructor identify learning objectives, select field sites, and design learning activities to achieve the objectives. The weekly seminar is used to provide peer support and content input related to students' practicum projects. Detailed guidelines are available from the department.

VOTE: This course is recommended for students with some experience/exposure to organization development theory and practice, and is therefore best taken towards the end of the degree program. Signature of the instructor is required once a practicum placement has been arranged by the student. Please contact the instructor for guidelines on arranging the practicum placement.

AE 37 Evaluation of Adult Education Programs

This course examines program evaluation literature and its applications to the evaluation of adult education programs. The course does not focus on measurement, but rather on questions of what should be included in an educational evaluation and how an evaluation should be structured. Seminars, simulations, and presentations by the instructor are used. Students will have an opportunity to design an evaluation proposal for a program of their choice.

AE 38 Organizations and the Adult Educator: Historical and Theoretical Perspectives on Organization Development

This course provides a theoretical framework for the adult educator's work within organizational settings. A variety of methods, including readings, audio-tapes, guest speakers and group discussion provide a broad overview of the evolution of Organization Development from early management theory to current practices in the field. The course offers an opportunity to evolve one's own perspective as a practicing or aspiring organization consultant and provides a good introduction for those new to the field.

AE- 1. Introduction to Feminist Perspectives on Society and Education

This course will provide students having little knowledge of feminism with an introductory overview of the basic principles of feminist analysis of society and education. It is designed for women and men who do not specialize in feminist studies but are interested in becoming acquainted with feminist analysis and its large implications for theory and practice. It should be especially useful for students who are facing issues of gender in their research, their work, or their personal lives and are interested in how gender intersects with race, class, and sexuality.

AE- 2. Participatory Research in the Community and the Work Place

This course examines the theory and practice of conducting participatory and collaborative research that bridges the academic, work place, and community divide, with an emphasis on research from feminist, anti-racist, and anti-colonial perspectives. In addition to readings, students will undertake a research project as part of the course requirement.

AE- 3.6 Women, War and Learning

This course will focus on the impact of war on women and their rights. We will engage in critical analyses of contemporary conflicts and their impact on gender and education. Specifically, we will examine the link between war, globalization, nation-states and learning and the link between non-state, non-market forces and education. We will look at current feminist approaches to the study of war, violence and women's resistance and learning. We will also take a comparative and international approach.

AE- 4. An Introduction to Work Place, Organizational and Economic Democracy

This course provides an introduction to work place, organizational and economic democracy. Both case studies and relevant theory will be considered. Much of the material in the course will be interdisciplinary.

AE- 5.0 Critical Perspectives on Organization Theory, Development and Practice

Critical approaches to organizations focus on how work place change and development is experienced by diverse groups of women and men who work within organizations. Through this course, students will have the opportunity to develop analyses of language, power and inequality in a variety of organizational settings: companies, factories, unions, community groups, government units, churches, schools, family businesses, etc. We will explore the methods frequently used to restructure these organizations such as downsizing, outsourcing, contingent part-time policies as well as develop critiques of recent trends which emphasize empowerment, TQM, organizational learning and reengineering.

AE- 6. Individual Learning and Research in Adult Education Master's Level

Specialized exploration, under the direction of a faculty member, of topics of particular interest to the student that are not included in existing courses. While credit is not given for a thesis topic proper, the study may be closely related to such a topic. Guidelines are available from the department. This course can also be designed as a field-based practicum in adult education and/or community development in an agreed setting. The course will include reflection, research, and writing on issues raised in practice.

AE- 7.6 Power and Difference in the Work Place

This course will offer a critical analysis of the place of power in sustaining inequalities in the work place. It will look at the sources of power, its reproduction and persistence. The course will consider a variety of ways in which power is exercised in the work place. Power will be examined as a multidimensional phenomenon including class, gender, sexuality, race and ethnicity. We will look at the ways in which the unequal distribution of power works to advantage or disadvantage certain groups of people. The course also will see alternative approaches aimed at the establishment of an equitable work place.

AE- 8.0 Introduction to Transformative Learning Studies

This is the foundation course for Transformative Learning studies. It is designed to introduce students to a global planetary perspective. The concept of a global world order will be examined from historic, critical, and visionary perspectives. Issues of development/underdevelopment, human rights, and social justice perspectives are considered. A critical understanding of social power relations will be highlighted in the areas of gender, class, and race dynamics. The topics are approached as interdependent dimensions within a holistic education perspective.

AE- 9.6 Poetry, Social Movements and Adult Learning

This course is designed to examine the role of poetry as a form of adult learning. It will consist of reading poetry that has come from the multi-centered world of transforming relationships and resistance, from new literate adults in Canada and elsewhere, from many forms of feminism, from the struggles of women and men of the African diaspora, from ecological movements, from solidarity movements and from democratic struggles in trade unions and elsewhere. The role of poetry in a variety of adult education settings from the informal to the formal will be explored. The course draws on theoretical links between adult education theory, social movement theory and poetics. It includes references to historic and contemporary uses of poetry and the spoken word in adult learning contexts.

AE/ 70 Practitioners Experienced Knowledge

A course for experienced practitioners to learn to bring out, share, and apply their experienced knowledge of their practice. Students engage in exercises to identify their learning styles, their implicit theories, and their personal images. This knowledge is shared and applied in creative problem-solving groups.

AE/ 7 Aboriginal Education, Contemporary Policies and Programs

This course is designed to provide an interdisciplinary approach to the analysis of Aboriginal education in Canada. Emphasis is on understanding the influences of policies, programs, and institutions that affect the Aboriginal community in respect to Aboriginal education. One of the main data sources will be the report of the Royal Commission on Aboriginal Peoples. Aboriginal guest speakers will also comment on selected topics. Components of this course will include the Aboriginal world view, contemporary history/politics relevant to Aboriginal Peoples and Aboriginal education and healing. Treaties were originally signed between First Nations and the Federal Government of Canada. These treaties for the most part have not been honoured. In this course we shall discuss the ways and means to redress this situation as we focus more specifically on issues relevant to Aboriginal education.

AE/ 7 Creativity and Wellness Learning to Thrive

Theoretical perspectives on the development of one's sense of self, factors contributing to resiliency and vulnerability, and different approaches to coping with life stresses will be examined. Creative strategies for confronting challenges related to work, health, or personal growth issues will be explored.

AE/ 7 Practitioner/Ecological Identity and Reflexive Inquiry

The course is intended to initiate explorations of both practitioner and ecological identity. It is directed to a wide range of practitioners including those working in environmental education who have high regard for the place that values grounded in ecological and environmental responsibility may have in their professional practices. The course is writing intensive. A reflexive inquiry/autobiographical process is the primary inquiry tool. The course activities are directed toward explorations of relevant personal history-based experiences and their meanings focusing, especially, on the place of experiences in particular natural ecological and environmental contexts - and the forming of subsequent sensitivities - in developing orientations to practitioners work. Articulation of contemporary and forward looking perspectives about ecological and environmental issues as they pertain to the local as well as regional and global context of professional practice is expected.

AE/ 0 Aboriginal World Views Implications for Education

In this course students will study philosophical views shared in Aboriginal thought that honours diversity of identities, culture and language, and geographic locations. Recent literature which highlights more than ever before culturally appropriate and culturally based Aboriginal education grounded in Aboriginal philosophies and the goal of self-determination will be explored. Central to understanding Aboriginal world views is the importance of drawing on and working with traditional wisdom related to the oral traditions, elders' knowledge, and cultural symbols that speak to the teachings/philosophies. Likewise, students will learn that critical to this process is placing this understanding in the context of Aboriginal Peoples' experiences with colonialism and oppression, and struggles for self-determination yesterday and today. This course will promote an understanding and appreciation of Aboriginal perspectives and explore strategies for integrating this knowledge into the work of educators. Students will be able to apply perspectives to their own research.

AE/ Embodied Learning and Learning

The objectives of this course are to a) disrupt prevailing western scientific knowledge and education that privilege the intellect frequently equated with the mind over the body-spirit and b) explore notions of embodiment and what it may mean to cultivate embodied ways of knowing and learning. We achieve these objectives by i) reading and looking at relevant materials that conceptualize body-mind-spirit as an interconnected whole, with an emphasis on Traditional Chinese Medicine ii) recording our reflections in a journal and iii) conducting ongoing a form of ancient Chinese breathing and meditative exercises as an experiential way of exploring embodied learning. In addition to gaining knowledge from course contents, students will acquire skills in group process.

AE/ 2 Teaching Learning and Working in Nonprofits and Public Sector Organizations

The course will provide information, perspectives and frameworks within which critical issues facing the nonprofit and public sector can be understood. It will examine the organizational forms and accountability structures of organizations with a social purpose, as well as discuss the challenges faced by those within these organizations. The formal and informal practices of teaching and learning within nonprofit and public sector organizations will also be explored.

AE/ Master's Thesis Seminar

This seminar is designed to support M.A. students in the process of writing a thesis. Issues to be discussed will include choosing a topic, writing a proposal, developing an argument, selecting a supervisor, and organizing the writing process. The class will be participatory, and weekly readings will be assigned on the various parts of the thesis-writing journey. Class members will also receive instruction on effective library research techniques. In addition, students will have the opportunity to read completed theses and proposals.

AE/ .06 Aboriginal Knowledge. Implications for Education

Aboriginal education is built upon the knowledge developed by indigenous people necessitating an understanding of how that knowledge is produced. What is indigenous knowledge? This course seeks to explore the characteristics, sources and applications of indigenous knowledge and how this knowledge might inform the work of teaching, learning and research. Course content may include indigenous research protocols, ethics and politics of researching and teaching in aboriginal communities, intellectual property rights, curriculum development and innovations in Aboriginal education and traditional teachings from respected Elders. For students with a research focus, this course enables inquiry into the production of knowledge, from both western and indigenous perspectives which should improve their research work regardless of who they intend to do research with, but with specific relevance in working with Aboriginal populations. For students interested in education implications, the course provides a footing in the workings and characteristics of indigenous knowing which will aid their pedagogical practices in Aboriginal and non-Aboriginal contexts.

AE/ .00 Special Topics in Adult Education and Counselling Psychology

A course that will examine in depth a combined topic of particular relevance not already covered in regular course offerings in the department by either the Adult Education Program or the Counselling Psychology Program. The topics will be announced each spring in the Winter Session and Summer Session timetables.

AE/ .00 Introduction to Qualitative Research (Part I)

This course articulates various theoretic groundings for qualitative research and helps students become conversant with a wide variety of qualitative methodologies i.e., grounded theory, feminist interviewing, ethnography, participatory research, bibliographic analysis, and institutional ethnography. Gathering of information through observation, participatory observation, dialogue, and collection of documents will all be considered. Emphasis is on both understanding and practice. Learners will design or co-design a concrete piece of research and take it through the ethical review process. They will also present on at least one methodology. In line with this, they will learn about ethical conundrums, about matching methodologies with objectives and values, about methods for choosing participants. There is special emphasis on becoming critically aware as researchers - on understanding and integrating issues of power and difference.

AE/ .06 Introduction to Qualitative Research (Part II)

This course begins where Part I leaves off. Learners will deepen their knowledge of a wide variety of qualitative research methodologies. They will gain skills interviewing, coding research, exploring dilemmas, and becoming critically aware as researchers. Their primary activity will be carrying

out and completing the research project designed and approved in Part I. Giving and getting help from other classmates is an integral part of the process.

Prerequisite: AEC14

AE/ .07 Narrative as a Vehicle for Personal Change

This course is designed for advanced students who wish to explore life history and narrative approaches for research or therapeutic work through a process of self study. Course work will involve class discussions of narrative writings and a major personal project. Students will undertake an in-depth self-exploration through personal narrative combined with intensive imagination, art work, or meditative practice. The final report will include reflection on the personal change process experience.

AE/ .00 Working with Survivors of Trauma

This course explores the nature of trauma and the different ways of working with survivors. The emphasis is on difference-different types of trauma, different ways of coping, and the significance of different and multiple identities. Work with adult survivors of childhood sexual abuse is particularly highlighted. Other areas include survivors of homophobic assault, ritual abuse, residential schools, refugee traumatization, war trauma, trauma associated with imprisonment, trauma associated with psychiatric intervention, and second generation trauma e.g., children of Holocaust survivors. The trauma inherent in systemic oppressions, the fact that we live in an oppressive and violent society, and the implications for practitioners is emphasized throughout. While the primary emphasis is on practitioners as counsellors, other roles are also considered, including advocates, befrienders, community workers, and literacy workers. Practitioner self-care in light of vicarious traumatization is given special consideration. Attention is divided between individual work, group work, and community work. The course is counter-hegemonic. Dominant perspectives include critical theory, feminism, and existentialism. Permission of instructor is required to enroll.

AE/ .00 Creative Empowerment, Working with the Disenfranchised

This course will be of interest to a wide range of practitioners, including activists, popular educators, and counsellors. The context in which it is offered is a world increasingly populated by disenfranchised people. The intent is to help practitioners gain a fuller understanding of the populations in question and become more skilled and creative as allies and activists. The specific populations focused on are psychiatric survivors, people who are homeless, people who have been imprisoned, people who use illicit drugs, undocumented people, and sex trade workers. Learners will gain knowledge of the A/Cs of strategic activism, with particular emphasis on how to modify strategy to fit the populations and movements in question. An accompanying emphasis is use of the arts in resistance work with these populations. Examples of art forms drawn on include theatre including theatre of the oppressed, puppetry, and video-making. Popular education is integrated. Perspectives include feminism, anti-racism, Marxism,

transformative justice, anti-psychiatry, labeling theory, anarchism, and the philosophies of nonviolent resistance. The classes go between lectures, student presentations, film and video analysis, rehearsals, consultations, exercises, and guest presentations.

AE 02 Doctoral Thesis Course in Adult Education (Fass/Hail)

This course is designed to help doctoral students develop their thesis proposal and particularly the research problem. It is suggested that the course be taken at or near the beginning of the program.

AE 0 Teaching about Global and Social Issues

This is a course that deals with issues around globalization, sustainable ecological development, social issues at both a global and local level dealing with diversities and social power. The course will also deal with North-South tensions in knowledge production and legitimization. There is also a concern to look at our present history from a planetary perspective that embraces post-colonial development issues, and feminism in the global context. There will be an emphasis on exploring and identifying teaching strategies dealing with the thematic issues of the course. Part of the class project will involve specific teaching projects that are relevant to the participants. Suggested background Courses AEC1146, AEC116, AEC314.

AE 0 Political Economy of Adult Education in Global Perspectives

This course will examine adult education in global contexts with specific focus on Third World societies. It will offer a critical review of the relationship between adult education, modes of production, and state. In this course we will draw on Marxist, feminist, anti-racist, and ecological theoretical debates. Applying critical comparative analysis, the course will examine the role of adult education in liberation movements and democratization of state and society. We will study the role of adult education in building a dynamic civil society and challenges we are facing towards creating a democratic civil society.

AE Adult Education and Public Policy

This course will offer a critical framework for analyzing the role of modern Western democratic states in initiating, implementing, and ensuring equality of access and participation to members of marginalized groups. It examines the potential and limitations of public policy in areas such as, but not limited to, education, health, social and legal services, housing, and anti-racism.

AE Global Perspectives on Feminist Education, Community Development and Community Transformation

The course provides an opportunity for students to study globally aware women's educational practice in community development and community transformation. It examines the general principles of this practice, the major challenges

faced by activists in Canada and abroad, the growing regional and international women's networks supporting this practice, and current debates among women locally and within these networks.

AE 26 Transformative Education and the Global Community, Creativity and Social Change

This course considers those conditions operating in our contemporary world that are enhancing or are fragmenting the development of a world community. Special attention will be given to the problems presented by nation states - that is, violence as a resolution to social conflicts within and between nation states. The mass media and educational institutions will be examined as contributing factors to state violence and the attendant fragmentation of efforts of community mobilization toward a global world community. A strong emphasis on global-ecology issues will be pervasive.

AE Special Topics in Adult Education

A course that will examine in depth a topic of particular relevance not already covered in regular course offerings in the department. The topics will be announced each spring in the Winter Session and Summer Session course schedules.

AE 2 Special Topics in Women in Development and Community Transformation

This half course will be taught once a year by the current holder of the Dame Rita Arrow Distinguished Visitor position at OISE/UT. Each visitor will call on her own particular area of interest and experience to develop a course dealing with current issues of women, development, and community transformation in a global context and from a majority world perspective.

AE Social Theories and Adult Education

This seminar examines adult education policies, programs and practices in the light of theories of social and cultural reproduction, as well as theories of social change. It also provides students with an opportunity to critically analyze both existing theories and their own assumptions. One of the goals of the seminar is to assist students with developing their theoretical framework for their thesis. Thus, students will be asked to take an active role in relating social theories to their research proposal.

AE 0 Post-colonial Relations and Transformative Education

This course examines how gender, race, ability, sexuality and class relations and identities are being re-configured in contemporary societies to produce new forms of inequality and difference in this era of globalization, and how these relations are linked to ecological and economic issues. We begin by interrogating the ambiguity of the term, post-coloniality, through the lens of the aboriginal peoples in Canada. Each year, we will look at one or two aspects of globalization e.g., migration, ecological and environmental issue. The potential and possibilities for transformative education are explored in light of the discussion undertaken.

AE/ 2 Individual Learning and Research in Adult Education Doctoral Level

Specialised exploration, under the direction of a faculty member, of topics of particular interest to the student that are not included in existing courses. While credit is not given for a thesis topic proper, the study may be closely related to such a topic. Guidelines are available from the department. This course can also be designed as a field-based practicum in adult education and/or community development in an agreed setting. The course will include reflection, research, and writing on issues raised in practice.

AE/ 70 Perspectives on Qualitative Research Part I

Students in this course will have opportunities to explore a variety of qualitative approaches to educational research, and to consider theoretical assumptions and methodological issues associated with each. The course is designed to facilitate the planning, preparation, and conduct of doctoral research.

AE/ 7 Perspectives on Qualitative Research Part II

This course is a continuation of AEC317. In Part the various alternative approaches to educational research will be further examined with an applied focus. Emphasis will continue to be placed on issues associated with doing qualitative educational research and thesis writing.

Prerequisite: AEC317

AE/ 7 Effecting Change, Creating Wellness

Theory and practice in visualizing and initiating change in educational, community and work settings with special emphasis on fostering resiliency and wellness. Preventive models of service delivery based on collaborative problem solving approaches, dynamics of consultant and consultee relationships. Analysis of practicum experiences in educational or other contexts of students' choice.

Prerequisite: AEC1173 or permission of instructor.

AE/ 76 Sense of Place in Professional and Natural Contexts

The course is intended to extend students' previous explorations of both practitioner and ecological identity through extensive readings, discussions and writing opportunities. It is directed to a wide range of professionals/practitioners including those working in environmental education. These persons see potential places in their work contexts and lives, and their professional practices, for the clarification and expression of personal values grounded in ecological and environmental experience, knowledge, and responsibility. The course provides a context in which to examine a variety of published works by scholarly and literary authors, journalists, artists and those in the professions. These works articulate notions of sense of place, rootedness in landscape, intellectual, professional, built, and natural, ecological/environmental identity, geopoetry, and a range of other connected concepts and will form the basis for extending course participants' understandings and expressions

of their own ecological/environmental identities and perspectives as they pertain to professional practice within their work places. The course is intended as an extension and expansion of AEC1173. Permission of instructor is required.

AE/ 77 Arts Informed Perspectives in Educational Research

This course is intended for those interested in exploring and practicing alternative forms of qualitative research and representation. Arts-informed educational research is an emerging genre in the human sciences developed in response to the perceived inadequacies of conventional research methods for inquiring into and representing the complexities of human experience. As the course title suggests, arts-informed research is influenced by, but not rooted in, the arts disciplines. The course will focus on both theoretical underpinnings and issues associated with arts-informed approaches and on the use of various representational forms e.g. readers theatre, fiction and non-fiction literary prose, poetry, screenplay, visual and performing art in educational research. Students will be expected to conduct an exploratory or mini research project using arts-informed methods.

AE/ 7 Knowledge, Technology and the Knowledge Economy

This course will focus on the ways in which technology structures work processes within the context of recent shifts towards the knowledge economy. We will explore the nature of the knowledge economy, the position of knowledge workers, and the tensions between knowledge work and technology. This will allow us to assess the impact of technology on inequality, both locally and globally. The debates on technology and knowledge work will be explored in relation to issues such as the proliferation of internet spaces, educational technologies, transnationalism and cyberactivisms. Throughout the course we will study the racialized and gendered nature of technology, knowledge and work.

AE/ 80 Global Governance and Educational Change: The Politics of International Cooperation in Education

This course looks at the role of international level actors and networks in shaping domestic educational policies and producing globalized models for learning often underappreciated in the study of educational policy and change. This course reviews various theoretical approaches to the study of international relations in the field of education, considers recent efforts to study the globalization of educational policy, and then turns to the activities of a variety of organizations and networks, intergovernmental and nongovernmental, which have developed global level mandates in education. Topics include education in the global development regime, the educational activities of the World Bank, UNESCO, the OECD and the World Trade Organization and transnational advocacy and NGO networks in education.

AECD Feminist Standpoints, Critical and Post-Structural Approaches

This course will provide a supportive and stimulating environment for the systematic study of the differences between critical and post-structural approaches to issues of power, diversity, solidarity, and social change. Both activist and scholarly writing will be used as we place intense academic debate in the context of feminist social movement from the 1960s to the present, including the challenges of racism, homophobia, separatism, elitism, ableism, etc. The differing implications of critical and post-structural approaches for value based research, education and activism will be explored with specific reference to diverse literatures and practices. Course themes will be chosen in consultation with students to incorporate their own research and interests. Students who wish to consider these questions with relation to education and activism in other social movements i.e., indigenous, anti-globalization environmental, anti-racist, anti-colonial, disabilities, anti-psychiatry, etc. are welcome to do so in their course papers.

Other courses accepted for credit

The following courses may be taken for credit in the Adult Education and Community Development Program. For descriptions, see the relevant department course listings.

- AEC3233 Research Seminar in Career Development
- CE11 Introduction to Comparative, International and Development Education
- SES192 Indigenous Knowledge and Decolonization Pedagogical Implications
- SES2942 Education and Work
- SES297 Countering Myths About Aboriginal People through Multiple Medias
- SES391 Political Economy, Cultural Forms and the Learning Society
- TPS182 Toward an Integrative Approach to Equity in Higher Education

AECD students wishing to take a research course in history or statistics or some other method not offered in the program may, with the permission of their advisor, count one such course toward the required number of AECD courses in their program.

Counselling Psychology Program

The Counselling Psychology Program is designed to provide critical and scholarly skills in counselling and counsellor education and to train counsellors and psychologists in the general domain of psychological services. The Counselling Psychology Program aims to provide knowledge of a psychological practice and counselling services required by community agencies and educational institutions and both critical perspectives on psychological and mental health.

The Counselling Psychology Program offers three fields of specialization

- Counselling Psychology for Psychology Specialists M.A., Ph.D.
- Counselling Psychology for Community and Educational Settings M.Ed., Ed.D.
- Guidance and Counselling M.Ed.

Applicants should consider each field in relation to eligibility criteria and their own areas of interest. General information and admission requirements for each field are provided on the following pages.

Details on the specific program and degree requirements for each Field are contained in a brochure called **Guidelines for the Counselling Psychology Program** published each January and provided to newly admitted students at the time the Offer of Admission is made.

The Counselling Psychology Program normally begins in either the Summer or the Fall Session.

Admission Requirements

In addition to the minimum degree requirements described earlier in this publication, some degrees in this department will have specific requirements relative to the nature and length of the program of study. These will be found with the description of the degrees which follows. Applicants should always consult the Minimum Admission and Degree Requirements section, pages 21 - 27, as well as the special requirements for the program of study of their particular interest. MAT and GRE scores are not required for admission to any of the degrees in Counselling Psychology.

Although the minimum requirement for admission to a master's degree program is the equivalent of a university of Toronto four-year bachelor's degree with standing equivalent to a university of Toronto **mid B**, students normally need a higher academic standing to compete effectively with the large number of well qualified applicants to be considered. Given the limited number of students this department may accept into the majority of its degree programs, not all eligible students can be admitted. Admission committees reserve the right to determine which applicants will be admitted to their degree program.

Counselling and Psychoeducational Clinic

Director: Judith A. Silver
The Clinic is a teaching facility supporting the OISE/UT graduate training program. The Clinic provides opportunities for students to work under the supervision of registered psychologists with adults and children in psychotherapy and counselling, psychological and educational assessment, remedial instruction, and innovative programming. Furthermore, the Clinic provides a setting and a framework for research as well as an up-to-date psychoeducational test library.

The College of Psychologists of Ontario and Preparation for Professional Practice

Students whose plans include preparation for professional practice in psychology should note that the professional practice of psychology in Ontario is regulated by the College of Psychologists of Ontario. Only the following degree programs are designed to meet the academic requirements for registration by the College

M.A. Counselling Psychology for Psychology Specialists
Ph.D. Counselling Psychology for Psychology Specialists

A requirement for admission to the M.A. is a university of Toronto four-year bachelor's degree in psychology or its equivalent. A requirement for admission to the Ph.D. is an M.A. in Counselling or Clinical Psychology after a university of Toronto four-year bachelor's degree in psychology or its equivalent.

For further information on registration as a Psychologist or Psychological Associate contact:

The Registrar
College of Psychologists of Ontario
11 Eglinton Avenue West, Suite
Toronto, Ontario M4R 1A3
Telephone 416-961-8817
Telephone 1-800-491-3333
E-mail cyarrow@cpo.on.ca
Website www.cpo.on.ca/

The Department of Adult Education and Counselling Psychology wishes to draw your attention to a policy statement by the College regarding independent practice by any psychology student for a fee

By reason of their academic affiliations, students in psychology may incorrectly be presumed by the public to possess mature professional skills. In the view of the College of Psychologists of Ontario, a serious question of good professional judgement may well be raised in the examination of those candidates for registration who have engaged in independent practice prior to their doctorate and permanent registration.

Fields of Specialization

Counselling Psychology for Psychology Specialists

Master of Arts

The M.A. is designed for applicants interested in working in careers in a variety of psychological and educational settings as researchers or practitioners and meets the academic requirements for registration with the College of

Psychologists of Ontario as a psychological associate. It also meets the needs of students who plan to apply to the Ph.D. in Counselling Psychology for Psychology Specialists.

VOTE Admission to the M.A. does not guarantee admission to the Ph.D.

Admission Requirements

Admission is limited to applicants who have a university of Toronto or other accredited university four-year bachelor's degree in psychology or any four-year bachelor's degree which would contain the psychology requirement equivalent defined as six full courses in psychology, including one half-course in research methods, one half-course in statistics and at least three full courses at the third- and fourth-year level completed with standing equivalent to a university of Toronto **A or better**. Applicants must also have taken one full course or two half-courses at the third- or fourth-year level in one or more of the following learning, sensation, perception, cognition, thinking, motivation or emotion. It is strongly advised that students complete an undergraduate thesis in psychology as well as a history of psychology course prior to application to this degree.

Degree Requirements

The M.A. in Counselling Psychology for Psychology Specialists consists of eight half-courses, 600 hours of practicum and a master's thesis. The thesis is supervised by a faculty member. Students will plan their program of study according to the current guidelines for the Counselling Psychology Program. Faculty advisors are available to assist in this process. Every program of study will include courses in counselling theory, practice, assessment, ethics, personality and cognitive assessment skills, and research methodology, as well as a practicum placement. Arrangements regarding a practicum placement must be made in consultation with the Coordinator of Internship and Counselling Services by May 1 preferably earlier prior to taking the course AEC12 3 Practicum in Counselling.

Full-time on-campus study is required from September to April, which represents the Fall and Winter Sessions however, students may begin their program of study in the preceding Summer Session. Normally, three half-courses are taken in each of the Fall and Winter Sessions and a maximum of two in the Summer Session. It is expected that all degree requirements will be completed within two years.

Doctor of Philosophy

The principal emphasis in this degree program is on the development of research and theoretical knowledge in counselling psychology, assessment skills, and knowledge and training in professional issues. Students are expected to carry out advanced research as well as to develop profes-

sional knowledge and skills in counselling psychology.

Graduates of the degree program will be prepared to assume a variety of positions in psychological practice and research in schools and universities, in community settings, in agencies offering psychological services, and in university or college counselling centres.

Admission Requirements

The Ph.D. in Counselling Psychology requires the following

- a A university of Toronto or other accredited university four-year bachelor's degree in psychology or any four-year bachelor's degree which would contain the psychology requirement equivalent defined as six full courses in psychology, including one half-course in research methods, one half-course in statistics and at least three full courses at the third- and fourth-year level completed with standing equivalent to a university of Toronto **A or better**. It is strongly advised that students complete an undergraduate thesis in psychology as well as a history of psychology course prior to application to this degree.
- b Normally, a university of Toronto M.A. degree with specialization in Counselling Psychology for Psychology Specialists, or its equivalent, with standing equivalent to a university of Toronto **A or better**.

Applicants who hold an M.Ed. or other non-thesis master's degree must submit evidence of their ability to identify a research or development problem, to design and conduct a study or project, and to report the findings or results, all in a rigorous manner. This constitutes a qualifying Research Paper which is required at the time of admission.

Degree Requirements

The Ph.D. program requirements are a minimum of 12 half courses including practicum and internship, a comprehensive examination and a doctoral dissertation. Students will plan individual programs of study according to the current guidelines for the Counselling Psychology Program. Faculty advisors are available to assist in this process. Progress in the program of study will be reviewed annually.

Five areas of essential course content for a professional training program in counselling psychology are

- counselling and psychotherapy
- psychological measurement and statistics
- advanced research methods
- history and systems
- ethics and professional issues

The program of study must be taken on a full-time basis. Please note that the Counselling Program is currently adjusting course requirements to conform to the guidelines and principles for the Canadian Psychological Association accreditation of programs in professional psychology.

Practicum and Internship

Students are required to complete a 300-hour practicum in conjunction with the doctoral practicum course AEC3217. In addition, students are required to complete 2,000 hours of internship in conjunction with the internship course AEC3263. For course credit, all internship arrangements must be made in consultation with the Coordinator of Internship and Counselling Services. Students should plan to contact the Coordinator by May 1 preferably earlier of the year in which they are accepted, in order to arrange the best match between student needs and field placement availability.

Thesis

All students must develop, complete, and defend in an oral examination, a doctoral dissertation supervised by a full-time member of the Counselling Psychology faculty. The content of such dissertation research may address theoretical issues applicable to counselling concerns and practice, relate to the development of programs in a variety of educational or applied settings, or in some other way contribute to the development and practice of counselling psychology.

Comprehensive Examination

In addition to normal course requirements, students will be examined systematically in general psychology and in professional psychology. The examination will normally be taken at the end of the second year of full-time study. A reading list defining the required areas of knowledge is available.

The section on general psychology will require that the student demonstrate an understanding of the underlying principles and basic knowledge in each of four areas of general psychology

- the biological bases of behaviour
- the social bases of behaviour
- the cognitive/affective bases of behaviour
- individual differences

The section on professional psychology is a comprehensive examination in the five areas of professional training

- counselling and psychotherapy
- assessment
- statistics and research design
- psychometrics
- ethics and professional issues

Counselling Psychology for Community and Educational Settings

Master of Education

The primary purpose of this degree program is to provide individuals with the opportunity to learn and develop counselling skills appropriate for a variety of work settings. Students will be encouraged to develop their courses and practicum learning experiences to suit their own goals. Examples of the type of goals for which suitable programs of study could be developed are adult counselling, college and university counselling centres, career counselling, geriatrics counselling, multicultural counselling, and community mental health and family life centres. The program of study provides the student with the basic preparation for certification as a Certified Canadian Counsellor (CCC) with the Canadian Counselling Association (CCA). Further information regarding the detailed requirements for CCC is available from CCA's Website at <www.ccacc.ca/>.

Admission Requirements

- a a four-year university of Toronto bachelor's degree from any area or its equivalent, completed with standing equivalent to a university of Toronto Bachelor.
- b at least one year of relevant experience.

Degree Requirements

The M.Ed. in Counselling Psychology for Community and Educational Settings requires ten half-courses plus a comprehensive examination. Individual programs of study will be planned according to the current guidelines for the Counselling Psychology Program. Faculty advisors are available to assist in this process. The six half-courses required in Counselling Psychology will include one in counselling, group theory, ethics, multicultural counselling, and a practicum. Arrangements regarding a practicum placement must be made in consultation with the Coordinator of Internship and Counselling Services by May 1 preferably earlier prior to taking the course AEC123 Practicum in Counselling.

Master of Education students can also pursue research in the area of Work and Career which is offered jointly by the Counselling Psychology Program and the Adult Education and Community Development Program.

Doctor of Education

Counsellor training in this degree emphasizes the consideration of the role of the counsellor in the educational system, the acquisition of effective supervisory and consultative skills, and the development and assessment of student counselling services in addition to the advanced study of counselling theory and practice. Graduates of this degree will be prepared to take leadership positions in the field of educational counselling, as educators in colleges

and institutes of education, as directors and coordinators of school guidance programs, as specialists in the provision of counselling-related, inservice training for school personnel, and as providers of advanced levels of personal counselling to school, college, and related populations.

This option will be especially attractive to individuals who have demonstrated a career commitment to the provision of counselling services in an educational and community setting. Consult the department's guidelines about specific course offerings.

Admission Requirements

In addition to the minimum requirements for admission to Doctor of Education degrees found in the Minimum Admission and Degree Requirements section, pages 21 - 27, the Ed.D. in Counselling Psychology requires the following

- a a university of Toronto four-year bachelor's degree from any area or its equivalent.
- b the applicant must normally hold an M.A. or M.Ed. degree in Counselling Psychology from the university of Toronto, or its equivalent, with standing equivalent to a university of Toronto **mid B or better**.
- c the applicant must normally have had successful professional experience as a counsellor in an educational setting or in a related position.
- d applicants who hold an M.Ed. or other non-thesis master's degree must submit evidence of their ability to identify a research or development problem, to design and conduct a study or project, and to report the findings or results, all in a rigorous manner. This constitutes a qualifying Research Paper.

Degree Requirements

The Ed.D. program requirements are eight half courses including practicum and internship, and a doctoral dissertation. Six of the eight courses must be in Counselling Psychology. Students will plan their programs of study in consultation with a faculty advisor. All students are required to take courses related to the development of competence in counselling theory and practice and to the development of research skills.

Each student must complete a minimum of one year of full-time, on-campus study and, in addition, serve a period of internship in an appropriate setting.

Practicum and Internship

Students are required to complete a 60-hour practicum in conjunction with the doctoral practicum course AEC3217. In addition, students are required to complete 120 hours of internship. All internship arrangements must be made in consultation with the Coordinator of Internship and Counselling Services.

Students should plan to contact the Coordinator by May 1 - preferably earlier - of the year in which they are accepted, in order to arrange the best match between student needs and field placement availability.

Thesis

All students must develop, complete, and defend in an oral examination, a doctoral dissertation. The content of such dissertation research may address theoretical issues applicable to counselling concerns and practice, relate to the development of programs in a variety of educational or applied settings, or in some other way contribute to the development and practice of counselling psychology.

Guidance and Counselling

Master of Education

The purpose of this degree is to help meet the need for well-prepared practitioners in the field of guidance and counselling in the schools. Therefore, strong preference for admission to this degree program is given to experienced teachers who are interested in specializing in guidance and counselling in the schools. The program of study provides the student with the basic preparation for certification as a Certified Canadian Counsellor (CCC) with the Canadian Counselling Association (CCA). Further information regarding the detailed requirements for CCC is available from CCA's Website at www.ccacc.ca/. Students completing this M.Ed. degree may have their degree credited toward Parts 1 and 2 of the Ontario College of Teachers Specialist Certificate in Guidance. Further information is available from

Ontario College of Teachers
121loor Street East, 6th Floor
Toronto, Ontario M4W 3M
Telephone 416-961-3322
Telephone 1-800-34-2222
Fax 416-961-3322
E-mail info@oct.on.ca
Website www.oct.ca

Applicants interested in counselling who are not experienced teachers, or who are not primarily concerned with eventually obtaining a position in a school, but who have appropriate related experience, may apply for an M.Ed. in Counselling Psychology for Community and Educational Settings.

Admission Requirements

- a a four-year university of Toronto bachelor's degree or its equivalent, from any area, with standing equivalent to a university of Toronto **mid B or better**
- b teacher certification

Degree Requirements

Candidates may pursue the M.Ed. degree on a full- or part-time basis. The requirements are ten half-courses plus a comprehensive examination.

The program of study, planned by the student in consultation with the faculty advisor, cannot be reduced because of guidance certificates held. Within the seven half-courses required in Counselling Psychology every program of study must include counselling and group theory and a practicum experience. Arrangements regarding a practicum placement must be made in consultation with the Coordinator of Internship and Counselling Services by May 1 – preferably earlier – prior to taking the course AEC12 3 Practicum in Counselling. Students are advised to check prerequisites for each course before selecting their program of study. Prerequisites are listed with the course descriptions.

VOTE Students interested in graduate training beyond an M.Ed. degree should apply to the Ed.D. in Community and Educational Settings. See pages 6 - 7.

Certificate Programs

Certificate in Cognitive Behavioral Therapy

The certificate is a collaborative program between the Counselling Psychology Program and Hinc / Dellcrest. The certificate is open to individuals who have at least a master's degree in a mental health related area, who are a member of a registered health profession such as doctors, psychologists, nurses, or occupational therapists or students who are in the process of completing studies leading to at least a master's degree in mental health related area or a registered health profession. Students may pursue the certificate at the same time that they are registered in the Counselling Psychology Program, however, the certificate does not count for credit towards the completion of any degree in the Counselling Psychology Program.

As part of the certificate participants will learn

- Case Conceptualization
- Cognitive Interventions
- Behavioral Change Interventions

The certificate is for individuals who want to attain a strong level of competence in Cognitive Behavioral Therapy. The Certificate in Cognitive Behavioral Therapy is awarded upon completion of the program including the successful completion of any written assignments that are required.

visit the Website at www.hincsdellcrest.ca

Courses

The following list demonstrates the range of courses offered in the Counselling Psychology Program. Not all of the courses listed are offered in any given year. Some Counselling Psychology courses are offered in alternate years. Students should consult the program guidelines and their faculty advisor about course offerings and their program of study.

AEC 202 Personality Theories and Techniques in Counselling

An appraisal of a number of basic theories of counselling and approaches to inducing client change. Full-time guidance and Counselling students may take AEC12 2 concurrently with AEC12 3. Counselling students will have priority for enrollment in this course.

AEC 20 Practicum I: Interventions in Counselling Psychology

This course is intended to provide students with basic skills in clinical assessment and counselling interventions. Among others, issues related to the assessment of risk, history taking, clinical formulation, and the relationship between assessment and intervention will be addressed. Basic counselling interventions such as empathic responding, exploration of client's affect and cognitions, and problem solving will be explored. The course emphasizes the therapeutic relationship as well as the importance of ethical and legal issues in the provision of therapy. While the course presents didactic material, students have extensive opportunity to role play, and self-knowledge as well as issues related to boundary maintenance, power relationships in the provision of therapy and future self-development are also examined. This course involves sequenced skill training, with extensive counselling simulation and supervision of practice in a field setting. In addition to regular class meetings and time spent in group supervision with the instructor, M.Ed. students in Counselling are required to be in attendance one full day per week at their practicum setting. Some students may spend two full days in their practicum setting. All full- and part-time students must arrange their practica in consultation with the department's Coordinator of Internship and Counselling Services. Continuing students should plan to contact the Coordinator by April 1, and new students by May 1, in order to arrange the best match between student needs and field placement availability. The Counselling committee reserves the right to make any final decisions when questions arise concerning the placement of a student in a setting.

VOTE Part-time students must be available one full week - day per week to fulfill the practicum requirement.

VOTE All counselling practica must be done through OSE/ T. Practica done at other universities may not be considered as substitutes.

Prerequisite AEC12 2, for Counselling students only. Full-time Counselling students may take AEC12 3 concurrently with AEC12 2.

AE/ 20 Individual Intellectual Assessment

Theories of intelligence observation and discussion of the administration and interpretation of the Revised Stanford Binet, the Wechsler Intelligence Scale for Children, and the Wechsler Adult Intelligence Scale and an introduction to some other tests of intellectual abilities. Includes a practicum in group test administration.

Prerequisite: Permission of instructor.

AE/ 207 Counselling Topics in Sexual Orientation and Gender Identity Diversity

This course will review the research findings and clinical case literature in selected areas of lesbian, gay, bisexual, and transgender psychology with reference to their implications for professional practice in counselling psychology. Particular emphasis will be given to the clinical and research implications of sexual orientation identity acquisition, bias crime victimization, same sex domestic violence, AIDS, gender dysphoria, and alcohol and substance use. Students will come to a greater appreciation and understanding of the special counselling needs of clients from differing sexual orientations and gender identities through a combination of lectures, seminar presentations, discussions, bibliographic and internet research, and original student research projects.

AE/ 20 The Counselling Relationship

This course aims to develop the skills of the trainee counsellor through increasing the ability of students to recognize, understand, and use counsellors and clients experiences in the counselling relationship. Topics include the dyadic nature of the counselling relationship, transference, counter-transference, client and counsellor differences, contextual effects on the counselling relationship, responses to difficult clients, and ethical issues.

AE/ 207 Critical Multicultural Practice Diversity Issues in Counselling

The course is designed to introduce students to the field of counselling in the context of a multi-cultural, multi-ethnic, multi-faith, multi-racial, multi-gendered and multi-abled society. The course seeks to define and locate multicultural counselling studies within the broader historical, economic, social and political contexts of mental health care. Through a critical examination of race, gender, ethnicity, sexual orientations, disability and social class students would establish an understanding of the theoretical and conceptual ideas that form the basis of practice with minority clients.

Key concepts such as identity and multiple identities, power, stereotyping, discrimination, prejudice and oppression will be explored in relation to women, Aboriginal, ethnic minorities, lesbian, gay men and disabled clients. Through discussions, seminar presentations and experiential learning, the course will support the development of appropriate counselling skills and competencies to practice in a clinically anti-oppressive way.

Prerequisite and/or corequisite: AEC12 2 and AEC12 3

AE/ 207 Ethical Issues in Professional Practice in Psychology

This course is an introduction to ethical issues in the professional practice of psychology. We will cover issues encountered in counselling, assessment, and research and will have opportunities to discuss ethical issues in teaching and organizational and community psychology. The goals of the course are a) to familiarize students with the variety of issues they might encounter in their own work, b) to provide students with the skills and resources for ethical decision-making, c) to familiarize students with the codes, standards, and legislation which bear on ethical and legal issues. Open to Counselling Psychology students only.

AE/ 22 Individual and Group Psychotherapy Family and Marital Counselling

This course will examine one of several contemporary models of psychotherapy for family and marital counselling.

AE/ 22 Individual and Group Psychotherapy for Counselling

Each year this course will examine a model of psychotherapy from among the following Transactional Analysis, Gestalt, Psychodrama, Bioenergetic Analysis, and Family Therapy.

Prerequisite: Permission of instructor.

AE/ 207 Seminar in Community Psychology and Community Development

The course surveys theories of community psychology and their relationship to community development. Consideration will be given to the relationship of theory to specific community contexts such as schools, social service or health agencies, etc. The course will formulate community issues in a critical perspective dealing with structures of class, gender, and race and their relationship to community development and fragmentation.

AE/ 207 Brief Counselling Strategies

This course is intended to introduce students to recent developments in the theory and practice of brief counselling strategies with a particular emphasis on the Solution focused model. The practice component of the course will involve learning how to apply brief counselling strategies and techniques to client problems in order to facilitate resolution in as brief a time as possible.

AE/ 207 Practicum in Adult Counselling (Fall/Spring)

This course must be taken in conjunction with 12 3 Practicum in Counselling. The two courses may only be taken by students enrolled in Counselling programs. All students must arrange their practica in consultation with the department's Coordinator of Internship and Counselling Services. Only available to students who enrolled prior to July 1997.

AE/ 2 0 Fundamental Concepts of Psychosynthesis Part I

This course is intended to introduce students to the fundamental concepts of Psychosynthesis. Psychosynthesis is an approach to counselling featuring the integration of the personality, and of the personality with the spiritual aspects of people. The course features experiential as well as didactic techniques.

Prerequisite: Permission of the instructor.

AE/ 2 2 Individual Reading and Research in Counselling Psychology Master's level

Specialized study, under the direction of a staff member, focusing upon topics that are of particular interest to the student but are not included in available courses. While credit is not given for a thesis investigation proper, the study may be closely related to such a topic.

AE/ 2 Feminist Issues in Counselling Psychology and Psychotherapy

This course examines the principles and practices of feminist therapy, theories of female development and the psychology of women. Special emphasis is placed on relational theories. Specialized techniques and their application to specific and diverse groups of women will be reviewed.

AE/ 2 7 Females Psychological Development

Both traditional and modern theories of aspects of human psychological development pertaining to females are critically examined. Special emphasis is placed on the work of such feminist thinkers as Jean Baker Miller, Nancy Chodorow, Dorothy Dinnerstein, Irene Stiver, and Janet Surrey in promoting profound shifts in the ways that females' mental health and expected course of emotional and cognitive development are described and promoted.

AE/ 26 Group Work in Counselling

Presentation of models of group work processes, as well as of current theory applicable to group work in counselling. Students will be expected to develop a catalogue of skills and ideas useful in the school setting, and to develop communication skills essential to group work. For students enrolled in Counselling programs only.

AE/ 262 Educational and Psychological Testing for Counselling

A survey of standardized tests typically used by counsellors in schools, community colleges, and other settings. Topics included are a review of the basic concepts in tests and measurement criteria for evaluating educational and psychological tests; rationale underlying the development of various tests; and practice in administration of tests and interpretation of test results. Individual intelligence scales and projective techniques are beyond the scope of this course.

AE/ 26 Seminar in Research Methods for MN students

Quantitative and qualitative alternatives in the design and conduct of counselling research will be examined. Limitations on research from practical and ethical considerations will be addressed. Students will be introduced to library, computer, and consulting resources within OSE/ T. Limited to Counselling Psychology for Psychology Specialists students.

AE/ 266 Career Counselling and Development Transition from School to Work

This course aims at preparing the counsellor for an expanded role in career guidance. It deals with all major aspects of career development. The topics covered are social and economic context, theories of career development, the role of information, assessment of career development, career guidance programs, and recurring issues in career guidance. This course is limited to students in a 60 T graduate degree program. Others by permission of instructor.

AE/ 267 Advanced Practicum in Counselling

A continuation of AEC2 3, designed primarily for M.Ed. students.

Prerequisite: AEC12 2, AEC12 3, and permission of instructor.

AE/ 26 Career Counselling and Development Transitions in Adulthood

This course will focus on the theories of career development and counselling techniques to deal with major career transitions. Topics will include mid-life career changes, career psychology of women, career planning and development in the workplace, relocation counselling, and retirement and leisure counselling. This course is limited to students in a 60 T graduate degree program. Others by permission of instructor.

AE/ 26 Use of Guided Imagery in Counselling and Psychotherapy

This course has both an assessment and intervention focus. Students will learn how to complement their existing assessment skills by accessing clients' images. Students will also learn how to work with images as they spontaneously occur in therapy. In addition specific interventions that are based on imagery will be examined. These include various forms of relaxation, desensitization, stress inoculation, and imaginal exposure. The class is a combination of didactic material, role plays and experiential exercises. The application to different client groups will be discussed.

AE/ 27 Special Topics in Counselling Psychology

A course designed to permit the study in a formal class setting of a specific area of counselling psychology not already covered in the courses listed for the current year. The topics will be announced each spring in the Winter Session and Summer Session timetables.

AE 27 Cognitive Therapy

This course covers current theory and principles of cognitive therapy in the treatment of anxiety and depression. Special applications such as grief counselling, bereavement and post-traumatic stress disorders will be examined.

AE 28 Counselling and Research in Context: Critical Perspectives on Counselling and Health Promotion Research

The course is intended for students who plan to conduct research in the fields of counselling or health promotion. Published research in these two domains will be reviewed, including treatment outcome and program evaluation, gender and diversity issues in counselling and health promotion. Students will be encouraged to consider their life experiences, values and worldviews in constructing their research plan.

AE 29 Seminar in Counselling Psychology Part I

Specific issues of counselling and psychotherapy are examined within an integrative framework of emotional processing. An in-depth examination of a counselling model will be included. Open to doctoral students in Counselling Psychology only.

AE 26 Seminar in Counselling Psychology Part II

This course will focus on the application of a counselling model introduced. Students will be required to see clients and develop mastery in the use of theory and techniques. They will gain experience in case formulation, the application of manager-guided interventions and the development and maintenance of the therapeutic alliance.

Prerequisite: AEC321

AE 27 Practicum II: Interventions in Counselling Psychology

A course aimed at the further enhancement of counselling skills through the integration of clinical experience and research.

AE 28 Research Seminar in Counselling Psychology

A weekly seminar focusing on design and methodology in counselling and psychotherapy research. Students will analyse and redesign representative studies in the counselling literature. Each student will design a study or research program based on a thorough review of a particular counselling research area. It is expected that the review and research design will serve as a basis for a dissertation proposal for many students. Open to Counselling Psychology students only.

AE 22 Individual Cognitive and Personality Assessment

This course serves as an introduction and orientation to issues in psychological assessment. The principles of appropriate and ethical testing are reviewed with emphasis on psychometric theory, test standards, multicultural competence, and communication of findings. Supervised practical experience is provided in the administration and interpretation of representative tests of intellectual achievement, personality, neuropsychological, and occupational functioning to adults. Limited to Counselling Psychology for Psychology Specialists students.

C

AE 22 Assessment and Diagnosis of Personality and Psychopathology

This course serves as a continuation of 3224, with a focus on the critical analysis and in-depth understanding of selected theories of personality and diagnostic systems. Within this context, the results of personality inventories, standardized diagnostic interviews, behavioural measures, and neuropsychological tests will be used to prepare case formulations and treatment plans for adults.

Prerequisite: AEC3224 and 3228 Sterns

VOTE: Limited to Counselling Psychology for Psychology Specialists Doctoral students.

AE 29 Research Seminar in Career Development

This course will familiarize students with research developments in vocational theory and practice. It will also attempt to examine new programs in career development and career counselling. This course will have an applied-research and a practice focus for both Ph.D. and Ed.D. students. M.A.

AE 28 Research Seminar in Multicultural Studies

This course will familiarize students with current issues in multicultural studies. Particular emphasis will be given to understanding the rhetoric of quantitative and qualitative research. The course is appropriate for students considering a dissertation proposal in intercultural studies as well as for students wishing to become knowledgeable in this area. A weekly seminar will focus on design and methodology in multicultural research. Students are required to demonstrate mastery of at least one area of research related to multicultural studies. They will review, analyse, and redesign representative studies in the multicultural literature. It is expected that for many students the review and research design will lead to the development of thesis proposals.

AE 29 Fundamentals of Psychoanalysis Part I

This course examines classical psychoanalytic theory and technique through a reading and discussion of Freud's introductory lectures, many of his most important cases, his papers on technique, and other sources on technique. Parts and cases are appropriate for masters and doctoral students planning to assess or treat adults or children in an educational setting.

AEC 202 Individual Reading and Research in Counselling Psychology Doctoral Level

Description as for AEC12 2.

AEC 202 Special Topics in Counselling Psychology

A course designed to permit the study in a formal class setting of a specific area of Counselling Psychology not already covered in the courses listed for the current year. The topics will be announced each spring in the Winter Session and Summer Session timetables.

AEC 260 Psychopathology and Diagnosis

This course is designed to provide an in-depth understanding and working knowledge of the defining characteristics of major clinical/psychological disorders as well as current diagnostic systems and practices. Students will develop skills in synthesizing clinical material and formulating/making differential diagnoses based on the Diagnostic and Statistical Manual of Mental disorders DSM-5-TR. The course will also provide some opportunity to critically examine current theories and etiological perspectives on psychopathology with attention to gender and cultural issues. The course material will include video recordings for illustration of diagnostic issues and clinical syndromes as well as for practice purposes.

VOTE For Ph.D. students in Counselling Psychology only.

AEC 266 Seminar: Applications of Psychological Analysis and Research Methods

An analysis of selected educational problems from a psychological perspective. It is anticipated that students will present specific problems or issues in the field that will be analysed from a variety of theoretical, methodological, and practical viewpoints. Specifically, these student presentations are intended to lead to the development of thesis proposals.

AEC 267 Training for Counsellor Supervision

This course is designed to increase students' theoretical knowledge, conceptual understanding and competencies in clinical supervision. In addition to class work, students will act as trainee supervisors with Counselling Psychology faculty who are teaching the Master's Practicum Course AEC12 3 or with psychologists in the field who are acting as Internship Supervisors in one of our field settings. Students will have the opportunity to discuss research and theoretical issues, develop practical skills relevant to supervision, develop a personal supervision approach, and understand the professional supervisory role and the ethical issues pertaining to supervision.

VOTE For doctoral students in Counselling Psychology only.

AEC 266 Internship

This course requires the completion of at least 200 hours of internship under the supervision of a registered psychologist. Students will register in the course once the placement has been arranged and approved by the course instructor. Placements are generally expected to fulfil the criteria of the

Association of Psychology Postdoctoral and Internship Centres (APPIC). The internships may be served in a variety of settings and will normally involve instruction in psychopathology, training in differential diagnosis and assessment, case conceptualisation, treatment planning, a variety of psychotherapeutic approaches, case management, and other related tasks. All students must have a formal diagnosis and assessment component as part of their internship hours. It is expected that students will involve themselves in such activities as diagnosis and assessment, case conceptualisation, treatment planning, psychological interventions, consultations with other professionals, report writing, case conferences, and other activities relevant to professional training. It is also generally expected that, where possible, students will have contact with clients reflecting a range of diversity e.g., clients who derive from various cultural, ethnic, social or linguistic groups and/or who bring other types of minority issues, such as gender identity or disability. Where possible, we encourage students to find placements at training sites accredited by the Canadian Psychological Association (CPA) or the American Psychological Association (APA).

VOTE For Ph.D. students in Counselling Psychology only.

Other courses accepted for credit

The following courses may be accepted for credit in the Counselling Psychology Program. For descriptions, see the relevant department's course listing.

- AEC1173 Creativity and Wellness Learning to Thrive
- AEC14 Special Topics in Adult Education and Counselling Psychology
- AEC14 Introduction to Qualitative Research Part 1 RM
- AEC14 6 Introduction to Qualitative Research Part 2 RM
- AEC14 8 Working with Survivors of Trauma
- AEC3173 Effecting Change Creating Wellness
- DP1223 Depression in the Schools Assessment, Prevention, and Intervention
- DP32 4 Contemporary History and Systems in Human Development and Applied Psychology.

VOTE This course is available only to Ph.D. students in the Field of Counselling Psychology for Psychology Specialists Available alternate years.

Curriculum • Teaching and Learning (CTL)

The Department of Curriculum, Teaching and Learning is the largest of five departments within OISE/UT. With a diverse community of approximately 100 tenured and tenure-stream faculty, the department offers a wide range of graduate courses and programs relating to academic scholarship and professional practice.

The following graduate Programs are offered by the CTL Department

- Curriculum M.Ed., M.A., Ed.D., Ph.D.
- Masters of Teaching in Elementary and Intermediate Education M.T.
- Second Language Education M.Ed., M.A., Ph.D.

NOTE The degree programs in Measurement and Evaluation and in Teacher Development were discontinued in 2014/2015 and are no longer accepting new applicants. The department's participation in the Environmental Studies Collaborative Program has also been discontinued. The Department of Curriculum, Teaching and Learning will ensure that all students enrolled in these programs will be able to complete the necessary program requirements.

The Department also offers the following Collaborative Programs

- Collaborative Program in Comparative, International and Development Education M.Ed., M.A., Ed.D., Ph.D.
- Collaborative Program in Womens Studies M.Ed., M.A., Ed.D., Ph.D.
- Collaborative Program in Knowledge Media Design M.Ed., M.A., Ed.D., Ph.D.

There are numerous opportunities for research and field development in the Department of Curriculum, Teaching and Learning. Several internal research centres are associated with the department, including

- Centre for Franco-Ontarian Studies
- Centre for Teacher Development
- Modern Language Centre
- Centre for Studies in Science, Math and Technology Education
- Centre for Urban Schooling
- Institute for Knowledge, Innovation and Technology

Many CTL faculty are oriented toward field-based practice, and numerous courses are offered off-site or through distance learning modes. Refer to pages 134 - 139 for more information.

The Curriculum Studies and Teacher Development Program is a forum for systematic reflection on the substance/subject matter, courses, programs of study, purposes, and practices used for bringing about learning in educational settings. Of concern are such fundamental issues as what should be studied, Why, by whom, in what ways. And in what settings. Reflection upon such issues involves an interplay among the major components of education: subject matter, learning, teaching, and the larger social, political, and economic contexts as well as the immediate instructional situation. Course offerings and guided research opportunities reflect the diverse interests of faculty in a range of areas in the Curriculum Studies and Teacher Development Program.

Program faculty guide student work in a wide range of inquiry and data analysis methodologies, including qualitative and quantitative research, action research, naturalistic inquiry, teacher inquiry, computer-supported analysis, performed and critical ethnography, life history.

The interest areas below reflect overlapping and intersecting areas of strength in the whole Curriculum Studies and Teacher Development Program, not separate sub-programs. Faculty and students each pursue diverse overlapping combinations of these interests. To show the general dimensions of the Curriculum Studies and Teacher Development Program, the interest descriptors are

arranged in categories: broad perspectives on education in various contexts: where and why we teach; curriculum content and pedagogy: what and how we teach; and intersections of curriculum with particular diverse learners: who we teach.

Curriculum Theories/Perspectives and Contexts include broad orientations and diverse settings for research in curriculum, schooling, teaching/learning, educational change

Curriculum and Program Development and Implementation

School and District Policy, Environments, Change and Reform

Assessment and Evaluation

Teacher Professional Learning, Teachers as Change Agents

Teachers' Work, Lives, Narratives, Beliefs and Knowledge

Teacher Knowledge/Teacher Identity

Teacher Leadership

Pre-service and In-service Education

Global Education, Imagination, and Spirituality

Feminist and/or Queer Theories in Education

Cultural Studies and Critical Theory in Education

Dialogic and Social Constructivist Approaches to Curriculum

Education in Non-school Settings

Distance Education and On-line Learning Environments

Knowledge Media/Technology, Knowledge Building and Innovation

Comparative Education and Education in International Settings

Curriculum Subject Matter and Teaching/Learning Processes

 Educating Immigrant and English as a Second Language Students
 Gender and Girls Education
 Sexuality and Anti-homophobia Education
 Equity Teaching, Anti-racist, Multicultural and Anti-discriminatory Education

degrees

Master of Education

The M.Ed. degree program is designed chiefly for the professional improvement of those who are already engaged in a career related to education. Applicants are accepted under the general regulations, which specify an appropriate four-year university of Toronto bachelor's degree, or its equivalent from a recognized university, completed with an academic standing equivalent to a university of Toronto **mid B or better** in the final year. Ordinarily, applicants will have at least one year of relevant, successful, professional experience prior to applying.

In the Statement of Intent, applicants should state the reasons they wish to study curriculum at the graduate level. The chief academic interests, professional concerns, and career plans related to curriculum studies and teacher development should be discussed. In order to identify their research interests in their Statement of Intent, applicants should visit the Curriculum Studies and Teacher Development Program web page www.oise.utoronto.ca/depts/ctl/programs/curriculum.shtml. The Admissions Committee reviews this Statement to determine the kind of focus or area of study in which an applicant is most interested and to link them to appropriate faculty advisors.

The M.Ed. program of study consists of ten half-courses, at least five of which are normally CTL 1-level courses undertaken in the Curriculum Studies and Teacher Development Program, and may be taken on a full- or part-time basis. Additional study may be required either within the degree program or prior to admission,

depending on previous experience and academic qualifications. Students are required to successfully complete CTL1. All requirements for the degree must be completed within six calendar years from first enrollment.

Master of Arts

The M.A. degree program is designed to provide academic study and research training related to curriculum studies. Applicants are accepted under the general regulations. Admission normally requires a four-year university of Toronto bachelor's degree, or its equivalent, in a relevant discipline or professional program completed with standing equivalent to a university of Toronto **mid B or better** in the final year.

Ordinarily, applicants will have at least one year of relevant, successful, professional experience prior to applying. Students who anticipate going on to further study at the Ph.D. level are advised to apply for enrollment in an M.A. rather than an M.Ed. degree program.

In the Statement of Intent, applicants should state the reasons they wish to undertake a research-oriented program of study in curriculum or teacher development. The chief academic interests and experience, professional concerns, and career plans related to an aspect of curriculum studies should be discussed. In order to identify their research interests in their Statement of Intent, applicants should visit the Curriculum Studies and Teacher Development Program web page www.oise.utoronto.ca/depts/ctl/programs/curriculum.shtml. The Admissions Committee reviews this Statement to determine the kind of curriculum problem or area of study in which an applicant is most interested and to link them to appropriate faculty advisors.

The M.A. may be taken on a full- or part-time basis and consists of eight half-courses, at least four of which are normally CTL 1-level courses undertaken in the Curriculum Studies and Teacher Development Program, and a thesis. Additional courses may be required of some applicants, depending on previous experience and academic qualifications. Students are required to successfully complete CTL1, and a course in research methods from an approved course listing. A listing of approved research methods courses is available on the Curriculum Studies and Teacher Development Program web page www.oise.utoronto.ca/depts/ctl/programs/curriculum.shtml.

VOTE Candidates are responsible for meeting deadlines to complete their course requirements, thesis committee formation and ethical review. All requirements for the degree must be completed within five years from first enrollment.

Doctor of Education

Curriculum Studies and Teacher Development Program has suspended admission to the Ed.D. as of September 2020. Following the approval of a new set of Ed.D. program guidelines, the Curriculum Studies and Teacher Development Program will resume accepting applications to a reformulated Ed.D. Program.

Doctor of Philosophy

The Ph.D. is intended primarily as preparation for academic positions in universities, and demands a strong commitment to curriculum research. The Curriculum Studies and Teacher Development Program offers both a full-time and a flexible-time Ph.D. program option. Applicants must declare the options for which they are interested in applying.

Full-time Ph.D. Option

Applicants are accepted under S.S. general regulations. A university of Toronto master's degree in education or its equivalent from a recognized university, in the same area of specialization as proposed at the doctoral level, completed with an average grade equivalent to a university of Toronto **B or better** is required. Further documentation may be required to establish equivalence. A minimum of two years professional experience prior to applying will normally be expected. Applicants are required to submit, along with the application

- Their masters thesis or a sample of single-authored scholarly writing. Details of what constitutes an appropriate writing sample can be found on the CSTD program Web page <www.oise.utoronto.ca/depts/ctl/programs/curriculum.shtml>
- A statement of intent describing their intellectual interests and concerns relevant to curriculum studies and teacher development, reasons for wishing to take the program, previous qualifications and professional experiences, and future career goals
- Two letters of reference, one academic and one professional

Flexible-time Ph.D. Option

Applicants to the flexible-time Ph.D. option are accepted under S.S. general regulations and are subject to the same admission requirements as applicants to the full-time Ph.D. option. However, in addition, applicants to the flexible Ph.D. must include in their statement of intent the outline of a plan that demonstrates the following:

- that the applicant is in a career related to the field of study
- the applicant has three or more years with the same employer
- a desire to continue with current career path
- the capacity to secure blocks of time to enable concentrated study (eg. reference to the employer's leave policy, study incentive system, etc.

Full-time Ph.D. students must complete their degree within six years. Flexible-time Ph.D. students must complete their degree within eight years. Degree requirements for both programs are the same. The Ph.D. program of study normally consists of six half courses, at

least four of which are ordinarily CTL1-level courses undertaken in the Program. Additional courses may be required of some candidates. Students are expected to take CTL1 if they did not complete it at the master's level, and one course in research methods from an approved course listing. This listing is available on the Curriculum Studies and Teacher Development Program web page <www.oise.utoronto.ca/depts/ctl/programs/curriculum.shtml>. Students must successfully complete a comprehensive examination. In addition, a thesis embodying the results of an original investigation, and a final oral examination on the content and implications of the thesis, are also required.

VOTE. Candidates are responsible for meeting deadlines to complete their course requirements, thesis committee formation and ethical review.

Courses

The following is a list of courses offered within the Curriculum Studies and Teacher Development Program. Not all of the courses listed are offered in any given year. Note that courses numbered CTL1-1799 are offered at the Master's Level; courses numbered CTL1-1999 are offered at the Doctoral Level.

CTL1 000 Foundations of Curriculum Studies

This is a required course for master's students and doctoral students who did not take it in their masters programs. The aim of this course is to apply theory and research to the study of curriculum and teaching. The course also provides a language for conceptualizing educational questions, reviews the major themes in the literature, provides a framework for thinking about curriculum changes and change, and assists students in developing critical and analytical skills appropriate to the scholarly discussion of curriculum and teaching problems.

CTL1 000 Fondements de l'étude des programmes scolaires

Le but de ce cours est d'appliquer la théorie et la recherche l'étude des programmes d'enseignement. Le cours 1 fournit un langage propice la conceptualisation 2 examine les principaux thèmes traités dans la littérature 3 fournit un cadre qui porte réflexion aux changements apporter aux programmes d'enseignement et 4 aide les étudiants à développer un esprit critique et analytique approprié la discussion des problèmes rencontrés dans les programmes d'enseignement.

CTL1 000 Values and Schooling

This course deals with selected value issues in the theory and practice of schooling. Topics include the nature of values goals for schooling the ethics of streaming traditional versus open education treatment of children expectations of teachers parental rights compulsory schooling indoctrination racial, ethnic, and class bias sexism and approaches to moral, religious, and political education.

T 002 Curriculum Development for Effective Teaching

This course defines and illustrates methods for completing important curriculum development tasks such as a) identifying appropriate course and unit objectives b) developing useful growth schemes c) developing effective teaching techniques and d) constructing practical assessment strategies. Particular attention will be given to problem-solving skills.

T 002 Planification de la programmation pour un enseignement efficace

Ce cours présente des modèles qui permettent la mise en oeuvre des principales composantes de la programmation comme a) l'identification des résultats généraux et spécifiques d'un cours ou d'un module b) la planification de projets à long terme c) l'élaboration d'outils d'intervention par rapport à différentes stratégies. La résolution de problèmes constituera un élément important des composantes étudiées.

T 00 Language Arts in Primary Education

An analysis of the components of language arts programs in the early years. The course will focus on reading and writing development in preschool and primary education, and will include a wide range of methods and materials of instruction, child- and teacher-centered philosophies, reading in the content areas, assessing growth in reading and writing.

T 00 Language Literacy and the School Curriculum

The course will be concerned with an examination of theoretical and practical issues relating to the role of language in the school curriculum. Particular emphasis will be given to literacy - its nature, development, and use. Students will be expected to carry out an empirical inquiry on some topics arising from the course.

T 006 English at the Secondary School Level

This course emphasizes recent trends and developments in the teaching of secondary school English. In particular, movements such as reader-response theory, language across the curriculum, genre theory, whole language, and cultural studies approaches are examined. The teacher's role in contemporary debates and classroom research is explored.

T 00 Children's Literature as a Foundation of Literate Behavior across the Curriculum

An examination of the nature and function of the study of literature and culture in elementary schools. This course is designed for experienced teachers who will develop programs, select texts, explore interpretations, and consider implications and applications for schools.

T 00 Theory and Practice in Elementary Literacy Instruction

This course examines a number of theoretical perspectives on literacy learning and instruction, exploring their implications for work with students in primary/ junior/intermediate classrooms. Topics such as literacy across the curriculum, reading comprehension, beginning writing instruction, use of media and technology in writing, and sociocultural influences on literacy learning, will be explored in terms of various theoretical approaches.

T 00 Children's Literature within a Multicultural Context

This course explores ways to bring children, cultural diversity and literature together in an interactive manner. Stories - whether traditional folk tales or contemporary multicultural works - not only help define a child's identity and understanding of self, but also allow others to look into, appreciate, and embrace another culture. Class discussions revolve around an annotated bibliography of articles and books concerned with multicultural children's literature prepared specifically for the course and designed primarily for teachers in mainstream as well as ESL/English as a Second Language and heritage language classes. The practical aim is for teachers to learn how to take advantage of the cultural diversity and interests that children of varied backgrounds bring to the classroom and to explore themes in folk lore in order to open up the world of literature to all their students. The focus is to develop strategies for engaging students in classrooms in meaningful dialogue about diversity using the medium of personal interaction with the multicultural text. Throughout the course, we focus on how to encourage students to share their own cultural stories and border cross from one world to another. Particular emphasis is placed on the relevance of multicultural children's literature to minority students' self-esteem and literacy formation and to the school's relationship to minority and majority communities in addition to its relevance in confronting issues of human rights and social justice.

T 0 Anti-Discriminatory Education in School Settings

In this course we will identify spaces in which we find discrimination in education - for example, within interactions between teachers and students, administrators and students, students and students, students and the curriculum, teachers and the curriculum, administrators and teachers, teachers and parents, parents and administrators - and we will discuss how we can use these spaces or locate new ones to do anti-discriminatory educational work in school settings. Emphasis in the course will be placed on integrating theory and practice. We will attempt to link our discussions of practice to theory and our discussions of theory to practice.

T 02 Curriculum for Girls and Young Women: Historical and Contemporary Issues

This course will examine how appropriate curriculum for the education of girls and young women has been defined and delivered in Canadian schools.

EDUC 010 Instructional Innovation in the Elementary and Secondary Schools

Instructional changes associated with elementary and secondary school reform will be examined. Examples will be negotiated and may include such innovations as curriculum integration, teaching for understanding, reciprocal teaching, authentic assessment, cooperative learning, self-directed learning, and computer-mediated instruction. Theoretical foundations, research findings, implementation issues, and implications for other reform dimensions restructuring, reculturing, and retiming will be explored for each approach selected.

EDUC 011 Evaluation of Curriculum and Instruction

This course serves as an introduction to the strategies and techniques utilized in the evaluation of curriculum programs. The focus will be on the assumptions, strengths, and weaknesses associated with various strategies. Students will work through evaluation problems associated with particular curriculum programs and instructional techniques.

EDUC 012 Curriculum and Student Evaluation

This course reviews principles and practice in testing and assessment with a focus upon curriculum and classroom-based student evaluation. An overview of current practices and problematic issues such as performance, portfolio, and authentic assessment profiles reporting and communicating evaluation evidence assessment programs standards and accountability.

EDUC 016 Cooperative Learning, Research and Practice

This course provides for practical experience of as well as understanding of innovative practices in cooperative learning (CL). We explore rationales for and current developments synergy, shared leadership. Topics include What is CL principles, attributes how to organize CL structures and strategies how does CL work basic elements, types of groups teacher and student roles benefits positive interdependence, individual accountability, social skills, cohesion evaluation forms and criteria obstacles and problems starting and applying CL in your classroom teachers practical knowledge collegiality parental involvement independent learning and collaborative inquiry Ministry and board requirements and resources and materials group response trios projects and joint seminars.

EDUC 017 Introduction to Qualitative Inquiry in Curriculum, Teaching and Learning

Experiential learning for students new to qualitative inquiry is provided through a broad introduction to qualitative approaches from beginning to end. A range of approaches relating to students theoretical frameworks are explored. Thesis students are encouraged to pilot their thesis research.

EDUC 018 Authentic Assessment

In this course candidates will formulate a personal policy on student assessment, develop authentic assessment tools appropriate to their teaching assignments, and assess the quality of authentic assessment strategies. Particular attention will be given to performance assessments, portfolios, self-evaluation, cooperative assessment, student beliefs and attitudes toward assessment, measurement of affective outcomes and professional standards for evaluating student assessment practices.

EDUC 020 Teaching in High Ability Students

This course will critically analyze a number of curriculum models and will explore instructional strategies currently used to program for high ability students in a variety of learning environments. Specific reference will be made to program differentiation within a regular classroom setting. Previous courses in the education of high ability students is not required.

EDUC 021 Technology and Education: Critical Perspectives on Theory and Practice

An examination of the theoretical underpinnings and practical questions concerning the educational use of technology. The pedagogical application of technology includes the implementation of computers and other instructional technologies for teaching and learning such as video and audio multimedia e.g., film, audio recordings, television. The focus is on developing a critical perspective regarding the use of technology in educational contexts that relates and looks forward to the articulation of an ethics of teaching practice. Topics representative of technology and education issues will be selected from the following theories and definitions of technology implications of various modes of technology contexts for models of teaching and learning practice evaluating the use of multimedia resources for educational contexts e.g., internet, software, video and audio recordings, television technology, diversity, and educational equity articulating an ethics of teaching practice with respect to the educational use of technology.

EDUC 022 Poststructuralism and Education

This course will examine the foundations of educational thought from the perspectives of Jacques Derrida, Jean-Francois Lyotard, Luce Irigaray, Helene Cixous, Michel Foucault, Roland Barthes, Gilles Deleuze, Julia Kristeva, Emmanuel Levinas, and Jean-Luc Audrillard. Educational implications and applications of poststructural philosophy will be stressed in relation to the discursive and non-discursive limits of the scene of teaching.

EDUC 026 Improving Teaching

A critical review of current approaches to analysing teaching and an examination of theoretical literature on the concept of teaching. The course involves reflection on one's own teaching. Students should be currently teaching or have access to a teaching situation.

VOTE: Students who have previously taken CTL4 are prohibited from taking this course.

T 027 Facilitatin e ffective Professional evelopment

Reflective practice is one means through which practitioners make site-based decisions and through which they continue to learn in their professions. This course will critically examine the research and professional literature concerning the meaning of and the processes involved in reflective practice. Additionally, as professional development is often associated with reflective practice, the course will also identify and examine professional development strategies which could facilitate reflective professional development. Students will critique these models by utilizing the concepts from the reflective practice literature.

VOTE. Students who have previously taken CTL4 1 are prohibited from taking this course.

T 02 onstructive eed ac. in Teaching

This course concerns observing and giving feedback to teachers; it is experiential and requires that students be able to observe and work with a colleague who is currently teaching. The focus is on developing the skills of in-depth, systematic analysis of classroom teaching and the skills of sensitive, informed, one-to-one feedback. The course is particularly relevant to those with supervisory or professional development responsibilities.

VOTE. Students who have previously taken CTL4 2 are prohibited from taking this course.

Prerequisite. Permission of instructor.

T 02 From Student to Teacher: Professional Induction

This course critically examines the various conceptual and structural approaches to teacher education, including an inquiry-based, transformative orientation. Participants engage in their own inquiries, exploring the ways in which they construct professional knowledge in their own lives, and in which other professionals in transition participate in their professional development. Theoretical perspectives, research methodologies and research findings are discussed for the purposes of deepening our understandings of our current teaching and research practices, and of engaging in the ongoing construction and reconstruction of professional knowledge.

VOTE. Students who have previously taken CTL4 4 are prohibited from taking this course.

T 00 Arts Based Approaches to Teacher evelopment

This course uses arts-based textual strategies such as stories, self-narratives, poems, split text, duologue, palimpsest, and visuals to explore teacher-researcher development. As in a postmodern Gothic mystery, development is represented as a detective thriller with an ongoing contest between aspects of a teacher-self and its context. The protagonists include the teacher hope to become and missing or kidnapped parts of teacher-self such as child-artist. The antagonists include the teacher fear to remain and false, idealized teacher-

selves. The teacher am provides a staging point for the next round of development. In a series involving transformation, arrest, or resistance, any ending only provokes new beginnings.

VOTE. Students who have previously taken CTL4 are prohibited from taking this course.

T 0 Language e Culture and Identity. Using the Literary Text in Teacher evelopment

The literary text is used as a vehicle for reflection on issues of language and ethnic identity maintenance and for allowing students an opportunity to live vicariously in other ethnocultural worlds. The focus is on autobiographical narrative within diversity as a means to our understanding of the self in relation to the other. The course examines the complex implications of understanding teacher development as autobiographical/biographical text. We then extend this epistemological investigation into more broadly conceived notions of meaning-making that incorporate aesthetic and moral dimensions within the multicultural/anti-racist/anti-bias teacher educational enterprise.

VOTE. Students who have previously taken CTL4 7 are prohibited from taking this course.

T 02 Knowing and Teaching

This course examines how knowledge is developed, explores the relationships among different kinds of knowledge e.g., moral, scientific, religious, aesthetic, and identifies the various philosophical bases of such school subjects as English, history, and math. It examines the relationship between issues about knowing and issues about teaching. For example, the questions of what and how we should teach are addressed from the standpoint of different kinds of knowing. The course is oriented toward secondary school but is not confined to any particular subject-matter specialty. It is not assumed that students will have a background in philosophy.

VOTE. Students who have previously taken CTL4 8 are prohibited from taking this course.

T 0 Multicultural Perspectives in Teacher evelopment: e ffective Fracticum

This course will focus on the dynamics of multiculturalism within the individual classroom and their implications for teacher development. It is intended to examine how teachers can prepare themselves in a more fundamental way to reflect on their underlying personal attitudes toward the multicultural micro-society of their classrooms. Discussions will be concerned with the interaction between personal life histories and the shaping of assumptions about the teaching-learning experience, especially in the multicultural context. The course will have a hands-on component, where students whether practising teachers or teacher/researchers will have the opportunity to become participant-observers and reflect upon issues of cultural and linguistic diversity within the classroom.

VOTE. Students who have previously taken CTL4 9 are prohibited from taking this course.

CTL 05. Action Research in an Urban and Learning [

This course focuses on teachers' classroom-based research as a mode of professional development and is most appropriate for those interested in carrying out such research. Although the term "language" appears in the title, this is intended to indicate the principal kind of evidence that will be considered rather than to delimit the range of possible topics for investigation. Educational practitioners other than classroom teachers may also find action research relevant to the practice of their professional responsibilities. Particular attention will be given to such issues as topic selection, methodology, data collection and analysis, and the interpretation of evidence, as well as to the consideration of course members' specific areas of inquiry and of the role of action research more widely within the education system.

VOTE: Students who have previously taken CTL4 1 are prohibited from taking this course.

Prerequisite: Permission of instructor.

CTL 06. Teaching, Teacher Development and School Change [

The course enlists the aid of experienced and beginning teachers and teacher educators in clarifying the role of the teacher and considering how it can be enhanced. Topics include the goals of teaching, approaches to teaching, building a class community, teacher preparation and induction, and school restructuring. The course links theory and practice, helping teachers and teacher educators develop their understanding of teaching by addressing questions of everyday practice.

VOTE: Student who have previously taken CTL4 11 are prohibited from taking this course.

C

CTL 06. Thoughtful Teaching and Practitioner Inquiry [

This course will explore the view that teachers are thoughtful practitioners, the primary agents of schooling. It will focus on the empowerment of teachers through school-based inquiry and through a more adequate understanding of the teacher's abilities and role. A small research study in a teaching context (school or preservice) will be required in this course. Assistance will be given in research methodology for the study.

VOTE: Students who have previously taken CTL4 12 are prohibited from taking this course.

C

CTL 07. Comparative and Cross-Cultural Perspectives [

In this course we explore differences in the ways knowledge, Teaching and Learning are constructed and understood in different cultures, and how these affect how teachers learn and promote learning, with particular emphasis on multicultural settings. An underlying theme is how one can best bring together a narrative, and both comparative/structural ways of knowing in order to better understand teacher development in varying cultural/national contexts. The choice of particular nations/regions/cultures on which to focus in the course responds to the experience and

interest of the students and the availability of useful literature regarding a particular geo-cultural area with respect to the basic themes of the course.

VOTE: Students who have previously taken CTL4 13 are prohibited from taking this course.

CTL 08. Change and Curriculum Implementation [

This course examines the nature of educational change and its impact on the implementation of curriculum. How change affects teachers and how new curricula affect classroom practice, form the central focus of the course. Three basic approaches to implementation, the fidelity perspective, mutual adaptation, and curriculum enactment, are used as a framework to examine the research on implementation and identify factors which enhance and hinder successful change efforts. The role of professional development and strategies for effective professional development practices in support of implementation constitute the third area of study in this course.

CTL 09. Teaching Writing in the Classroom [

This course addresses theories of writing instruction and assessment that influence current classroom practice. Connections between theory and practice will be explored in terms of what it means to be a writer and a teacher of writing. Issues such as the teaching of writing conventions, writing assessment, sociocultural influences on students' writing, and the teacher's role in guiding student writing will be examined.

CTL 09. Fundamentals of Program Planning and Evaluation [

This course is organized around the various components of program planning and evaluation for education and the social and health sciences: needs, evaluability, process, implementation, outcome, impact, and efficiency assessments. Data collection methods such as the survey, focus group interview and observation are introduced.

VOTE: Students who have previously taken CTL2 6 are prohibited from taking this course.

CTL 09. Research Methods in Education [

Basic concepts, methods, and problems in educational research are considered: discovering the periodicals in one's field, steps in the research process, developing research questions, design of instruments, methods of data collection and analysis, interpreting results, and writing research reports.

VOTE: Students who have previously taken CTL2 7 are prohibited from taking this course.

CTL 02. Instrument Development in Education [

An overview of kinds of instruments used for collecting educational data. Classroom tests and various item types: norm-referenced and criterion-referenced standardized achievement tests, group intelligence and aptitude tests, attitude and self-report scales, observational systems, including performance assessment and classroom observation, questionnaires and surveys, interview protocols, reliability

theory and item analysis and validity. The course will focus on selection criteria for commercially available instruments, and on criteria for use in refining researcher-designed instruments.

VOTE Students who have previously taken CTL2 9 are prohibited from taking this course.

CTL 0. Research Issues in Alternative Assessments []

A review of research and issues in using alternative assessments in classroom and accountability testing, in competency testing and quality assurance, and in program evaluation, for education and the social and health sciences. These alternative assessments include performance, authentic, portfolio, self, peer, group, and individualized assessments.

VOTE Students who have previously taken CTL2 1 are prohibited from taking this course.

CTL 060. Education and Social Development

This course examines the linkages between education, both formal and non-formal, and the social development of nations, with particular focus on the process of educational policy formation for both developing nations and developing sub-areas within richer nations. The course aims to acquaint students with the main competing theories or conceptualizations of the development process and, through examination of a representative set of recent empirical studies and state of the art papers, to develop an understanding of the relationships between educational activities and programs and various aspects of social development, with an overall focus on problems of social inequality. The overarching objective is to help develop a better understanding of how, in confronting a particular educational policy problem, one's own theoretical preconceptions, data about the particular jurisdiction, and comparative data about the problem at hand interact to produce a policy judgment.

VOTE Students who have previously taken CTL6 2 are prohibited from taking this course.

CTL 06. Comparative Education. The Development of Third World Educational Systems

This course provides opportunities to study the development of Third World educational systems from a pragmatic perspective. Students are given the opportunity to learn how to organize a country study, develop a database and/or profile of an educational system, and analyze aspects of national educational development. Relevant development education theories will be examined and related to actual development experience in a case-study format. A comparative perspective will enable students to relate developments in one or more nations/regions to problems in less-developed nations. Group interactions and learning are encouraged in order to share the experiences of course participants from various nations or with experience in developing nations. Participants lacking such experience, but having an interest in developing nations, are encouraged to learn from such group interactions. Methodologies for undertaking both

country studies and comparative studies constitute the terminal learning objectives of this course.

VOTE Students who have previously taken CTL6 3 are prohibited from taking this course.

CTL 02. Arts and Education. Planning and Implementation of Arts Programs

An examination of theory and curriculum practice in the fine and performing arts in education—music, drama, dance, art, and film. Programming is considered from the theoretical vantage points of human development, creativity, and aesthetics—particular attention is paid to the effectiveness of modern curriculum innovations in the arts. Students are expected to undertake curriculum development and implementation work in one or more of the arts in an educational setting.

CTL 0. Play, Drama and Arts Education

The examination of current topics or problems in play, drama, and arts education as related to curriculum studies. Issues will be identified from all age levels of education as well as from dramatic play, each of the arts disciplines, and aesthetic education as a whole. Students will address one specific topic through self-directed learning and present the results in an appropriate form.

Topics vary from year to year depending upon interests of course members.

CTL 0. Research and Inquiry in Arts Education []

An exploration of the questions addressed in education in general and curriculum in particular—with an emphasis on the arts—through a variety of modes and methods of research and inquiry. Students will approach problems inductively and experientially.

It is intended that the course will provide students with a practical grounding for theses, dissertations, and research projects.

CTL 06. Spirituality in Education

This course examines the nature of spirituality. After exploring various conceptions of spirituality the course then examines how it can be part of the school curriculum in a non-threatening manner. More specifically, the course explores the nature of the soul and how the soul can be nourished in the classroom through approaches such as imagery, dreams, journal writing, and forms of contemplation. The arts and earth education are also examined in this context. Finally the role of the teacher will be explored.

CTL 0. The Holistic Curriculum

This course will focus on curriculum that facilitates personal growth and social change. Various programs and techniques that reflect a holistic orientation will be analyzed—for example, Waldorf education, social action programs, and transpersonal techniques such as visualization and the use of imagery in the classroom. The philosophical, psychological, and social context of the holistic curriculum will also be examined.

T 100 Teacher Education and the Construction of Professional Knowledge: Holistic Perspectives

The course will focus on teacher education and the construction of professional knowledge in teaching from holistic perspectives. Beginning with an exploration of the various conceptual and structural alternatives to initial teacher education, the course then examines holistic, arts-based and narrative orientations to learning to teach and to career-long teacher learning. The connections between professional renewal, curriculum and school renewal, and educational research are explored.

T 601 Holistic Approaches in the Elementary Mathematics Curriculum

This course is designed for elementary school teachers interested in experiencing math teaching as a creative and deeply satisfying endeavour. Through class discussions, reflection activities, creative group investigations, quest presentation, selected readings and a final usually classroom-based project, participants will be able to explore topics from among the following holistic math learning environments linking math with real life creative problem-solving open-ended problems integrating math with other disciplines such as fine arts, social studies and language arts journal writing, use of childrens literature and oral communication activities authentic assessment linking assessment with instruction.

T 701 Literary Practices in Drama and Education

The intersection between the construction of self/other and the production of dramatic art is central to this course. We will examine the implications of drama education practices as they as participants to understand their particular gendered, cultural, sexual, racial, ethnic, and class-based identities in relation to the broader social world around them. Drawing on recent research in gender studies, drama and arts education, this course will examine pedagogies in the arts and especially dramas potential as education and in education to build support networks in classrooms that favour participation of all individuals at their highest potential.

T 801 The Visual Arts as a Teaching and Learning Strategy

This course examines, through theoretical discussions and practical experience, the place of the arts for teachers and learners. The intent of the course is to provide a more concrete grounding in what the arts have to offer teachers as a teaching strategy, and what they have to offer to student learning. The course includes studio experience with art projects, visiting artists and speakers, examination of contemporary issues in curriculum and teaching theory related to art, education, and the arts as a thriving discipline. While the emphasis of the course is on the visual arts, other areas of art will also be addressed where possible.

NOTE This class does not require an art background, but rather a willingness to develop a better understanding of what the arts have to offer to the educational process.

T 101 Gaining Confidence in Mathematics: A Holistic Approach to Overcoming Mathematics Anxiety (1)

It has been well documented that many adults experience math anxiety, possibly due to the traditional way they have been taught math in their own schooling. This course utilizes a holistic approach in helping elementary teachers to reconstruct their foundational math knowledge and overcome their anxieties. Utilizing reform-based approaches, participants will work in small groups on selected math problems and hands-on explorations at an appropriate level of difficulty. Journal writing, group reflection and guided visualization activities will be used to help participants become aware of, and start dealing with their emotional and cognitive blocks in relation to math. Such work opens the door to accessing ones mathematical intuition and creativity. A discussion of how the strategies used in the course, or reported in the literature, can be adapted for math-anxious students will also be included.

T 200 Science in the School Curriculum

A systematic analysis of matters central to curriculum development for science including, where relevant, technology education in elementary and secondary schools. Topics include views of the nature of science and its purpose in schools, with corresponding implications for learning outcomes, teaching and learning strategies, and course and student evaluation. Focus of assignments will be adapted for students with special interests in elementary and secondary science education, respectively.

T 202 Mathematics in the School Curriculum: Elementary

This course examines what mathematics should be taught, how to define and increase students understanding of mathematics, classroom discourse and student engagement in elementary mathematics. The intent of the course is to provide a grounding in mathematics education.

T 203 Mathematics Learning: Elementary to Secondary

Various approaches to making mathematics meaningful for, and accessible to intermediate and senior level students will be examined in the light of recent developments in the field and the new Ontario mathematics curriculum guidelines. Topics may include Connecting mathematics to real life increasing students understanding of mathematics, group explorations, problem solving and mathematical modeling, communicating about mathematics, integrating the use of graphic calculators and computer technology authentic assessment.

T 206 Teaching and Learning Science

This course involves a study of theories of learning in the context of science education, a survey of research relating to childrens understanding of concepts in science, and an exploration of strategies for more effective science teaching.

ST 207 Teaching and Learning about Science Issues and Strategies in Science, Technology, Society and Environment (STSE) Education

A detailed study of issues in the history, philosophy, and sociology of science that have significance for science education, an examination of the philosophy underpinning the STS movement, and a consideration of some of the theoretical and practical problems surrounding the implementation of science curricula intended to focus on environmental, socioeconomic, cultural, and moral-ethical issues.

ST 20 Curriculum Issues in Science and Technology: An Historical Perspective

This course aims to illuminate contemporary international debate in science and technology education and to provide some insight into the nature of curriculum change through a critical analysis of episodes in science curriculum history.

ST 20 Current Issues in Science and Technology Education

The course focuses on the design of effective strategies for exploring students' personal frameworks of meaning in science and addresses issues of contemporary international debate about science and technology education, including the Science for All movement, the new psychology of learning, the language of science and technology education, politicization of science and technology education, the role of laboratory work, computers in science education, and issues in environmental and health education.

ST 2 Action Research in Science, Mathematics and Technology Education []

This is an active research-based course in which participants will sharpen and develop their understanding of issues and professional practice in science, mathematics and technology education. Working within a mutually supportive group of practitioners, they will subject their current practice (e.g., teaching) to critical scrutiny and appraisal, plan and attempt alternative curriculum perspectives and practices, and evaluate these in action (e.g., in teaching). The particular focus for research will be determined by individuals or groups of individuals in the course, in consultation with the instructor. Class members need to be active in their work - e.g., currently working as a teacher, consultant, etc. - in order to carry out their projects. This course may be best taken after a few courses in a Masters level programme, which may provide students with some theoretical perspectives to use in their action research. Although prior research experience would be helpful, it is not a requirement for this course.

ST 22 Curriculum Studies in Science: Some Considerations in the History, Philosophy and Sociology of Science

This course will address some key issues in the philosophy and the sociology of science and their implications for science education at the elementary and secondary levels. Attention will also be directed towards a critical appraisal of the role of the history of science in science education, and a

consideration of pseudosciences and their role, and the distortion and misuse of science for sociopolitical goals. Course members will have the opportunity to explore ways in which laboratory work, computer-mediated learning, language activities and historical case studies can be used to present a more authentic view of science, scientific development and scientific practice.

ST 2 Equity Issues in Science Education

This course deals with issues of gender bias, Eurocentrism and other forms of bias and distortion in science and science-technology education. It sees a generalised approach to equity issues and examines ways in which border crossings into the subcultures of science and science education can be eased for all those who currently experience difficulties.

ST 2 Teaching and Learning about Science and Technology: Beyond Schools

This course will focus on theoretical and practical perspectives and current research on teaching and learning science and technology in school and non-school settings. Consideration will be given to classroom environments, as well as science centres, zoos, aquaria, museums, out-door centres, botanical gardens, science fairs, science hobby clubs, and media experiences. In particular, the course will focus on the nature of teaching and learning in these diverse settings, representations of science and technology, scientific and technological literacy, and socio-cultural interpretations of science and technology.

ST 02 Media Studies and Education

This course is an introduction to the study of contemporary media and their relation to educational practice. The approach will be a critical one, analysing the overall cultural formation promoted by contemporary media as well as exploring their implications for schooling - in particular, how they impinge upon the social relations of the classroom. Part of the course will therefore include a look at both specific media practices (newspaper press, advertising, television, radio, videos) and practical curricular strategies that respond to them. The emphasis is on understanding the media as powerfully educative forms in their own right, as well as having complex relationships with official school knowledges.

ST 0 Cultural Studies and Education

The study and concept of culture has emerged from a number of different disciplines over the past century. Cultural studies is a recent synthesis and critical re-evaluation of some of these approaches, one with important implications for educators in the area of the humanities. Through a discussion of key texts and issues generated within this tradition, the course examines structuralist, ethnographic, feminist, and postmodern versions of cultural studies in order to understand how these approaches reformulate an educational practice concerned with contemporary culture.

T 06 Qualitative research methods in Education: Concepts and methods

The course is designed to introduce students to qualitative methods of research in education. The intention is to examine the nature of qualitative research and its relationship to theory. Students will look at different ways of approaching qualitative research, and special attention will be paid to the concept of critical ethnography. Students will also study five specific research techniques: observation, interview, content analysis, life history, and action research.

T 06 La recherche qualitative en éducation: bases théoriques et pratiques

Le cours a pour but d'initier les étudiantes et les étudiants à l'analyse qualitative dans le domaine de la recherche en éducation. Le premier objectif du cours est de se pencher sur la nature même de la recherche qualitative et sa relation avec la théorie. Différentes façons de concevoir la recherche qualitative seront donc examinées. Dans un deuxième temps, les étudiantes et les étudiants se familiariseront avec cinq techniques de cueillette de données: l'observation, l'entrevue, l'analyse de contenu, le récit de vie et la recherche-action.

T 07 Identity Construction and Education of Minorities

The course is designed to examine the contradictory role of the school as an agent of linguistic and social reproduction in a school system where students are from diverse linguistic and cultural origins. In this context, the majority-minorities dichotomy will be critically examined. The course will focus particularly on how school contributes to the students' identity construction process. In this critical examination, identity will be understood as a socially constructed notion. Key-concepts such as identity, ethnicity, minority, race, culture and language will be first analysed. The process of identity construction will then be examined within the educational context of Ontario.

T 07 Identité collective et éducation minoritaire de la langue française

Le cours a pour but de se pencher sur le rôle de l'école de langue française dans le processus de construction identitaire des élèves. Dans le contexte du cours, l'identité est conçue comme étant le résultat d'une construction sociale. Des concepts-clés tels que l'identité, l'ethnicité, la race, la culture, la langue et l'assimilation sont d'abord examinés. Par la suite, le cours se penche sur les politiques et les programmes existants dans les écoles de langue française en Ontario, dans le but de faire une analyse critique de la contribution de ces dernières au processus de construction identitaire des élèves.

T 0 Les stéréotypes sexuels dans les programmes scolaires

Le cours veut permettre aux étudiantes et aux étudiants de comprendre comment l'école, par ses programmes, son matériel scolaire et son personnel enseignant, contribue à reproduire les rapports d'inégalité qui s'établissent entre les

hommes et les femmes dans la société. L'analyse s'intéressera au rôle de l'école en tant qu'agent de socialisation ainsi qu'aux efforts gouvernementaux en matière d'égalité entre les sexes. Par la suite, une analyse de contenu du matériel scolaire utilisé dans les écoles de langue française de l'Ontario viendra se greffer au cours.

T 2 Democratic Citizenship Education

Preparation for democratic citizenship: linking the individual to social decision-making is a central goal of public education. But, what is this citizenship, and who are truly seen/heard to be citizens? Meanings of citizenship, and their implications for education, are neither self-evident nor static. Diverse individuals, cultures, and nations understand democracy in different ways, and political space is gendered, so reasonable people disagree about how one might teach for democratic citizenship. For example, what parts are played by conflict, criticism, gender and sexual identities, human rights, and moral or political controversy in such curriculum? This seminar will consider contrasting frameworks for understanding, doing, and evaluating citizenship education from an international perspective, and examine the relationships between school experience and other cultural, political, and social-structural influences. Particular attention will be given to formal curriculum, especially in the social studies. Participants will learn to analyse and to design educational experiences in light of research literature and their own citizenship goals.

T Gender Equity in the Classroom

This course is designed for practising educators to develop and enhance their knowledge of how gender is produced in our educational system. It examines the different stages of the educational system: elementary, secondary, community college and university. The classroom is the focus because it is the central working setting of educational institutions. What happens in the classroom is not simply the result of what a teacher does but involves interactions between and among students and between teachers and students. The classroom has its own dynamic and is also interconnected to outside relationships with parents, friends, educational officials etc. The course has as its main objectives to examine the dynamics of inequality in the classroom and to discuss and develop strategies for change. While the primary focus is on gender inequality, course readings also draw on resources that make visible the intersections of gender with other inequalities based on race, class and sexual orientation.

T 6 Global Education Theory and Practice

The course will consider definitions, models and schools of thought within global education and proximate fields: specifically human rights and peace education, and education for social justice and their implications for curriculum, teaching and learning processes and schools as a whole. The arguments of critics of global education will be reviewed. The nature of global education across the elementary and secondary curriculum will be explored.

CTL 601 Teaching Conflict and Conflict Resolution
This seminar examines the theoretical and practical challenge of teaching young people and giving them opportunities to handle interpersonal and social conflict. The course examines the ways conflict may be silenced, avoided, confronted or resolved in the realms of school knowledge, pedagogy, hidden curriculum, peace-making programs, governance, and social relations, from Canadian and international/comparative/cross-cultural perspectives. It focuses on analyzing how various kinds of education about conflict fit in, and can challenge, the regularized activities, assumptions, and curriculum of schooling, and also on how the management of conflict implies and shapes citizenship expectations, social exclusion and inclusion. The course emphasizes implicit and explicit conflict management and conflict learning in formal school settings, but also examines the relationships between schools and other cultural and socio-political institutions. Participants will become skilled in analyzing research and experience regarding the conflict learning opportunities and equity dilemmas that are embedded in patterns of institutional activity and curriculum, and in various initiatives to teach or facilitate conflict resolution.

CTL 600 Classroom Adaptations and Instructional Strategies
The focus of this course is teaching in regular elementary and secondary classrooms to which students bring diverse backgrounds, needs and skills. We will examine instructional effectiveness and its relationship to the techniques and strategies that accommodate student differences, both at the micro-level of teacher-student interactions, and at the macro-level of planning, monitoring and evaluating student progress.

CTL 602 Adaptive Instruction in Inclusive Classrooms
In today's heterogeneous classrooms, teachers diversify their techniques of teaching, the content of lessons and their systems for evaluating student progress. The greater pupil diversity, the more teachers must adapt instruction. In this course, we will examine adaptive instruction at a macro teaching methods and micro-level student-teacher interaction. Questions to be examined: What are the teacher's responsibilities for adapting instruction? What is an adapted or modified program? Is differential instruction of students discriminatory or essential? How might modified outcomes be evaluated and reported.

CTL 603 Special Education and Social Representation of Difference
The purpose of this course is to examine how education and special education might be bound up with traditional view of social representation meaning that special educational needs or difficulties are essentially within pupils, within individuals. We will see how this view might arise from a lack of consideration or a misunderstanding of the educational/social context in which pupils and teachers interact. We will discuss the arbitrary features of labels and analyze the notion of

disability and difference as a transactional activity that takes place between individuals, the labeled and the labeler. This course will draw upon sociological and historical examples to understand social representations of difference.

CTL 600 Implementing Dynamic Web Interaction for Education
The Internet World Wide Web (WWW) is a medium for education which goes beyond retrieving static documents. This course explores how to create dynamic interactions for educational purposes, including Web forms, server-side processes, access of databases, real-time data and images, simulations, search engines, collaborative documents, and client-side browser processes. Students will study and create interactive educational Web projects using programming languages including Perl in a Unix environment, JavaScript and Java, while exploring educational design issues.
Prerequisite: CTL16 or permission of the instructor. Experience with Perl, Unix, HTML, and Web server management are useful background for the technical content and expectations of the course.

CTL 602 Introduction to Computers in Education
An overview of the uses of computers in education and consideration of critical issues of those uses recommended as a first course in this area. Current practice and research in the use of computers to guide instruction are examined. Includes aspects of computer-aided learning: computers in the schools, computer-managed instruction, computer-assisted instruction, internet resources, computer-mediated communication, virtual reality, and artificial intelligence applications. Specific topics change each year. It is strongly recommended that this course be taken early in the student's program.

CTL 603 Introduction to Knowledge Building
This course examines the role that knowledge building can play in school and work settings. We will review the distinction between knowledge building and learning, analyze recent knowledge building literature, and discuss socio-cultural, logistical and design considerations when constructing an online knowledge building community. Students will visit and study existing knowledge building communities as one of the course assignments.

CTL 604 Video/Multimedia Design
A course on production of educational multimedia and its applications to education and training. Experience is provided in applying principles of knowledge building and design research to the creation and integration of images, video, sound and text in an educational project. The Laboratory Network for Innovation and Technology in Education facilities will be used in this course.

CTL 60 Internet Resources and Education

The internet is the worldwide connection of millions of computers in universities, colleges, schools, government, and commercial enterprises. This course provides experience accessing the internet and focuses on finding internet World Wide Web WWW resources for use in education. Students will collect resources from the internet and present them in an internet Web site for access by others on the internet.

CTL 606 Computers in the Curriculum

This course deals with the use of computers in schools as tools for students in curricula other than computer studies. The role that technology can play in school restructuring is examined. Also included is a discussion of issues related to teacher training and classroom implementation, and the ways in which technology applications can influence the curriculum content and process. The major emphasis is on determining the specific educational needs of students, teachers, etc. that computers can meet.

Prerequisite: CTL16 2 or permission of instructor.

CTL 607 Computer Studies and the Teaching of Programming

A discussion of issues related to computer studies and the role of computer programming instruction at the elementary, secondary, and postsecondary levels. Relationships to mathematics, science, and other curriculum areas will be explored.

Research literature in the following areas will be examined: implementation of computer studies curricula; use of hypermedia-based authoring tools; multimedia and applications packages in computer studies; instructional techniques and their effectiveness; project-based learning and teamwork; the teacher's role; students' learning processes; programming instruction to children and the related cognitive prerequisites and effects; user-supportive programming environments for beginners.

CTL 60 Constructive Learning and Design of Online Environments

This course will examine the theory and research that underlies constructivist learning and its historical and philosophical roots. The educational applications that have developed out of these ideas, like problem based learning, collaborative learning and knowledge building will be explored in regards to how such concepts can inform and enhance the design of online environments and methods of teaching. We will look at different learning environments, both research projects and applications current in the field that instantiate various elements of these ideas.

C

CTL 60 Educational Applications of Computer Mediated Communication

A survey of the use of computers for human communication for educational purposes. Applications and issues of teaching and learning in the online environment, related to all levels of education, are examined. The course is conducted via OSE/TEL's computer conferencing system.

C

CTL 6 Computer Mediated Distance Education

The use of computer mediated communication for the delivery of distance education courses by schools, colleges, universities and organizations in the private and public sectors. Topics will include adult learning theory, cooperative learning theory, the educational use of internet resources, and the technological tools available for supporting distance education delivery.

Prerequisite: CTL16 2 or permission of instructor.

CTL 62 The Virtual Library (Non-Credit)

The Virtual Library is a seven module course addressing students' information retrieval needs in a rapidly-changing technological environment. The course covers hardware and software requirements; access to online catalogues, online databases; electronic journals and theses; educational resources on the World Wide Web; bibliographic software packages and the new requirements for citing electronic publications.

CTL 7.7 Practicum in Curriculum Master's level

Supervised experience in an area of fieldwork, under the direction of faculty and field personnel.

CTL 7 Individual Reading and Research in Curriculum Master's level

Specialized, individual study, under the direction of a member of the teaching staff, focusing upon topics of particular interest to the student. Although credit is not given for a thesis investigation proper, the study may be closely related to a thesis topic. A student wishing to enroll in CTL179 is required to complete, in typewritten form, an Individual Reading and Research Course form, including an appropriate bibliography, describing the rationale and plan of study for the course. This course proposal must be signed by the student's faculty advisor and the instructor with whom the course will be taken, and then submitted for approval to the department's academic programs standing committee.

CTL 7: Special Topics in Curriculum Master's level

A course designed to permit the study of a specific area of curriculum or instruction not already covered in the courses listed for the current year. This course does not fulfil the purpose of CTL179, which in the Department of Curriculum, Teaching and Learning is normally conducted on a tutorial basis.

CTL 00 Research Colloquium in Curriculum and Instruction

This course is designed to acquaint students with the elements of teacher development and curriculum research. Reports and discussions by students and staff will provide experience in the selection and evaluation of research problems and procedures in teacher development and curriculum and instruction.

CTL 01 Action Research and Professional Practice

An examination of the different forms of research that make central the practitioner's agenda about his/her practices. Alternatives include action science, action research, participatory research. Emphasis will be placed upon history, ideology, and methods associated with each alternative. Conceptual analysis will be integrated with collaborative research in a field setting.

CTL 02 The Conceptualization of Curriculum Problems

An examination of the process of formulating curriculum problems for study. This includes taking up substantive problem definition and appropriate methodologies for conducting an inquiry. Attention will be paid to assumptions underlying problem and method, and the articulation of the relationship between conceptualization and practice. Students are expected to make seminar presentations of developing thesis ideas.

CTL 03 Advanced Seminar in Language and Learning Theory and Practice

An exploration of the relationships between theory, research findings, and course members' teaching experiences. Course members contribute their teaching experience as a context in which the group discusses ideas drawn as far as possible from original sources read and reported on. The topic, language and learning, cuts across various areas commonly taught in the school curriculum and embraces original work in a number of disciplines—e.g., philosophy, linguistics, psychology, sociology, literary criticism.

Prerequisite: Permission of instructor.

CTL 04 Curriculum Innovation in Teacher Education

This course addresses the content, structure and strategies of recent innovations in preservice teacher education programs. Specific innovations in instruction, field-based activities and school-university relationships are critically examined in relation to changing and sometimes competing conceptions of teaching, learning to teach, and teacher education programs.

CTL 05 Narrative and Story in Research and Professional Practice

A seminar on narrative and story telling in the study of educational experience. Narrative is explored both as a fundamental form of experience and as a collection of methods for the study of experience. Narrative traditions in literary, philosophical, psychological and professional literatures are studied. Review of published theses and dissertations. Students should bring practical research agendas.

VOTE: Students who have previously taken CTL431 are prohibited from taking this course.

Prerequisite: Permission of instructor.

CTL 06 Qualitative Research in Teaching

Critical examination of current qualitative paradigms of research on teaching. The course requires fieldwork research, which serves as the basis for seminar discussions. Students will have the opportunity to develop and present research ideas.

VOTE: Students who have previously taken CTL432 are prohibited from taking this course.

Prerequisite: Permission of instructor.

CTL 07 Alternative Theoretical Perspectives in the Study of Curriculum Practice and Teacher Development

A critical analysis of various theoretical perspectives used in classroom-based curriculum research, including those from psychology, analytic philosophy, sociology, and curriculum theory. These are examined and assessed as they influence problem selection, the nature of resulting knowledge claims, and the relative power and usefulness of personal and professional development for curriculum development. Students are expected to make seminar presentations of developing thesis ideas.

VOTE: Students who have previously taken CTL434 are prohibited from taking this course.

Prerequisite: Permission of instructor.

CTL 2 Professional Ethics of Teaching and Schooling

Current educational literature reflects increasing attention to the practical and philosophical significance of ethical decision-making as a central aspect of the professionalism and accountability of teachers in their role as moral agents. This course will examine, through in part the use of case studies, some of the ethical complexities, dilemmas, and controversial issues that arise within the overall context of the school. It will raise questions about ethical concerns that occur as a result of teachers' daily work with students, colleagues, administrators, and parents. The course will consider the nature of professional ethics in education and associated concepts of the moral climate of schools. It will explore theoretical and empirical knowledge in the field of applied educational ethics and the moral/ethical dimensions of teaching and schooling.

VOTE: Students who have previously taken CTL436 are prohibited from taking this course.

C

CTL 201 Critical Multicultural Analysis of Children's Literature

In this course, we will examine children's and young adult books as cultural products. We will consider the history of under-representation as it's palpable in children's literature what we read as well as critically and multiculturally analyze how we read these texts. Critical signals the imbalance in social power, manifested in class, race and gender relations multicultural acknowledges the diversity in cultural experiences, shaped by historical, social, political, and economic factors analysis will guide our work together.

CTL 202 Arts and Education: Play, Drama and Thought

A study of imagination, play, and dramatic action in relation to human thought and to education and social action. A review of theories is included, with special attention to philosophical and sociological premises. Students undertake selected studies in depth in the research, history, and curriculum applications of play and drama as both a subject and a method.

CTL 203 The Teacher as a Contemplative Practitioner

This course examines the role contemplation can play in teaching. Specifically, the concept of contemplation is explored in relation to reflection, personal narrative, and personal mythology. Students will also examine the thought and biographies of various contemplatives e.g., Emerson, Thoreau, Merton, and Steiner. The course provides opportunities to explore various modes of contemplation. Finally, contemplation will be linked with teaching and how it can allow teaching to become a more fully conscious act.

CTL 204 Gender Issues in Mathematics, Science and Technology

The course will consider topics relevant to the teaching of mathematics, science, and technology with a view to increasing the participation of women in these areas. We will review critically research on gender issues, on approaches to teaching mathematics and sciences, and on psychological and social factors related to the participation of women in mathematics and science.

CTL 205 Research Seminar in Science Education

A critical examination of current theoretical perspectives and research methods in science and technology education. The course is designed for those contemplating a thesis in this area. Participants will have the opportunity to present seminars on their research interests.

CTL 206 Mixed Methods Research in Education: From Inquiry, Qualitative and Quantitative Inquiries

Mixed methods research is drawing increasing attention from educational researchers who see richer data and stronger evidence for knowledge claims than does any single method used alone. This course is aimed to provide both theoretical and practical foundations for mixing different research methods. In this course, students will discuss various conceptualizations and frameworks of the mixed method research including various designs employing both quantitative and qualitative inquiries, sampling strategies, analysis, synthesis, and representation of findings. The students will participate in both collective and independent mixed-method research projects to develop competencies in mixed research methods.

CTL 207 Models and Issues in Program Evaluation

A comparison of evaluation models and a study of related technical issues and topics such as outcome-based evaluation, mixed methods, measurement of change, validity typology, impact assessment, logic modeling, training evaluation, multilevel analysis, cluster evaluation, and meta-analysis and meta-evaluation.

VOTE: Students who have previously taken CTL203 are prohibited from taking this course.

Prerequisite: CTL104 or equivalent, or permission of instructor.

CTL 208 Seminar in Evaluation Problems

A seminar dealing with theories and practical constraints in the implementation of evaluation strategies in field settings.

VOTE: Students who have previously taken CTL201 are prohibited from taking this course.

Prerequisite: CTL104 or equivalent.

VOTE: Practicum CTL2997 and Seminar CTL104 may not both be taken for credit in fulfilling the requirements of the eight half-courses in the Ed.D. program in Evaluation.

CTL 209 Performance Assessment

An examination of the technical issues that arise in using performance assessment in the classroom, in large-scale assessment programs, and in program evaluation. Topics addressed include definition and conceptualization, scoring rubric construction, evidential and consequential validity, generalizability, bias and fairness, comparability, and standard setting.

VOTE: Students who have previously taken CTL202 are prohibited from taking this course.

Prerequisites: CTL102 or equivalent, or permission of instructor.

CTL 210 Critical Ethnography

An ethnography of a community, classroom, event, program sees to describe the set of understandings and specific knowledge shared among participants that guide their behaviour in that specific context. The value of ethnography

as a research method lies in its holistic view of the particular culture, cultural situation or cultural event under study. Critical ethnography is fundamentally concerned with questions of education and inequality. It sees not only to describe conditions of inequality, but also aims towards creating change in the conditions it describes. In this course we will inquire into the concerns of critical ethnography and learn about conducting and writing critical ethnography by reading and discussing studies that explore the relationship between education and ethnicity, gender, class, race and minority languages.

CTL 6. Controversial Issues in Developmental Education

This is an advanced-level doctoral seminar designed to permit students to explore in considerable depth a few currently controversial issues with respect to the role of educational activities and programs in national development, with particular focus on developing nations and developing areas within richer nations. The particular issues chosen for analysis in any given year are selected by the students. Students are expected, through seminar presentations, to identify the key arguments or positions with reference to a controversy of interest to them, and to analyse and evaluate those positions using both relevant theory and available empirical data.

VOTE: Students who have previously taken CTL6 are prohibited from taking this course.

CTL 6. Methodologies for Comparing Educational Systems

This course is designed for prospective or practising researchers who wish to use comparative data in their work. Problems in both the acquisition and the use of such data will be considered. Topics will range from the practical problems of gathering data in a foreign country to the analytic tools available for analysing large volumes of data from many countries. Particular attention will be paid to the special analytical problems faced when using comparative data, and to the use of comparative data to test propositions and to develop theory in education.

VOTE: Students who have previously taken CTL6 are prohibited from taking this course.

CTL 0. Analysis of Instruction

In this doctoral level course, current research about how teachers accommodate diversity will be examined from both quantitative and qualitative paradigms and theoretical perspectives. The focus will be on the elementary and secondary classroom, and on the inclusion of students with special needs, but this focus does not preclude other settings or interests. Students will be encouraged to examine their own epistemological and pedagogical beliefs, to examine the literature critically to make the case for a research agenda and design a study in the field.

CTL 2. Knowledge Building Environments

Knowledge Building Environments have two principal objectives: to upgrade the conceptual quality of what is learned and to increase participants' abilities to monitor, control, and improve their own knowledge. In this course students will examine different approaches to knowledge development and will participate in an online network devoted to advancing designing and use of Knowledge Building Environments.

CTL 22. Seminar in Interactive Media/Graphics

Current research and applications in the use of electronic media in the knowledge building process will be analysed. Specific considerations will relate to human-computer interaction, interface design, design research methodology, and the use of multimedia for knowledge building.

CTL 2. Technology Supported In Situ Learning

Learning edge computer technologies that support in situ knowledge construction will be studied. Implications for mind, education and technology will be examined in addition to the practical applications in schools and other educational settings. Students will have to carry out individual or group projects focused on practical educational applications either using gaming, simulations, augmented reality or dynamic modeling.

CTL 2. Research Issues in Educational Computer Mediated Communication

A critical analysis of the research literature, methods, and findings relating to the use of computer-mediated communication for education. The course is conducted via OSE/TEL's computer conferencing system.

Prerequisite: CTL16 or permission of instructor.

CTL 7. Practicum in Curriculum, Doctoral level

Supervised experience in an area of fieldwork, under the direction of faculty and field personnel.

CTL Individual Learning and Research in Curriculum, Doctoral level

Description as for CTL179

CTL Special Topics in Curriculum, Doctoral level

A course designed to permit the study in a formal class setting of a specific area of curriculum or instruction not already covered in the courses listed for the current year.

This course does not fulfil the purpose of CTL199, which in the Department of Curriculum, Teaching and Learning is normally conducted on a tutorial basis.

Master of Teaching in Elementary and Intermediate Education (MTE)

Program Coordinator

J. Scarfo

Core Faculty

C. Brett, E. Campbell, J. Hewitt, A. Jordan, D. McDougall

The Master of Teaching (M.T.) degree program in Elementary and Intermediate Education is a two-year program of study leading to a Master of Teaching degree. Upon successful completion of this Program, students will be recommended to the Ontario College of Teachers for an **Ontario Teachers Certificate of Qualification** which qualifies them to teach in either the primary and junior divisions or the junior and intermediate divisions of Ontario schools.

The Master of Teaching Program offers students a unique educational opportunity for teacher qualification with advanced theoretical knowledge and research skills. The Program provides students with a strong conceptual grounding in human development, ethics, law, diversity, educational technology, curriculum, teaching, and learning. The high level of academic rigor in conjunction with increased practicum opportunities serves to enhance and extend the theoretical and practical experiences of students preparing to teach.

Program objectives are achieved through a combination of formal coursework, teaching and research seminars, internship and practica, along with independent and collaborative research and major research papers.

Admission Requirements

Applicants are admitted under S.S. general regulations. They must have the equivalent of an appropriate university of Toronto four-year bachelor's degree with standing equivalent to a university of Toronto **mid B or better** in the final year. In their Statement of Intent, applicants should describe three significant teaching and/or teaching-related experiences that they have had, especially with groups of children. With reference to these experiences, applicants should identify insights gained about teaching and learning, and explain how, based on

these insights, they might contribute to the education of students in today's schools. Final selection will be made based on an interview by a panel of faculty, teachers and students. Given the limited number of spaces in this Program, not all eligible applicants can be admitted.

Because applicants are applying to a teacher education program, they also need to submit the following items with their application

- a photocopy of a Canadian birth certificate, or in the case of a person who was not born in Canada, documents showing the basis upon which the applicant is present in Canada including date and place of birth
- a photocopy of a certificate of change of name where applicable

VOTE. A criminal record report is required for certification by the Ontario College of Teachers and is required in both the first and second year of the program.

Concentrations

Applicants must select **one** of the following concentrations

Primary/Junior junior kindergarten to grade 6
Junior/Intermediate grades 4 to 11

Applicants to the junior/intermediate concentration must select **one** teaching subject from the following list

English First Language

Prerequisites Two full university courses in English

French Second Language

Prerequisites Five full university courses in French as well as written and spoken proficiency demonstrated through tests administered at the time of admission

Geography

Prerequisites Two full university courses in geography

Health and Physical Education

Prerequisites No prerequisites are required

History

Prerequisites Two full university courses in history

Mathematics

Prerequisites Two full university courses in Mathematics

Music Instrumental

Prerequisites Two full university courses in instrumental Music or demonstrated proficiency in brass, winds and strings

Music

Prerequisites Two full university courses in Music or appropriate background in Music

Science General

Prerequisites Three full university courses in Science.

VOTE Only Science-General is offered at OSE/UT

Visual Arts

Prerequisites Two full university courses in Visual Arts or post-secondary equivalent. Candidates must have studio-oriented experience.

Degree Requirements

The two-year M.T. degree is composed of the equivalent of 16 half-courses (14 core and 2 electives), including practica, and is undertaken on a full-time basis. Normally, advanced standing is not granted in this program. In addition to the coursework (including practica), all candidates must successfully complete a comprehensive examination at the end of the program of study in order to graduate and receive the M.T. degree and a recommendation to the Ontario College of Teachers for an **Ontario Teachers' Certificate of Qualification**. Registration in the second year is contingent upon successful completion of all first-year work.

First Year Core Courses

- CTL7 Curriculum and Teaching in Literacy
- CTL7 2 Curriculum and Teaching in Mathematics
- CTL7 3 Curriculum and Teaching in Social Studies and Science
- CTL7 4 Practicum in Schools
- CTL7 6 Reflective Teaching and Inquiry into Research in Education
- CTL7 7 Authentic Assessment

Second Year Core Courses

- CTL7 1 Educational Professionalism, Ethics and the Law
- CTL7 Practicum Internship
- CTL7 8 Introduction to Special Education and Adaptive Instruction
- CTL7 9 Anti-Discriminatory Education
- CTL7 10 Issues in Numeracy and Literacy
- CTL7 11 Child and Adolescent Development

Elective Courses

The two electives are normally selected from other graduate courses offered at OSE/UT.

Courses

The following course descriptions are for those courses numbered in the 7000 series.

CTL7000 Curriculum and Teaching in Literacy

An introduction to education techniques and the role of the teacher in implementing, evaluating and designing literacy curricula for students in grades K to 12. Additionally, the course explores methods for curriculum planning and development including practical assessment strategies. This course is normally open only to students in the M.T. in Elementary and Intermediate Education.

CTL7001 Educational Professionalism, Ethics and the Law

This course will enable students to analyze the interrelated legal and ethical conditions that shape the classroom context specifically and educational change generally. The impact of community and collaboration upon the curriculum and the role of the teacher are studied in detail. Topics include leadership theories, the legal context of education, parental participation, and the influence of collegial relationships with students, parents, community, government and social business agencies upon the classroom and the school. This course is normally open only to students in the M.T. in Elementary and Intermediate Education program.

CTL7002 Curriculum and Teaching in Mathematics

An introduction to education techniques and the role of the teacher in implementing, evaluating and designing mathematics curricula for students in grades K to 12. Additionally, the course explores methods for curriculum planning and development including practical assessment strategies. This course is normally open only to students in the M.T. in Elementary and Intermediate Education program.

CTL7003 Curriculum and Teaching in Social Studies and Science

This course examines the conceptual basis underlying teaching methods, problems, and issues related to curricula on social studies and science. This course is normally open only to students in the M.T. in Elementary and Intermediate Education program.

CTL7004 Practicum in Schools

This course provides supervised experience in an area of fieldwork, under the direction of faculty and field personnel. Students are placed in partnership schools in public and separate school systems and in other settings. Students are under the joint supervision of a field teacher on site and an academic staff member at OSE/UT. The practicum provides a minimum of 40 days of field experience. This course is normally open only to students in the M.T. in Elementary and Intermediate Education program.

T 700 Practicum Internship

Students are placed in partnership schools in public and separate school systems and in other settings. Students are under the joint supervision of field teachers on site and an academic staff member at OISE/UT. The practicum provides a minimum of 4 days of field experience as junior staff members within school settings. This course is normally open only to students in the M.T. in Elementary and Intermediate Education program.

T 7006 Reflective Teaching and Inquiry Into Research in Education

This course is designed to develop students' awareness of and reflection about their own professional knowledge, beliefs, values, and skills as emerging teachers in relation to classroom-based and school-based research. The following four broad themes will guide the course in interwoven and complementary ways: 1) the teacher as a reflective professional oriented towards inquiry into educational theory and practice; 2) the teacher as a moral agent who appreciates the ethical demands, complexities, and responsibilities of the role; 3) the teacher as a critical analyst of educational research; 4) the teacher as a practitioner-researcher knowledgeable of conceptual and methodological approaches to the study of teaching and schooling. This course is normally open only to students in the M.T. in Elementary and Intermediate Education program.

T 7007 Authentic Assessment

In this course candidates will formulate a personal policy on student assessment, develop authentic assessment tools appropriate to their teaching assignments, and assess the quality of authentic assessment strategies. Particular attention will be given to performance assessments, portfolios, self-evaluation, cooperative assessment, student beliefs and attitudes toward assessment, measurement of affective outcomes and professional standards for evaluating student assessment practices.

T 700 Introduction to Special Education and Adaptive Instruction

In Ontario, the regular education classroom is currently the placement of choice for students with disabilities. This movement toward inclusive education has occurred for a variety of reasons: legal, educational, moral and philosophical. In this course, we will consider special education from the perspective of the regular classroom teacher. From this perspective, special education is not "special" but is effective teaching that benefits all the students in the class. It is the provision of instruction that is adapted to the diverse needs of the students in the class. Therefore, we will not consider how to identify disabilities, or how to interpret psycho-diagnostic tests to confirm learner difference. Instead we concentrate on how instructional assessment can be used to calibrate instruction to meet the needs of individual students, how to

accommodate learner differences and how collaborate with other professionals to meet the provincial requirements for inclusion of students in teaching, programming and assessment.

T 700 Anti-discriminatory Education

In this course we will identify spaces in which we find discrimination in education - for example, within interactions between teachers and students, administrators and students, students and students, students and the curriculum, teachers and the curriculum, administrators and teachers, teachers and parents, parents and administrators - and we will discuss how we can use these spaces or locate new ones to do anti-discriminatory educational work in school settings. Emphasis in the course will be placed on integrating theory and practice. We will attempt to link our discussions of practice to theory and our discussions of theory to practice.

T 700 Issues in Numeracy and Literacy

In this course, teacher candidates will explore theoretical and current issues in numeracy and literacy spanning kindergarten through grade eight. Integration with other subject areas and course work will be addressed. The experiences in this course are intended to help teacher candidates bridge theory and practice, and articulate personal beliefs and experiences related to literacy and numeracy.

T 700 Child and Adolescent Development

This course addresses issues and developmental changes in children and the factors involved in child development. Infancy, the preschool period, early school years, intermediate years, and adolescence are covered. Clinical and/or educational issues may be covered in this course.

Measurement and Evaluation Program

VOTE This program will be discontinued and is no longer accepting new applicants.

Program Coordinator:

R. J. Wolfe

Core Faculty

R. Childs, J. Wong, T.C.M. Lam, R. J. Wolfe

Students interested in pursuing studies in measurement, evaluation, or quantitative research methodology are encouraged to contact Professor Tony Lam in the Curriculum Studies and Teacher Development Program of the Department of Curriculum, Teaching and Learning or Professors Ruth Childs, J. Wong, or Richard Wolfe in the Developmental Psychology and Education Program of the Department of Human Development and Applied Psychology. Students currently registered in this program will continue to take their required courses with professors either in CTL or in DAP.

The Measurement and Evaluation Program is designed to develop knowledge and skills in quantitative and qualitative methods used in research and in evaluation. For the Master's Degree, the domains covered include the design of research and evaluation studies, the development of instruments and related theory, the collection and analysis of data, and statistical theories and methods. For the Doctoral degree, students are expected to select one of two research areas - Measurement or Evaluation. Measurement is for those interested in quantitative methods and theory, including psychometric and statistical theory. Evaluation is for those interested in the evaluation of programs including a wide range of social and educational programs or in student evaluation including large-scale assessments of student achievement, using both quantitative and qualitative methodologies.

Master of Education

Applicants are accepted under S S general regulations which specify an appropriate four-year university of Toronto bachelor's degree, or its equivalent from a recognized university, completed with standing equivalent

to a university of Toronto **mid B or better** in the final year. The M.Ed. may be undertaken on a full or part-time basis, and consists of eight half-courses plus a research project/paper.

Candidates are ordinarily required to take courses CTL1 41, CTL1 41, CTL1 42 and DP1207. Those who have not studied statistics at least to the level of course DP1207 must take DP1207 as an extra course. Additional study may be required either within the degree program or prior to admission. All requirements for the degree must be completed within six calendar years from first enrollment. See the Minimum Admission and Degree Requirements section for degree requirements, pages 21 - 27.

In the Statement of Intent, applicants should cite the reasons they wish to study measurement and evaluation at the graduate level. The chief academic interests, professional concerns, and career plans within measurement and evaluation should be discussed. The committee reviews this Statement to determine the area of study in which an applicant is most interested.

Master of Arts

Applicants are accepted under S S general regulations. The admission requirement for the M.A. is an appropriate four-year university of Toronto bachelor's degree, or its equivalent, in mathematics, statistics, computer science, or a relevant social or behavioral science, completed with standing equivalent to a university of Toronto **mid B or better** in the final year. Students who anticipate going on to further study at the Ph.D. level are advised to apply for enrollment in an M.A. rather than an M.Ed. The M.A. degree program may be undertaken on a full-time or part-time basis and consists of six to eight half-courses and a thesis.

Students are ordinarily required to take courses CTL1 41, CTL1 41, CTL1 42 and DP1207. Those who have not studied statistics at least to the level of course DP1207 must take DP1207 as an extra course. Additional courses may be required of some candidates.

VOTE Candidates are responsible for meeting deadlines to complete their course requirements, thesis committee formation and ethical review. All requirements for the degree must normally be completed within five calendar years from first enrollment. See the Minimum Admission and Degree Requirements section for degree requirements, pages 21 - 27.

In the Statement of Intent, applicants should cite the reasons they wish to study measurement and evaluation at the graduate level. The chief academic interests, professional concerns, and career plans within measurement and evaluation should be discussed. The committee reviews this Statement to determine the area of study in which an applicant is most interested.

Doctor of Education

The Ed.D. degree program is designed for practicing social service professionals who wish to acquire knowledge and skills at the doctoral level in measurement and evaluation, with emphasis on applying these to research and practice. Applicants will ordinarily have a minimum of three years of relevant professional experience prior to application. A University of Toronto M.Ed. or M.A. in education or its equivalent from a recognized university, in the same area of specialization proposed at the doctoral level, completed with an average grade equivalent to a University of Toronto **B or better** is required. Admission is contingent upon satisfactory completion of a qualifying Research Paper (RP) or a master's thesis. An applicant's admission will be confirmed, however, only when the RP or master's thesis is judged to be of sufficiently high quality to warrant admission.

The Ed.D. program of study normally consists of eight half-courses. Candidates are expected to have taken courses CTL1 4 , CTL1 41 , CTL1 42 and DP12 or their equivalents. Those lacking one or more of these courses are required to take them in addition to the regular doctoral program of study, which must include at least four CTL2-level courses. Students must successfully complete a comprehensive examination. A thesis embodying the results of an original investigation, and a final oral examination on the content and implications of the thesis are also required. The ideal arrangement is for Ed.D. applicants to begin their program of study on a part-time basis. A minimum of one year of full-time study is required.

VOTE. Candidates are responsible for meeting deadlines to complete their course requirements, thesis committee formation and ethical review. All requirements for the degree must be completed within six calendar years from first enrollment. See the Minimum Admission and Degree Requirements section for degree requirements, pages 21 - 27.

In the Statement of Intent, applicants should cite the reasons they wish to study measurement and evaluation at the graduate level. The chief academic interests, professional concerns, and career plans within measurement and evaluation should be discussed. The committee reviews this Statement to determine the area of study in which an applicant is most interested.

Doctor of Philosophy

The Ph.D. degree program emphasizes theoretical concerns of the fields of measurement and evaluation. A University of Toronto M.A. in education or its equivalent from a recognized university, in the same area of specialization proposed at the doctoral level, completed with an average grade equivalent to a University of Toronto **B or better** is required. Admission is contingent upon satisfactory completion of a qualifying Research Paper (RP) or a master's thesis. An applicant's admission will be confirmed, however, only when the RP or master's thesis is judged to be of sufficiently high quality to warrant admission.

The Ph.D. program of study normally consists of six half-courses. Candidates are expected to have taken courses CTL1 4 , CTL1 41 , CTL1 42 and DP12 or their equivalents. Those lacking one or more of these courses are required to take them in addition to the regular doctoral program of study, which must include at least four CTL2-level courses in addition to DP12. Students must successfully complete a comprehensive examination. A thesis embodying the results of an original investigation, and a final oral examination on the content and implications of the thesis are also required. The Ph.D. degree is offered on a full-time basis only. Full-time registration is mandatory until all degree requirements have been completed.

VOTE. Candidates are responsible for meeting deadlines to complete their course requirements, thesis committee formation and ethical review. All requirements for the degree must be completed within six calendar years from first enrollment. See the Minimum Admission and Degree Requirements section for program requirements, pages 21 - 27.

In the Statement of Intent, applicants should cite the reasons they wish to study measurement and evaluation at the graduate level. The chief academic interests, professional concerns, and career plans within measurement and evaluation should be discussed. The committee reviews this Statement to determine the area of study in which an applicant is most interested.

Courses

VOTE. As a result of the discontinuation of the Measurement and Evaluation Program, courses formerly offered through Measurement and Evaluation have been renumbered as CTL 1-level courses and are available through the Curriculum Studies and Teacher Development Program.

Second Language Education Program

Program Coordinator

Ina Spada

Core Faculty

Alister Cumming, Head, Modern Language Centre,
 . Cummins, A. Agn, . Deres, . Labrie, S. Lapin,
 . Spada, M. Swain

Associate Faculty

. Chen-umgardner, Human Development and Applied Psychology
 R. Childs, Human Development and Applied Psychology
 E. Ieva, Human Development and Applied Psychology
 M. Keller, Sociology and Equity Studies in Education
 R. Kelms-Par, Division of Humanities, University of Toronto at Scarborough
 E. King, Curriculum, Teaching and Learning
 . Johnson, Department of East Asian Studies
 . Steele, Department of French Studies

Studies in Second Language Education (SLE) focus on curriculum, instruction, learning, and policies for education in second, foreign, and minority languages, particularly in reference to English and French in Canada but also other languages and settings, including studies of language learning, methodology and organization of classroom instruction, language education policies and planning, and student and program evaluation as well as issues related to bilingualism, multilingualism, cultural diversity, and literacy. The Second Language Education Program links with resources and research in the Modern Language Centre, where most of the faculty are located. The Modern Language Centre Resource Collection and the Collection Franco-Ontarienne are located in the OSE/TE Education Commons.

The Program offers three degrees: the M.Ed., M.A. and Ph.D. The requirements described below apply to students beginning in 1998 and thereafter students previously registered in the Program follow regulations describing Second Language Education as a specialization within the Curriculum Program in versions of the OSE/TE *Bulletin* prior to 1998.

Master of Education

Applicants are accepted under SLE's general regulations, which specify an appropriate four-year university of Toronto bachelor's degree or its equivalent from a recognized university, completed with an academic standing equivalent to a university of Toronto **mid B or better** in the final year. Ordinarily, applicants should have teacher certification and at least one year of relevant successful professional experience prior to applying. All applicants are required to submit a résumé and a Statement of Intent describing their reasons for wishing to take the Program, previous qualifications and professional experiences, particular research or professional interests, and future career goals.

The M.Ed. offers two programs of study

Option II consists of eight half-courses plus a major research paper (MRP)

Option I consists of ten half-courses only

In both Options students must take a minimum of four CTL3-level half-courses within the SLE Program. One of the courses must be either CTL3 - Foundations of Bilingual and Multicultural Education or CTL3 2 - Methodology and Organization of Language Teaching. The M.Ed. program of study may be taken on a full or part-time basis. All requirements for the degree must be completed within six calendar years from first enrollment. See the Minimum Admission and Degree Requirements section for degree requirements, pages 21 - 27.

Master of Arts

Applicants are accepted under SLE's general regulations. Admission requires an appropriate four-year university of Toronto bachelor's degree, or its equivalent, in a relevant discipline or professional program, completed with standing equivalent to a university of Toronto **mid B or better** in the final year. Ordinarily, applicants should have teacher certification and at least one year of relevant successful professional experience prior to applying. Enrollment in the M.A. rather than the M.Ed. degree program is advisable for students expecting to pursue a doctorate in the future. All applicants are required to submit a résumé and a Statement of Intent describing their reasons for wishing to take the program, previous qualifications and professional experiences, particular research or professional interests, and future career goals.

The M.A. program of study may be undertaken on a full-time or part-time basis and consists of eight half-courses and a thesis. **Part-time students are expected to be available to take CTL3001 during day-time hours (usually Friday afternoons).** Students must take a minimum of four CTL3-level half-courses within the SLE Program. Courses must include CTL3 1 - Research Colloquium in Second Language

Education, Master's Level RM plus a course in research methods relevant to the topic of the thesis. Any of the following courses can fulfill this requirement

CTL1 18, CTL1 3, CTL1 41, CTL13 6, CTL13 1, CTL3 19, CTL3 2, CTL3 3, CTL3 7, AEC14, DP127, DP128, SES19.

A student wishing to propose an alternative course to fulfill one of the SLE course requirements, will be required to obtain the approval of both the SLE Program coordinator and either their faculty advisor or thesis supervisor.

VOTE Candidates are responsible for meeting deadlines to complete their course requirements, thesis committee formation and ethical review. All requirements for the degree must normally be completed within five calendar years from first enrollment. See the Minimum Admission and Degree Requirements section for degree requirements, pages 21 - 27.

Doctor of Philosophy

Individuals pursuing the Ph.D. typically wish to be university professors in this field. The Second Language Education program offers both a full-time and flexible-time Ph.D. option. Applicants must declare the options for which they are interested in applying.

Full time Ph.D. Option

Applicants are accepted under S.S. general regulations. A university of Toronto Master's degree, or its equivalent from a recognized university, completed with an average grade equivalent to a university of Toronto B or better is required. Admission is contingent upon satisfactory completion of a master's thesis, or the equivalent in the form of a scholarly piece of writing. Ordinarily, applicants will have a minimum of two years relevant professional experience prior to applying. All applicants are required to submit a résumé and a Statement of Intent describing their reasons for wishing to take the Program, previous qualifications and professional experiences, particular research or professional interests, and future career goals. If the applicant has not completed a thesis, then a sample of single-authored scholarly writing must be submitted with the application.

Flexible time Ph.D. Option

Applicants to the flexible-time Ph.D. option are accepted under S.S. general regulations and are subject to the same admission requirements as applicants to the full-time Ph.D. option. However, in addition, applicants to the flexible-time Ph.D. option must include in their statement of intent the outline of a plan that demonstrates the following: a) that the applicant is in a career related to the field of study b) the applicant has 3 or more years with

the same employer c) a need and desire to continue with current career path d) the capacity to secure blocks of time to enable concentrated study e.g. reference to the employer's leave policy, study incentive system, etc.

Full-time Ph.D. students must complete their degree requirements within six years. Students in the flexible-time Ph.D. option must complete their degree requirements within eight years. Degree requirements for both programs are the same. The Ph.D. involves six to eight half-courses depending on previous experience and academic qualifications, comprehensive examinations and a thesis embodying the results of an original investigation, and a final oral examination on the content and implications of the thesis. Students must take a minimum of four CTL 3-level half-courses within the SLE Program. Students are required to take CTL 301 - Research Colloquium in Second Language Education, Doctoral Level unless they have previously taken CTL 301 - Research Colloquium in Second Language Education, Master's Level RM, as well a research methods course relevant to the topic of the thesis. Any of the following courses can fulfill this requirement CTL1 18, CTL1 3, CTL1 41, CTL13 6, CTL13 1, CTL3 19, CTL3 2, CTL3 3, CTL3 7, AEC14, DP127, DP128, SES19.

A student wishing to propose an alternative course to fulfill one of the SLE course requirements, will be required to obtain the approval of the SLE Program coordinator and either their faculty advisor or thesis supervisor.

For the full-time Ph.D., a minimum of two consecutive years of full-time study are required at the beginning of the Program, during which time students usually complete course requirements, pass the comprehensive examination, prepare a thesis proposal and form a thesis committee. For the flexible-time Ph.D. program option, a minimum residency of four years of full-time registration is required at the beginning of the program, during which time, candidates are responsible for meeting deadlines to complete course requirements, the comprehensive examination, prepare a thesis proposal and form a thesis committee. Candidates may apply for part-time status after this four year residency.

Doctor of Education

VOTE The Doctor of Education degree was discontinued in 2002 and is only available to students currently registered in the program.

The Ed.D. ordinarily involves eight half-courses depending on previous experience and academic qualifications, comprehensive examinations and a thesis embodying the results of an original investigation, and a final oral examination on the content and implications of

the thesis. Students must take a minimum of four half-courses within the SLE Program. Students are required to take CTL3 1 - Research Colloquium in Second Language Education, Doctoral Level unless they have previously taken CTL3 1 - Research Colloquium in Second Language Education, Master's Level RM as well as a research methods course relevant to the topic of the thesis. Any of the following courses can fulfill this requirement: CTL1 1 , CTL1 3 , CTL1 41 , CTL13 6 , CTL1 1 , CTL3 19 , CTL3 1 , CTL3 3 , CTL3 7 , AEC14 , DP12 7 , DP12 1 , SES19 .

A student wishing to propose an alternative course to fulfill one of the SLE course requirements will be required to obtain the approval of both the SLE Program coordinator and either their faculty advisor or thesis supervisor. The Ed.D. requires a minimum of two consecutive sessions i.e., one academic year of full-time study at some point during the program of study.

VOTE. Candidates are responsible for meeting deadlines to complete their course requirements, thesis committee formation and ethical review. All requirements for the degree must be completed within six calendar years from first enrollment. See the Minimum Admission and Degree Requirements section for degree requirements, pages 21 - 27.

VOTE. Other courses may be taken in other programs in the Department of Curriculum, Teaching and Learning or other Departments at OSE/ T in the Departments of Linguistics Anthropology or in language departments at the university.

Courses

The following is a list of courses offered within the Second Language Education Program. Not all of the courses listed are offered in any given year.

EDUC 000 Foundations of Bilingual and Multicultural Education

Foundation course for the Second Language Education Program, also open to students from other programs. The course is offered for students particularly concerned with issues of second language instruction, education for minority populations, and pluralism in education, defined in terms of language, culture including religion, or ethno-racial origin. The emphasis is on study of major foundational writings that have shaped current thinking about these topics and on deriving implications for reflective teaching practice.

EDUC 001 Research Colloquium in Second Language Education Master's level

This colloquium provides opportunities to become familiar with ongoing research, research methodologies, and curriculum activities in second-language learning and teaching.

EDUC 002 Methodology and Organization of Second Language Teaching

This course deals with the second-language curriculum objectives, content, materials, procedures, and evaluation. Also discussed is the organization of language teaching from preschool to adult education, including planning and teacher education.

EDUC 003 Language Awareness and its Role in Teacher Development

The language awareness movement is based on the belief that a place should be found in the curriculum for exploring the nature of language its rule-governed structure, its variety and its universal characteristics, the way it is acquired by native speakers and second language learners, its role in society, and its role in creating, sustaining, and enhancing power. The aim of the course is to consider i language awareness in first, second, and foreign language education ii the special need for language awareness in L2 contexts and iii the role of language awareness in teacher development.

EDUC 004 Current Issues in Second Language Education

This course will consider topics relevant to the teaching of English as a second language and English as a foreign language. The course will not be designed as a series of lectures, but as a workshop based on the professional and research interests of the students in the group. Specific topics will vary depending on the students' interests, but will normally include curriculum planning and syllabus design, classroom-oriented research, the teaching of reading, writing, and oral communication skills, error analysis, pedagogic grammar, and testing.

EDUC 007 Seminaire sur le langage et la communication

Ce cours a pour but d'explorer une conception large du langage et de la communication basée sur le discours et l'analyse du discours. Les interactions humaines et sociales se construisent en grande partie au moyen du discours, à travers sa production, sa circulation, sa diffusion, sa légitimation, sa valorisation, sa consignation, sa mise en archives. Deux modes principaux permettent sa production: la parole et l'écrit. La parole inclut divers types d'activités, telles que l'expression verbale, la conversation, l'interaction verbale, tandis que l'écrit suppose la production de textes de divers genres. Dans les sciences humaines et sociales, le discours constitue la fois un mode d'accès à la connaissance et un contenu académique. En guise d'illustration, nous examinerons diverses applications de l'analyse de discours, en particulier lorsqu'il s'agit de comprendre la production discursive dans l'exercice d'activités de travail ou dans la construction de l'identité collective en contexte pluraliste.

T 007 Seminar in Language and Communication

A general introduction to language and communication, focusing on those current theories that have practical significance for first- and second-language education. More precisely, this seminar focuses on discourse and discourse analysis, and their application to the field of second language education. We will review various trends in discourse analysis, such as pragmatics, ethnomethodology, conversational analysis, interactional analysis, critical discourse analysis, and we will pay special attention to their application to second language education. We will consider language and discourse from the perspective of political economy and the construction of identities. Special attention will also be paid to gender, gender performance and sexuality as identity constructs, as these are interrelated with language use and language acquisition.

T 00 Critical Pedagogy, Language and Cultural Diversity

Linguistic and cultural diversity have always characterized human societies and have usually played a central role in mediating power relations between dominant and subordinate groups. In recent years, theorists working within the framework of Critical Pedagogy have begun to describe how societal power relations are manifested in schools both through interpersonal interactions and the hidden curriculum. In particular, theory has focused on how language use and language learning interact with dimensions such as class, race, ethnicity, and gender in mediating power relations within the educational system. The course will focus on this body of theory and research and explore its applications to current educational issues related to minority students in both Canadian and international contexts.

C

T 00 Second Language Learning

This course examines theories and research in second language L2 acquisition, including cognitive, linguistic, social, biological and affective variables that account for relative success in L2 learning. The role of instruction in L2 learning is also discussed.

T 0 Bilingualism and Education

Ce cours a pour but de familiariser les étudiants avec les théories sur le bilinguisme et avec les méthodes de recherche qui ont été développées pour en traiter, de façon à pouvoir prendre en compte ces connaissances dans la recherche, l'enseignement ou le développement de matériel pédagogique, que ce soit en milieu bilingue ou plurilingue, ou en rapport avec l'enseignement des langues. Il porte plus particulièrement sur l'individu faisant l'acquisition ou ayant recours à deux ou plusieurs langues. Il aborde également la question du bilinguisme sur le plan des interactions langagières au sein de communautés linguistiques, comme la famille, la ville, ou le monde du travail.

T 0 Bilingual Education and Bilingualism

This course will examine bilingual education in its many forms. Particular emphasis will be placed on research questions and findings related to bilingual education in Canada - for English Canadians, French Canadians, immigrant populations, and native peoples. Issues such as the effects of bilingualism on cognitive functioning, psycholinguistic abilities, and personality will also be explored.

T 0 Evaluation de la compétence langagière

Ce cours fournit une introduction à cinq domaines de l'évaluation langagière des langues premières et secondes : la compréhension auditive, la compréhension de la lecture, l'interaction orale, l'expression écrite et la compétence langagière en général. L'intérieur de chacun de ces domaines, les principaux instruments de mesure, l'usage approprié de ces instruments, et les questions clés sont étudiés. L'évaluation langagière en milieu minoritaire est un thème qui sera examiné plus particulièrement.

T 0 Second Language Assessment

This course provides an overview of current practices and problematic issues in language assessment. Topics include approaches commonly taken to developing and using language assessment instruments and procedures, their evaluation, and their applications in specific educational contexts.

C

T 0 Seminar in Second Language Literacy Education

A seminar to examine research on literacy education in second, foreign, or minority languages in subject or medium of instruction programs. Psychological and social perspectives are explored in relation to commonalities among and differences between second-language teaching in various world contexts.

C

C

T 0 Language Planning and Policy

The study of language politics, language planning and policy-making is a relatively recent field focusing on how social groups, governments, and other bodies, are getting involved in language issues, such as language teaching. There are few countries in the world today where language does not give rise to political debates. The state is frequently involved in the way decisions are taken about the languages to be used and promoted in various domains of public life e.g. education, justice, the media and even about what counts as a language. This course aims at providing some understanding of work conducted in this field, the way in which they are developing and the problems they face. Methodologically, one way to look at such issues is by considering language politics as discourse. This course will emphasize practical examples of language planning and policy issues drawn from Canada and other countries, and there will be scope for

students to nominate examples, topics or case studies for class consideration. The course is suitable for students interested in the wider policy contexts in Canada and overseas of language education and language issues.

T 0 Sociolinguistic and Applied Linguistics

This course has the objective of better understanding of how human interventions are realized in linguistic dynamics. We will examine in particular on which linguistic and political bases we build linguistic policies, what are the components and the main stakes, and of how linguistic policies are perceived in social practices. Linguistics should allow a better understanding of the context in which it is proper, of how to harmonize the relations between, on the one hand, the languages of the school, the language of instruction and the second languages or foreign languages, and on the other hand, the linguistic reality of students, including first of all their first language which may correspond to the dominant language, a minority language, a language of origin or a native language, and, in a second step, their linguistic practices around bilingualism, the dominance of language, the alternance and the mix of codes.

T 0 Research Themes in Canadian French as a Second Language Education

The last thirty-five years have seen extensive research in FSL education in Canada, largely as a result of the advent of immersion programs. The course will attempt a state-of-the-art assessment of research issues spanning aspects of program design, evaluation, and implementation of all forms of FSL education with particular attention being given to research methods core, extended, immersion, and adult FSL.

T 020 Writing in a Second Language

This course focuses on second-language writing, with special attention to relations between research, theory, and practice. Topics include text, psychological and social models of second-language writing instruction and learning, ways of responding to student writing, and techniques for evaluating writing.

C

T 02 Federal Grammar of French

This course offers FSL teachers the opportunity to deepen their understanding of the French language system, and to consider what teaching strategies and techniques can facilitate their students' learning of the language system without compromising the important emphasis on the experiential use of the language. French grammar is broadly defined to include aspects of the sound system, vocabulary, syntax and discourse oral and written.

T 02 Sociolinguistic of Canadian French

This course has the objective of familiarizing students with the main characteristics of Canadian French. It starts by retracing the origins and the historical evolution, then deals with the main features, from the lexical, phonetic, morphosyntactic and discursive. We will also examine in addition some sociolinguistic phenomena surrounding the construction of the norm and linguistic diversity. This course also aims at a practical initiation to sociolinguistic research applied to Canadian French and a reflection on its pedagogical implications.

T 02. Second Language Teacher Education

In this course the many dimensions of second and foreign language teacher education will be explored. The course will focus on four main areas including 1) the foundations of second language teacher education, 2) initial teacher preparation, 3) in-service education and on-going professional development as well as 4) activities and procedures for second language teacher education. Consideration will be given to the specific needs of different types of second language teachers working in either traditional or non-traditional learning environments with learners of different ages. The implications of responding to these diverse needs for second language teacher education will also be explored.

T 7.7 Practicum in Second Language Education Master's level

An individualized course linking research and theory in SLE with practical fieldwork supervised by a professor. Credit is not given for the fieldwork per se, but rather for the academic work related to it. Academic assignments related to the fieldwork are established collaboratively between the student and professor supervising the course, and evaluated accordingly, in a manner similar to an individual reading and research course (e.g., CTL 399). A student wishing to propose a Practicum course must prepare a rationale, syllabus, and bibliography for the course, and obtain the written approval of a supervising professor and of the graduate coordinator in SLE one month prior to the start of the academic term in which the course is to begin.

T 7. Individual Reading and Research in Second Language Education Master's level

Specialized study, under the direction of a staff member, focusing on topics of particular interest to the student. While course credit is not given for a thesis investigation proper, the study may be closely related to a thesis topic. A student wishing to propose an individual Reading and Research course must prepare a rationale, syllabus, and bibliography for the course, and obtain the written approval of a supervising professor and of the graduate coordinator in SLE one month prior to the start of the academic term in which the course is to begin.

CTL 7: Special Topics in Second Language Education Master's level

A course designed to permit the study in a formal class setting of specific areas of second language education not already covered in the courses listed for the current year. This course does not fulfil the purpose of CTL379, which is normally conducted on a tutorial basis.

CTL 00: Second Language Classroom Research

The research on second-language teaching and learning in classrooms will be examined critically. Theoretical issues, research methodology, and substantive findings will be discussed with a view to implications for the conduct of future research, research directions, and teaching practices in second-language classrooms.

CTL 0: Research Colloquium in Second Language Education Doctoral level

This colloquium provides opportunities for students to learn about ongoing research in Second Language Education and to pursue the study of a research area of interest to them.

CTL 0: Ethnographic Research in the Second Language Disciplines

The goal and main assignment of this course is the development of a draft thesis proposal for doctoral research in first or second language topics. Ethnographic research covers all those methods of inquiry typically used in qualitative research, such as interviews, content analysis, focus groups, discourse analysis, triangulation, questionnaires, observation studies, and case studies. It also covers the broad approaches to research that use these methods: classical ethnography, ethnography of communication, and critical ethnography. Participants will be free to concentrate on methods that interest them and to mix methods according to need.

CTL 0: Aspects of Second Language Acquisition

This course provides an in-depth examination of research on specific aspects of second-language acquisition and explores the relevance of this research for second-language teaching practice.

CTL 06: Sociocultural Theory and Second Language Learning

This course will examine aspects of second language learning (SLL) from the perspective of a sociocultural theory of mind. Key concepts from sociocultural theory, for example: zone of proximal development (ZPD), scaffolding, private speech, and mediation will be considered as they relate to SLL. Relevant writings of Vygotsky, Leontiev, Cole, Donato, Lantolf, van Lier, Wertsch and others will be read in depth.

CTL 07: Processing Second Language Data [

For thesis students (M.A., Ph.D., or Ed.D.) preparing to do empirical research on second language learning, instruction, and/or curriculum, this course reviews and provides experience with relevant techniques for data collection (e.g. focus groups, interviewing, verbal reports, observation,

discourse analysis, questionnaires, tests, data analyses (e.g., coding, profiling, summarizing, reliability and verification checks, validation), and addressing ethical issues in research with humans.

C

CTL 0: The Role of Instruction in Second Language Learning

This course examines theory and research on the role of instruction in second language acquisition. The central issues to be addressed are the extent to which different types of instructional input and corrective feedback contribute to second language acquisition (SLA). The extent to which different language features and proficiency levels interact with instructional input is also examined alongside other learner and teacher variables.

CTL 0: Research Seminar in Sociocultural Theory and Second Language Learning

This course is an advanced seminar intended for students who are conducting second language learning research within a sociocultural theory (SCT) of mind framework. It will support students in developing their research ideas into a thesis proposal by analysing, coding and interpreting their data and working through the conclusions and implications of the results of their research. The topics covered will include SCT and its incommensurability with other theories, dynamic assessment, identity, agency, inner speech, private speech, play, classroom-based research, collaborative dialogue, genetic analysis, mediation, internalization, PD, etc.

CTL 7: Practicum in Second Language Education Doctoral level

An individualized course linking research and theory in SLE with practical fieldwork supervised by a professor. Credit is not given for the fieldwork per se, but rather for the academic work related to it. Academic assignments related to the fieldwork are established collaboratively between the student and professor supervising the course, and evaluated accordingly, in a manner similar to an individual reading and research course (e.g., CTL 399). A student wishing to propose a Practicum course must prepare a rationale, syllabus, and bibliography for the course, and obtain the written approval of a supervising professor and of the graduate coordinator in SLE one month prior to the start of the academic term in which the course is to begin.

CTL 7: Individual Reading and Research in Second Language Education Doctoral level

Specialized study, under the direction of a staff member, focusing on topics of particular interest to the student. While course credit is not given for a thesis investigation proper, the study may be closely related to a thesis topic. A student wishing to propose an individual Reading and Research course must prepare a rationale, syllabus, and bibliography for the course, and obtain the written approval of a supervising professor and of the graduate coordinator in SLE one month prior to the start of the academic term in which the course is to begin.

Special Topics in Second Language Education - Doctoral level

A course designed to permit the study in a formal class setting of specific areas of second language education not already covered in the courses listed for the current year. This course does not fulfil the purpose of CTL3998, which is normally conducted on a tutorial basis.

Year 2 - Reading in a Second Language

This course will provide the student with a better understanding of current issues in reading in a second language L2 by focusing on theoretical and practical questions. Theories and research on reading in a first language L1 will be examined for their relevance to reading comprehension in L2. A cognitive developmental approach will be used to examine the applicability of research findings on topics such as background knowledge text structure comprehension strategies study strategies cultural differences and reading in various content areas. Students will be encouraged to develop their own research questions and to apply these to practical L2 reading contexts.

Year 2 - Language Culture and Education

Le lien entre l'usage linguistique, les rapports sociaux, la culture et l'éducation, l'intérieur comme l'extérieur des écoles, sera examiné selon l'approche anthropologique de l'ethnographie de la communication. La première partie du cours sera consacrée à l'étude des caractéristiques et des origines des différences culturelles dans la façon de s'exprimer l'oral et l'écrit, et de même que le comportement adopté dans l'interaction sociale. La deuxième partie sera consacrée au lien entre ces différences culturelles, le rendement académique, le développement linguistique des élèves en situation multilingue/multiculturelle et les notions de pouvoir et d'inégalité. Finalement, nous examinerons l'utilité de l'approche ethnographique comme méthodologie de recherche et comme outil ou méthode pédagogique. Le cadre théorique et méthodologique établi dans ce cours servira l'examen des problèmes de l'éducation francophone.

Year 2 - Language Culture and Education

The anthropological perspective of the ethnography of communication will be adopted to study the relationship between language use, social relations, culture and learning in and out of schools. The course will deal with the nature and origin of cultural differences in language use and patterns and social interactional styles with the consequences of those differences for school performance and with the usefulness of the ethnography of communication as both a research and a pedagogical tool in the development of curricula and teaching practices that account for such differences. The ethnography of communication will also be interpreted in the light of political economic perspectives on the issue of sociolinguistic diversity and educational success.

Teacher Development Program

VOTE: This program is discontinued and is no longer accepting new applicants

In September 2015, the Curriculum Studies and Teacher Development Program assumed responsibility for offering a range of courses in teacher development. Students interested in this area of research should apply to the Curriculum Studies and Teacher Development Program. Students currently registered in Teacher Development will continue to take their courses, although these will now be offered through the Curriculum Studies and Teacher Development Program. The Centre for Teacher Development will continue to support teacher development research through the faculty and students associated with it.

Studies in Teacher Development focus on the personal, collaborative and organizational experiences of teachers throughout their careers. Areas of interest are teacher knowledge, teacher identity, teacher beliefs and practices, teacher inquiry, or teacher learning classroom and school improvement, teacher leadership, preservice and inservice education, or teacher politics holistic approaches to teaching and teacher development and equity and gender matters in teaching, cultural dimensions of teachers' lives, or the changing social and political context of teachers in society. The Centre for Teacher Development examines knowledge and supports research related to each of these areas.

Master of Education

This degree is designed for practicing educators who wish to apply knowledge and skills in teacher development to the improvement of educational practice. Applicants are accepted under S.S. general regulations, which specify an appropriate four-year university of Toronto bachelor's degree or its equivalent from a recognized university, completed with an academic standing equivalent to a

University of Toronto **mid B or better** in the final year. One year of professional education for teaching, or the equivalent in pedagogical content, is recommended. Ordinarily, applicants will have at least one year of relevant, successful, professional experience prior to applying. Such experience may include teaching in settings other than schools for example in nursing and other professional teaching programs.

The M.Ed. program of study consists of eight half-courses, four of which are normally undertaken in the program, plus a major research paper (MRP), and may be taken on a full or part-time basis. Additional study may be required either within the degree program or prior to admission. All requirements for the degree must be completed within six calendar years from first enrollment. See the Minimum Admission and Degree Requirements section for degree requirements, pages 21 - 27.

Master of Arts

This degree is designed to provide academic study and research training related to teacher development. Applicants are accepted under S S general regulations. Admission normally requires an appropriate four-year University of Toronto bachelor's degree, or its equivalent, in a relevant discipline or professional program, completed with standing equivalent to a University of Toronto **mid B or better** in the final year. Ordinarily, applicants will have at least one year of relevant, successful, professional experience prior to applying. Such experience may include teaching in settings other than schools for example in nursing and other professional teaching programs. Students who anticipate going on to further study at the Ph.D. level are advised to apply for enrollment in an M.A. rather than an M.Ed. degree program.

The M.A. program of study may be undertaken on a full-time or part-time basis and consists of eight half-courses, four of which are normally undertaken in the program, and a thesis. Additional courses may be required of some applicants.

VOTE Candidates are responsible for meeting deadlines to complete their course requirements, thesis committee formation and ethical review. All requirements for the degree must normally be completed within five calendar years from first enrollment. See the Minimum Admission and Degree Requirements section for degree requirements, pages 21 - 27.

Doctor of Education

Applicants are accepted under S S general regulations. A University of Toronto M.Ed. or M.A. in education or its equivalent from a recognized university, in the same area of specialization proposed at the doctoral level, completed with an average grade equivalent to a University of Toronto **B or better** is required. Further documentation may be required to establish equivalence.

Applicants will ordinarily have a minimum of three years professional experience in education prior to applying. Admission is contingent upon satisfactory completion of a qualifying Research Paper (RP) or a master's thesis. An applicant's admission will be confirmed, however, only when the RP or master's thesis is judged to be of sufficiently high quality to warrant admission.

The Ed.D. program of study normally consists of eight half-courses, four of which normally are undertaken in the program. Additional courses may be required of some candidates, depending on previous experience and academic qualifications. Students must successfully complete a comprehensive examination. A thesis embodying the results of an original investigation, and a final oral examination on the content and implications of the thesis are also required. The Ed.D. program of study includes a minimum of one year of full-time study, but, may be initiated on a full-time or part-time basis.

VOTE Candidates are responsible for meeting deadlines to complete their course requirements, thesis committee formation and ethical review. All requirements for the degree must be completed within six calendar years from first enrollment. See the Minimum Admission and Degree Requirements section for degree requirements, pages 21 - 27.

Doctor of Philosophy

Applicants are admitted under S S general regulations. A University of Toronto master's degree in education or its equivalent from a recognized university, in the same area of specialization proposed at the doctoral level, completed with an average grade equivalent to a University of Toronto **B or better** is required. Further documentation may be required to establish equivalence. Applicants will ordinarily have a minimum of two years professional experience prior to applying. Admission is contingent upon satisfactory completion of a qualifying Research Paper (RP) or a master's thesis. A candidate's admission will be confirmed, however, only when the RP or master's thesis is judged to be of sufficiently high quality to warrant admission.

The Ph.D. program of study normally consists of six half-courses, four of which normally are undertaken in the program. Additional courses may be required of some candidates, depending on previous experience and

academic qualifications. Students must successfully complete a comprehensive examination. In addition, a thesis embodying the results of an original investigation, and a final oral examination on the content and implications of the thesis are required. The Ph.D. degree is offered on a full-time basis only. Full-time registration is mandatory until all degree requirements have been completed.

VOTE. Candidates are responsible for meeting deadlines to complete their course requirements, thesis committee formation and ethical review. All requirements for the degree must be completed within six calendar years from first enrollment. See the Minimum Admission and Degree Requirements section for degree requirements, pages 21 - 27.

Courses

VOTE. As a result of the merger of the Teacher Development Program and the Curriculum Program, Teacher Development courses have been renumbered as CTL1 -level courses and are now being offered through the CTL Curriculum Studies and Teacher Development Program pages 68 - 73.

Collaborative Graduate Degree Programs

The department of Curriculum, Teaching and Learning participates in the following Collaborative Graduate Degree Programs.

Comparative, International and Development Education CDE
Environmental Studies discontinued see page 98
Graduate Collaborative Program in Women's Studies CWS

Additional information is available in the Collaborative Graduate Degree Programs section of this *Bulletin* pages 17 - 178 and the *School of Graduate Studies Calendar*.

Comparative International and Development Education

Contact

Sylvia Macrae, Program Advisor
Website cidedevelopment.utoronto.ca
E-mail cide@oise.utoronto.ca

Participating Faculty

In addition to J.P. Farrell, J. Feuerverger, A. Cumming and S. Iyof

The Collaborative Program in Comparative, International and Development Education CDE is jointly offered at the M.Ed., M.A., Ed.D. and Ph.D. levels in the Departments of the Adult Education and Counselling Psychology Curriculum, Teaching and Learning Sociology and Equity Studies in Education and Theory and Policy Studies in Education. Students enrolled in any of the four collaborating departments receive a notation on their transcript identifying their specialization in Comparative, International and Development Education.

The CDE program will be of interest to Canadian students who wish to work and live in other cultures or want to better understand the educational and social systems of the many learners in Canada's multicultural society. It will also be of interest to international students who wish to relate their studies at OSE/UT directly to their own societies and learning systems.

Prospective applicants should review the detailed information about the CDE program available in the **Collaborative Graduate Degree Programs** section on pages 172 - 177 of this *Bulletin* and on the CDE Website at www.utoronto.ca/~cde. You are strongly advised to contact one of the participating CDE faculty members listed above, to discuss your research interests and goals. You should also review the information provided in the **School of Graduate Studies Calendar**.

Courses

The following is a list of courses offered by the department of Curriculum, Teaching and Learning that are accepted for credit by CDE. Not all of the courses listed are offered in any given year. Students should also see course lists under the **Collaborative Graduate Degree Programs** section of this *Bulletin* pages 172 - 177. Full descriptions for the following seven courses can be found earlier in the CTL section.

- CTL1 37 Comparative and Cross-Cultural Perspectives
- CTL1 6 Education and Social Development
- CTL1312 Democratic Citizenship Education
- CTL1316 Global Education Theory and Practice
- CTL1318 Teaching Conflict and Conflict Resolution
- CTL1363 Controversial Issues in Development Education
- CTL1364 Methodologies for Comparing Educational Systems RM
- CTL3 8 Critical Pedagogy, Language and Cultural Diversity
- CTL3 1 Seminar in Second Language Literacy Education
- CTL3 18 Language, Policy and Planning

Environmental Studies

Collaborative Program

NOTE: CTL has discontinued its participation in the M.Ed./M.A./Ed.D./Ph.D. Collaborative Program in Environmental Studies but will ensure that all students enrolled in the program will be able to complete the necessary program requirements.

The Department of Curriculum, Teaching and Learning is one of several of T departments to collaborate with the Centre for Environment to offer M.Ed., M.A., Ed.D. and Ph.D. degree programs. Typically, between two and four courses are chosen from the graduate courses listed with the Centre for Environment.

Internships for students are sometimes available through the Centre for Environment. Interested students should forward an application to both the CTL Department and the Centre for Environment.

Additional information is available in the Collaborative Graduate Degree Programs section page 17, or the **School of Graduate Studies Calendar**, or contact Donna Worman, ES Graduate Student Advisor

Graduate Collaborative Program in Women's Studies (GWS)

The Department of Curriculum, Teaching and Learning is one of 2 University of Toronto departments which participate in the Graduate Collaborative Program in Women's Studies (CWS), offering M.Ed., M.A., Ed.D. and Ph.D. degree programs. The CWS provides a formal educational opportunity for qualification in the field of women's studies through the pursuit of original interdisciplinary research in women's and gender studies and advanced feminist scholarship.

The Program provides a central coordinating structure to facilitate and disseminate women's studies research through student and faculty research seminars, colloquia, circulation of work in progress, study groups, conferences, and publications.

Courses of particular interest include

- CTL1 11 Anti-Discriminatory Education in School Settings
- CTL1 12 Curriculum for Girls and Young Women: Historical and Contemporary Issues
- CTL11 1 Arts and Education Practice and Theory
- CTL13 9 Les stereotypes sexuels dans les programmes scolaires
- CTL131 Feminist Theory, Identity Politics and Contemporary Educational Thought
- CTL1311 Gender, Education and Nationhood: An International Feminist Dialogue

- CTL1312 Democratic Citizenship Education
- CTL1313 Gender Equity in the Classroom
- CTL1314 Gender Issues in Mathematics, Science, and Technology
- CTL1351 Critical Ethnography RM
- CTL1999 Special Topics in Curriculum Doctoral Level
User Theories, Studies and Curriculum

All programs of study should be planned in consultation with Tara Goldstein, program advisor in the CTL Department, and with the CWS Coordinator of Graduate Studies. Further information is also available on page 176 and from the *School of Graduate Studies Calendar*.

Graduate Collaborative Program in Knowledge Media Design (KMD)

Director Andrew Clement
 Coordinator Barbara Soren
 Administrative Assistant Christina Parker
 Location Shen Centre for Information Technology, 4
 St. George St., 7th Floor
 Telephone 416-978-2800 MD
 Email info@mdi.utoronto.ca
 Website kmdi.utoronto.ca

The Department of Curriculum, Teaching and Learning's Curriculum Studies and Teacher Development program participates in the Knowledge Media Design MD Collaborative Program.

The Knowledge Media Design Institute MD in the School of Graduate Studies is dedicated to research and graduate education in all aspects of knowledge, media and design. It is the first institute of its kind in Canada with more than 60 faculty from 20 academic disciplines. Other OSE/ T departments participating in the MD Collaborative program are the following Faculty of Architecture, Landscape, and Design ALD Computer Science CS Faculty of Information Studies FIS Institute of Medical Science IMS Mechanical and Industrial Engineering ME and Sociology SOC.

MD challenges both the technological utopians and dystopians with a vision that is constructively critical and sees to be a catalyst for collaborative endeavours and cross-disciplinary research.

MD provides a specialization for graduate students from a variety of academic backgrounds to engage in the design, prototyping, evaluation, and use of media intended to support and enhance the ability of individuals and groups to think, communicate, learn, and create knowledge. Applicants to the program are expected to meet the admission and degree requirements of both their OSE/ T department and the MD.

All programs of study should be planned in consultation with the program advisor in the student's OSE/ T home department and with the MD Director. See MD address below.

VOTE Students who successfully complete the program will have noted on their transcripts Completed Collaborative Program in Knowledge Media Design in addition to the degree from their OSE/ T department.

Further information is available from:

The School of Graduate Studies Calendar
 The student's OSE/ T departmental Liaison Officer
 The MD Collaborative Program Office

Human Development and Applied Psychology (AF)

The Department of Human Development and Applied Psychology offers graduate degrees in four programs that focus, in various ways, on human development and well-being in the period from infancy and early childhood through the school years to adolescence and adulthood. Our mission is to develop skilled and thoughtful researchers and professionals, who will expand knowledge about human development and improve practice in key areas, particularly teaching and school and clinical child psychology.

We currently offer the following

Child Study and Education (M.A.)

Based at the Institute of Child Study, an initial teacher education program leading to the Ontario Teachers Certificate of Qualification and an M.A.

Developmental Psychology and Education (M.A. and Ph.D.)

The M.A. and Ph.D. degree programs are designed for students who wish to pursue an academic or research-based career. The M.Ed. and Ed.D. are designed for the reflective teacher or other practitioner in education or related fields.

Developmental Science (M.A. and Ph.D.)

This Collaborative Program is an additional option for M.A. and Ph.D. students admitted to the Developmental Psychology and Education program. It is offered in collaboration with the Department of Psychology and prepares students for academic and research careers.

Neuroscience (M.A. and Ph.D.)

This Collaborative Program is an additional option for M.A. and Ph.D. students admitted to the Developmental Psychology and Education program.

School and Clinical Child Psychology (M.A. and Ph.D.)

A program intended to fulfill the academic requirements for registration as a psychological associate and psychologist.

In addition to the information provided on the following pages, the specific requirements for each program are described in more detail in a booklet titled *Department of Human Development and Applied Psychology*

Program Guidelines. Students are expected to consult the Program Guidelines for specific policies governing their programs. Copies of the Program Guidelines are available in the department.

General Department Admission Information

See Program sections for specific admission requirements.

Students are selected on the basis of academic standing, letters of recommendation, Statement of Intent, and relevant experience.

With the exception of the M.Ed. program, the department does not ordinarily consider applications for admission to degree programs commencing in January. Students may begin the M.Ed. program in September, January, or July.

Most applicants apply to only one of the department's programs. However, applicants are permitted to apply to two programs. Those applying to two programs should clearly designate the programs and the order of preference. Applications will not be reviewed until this information is provided. Requests for transfer from one program to another after admission are normally considered each year in a pool with all other applicants to the program. See the department's Program Guidelines booklet for more information. Note that even if students requesting a transfer meet the basic requirements of the program they wish to enter, the request may be refused due to the competitive nature of the admission process.

Statement of Intent

Applicants for degrees that include a thesis should include with their application a research statement of one or two pages describing their research experience and interests, and as far as is possible at this stage, a plan for the research that they would like to conduct, including the methods to be used and the population to be studied. Applicants should also include the names of potential supervisors whose research interests are similar to the research interests identified in their statement of intent. Applicants for degrees without a thesis should write a statement describing their interests, accomplishments and aspirations in the relevant field.

For information about financial support for students see pages 193 - 197.

Interdepartmental Research Area

The Nature and Development of Literacy

Arrangements are in place for students to focus on this research area which crosses departmental boundaries. See page 182 for further information.

Child Study and Education Program

Master of Arts

The Master of Arts in Child Study and Education Program is offered at the Institute of Child Study, a centre of professional teacher training and research in childhood and education, which includes a nursery through grade 6 Laboratory School.

The philosophy of this Program is based on the belief that successful teaching requires an understanding of how children's capacities, concerns, and behaviour change with age, how individual differences reflect developmental changes, and how social and physical environments influence children's development.

The Program introduces students to educational and developmental theory and research relevant to educational settings, showing how this research can inform classroom practice. Students also learn how to objectively study children, using both practical assessment and formal methods of inquiry. These areas of knowledge combined with knowledge of effective teaching methods and learning environments result in educational practices that build on children's current levels of development.

The Program requires two years of full-time study leading to a Master of Arts degree. Eligible graduates are recommended to the Ontario College of Teachers for an **Ontario Teachers Certificate of Qualification**, which qualifies the holder to teach in the primary and junior divisions of Ontario Schools.

Admission Requirements

Admission to the two-year M.A. requires undergraduate studies equivalent to a University of Toronto four-year bachelor's degree with standing equivalent to a University of Toronto **mid B or better** in the final year. Applicants are also required to have experience working with groups of children, preferably in responsible positions. Formally an interview is required prior to admission.

Applicants should include the following information in addition to the standard application requirements:

1. at least one professional reference from a place where the applicant has worked with children

2. a list of all experiences working with children, their duration, and whether they were on a paid or volunteer basis
3. a Statement of Intent including information about prior work with children and research interests regarding children that have led to an interest in this Program

Because candidates are applying to a teacher education program they also need to submit the following items with their application:

1. a photocopy of a Canadian birth certificate, or, in the case of a person who was not born in Canada, documents showing the basis upon which the applicant is present in Canada including date and place of birth
2. a photocopy of a certificate of change of name where applicable

VOTE: A criminal record report is required for certification by the Ontario College of Teachers and is required in both the first and second year of the program.

Degree Requirements

The two-year M.A. requires the successful completion of the equivalent of 16 half-courses, including practica. During their first year, students will complete four six-week half-day placements in kindergarten/early childhood, grade 1-3, and grade 4-6. A fifth placement is optional for those who would like more experience. In their second year of study, students will complete a 3-month full-time internship in an elementary classroom.

First Year Courses

In addition to two elective half-courses, the following required courses are to be taken:

- DP22 Child Study: Observation, Evaluation, Reporting, and Research
- DP22.1 Childhood Education Seminar and Practicum
- DP221 Introduction to Curriculum

VOTE: Students without undergraduate courses in child development must take DP12.1 Child and Adolescent Development as one of their electives.

Second Year Courses

Academic Term

In addition to one academic term elective half-course, the following required courses are to be taken

- DP2211 Theory and Curriculum Language and Literacy
- DP2212 Theory and Curriculum Mathematics
- DP223 Designing Educational Programs

Internship Term

In addition to one academic term elective half-course, the following required courses are to be taken

- DP2222 Childhood Education Seminar Advanced Teaching
- DP2221 Advanced Teaching Practicum full course

In addition, students must demonstrate a knowledge of the acts and regulations respecting education in Ontario. Registration in the second year is contingent upon successful completion of all first year work.

Students who wish to teach in the Roman Catholic Separate Schools of Ontario are required to take a religious education certificate course, offered by the Catholic Office of Religious Education, in addition to their regular electives. Students interested in this option should inform the Program secretary when they register.

Depending on their career goals, students may wish to select courses and placements to focus on particular areas

Special Education

Students planning a career in special education may include a six-week placement in a special education setting in their first year of study. In their first or second year of study, they may elect DP2222 Introduction to Special Education and Adaptive Instruction. In their second year, they may elect DP2292 Assessment for Instruction.

Early Childhood

Students interested in kindergarten and early childhood programs may take their internship in an early years setting in their second year, in addition to the required six-week early years placement in their first year. They may also take electives in first and second year in early childhood from among DP1211 Psychological Foundations of Early Development and Education DP1241 Outcomes of Early Education and Childcare DP1272 Play and Education.

Qualifying Research Paper

Students planning further graduate study in the foreseeable future are advised to undertake a Qualifying Research Paper (RP) normally under the supervision of a qualified faculty member at CS. Students who plan to do the RP must take DP1209 Research Methods and Thesis Preparation in Human Development and Applied

Psychology (RM) either during their first year of study or during the summer session following their first year. In their second year, students should register for an independent reading and research course with their RP supervisor.

As it is difficult to complete the RP requirements while focusing on Special Education or Early Childhood, courses may be taken in the Summer Session between the first and second years.

Students who have not studied statistics as undergraduates are expected to take DP1207 Introduction to Applied Statistics (RM).

VOTE Successful completion of a RP does not guarantee acceptance to a doctoral degree program within DAP. Students must submit an application for the doctoral degree program.

One Year Degree Program

This degree program is offered only to students who already hold a two-year Diploma in Child Study with a concentration in Childhood Education or Early Childhood Education from the University of Toronto and an Ontario Teachers' Certificate of Qualification. The one-year M.A. is intended to develop an academic-inquiry oriented approach to children and learning and to prepare students for further graduate study.

Degree Requirements

The one-year M.A. program requires successful completion of two required core courses plus six electives. At least four half-courses must be within DAP. The program may be undertaken either on a part-time or full-time basis. The required courses are

- DP2211 Theory and Curriculum Language and Literacy
- DP2212 Theory and Curriculum Mathematics and Science

Students interested in further graduate study are advised to include courses in research design, measurement, and statistics, and to undertake a Qualifying Research Paper (RP) that includes empirical field work.

Developmental Psychology and Education Program

This Program will provide an opportunity for students to construct an overall perspective on developmental psychology and human development and their implications for practice with children in different applied settings. Students are required to take core courses in research methodology and statistics. Elective courses cover a range of research areas including early childhood development and education, applied cognitive science, quantitative research methodology, psychometric theory, adaptive instruction and special education, social and personality development, language, literacy and mathematics development, school readiness, instruction and learning, strategies for modifying developmental outcomes and accommodating individual differences, and other applications to contexts such as schools, daycares, and families. In consultation with their academic advisor, students select courses with a focus in one or more of the above areas.

Master of Arts

The M.A. degree program is designed primarily for students who wish to pursue a career in research, university or community college teaching, and related activities. As an apprenticeship approach is favoured, students are expected to become closely involved in the research of their supervisor.

Admission Requirements

Admission to the M.A. requires a preparation equivalent to a University of Toronto four-year bachelor's degree. Although most applicants will have a degree in Psychology, applicants with a four-year bachelor's degree in Cognitive Science, Computer Science, Linguistics, or a helping profession such as Speech and Language Pathology, Nursing, Social Work, Physiotherapy, Occupational Therapy or other area relevant to their specific program of study, are also eligible to apply for admission. The usual admission standard is standing equivalent to a University of Toronto **A or better**. In addition to the required letters of recommendation, applicants are requested to submit a second academic letter of recommendation.

Degree Requirements

The one-year M.A. is comprised of six half-courses and a thesis and is normally undertaken on a full-time basis.

Required Courses

- DP12 9 Research Methods and Thesis Preparation in Human Development and Applied Psychology RM
- DP12 3 Intermediate Statistics and Research Design RM
- DP22 2 Individual Reading and Research in DAP Master's Level

Students must take additional courses from the M.A. required courses listed in the Departmental guidelines menu. Students who have not had a previous course in human development will be required to take DP12 1 Child and Adolescent Development or an equivalent in addition to their six half-courses.

Master of Education

The M.Ed. degree program is designed primarily for students with teaching qualifications or other related experience, who are working in the school system or in early childhood education settings, and for professionals working in community literacy programs and in settings with children or adults with disabilities. The program is intended to help students reflect on their practice and to further the development of their professional skills by integrating theory and practice.

Admission Requirements

Admission to the M.Ed. degree program requires a preparation equivalent to a University of Toronto four-year bachelor's degree with standing equivalent to a University of Toronto **mid B or better**. Applicants normally possess a teaching certificate and have one year of relevant professional experience.

Degree Requirements

The M.Ed. program of study is comprised of ten half-courses and a comprehensive examination and may be undertaken on a full- or part-time basis. Required courses to be taken in the first year are

- DP12 Foundations of Human Development and Education
- DP2293 Interpretation of Educational Research RM

Students who have not had a previous course in human development will be required to take DP12 1 Child and Adolescent Development or an equivalent, as one of their ten half-courses.

Doctor of Philosophy

The Ph.D. degree program emphasizes knowledge in disciplines related to theory and research in the area of developmental psychology and education. It is designed for students who wish to pursue a career in university or community college teaching, and for careers that require advanced skills in research and evaluation. As an apprenticeship approach is taken, students are expected to become closely involved in the research of their supervisor.

Admission Requirements

Admission to the Ph.D. degree program requires preparation equivalent to a relevant university of Toronto four-year bachelor's degree and a master's degree in Developmental Psychology and Education, Cognitive Psychology, Applied Developmental Psychology or Child Study with standing equivalent to a university of Toronto **Advanced Standing** in the master's degree. Applicants with master's degrees in other areas such as Adult Education, Anthropology, Cognitive Science, Computer Science, Curriculum, Philosophy, or a helping profession such as Speech and Language Pathology, Nursing, Social Work, Physiotherapy, or Occupational Therapy may be eligible to apply for admission, but may have to complete additional courses to fulfill master's level requirements equivalent to the Master of Arts in Developmental Psychology and Education. Students who have not done a master's thesis will be required to submit a Qualifying Research Paper prior to final admission to the degree program. In addition to the required letters of recommendation, applicants are requested to submit a second academic letter of recommendation.

Degree Requirements

The Ph.D. program of study is comprised of six half-courses, a comprehensive requirement and a thesis, and is normally undertaken on a full-time basis. Required courses to be taken in the first year are

DP32 Research Proseminar on Human Development and Applied Psychology

plus

an intermediate or higher level statistics course. Please see the DAP Program Guidelines for a list of approved courses.

Students must take two additional courses from the Developmental Psychology and Education menu (see DAP Program Guidelines) plus two electives. Menu choices as well as electives should be chosen in consultation with the faculty advisor.

Students who have an insufficient background in developmental psychology will be required to take DP12-1 Child and Adolescent Development or an equivalent course in addition to their six half-courses.

Doctor of Education

The Ed.D. degree program is designed primarily for educators who have demonstrated their practical capabilities in a variety of educational settings and who intend to continue their professional careers as field-oriented leaders.

Admission Requirements

Admission to the Ed.D. degree program requires a university of Toronto master's degree in Developmental Psychology and Education, Educational Psychology, Special Education or the equivalent. The usual admission standard is standing equivalent to a university of Toronto **Advanced Standing** in the master's degree. Applicants with a master's degree in other fields of specialization in Adult Education, Applied Psychology, or Curriculum are also eligible to apply for admission, but may have to complete additional courses to fulfill master's level requirements. Students who have not done a master's thesis will be required to submit a Qualifying Research Paper prior to final admission to the degree program.

Degree Requirements

The Ed.D. is comprised of eight half-courses, an internship and a thesis. While students may begin the program of study on a part-time basis, a minimum of one year of full-time study is required. Often students build a leave of absence or sabbatical from outside employment into their Ed.D. program of study. It is highly recommended that students use such time to complete the thesis requirement, not coursework. Required courses are

DP32 Research Proseminar on Human Development and Applied Psychology

plus

a statistics course. Please see the DAP Program Guidelines for a list of approved courses.

It is recommended that students take DP32 near the beginning of their program of study and the statistics course when they are developing a thesis proposal. Students who have an insufficient background in human development will be required to take DP12-1 Child and Adolescent Development or an equivalent as one of their eight half-courses. The remaining courses are electives and are selected in consultation with the student's advisor.

Collaborative Programs

Developmental Science Collaborative Program

The M.A./Ph.D. in the Collaborative Program in Developmental Science prepares students for academic and research careers in Developmental Science. This program links developmental psychology, cognitive science, biological approaches, educational psychology, and intervention science, as applied to children and their families, to form a coherent program of studies dedicated to research on child development and its applications. This integration addresses a major shift within the field toward a cross-disciplinary approach to child development, centered in psychology but encompassing related disciplines. The program includes faculty from the Department of Human Development and Applied Psychology and the Department of Psychology.

VOTE This program is an option for M.A. and Ph.D. students admitted to the Developmental Psychology and Education program.

Master of Arts

Requirements

Candidates must be admitted by one of the participating departments and then apply to be admitted to the Collaborative Program. Admission to the M.A. requires a preparation equivalent to a university of Toronto four-year bachelor's degree in Psychology. The usual admission standard is standing equivalent to a university of Toronto **A or better**. Students apply to work with Collaborative Program members as their advisors, with the goal of thesis supervision or other research supervision. Students register in the home department and select a course of study that satisfies the requirements of their departmental program as well as the requirements of the Collaborative Program. The student's advisor, as a member of the Collaborative Program, provides counselling and supervision appropriate to both sets of requirements.

Elective Requirements

In addition to courses required by the home department, students enrolled in the Collaborative Program must take the following courses. Note that these courses may also serve as requirements or electives in one or both home departments.

Required Courses

- DS1233 Cognitive Development and Applications
- DS1249 Social-emotional Development and Applications

Doctor of Philosophy

Requirements

Candidates must be admitted by one of the participating departments and then apply to be admitted to the Collaborative Program. Admission to the Ph.D. requires a preparation equivalent to a university of Toronto four-year bachelor's degree in Psychology and a master's degree in either Psychology or Developmental Psychology and Education with standing equivalent to a university of Toronto **A or better** in the master's degree. Students apply to work with Collaborative Program members as their advisors, with the goal of thesis supervision or other research supervision. Students register in the home department and select a course of study that satisfies the requirements of their departmental program as well as the requirements of the Collaborative Program. The student's advisor, as a member of the Collaborative Program, provides counselling and supervision appropriate to both sets of requirements.

Required Courses

- DS3 Advanced Methods in Developmental Science RM

VOTE All students will also be required to attend a Developmental Science colloquium series.

VOTE Upon fulfillment of the program requirements, transcripts will denote completion of the Collaborative Program in Developmental Science in addition to the degree from their home department.

Collaborative Program in Neuroscience

The Program in Neuroscience offers the M.A. and Ph.D. degree specializations. The Collaborative Program aims to enrich the training of graduate students in neuroscience. It sponsors, monitors, and coordinates neuroscience courses, runs a Distinguished Lecturer Series of neuroscience seminars, organizes informal meetings for graduate students with invited speakers, and represents neuroscience research at the university level. Research areas are very diverse and cover most aspects of current neuroscience, including cognitive neuroscience, developmental biology, developmental neuropsychology, neural modeling, clinical neurophysiology, and physiological psychology. For more detailed information about this and other OSE/UT collaborative programs, see pages 17 - 17 of this *Bulletin*.

School and Clinical Child Psychology Program (SCLP)

The School and Clinical Child Psychology (SCCP) Program is accredited by the American Psychological Association. The Program provides theoretical, research and professional training in preparation for psychological work with children in schools, clinics, private practice, and research settings. The Program is designed to provide training in assessment, therapy and other psychosocial and instructional interventions, professional consultation and prevention. Opportunities are available for research and clinical work with infants, young children, adolescents, and families.

The SCCP Program at OISE/UT is guided by an understanding of the child based on four core factors.

First, as children move from infancy to adulthood they undergo fundamental developmental changes that systematically influence the ways that they perceive and respond to their world, and the ways that their families, teachers, peers and others with whom they relate, respond to them.

Second, the experiences of children throughout their schooling, including the ways that they are prepared for it and their reactions to it, profoundly affect their individual development.

Third, the social experiences of children both within and outside of the family and the feelings that result from those experiences also have a major impact on their individual development.

Fourth, children have diverse learning, social and emotional needs and differ considerably from each other in the ways that they approach their world. The faculty members associated with the SCCP Program believe that an understanding of and intervention with children involves consideration of these four factors.

The curriculum of the SCCP Program is designed to establish a strong foundation or trunk of core knowledge and skills early in the program, with students free to specialize or branch out later on. The program reflects a mix of courses and training opportunities. Some classes are specifically designed for students in SCCP other classes are shared with students who are majoring in other aspects of developmental psychology and education.

The intent of the SCCP Program is to train scientist-practitioners, for whom practice informs research and research informs practice. From the outset, students are linked with a faculty mentor. Students are expected to become closely involved in the research of one or more faculty members of the department.

Consistent with our beliefs about the child, a systemic approach is the basis for the training we provide in assessment and intervention. We believe that the knowledge and skills necessary for the practice of school psychology and clinical child psychology overlap considerably, and that experience in school and clinical settings complement and enhance each other.

Therefore, over the course of the program of study, students are required to undertake practica in both school and clinical child settings. We recommend that the master's practicum be done in the school system and the doctoral practicum in a clinical child setting.

Master of Arts

The M.A. degree program in SCCP is designed to meet the academic requirements of the College of Psychologists of Ontario for registration as a Psychological Associate. The focus of the program is applied. In the first year, students learn to do a psychoeducational assessment in the counselling and psychoeducational clinic and shadow a school psychologist for 2 hours. In the second year, students have a practicum experience of approximately 2 hours.

Requirements

Admission to the M.A. requires a preparation equivalent to a university of Toronto four-year bachelor's degree in Psychology, or its equivalent. The psychology component of the four year degree is defined as a minimum of six full courses or equivalent in psychology, including

- three full courses or equivalent in psychology at the senior level (third or fourth year)
- one full course or equivalent in research methods
- two other full courses or equivalent in psychology at the junior or senior level

The usual admission standard is standing equivalent to a university of Toronto **A or better**. Applicants should provide documented evidence of relevant professional experience. Applicants are required to submit two academic and one professional letters of recommendation.

Prerequisite Requirements

The M.A. program of study is comprised of 1 half-course and a thesis, and is normally undertaken on a full-time basis over a two-year period.

- Required courses** to be taken in the first year, are
 - DP121 Psychological Assessment of School-Aged Children
 - DP126 Psychoeducational Assessment
 - DP129 Ethical Issues in Applied Psychology

- DP122 Introduction to School and Clinical Child Psychology
- DP123 Psychology and Education of Children with Learning Disabilities

Required courses to be taken in the second year, are

- DP121 Seminar and Practicum in Assessment
- DP1236 Developmental Psychopathology

In consultation with their advisors, students are required to take a course in cognitive/affective bases of behaviour and research methods. Courses that fulfill these requirements are listed in the Program Guidelines. In addition, students are required to take one elective course, selected in consultation with their faculty advisor.

For students who have not taken a previous child development course in their undergraduate degree program, DP121 Child and Adolescent Development must be taken in addition to the other requirements. For students who have not taken a third or fourth year statistics course or its equivalent as part of their undergraduate degree program, DP1237 Introduction to Applied Statistics RM must be taken in addition to the other requirements. Students should refer to the *Practicum and Internship Policy and Placement, and, too* for a description of the evaluation processes and criteria for practicum and/or internship placements.

Doctor of Philosophy

Like the M.A. above, the Ph.D. degree program is intended to prepare the student for psychological work with children in schools, clinics, and research settings. Graduates of the Ph.D. would assume positions of greater professional and administrative responsibility than would graduates of the M.A.. They would be engaged in activities that put a premium on the knowledge of psychological principles and the ability to use them in a systematic way. The Ph.D. is intended to meet the academic requirements for registration as a Psychologist.

Admission Requirements

Admission to the Ph.D. requires a University of Toronto four-year bachelor's degree in Psychology or its equivalent, and an OSE/UT M.A. in School and Clinical Child Psychology or its equivalent. The usual admission standard is standing equivalent to a University of Toronto **Advanced** in the master's degree. A limited number of outstanding applicants holding equivalent bachelor's and master's degrees in Psychology from elsewhere may be considered. However, if the M.A. was not equivalent to the OSE/UT M.A. in School and Clinical Child Psychology, the student will be required to take additional courses to receive equivalent training.

VOTE Although graduates from the M.A. in SCCP are given priority over other applicants when applying to the Ph.D., continuation from the M.A. to the Ph.D. is not automatic. Demonstration of a high level of competence and commitment is required.

Applicants are required to submit two academic and one professional letters of recommendation.

Degree Requirements

The Ph.D. program of study is comprised of ten half-courses including a practicum course and an internship, a comprehensive examination and a doctoral dissertation, and is normally undertaken on a full-time basis. Students are expected to

- complete the comprehensive examination by the end of their required period of full-time study
- receive approval for their thesis proposal from their thesis committee prior to beginning their internship
- consult the Clinical Director of the School and Clinical Child Psychology Program to arrange their practicum placement and internships.

Students are expected to obtain either APA or CPA accredited internships. To fulfill this requirement, students should anticipate that they will be required to move to a different location for their internship year.

Students should refer to the *Practicum and Internship Policy and Placement, and, too* for a description of the evaluation processes and criteria for practicum and/or internship placements.

To complete the Ph.D. program of study, students must undertake one of their practicum placements in a school setting and one in a clinical setting.

Required courses

- DP1222 Approaches to Psychotherapy Across the Lifespan
- DP32 Research Proseminar on Human Development and Applied Psychology
- DP3241 Seminar and Practicum in Assessment and Intervention with Children
- DP3242 Internship in School and Clinical Child Psychology

Normally, DP32 is taken in the first year of the Ph.D., DP3241 in the second year of the Ph.D., and DP3242 in the final year of the Ph.D.

plus

one course from each of the following menus see the Program Guidelines for course lists.

- Psychosocial Intervention
- Instructional Intervention
- Advanced Assessment
- Social Aspects of Behaviour
- Biological Aspects of Behaviour

VOTE Students are also encouraged to take an advanced level Statistics Course

Not all courses listed in the menus are offered on an annual basis. Students who have not had an advanced undergraduate or graduate course on history and systems of psychology should take DP32-4 Contemporary History of Systems in Human Development and Applied Psychology or an equivalent offered in the psychology department at the University of Toronto. Students will take DP12-1 Childhood and Adolescent Development if they have not taken a child development course at the undergraduate level. Please consult your faculty advisor for more information.

The Role of Psychologists of Ontario and Preparation for Professional Practice

Students whose plans include preparation for professional practice in psychology should note the following:

The practice of psychology in the province of Ontario is regulated under the Statute Law of Ontario. Graduation from a doctoral or master's degree program or from any graduate program in psychology does not in itself qualify a person to practice as a psychologist or a psychological associate. Professional practice of psychology in Ontario is regulated by the College of Psychologists of Ontario. The College examines candidates for registration as Psychologists and Psychological Associates in Ontario. The M.A. in School and Clinical Child Psychology is designed to meet the academic requirements for registration as a Psychological Associate. The Ph.D. in School and Clinical Child Psychology is designed to meet the academic requirements for registration as a Psychologist. At the discretion of the College, courses other than those required by the program may be required for certification.

Further information is available from:

Telephone 1-800-489-8388
Fax 416-961-263
E-mail cpo@cpo.on.ca

Courses

The following list demonstrates the range of courses offered within the department. Not all of the courses listed are offered in any given year. Please consult the Course Schedule for currently scheduled courses.

A course is identified with this department when the prefix is DP. Numbers 12 and 22 denote a master's level course, while numbers 32 and 42 denote a doctoral level course. In previous years, number 42 was also used to denote a master's level course.

DP200 Foundations of Human Development and Education

All students of human development are interested in two questions: What develops? What influences development? In this course we are also interested in a third question: What is the role of formal education in human development? This course will provide an opportunity for students to construct an overall perspective on development and education, and to be introduced to the main areas of expertise among the faculty.

DP201 Child and Adolescent Development

This course addresses issues and developmental changes in children and the factors involved in child development. Infancy, the preschool period, early school years, intermediate years, and adolescence are covered. Clinical and/or educational issues may be covered in some sections of this course.

DP202 Research Methods and Thesis Preparation in Human Development and Applied Psychology

This course reviews foundational skills necessary for the successful completion of the MA thesis. The primary goals will be to develop the ability to draw valid conclusions from quantitative evidence; the ability to critique published research articles; the ability to conduct a well-designed piece of research; the ability to write up that research in a format appropriate for a journal article or thesis. The course deals with research methods, the conceptual foundations of statistics, and the preparation of a thesis/research report. The aim is to try to integrate these three things: research methods, the interpretation of statistics, and thesis/journal article preparation.

DP203 Psychological Foundations of Early Development and Education

This course examines research on the psychological foundations of early childhood and relates those foundations to practice in the preschool and primary years. Early education is considered in relation to program factors such as teachers' beliefs and curriculum areas, to child and family factors such as temperament and attachment, and to social factors such as childcare experience and community. Young children's physical, cognitive, communicative, social and emotional development are explored as contributors to and as consequences of early learning experiences.

DP204 Psychological Assessment of School-Aged Children

The purpose of this course is to gain an understanding of basic principles of psychological assessment and to acquire administrative skills with respect to several widely used standardized tests of intelligence, academic achievement, and special abilities. Topics will include the history of intelligence testing, contextual issues surrounding the assessment process, basic statistical concepts related to psychometrics, test administration, and report writing. Students gain practical experience with respect to a test administration and scoring of

a number of tests e.g. WISC-III, WPPSI-III, WAIS-III, WAT-III, TEA, WISC-III, WRAT-3 which are evaluated through review of completed test protocols and videotaped test administrations.

Prerequisite: This course is limited to students in the School and Clinical Child Psychology program and is a prerequisite for course DP 1216.

F 206 Psychoeducational Assessment

Theory and practicum in psychological assessment techniques applied in school settings. Administration and interpretation of individual intelligence tests, academic tests, tests of special abilities and behaviour rating scales within the context of a practicum assignment in the Counselling and Psychoeducational Clinic. Topics focus on the development of assessment plans, clinical interviewing, test interpretation, report writing, feedback, and consultation.

Prerequisite: This course is limited to students in the School and Clinical Child Psychology program who have completed course DP121.

F 207 Foundations of Proactive Behavioural and Cognitive Behavioural Intervention in Children

This course provides a basic overview of current behavioural and cognitive-behavioural approaches to the management and remediation of maladaptive behaviour, such as aggression, disruption, and noncompliance, in clinical, educational and residential settings. A conceptual model of behaviour and cognitive-behaviour therapy and learning principles relevant to this model will be considered. The model focuses on proactive, nonintrusive, and success-based approaches to remediation of problem behaviour. Topics will include assessment of maintaining variables, teaching of adaptive skill clusters, building tolerance to difficult environmental circumstances, moderating severe behaviour to enable skill-teaching, and evaluating clinical progress.

F 208 Seminar and Practicum in Assessment (Pass/Fail)

This course supports and monitors the development of the M.A. student's clinical skills, assessment and intervention in the field placement. Placements are typically in school settings. Seminars are scheduled on alternate weeks for the academic year.

They focus on issues related to differential diagnosis and clinical practice.

VOTE: Open to School and Clinical Child Psychology students only, and ordinarily taken in the second M.A. year. Students are expected to consult with Dr. Lin to arrange a practicum placement.

Prerequisite: DP121, DP1216, DP1219, DP122 or equivalent and permission of instructor.

F 209 Ethical Issues in Applied Psychology

This course provides students with an overview of legal, ethical, and professional issues as they relate to the practice of psychology. The current regulatory model of psychology in Ontario and its implications for practice are reviewed. The

Canadian Code of Ethics, College of Psychologists Standards of Professional Conduct, federal and provincial legislation, and case law that apply to practice in Ontario are reviewed as they relate to issues of confidentiality, record keeping, consent, competence, professional boundaries, and diversity issues in assessment, psychotherapy, and research.

Throughout the course, a model of ethical decision-making designed to assist practitioners with ethical dilemmas is reviewed and practised with a variety of case examples in the context of small- and large-group discussion.

F 220 Introduction to School and Clinical Child Psychology

This course is intended to provide students in School and Clinical Child Psychology with a grounding in the conceptual foundations of the program. The implications of the scientist-practitioner model for practice as a school or clinical child psychologist is the cornerstone of the course. Specific issues to be addressed include developmental and systemic approaches to psychological practice, systems and group behavior within, and related to the school organization, multidisciplinary teams, approaches to consultation, principles of prevention and intervention, and program evaluation. Students will apply the principles discussed in the course in a practicum placement arranged by the course instructor.

VOTE: Open to School and Clinical Child Psychology students only, and ordinarily taken in the first MA year.

F 222 Approaches to Psychotherapy Across the Lifespan

This course introduces the major theories of psychotherapy with children and adults including cognitive-behavioral, psychodynamic, and humanistic approaches. Issues related to gender and to individual and cultural diversity are also considered. A practical component assists students in developing basic psychotherapy skills.

VOTE: Targeted to School and Clinical Child Psychology students others by permission of instructor.

F 223 Depression in the Schools: Assessment, Prevention and Intervention

Multidimensional assessment and intervention models for working with depressed children and youth in the schools. Self-report as well as teacher observation and rating techniques for identifying at-risk children and youth teacher-mediated and parent-mediated intervention approaches group work for social-skill and self-esteem development.

F 224 Foundations of Cognitive Science

This course examines the psychological and philosophical basis of cognitive science including such topics as the nature of mental representations, functionalist and computational theories of mind, intentionality, subactivity, consciousness, and meta-cognition.

F 2 6 Developmental Psychopathology

The aim of this course is to provide students with a basic understanding of child and adult psychopathology. In order to do this we will look at normative patterns in personality, behavior and emotions. We will treat the work in the epidemiology of childhood and adult disorders as central to our understanding of these disorders, and discuss the methodological issues involved in this type of approach that make it so useful to understanding etiology, course, treatment and prognosis. The diversity of functioning in the emotional and behavioral realm will be reviewed in order to understand issues of abnormal or pathological development. The way in which the social and cultural context interacts with genetic and constitutional aspects of the individual will also be considered. This will give us the basis for examining some of the most common disorders and understanding the dynamics of these disorders during childhood and into adulthood.

F 2 7 Development and Learning

This course will cover theories and models of development that are relevant to how people learn. Research in cognitive science that has contributed to our understanding of learning will be reviewed and discussed, and student projects will help consolidate and extend these ideas. The course also examines motivation to learn, the development of higher order thinking, and communities of learning, both in terms of social and cultural contexts.

F 2 Special Topics in Human Development and Applied Psychology, Master's level

A course designed to permit the study in a formal class setting of a specific area of human development and applied psychology not already covered in the courses listed for the current year. The topics will be announced each spring in the Winter Session and Summer Session timetables.

F 2 Special Topics in Human Development and Applied Psychology, Vocational Development, Acquisition and Instruction

In this course we will examine research on how many words are learned in what order, and research on how vocabulary can be promoted in homes and classrooms. The relative importance of inference and explanation will be considered. Students will design vocabulary interventions.

F 2 Outcomes of Early Education and Child Care

Does early childhood education make a difference? Are day care kids different from those cared for at home? If there are differences, what are they? For whom are those differences, if any, meaningful? Are those differences, if any, lasting? How do we know? And, who cares? This course will explore these issues: we will examine a variety of early childhood programs, historical and contemporary, and the research and evaluation studies related to them. Students will select and critique a

published evaluation study on aspects of early education/care, and design their own evaluative study of an element of an early education/care program of personal interest. Early childhood up to 9 or 11 years of age.

F 2 6 Child Abuse, Intervention and Prevention

An examination of the nature and consequences of child maltreatment. Theory and research in physical, sexual, and emotional abuse will be reviewed. Coverage includes recent therapeutic interventions and promising prevention initiatives. The objective of this course is to provide a knowledge base for more effective practice and inquiry.

F 2 Child and Family Relationships Implications for Education

This course examines the connections between family systems and the educational system. Family-service connections with childcare and other services are also considered, with emphasis on early childhood. Particular attention is paid to the literature on parent-community involvement in education and related program and policy matters.

F 260 Children's Psychology and the Law

A critical analysis of the Canadian legal systems interface with children and youth. Individuals who intend to work with children in educational, clinical, or community settings will develop a working knowledge of legislation affecting children, the interface between legal and developmental/psychological issues, children's rights, and risks and opportunities for children in the context of today's legal system. Domains include education, health, family law (custody and access protection), and criminal law. Specific topics include Ontario's child protection system, the Young Offenders Act, special education, issues in custody and access assessment, children's and youths' understanding of the legal system, etc. **VOTE** This is not intended as a law course, but to acquaint psychology and education practitioners with relevant legal issues.

F 26 Social and Personality Development

This course deals with current issues and research in particular areas of social and personality development. The focus of the course will vary from year to year and will include identity and personality formation, emotional influences on development, and moral development. As well as examining current research, we will consider the implications of this research for the contexts in which children are socialized and the developmental outcomes that result from different kinds of experience.

F 272 Play and Education

A series of seminars dealing with the definition of the term play and its relation to both psychological and educational processes in the young child. The history of play will be examined in relationship to various theories that have been advanced concerning the need children have to play, the

functions of play, and their relationship to psychological, social, cognitive, emotional, and physical development.

VOTE. This course is intended primarily for Child Study and Education students and M.Ed. students with an interest in adaptive instruction and special education. Others must see the permission of the instructor to register.

F 27 Psychology of Disability and Empowerment

The purpose of this course is twofold 1 to develop theoretical and practical knowledge about the social context of disability, and 2 to promote the full and equal participation of persons with disabilities in society through empowerment. Barriers to an inclusive society will be explored and the roles that professionals may play in the disempowerment of persons with disabilities will be examined. The course assumes a cross-disability focus and is guided by the philosophies of independent living and community living, emphasizing human rights, self-determination, interdependence, equality, and full and valued participation in the community.

F 27 Preventative Interventions for Children at Risk

This course will examine the theory and rationale for early intervention for at-risk infants and preschool children and the models of early intervention that have evolved. Family variables and family involvement in intervention programs will be covered, as will issues of identification and evaluation.

F 27 Psychology and Education of Children and Adolescents with Behaviour Disorders

Psychological and educational characteristics of children and adolescents with behaviour disorders with an emphasis on the interplay between constitutional and environmental factors that contribute to these disorders. Research on current assessment and intervention procedures will be analysed.

VOTE. This course is intended primarily for Child Study and Education students and M.Ed. students with an interest in adaptive instruction and special education. Others must see the permission of the instructor to register.

F 27 Psychology and Education of Children and Adolescents with Learning Disabilities

Psychological and educational characteristics of children and adolescents with learning disabilities and ADHD with an emphasis on the constitutional and environmental factors that contribute to these disabilities and enable optimal functioning. Emphasis is placed on the concept of learning disability and on the educational implications of the research literature in the field.

VOTE. This course is intended primarily for Child Study and Education students, School and Clinical Child Psychology students and M.Ed. students with an interest in adaptive instruction and special education.

F 27 Introduction to Applied Statistics [

This course provides an introduction to quantitative methods of inquiry and a foundation for more advanced courses in applied statistics for students in education and social sciences. The course covers univariate and bivariate descriptive statistics an introduction to sampling, experimental design and statistical inference contingency tables and Chi-square test, analysis of variance, and regression. Students will learn to use SPSS software. At the end of the course, students should be able to define and use the descriptive and inferential statistics taught in this course to analyse real data and to interpret the analytical results.

VOTE. Students who have previously taken CTL204 are prohibited from taking this course.

F 27 Intermediate Statistics and Research Design [

Survey sampling, experimental design, and power analysis analysis of variance for one-way and multi-way data with fixed, mixed, and random effects models linear and multiple regression multiple correlation analysis of covariance.

VOTE. This course is intended primarily for O SE/ T students. Others must see the permission of the instructor to register. Students who have previously taken CTL208 are prohibited from taking this course.

Prerequisite: DP1287 or equivalent.

F 27 Multivariate Analysis with Applications [

Multistage, stratified sampling, multi-factor experimental designs, and multivariate statistical procedures, including multiple regression analysis, multivariate significance tests, factor analysis, discriminant analysis, canonical analysis, multivariate analysis of variance, logistic regression and log-linear analysis are discussed with application to research design and data analysis.

VOTE. Students who have previously taken CTL209 are prohibited from taking this course.

Prerequisite: DP1288 or equivalent.

F 27 Causal Inference and Structural Equation Modeling [

This course is designed for graduate students from social sciences and education departments. Path Analysis uses simultaneous equations to represent causal relationships. Structural Equation Modeling (SEM), also called Causal Modeling or LISREL, adds to this approach a strategy for modeling measurement errors. Although the primary goals were to detect or evaluate causality and, in the meantime, to account for measurement error in observations, more often than not, the estimated relationships are correlational rather than causal. This course introduces Rubin's causal model that sheds new light on SEM-type questions. A major emphasis will be placed on conceptualizing causal problems, comparing alternative research designs, and identifying the assumptions under which path coefficients are causal effects. In addition to learning the standard SEM techniques including path analysis, confirmatory factor analysis, and general structural

equation modeling, students will be introduced to causal inference theories and techniques including propensity score matching and stratification, inverse-probability-of-treatment weighting (IPTW), selection models, and the instrumental variable method. The course is aimed at equipping students with preliminary knowledge and skills necessary for appraising and/or conducting empirical research about causality.

VOTE Students who have previously taken CTL211 are prohibited from taking this course.

Prerequisite DP123 or equivalent.

F 22 Test Theory [

Introduction to the theory and practice of educational and psychological measurement. Topics include test development, classical test theory and item response theory, with applications to norm-referenced and criterion-referenced standardized achievement tests, group intelligence and aptitude tests, attitude and self-report scales, personality tests, performance assessments, questionnaires, and interview protocols.

VOTE Students who have previously taken CTL231 are prohibited from taking this course.

Prerequisite DP123 or equivalent.

F 2 Applied Research Design and Data Analysis [

This seminar is intended primarily for doctoral students. There are two main activities. One is the cooperative critiquing and development of research designs and data analysis plans based on ongoing work of the students in the course. The second is discussion of selected topics in research design and data analysis, e.g. balanced incomplete block experimental designs, replicated survey designs, exploratory analysis, general linear models, optimal and multidimensional scaling, data visualization, and computerized research design, data analysis, and graphical methods and tools.

VOTE Students who have previously taken CTL237 are prohibited from taking this course.

Prerequisite DP123 or permission of the instructor.

F 2 Language Acquisition and Development

This course provides a comprehensive overview of language acquisition and development from before birth to adolescence.

Topics covered include speech perception, word learning, syntax development, discourse, communicative competence, atypical language development, and theoretical explanations in developmental psycholinguistics.

F2200 Child Study, Observation, Evaluation, Reporting and Research

A course designed to develop the skills and knowledge fundamental to a developmentally oriented systematic study of children through observing, recording, interpreting, and reporting in a professional manner the behaviour and development of children in diverse practice and research

settings. A range of methods from direct observation to standardized testing will be surveyed. The role of the teacher-researcher and issues in connecting research and practice will be emphasized.

VOTE This course is normally open to students in the M.A. in Child Study and Education program only.

C Co-req

F220 Childhood Education Seminar and Practicum

A seminar examining the teaching-learning interaction between adults and children in preschool, primary, and junior educational settings. Emphasis is on the integration of teaching practice with principles of child development and learning theory. This seminar draws on the students' experiences from practicum placements. Students are placed in classrooms in the Institute's Laboratory School, in public and separate schools, and in other settings. Students are under the joint supervision of an associate teacher on site and an academic staff member at the Institute of Child Study. There are two practicum sessions, each providing 144 hours of practicum experience in 2, six-week, half-day blocks.

VOTE This course is normally open to students in the M.A. in Child Study and Education program only.

F2202 Childhood Education Seminar II: Advanced Teaching

This seminar will provide for discussion of topics and issues that emerge during the students' internship (DP2221 Advanced Teaching Practicum) and that relate to employment preparation.

F220 Introduction to Curriculum

This full-year course provides an introduction to the basic elementary curriculum areas with an extended focus on the Early Years (ES) and on Grades 1-6 Language Literacy, Mathematics Science. The Arts Music, Drama, Dance, Physical Education, Social Studies and Technology are taught as special sessions and are also integrated with other curriculum areas. The learning expectations of the Ontario Curriculum form the basis for the study of the techniques and the role of the teacher in designing and implementing curricula across the early childhood, primary and junior levels.

VOTE This course is normally open to students in the M.A. in Child Study and Education program only.

F22 Theory and Curriculum I: Language and Literacy

This course provides a foundation of understanding for language and literacy instruction, translating current theory and research into evidence-based practice. The course considers reading and writing acquisition in terms of the component processes involved at various stages of literacy development. The goal of the course is to engender thoughtful, critical, informed decisions about the teaching of language and literacy in the schools. Teachers successfully

completing the course will be prepared to develop and implement theoretically-sound, practical and motivating classroom literacy programs for the primary and junior grades.

VOTE This course is normally open to students in the M.A. in Child Study and Education program only.

F22 2 Theory and Curriculum II Mathematics
A detailed study of the design, implementation, and evaluation of the elementary curriculum in the area of mathematics. The practical issues are informed by theoretical considerations of children's cognitive development from infancy onwards, particularly the ways in which implicit knowledge becomes explicit, and naive theories become formalized.

VOTE This course is normally open to students in the M.A. in Child Study and Education program only.

F222 Advanced Teaching Practicum (Fall/Spring)
Second year Child Study and Education students carry out a single practicum placement called an internship during either the fall or winter term for a total of 32 practicum hours. Supervised by a mentor teacher on site and a staff member from the Institute of Child Study in an assigned setting from preschool through grade six, students have an opportunity to consolidate developing skills and attitudes as they apply their teaching skills.

VOTE This course is open only to students in the MA in Child Study and Education program.

F22 0 Designing Educational Programs
An educational program consists of a sequence of learning activities carried out over an extended period of time to accomplish a number of long-term learning goals. The main goal of this course is to help students learn how to plan educational programs that can accommodate a variety of children and achieve a variety of learning goals.

VOTE This course is normally open to students in the M.A. in Child Study and Education program only.

F22 2 Individual Reading and Research in Human Development and Applied Psychology Master's level

Specialized study, under the direction of a staff member, focusing upon topics that are of particular interest to the student but are not included in available courses. While credit is not given for a thesis investigation proper, the study may be closely related to such a topic.

F227 Technology for Adaptive Instruction and Special Education

This course will examine the potential of microcomputer-based technology in various types of learning environments. The focus is on the use of adaptive and assistive technology as a tool to increase the teacher's ability to handle a wide range

of student learning needs in mainstreamed classrooms. The course is suitable for students in the departments of Curriculum, Teaching and Learning and Human Development and Applied Psychology.

F22 0 Introduction to Special Education and Adaptive Instruction

A critical analysis of current issues related to identification and programming for children with special needs. The emphasis is on using well-founded research to inform instructional practices and decision-making. This course is designed to promote reflective thinking about key topics in Special Education that educators must conceptualize from both theoretical and practical perspectives. It is intended to provide students with knowledge, skills, and attitudes that will enable evidence-based understanding of what is involved in working with exceptional learners across a variety of settings, but primarily in an inclusive classroom situation. Focus is placed on curriculum being flexible in responding to diversity, so that teachers are guided to make appropriate accommodations and modified expectations for the various categories of exceptionality. Since characteristics of special needs and second language learners are often inter-related, ESL support will also be addressed.

F22 Psychology and Education of Gifted Children and Adolescents

The identification and the intellectual, social, and emotional development of gifted children and adolescents' educational programs in regular and special classes.

F22 7 Classroom Based Counselling Approaches

This course will examine counselling approaches that are appropriate for teachers and counsellors to use in the school setting. An overview of classroom-based counselling approaches for the prevention and treatment of behavioural, social, and emotional problems will be presented.

Interventions designed for individual students, small groups, classes, schools, and parents will be discussed, and evaluative research on these approaches will be analyzed.

F22 Reflective Teaching and Analysis of Instruction

This course is designed to develop students' awareness of, reflection about, and evaluation of their own professional knowledge and skills in relation to classroom-based assessment and remediation of generic learning skill deficits in diverse student populations. Discussion of instructional and assessment methodologies will be followed by experience applying these methodologies to various content areas in the curriculum.

F22 2. Assessment for Instruction

Critical analysis of assessment procedures including psychometric tests, curriculum-based assessment, and dynamic assessment and of the function of assessment in relation to adaptive instruction. A practical component is included.

Prerequisite: DP222 or equivalent

F22 3. Interpretation of Educational Research

Introductory course in the critical evaluation of research reports. Emphasis on understanding and interpretation of the outcome of basic statistical and research methods. Hands-on experience in research design and report writing.

F22 6. Reading and Writing Difficulties

This course focuses on prevention and intervention in the area of reading and writing difficulties and disabilities. It is designed to prepare special educators and classroom teachers to implement evidence-based practice in the assessment and instruction of children with reading and writing problems.

Half of the course is concerned with assessment, including informal and standardized approaches, and the remainder is concerned with research-based interventions to meet specific programming needs. Other parts involve hands-on strategies with children and adolescents who have serious reading and writing difficulties.

VOTE: Permission of the instructor is required. Priority will be given to students with background knowledge and experience in child study and education, adaptive instruction and special education.

F 200. Research Froseminar on Human Development and Applied Psychology

This course, intended for all beginning doctoral students in DAP, is held on alternate weeks in the fall and spring terms. Students attend the departmental colloquia, which enable them to hear researchers from both outside and within the department talking about their research and offering models of research practice in human development and applied psychology. Before each colloquium, students work individually and collaboratively to study published papers by each colloquium speaker.

Assessment is based principally on students making critiques of the published papers they study, and on making connections from such papers to their own research topics.

F 20. Qualitative Research Methods in Human Development and Applied Psychology

This course provides an overview of qualitative research methodology and techniques. Coverage includes major philosophy of science, historical, and contemporary critical, post modern, hermeneutic, constructivist and feminist perspectives. Ethnographic, life history, individual and multiple case study, and focus group methods will be reviewed in relation to a narrative framework. Observational, interview, personal record, and archival data management will

be discussed. Students will have an opportunity to design, implement, analyze, and report a micro qualitative study. Special emphasis will be placed on the use of computers and visual imaging techniques.

F 20. Children's Theory of Mind

This course examines children's developing understanding of themselves and other people as psychological beings, that is, as people who have beliefs, desires, intentions, and emotions. It explores the implications of this development for children's social understanding in the preschool years and beyond, and for their understanding of thinking and learning in school.

It also considers children with autism, who apparently fail to develop a theory of mind in the ordinary way, and evaluates different theoretical explanations of children's understanding of the mind.

F 20. Contemporary History and Systems in Human Development and Applied Psychology

An examination of the historical and philosophical bases of modern theories of applied psychology. Emphasis is on counselling, developmental, and educational psychology. The goals of the course are a) to make explicit the origins of current ideas in applied psychology, and b) to demonstrate the importance of historical context in understanding research and practice issues.

F 20. Social and Moral Development

This course examines theoretical perspectives and contemporary research on socialization processes in childhood and adolescence, with particular emphasis on interpersonal relations and values acquisition. Specific topics include distinguishing characteristics of social cognition (e.g., self-understanding, perspective-taking, and socio-moral reasoning) aspects of social and moral experience (e.g., peer relations, prosocial behaviour) and political dimensions of interpersonal relations (e.g., social responsibility, prejudice and their manifestation in behaviours such as civic commitment and bullying). The role of gender and culture in development are pervasive themes throughout the course.

F 20. Psychology of Language and Literacy

This course examines current research on psycholinguistics including syntax, semantics, and pragmatics with an emphasis on their relations to literate competence. Topics considered are language development, literacy development, writing systems and the role of linguistic processes in thinking and instruction.

Prerequisite: Permission of instructor.

F 22. Cross Cultural Perspectives on Children's Problems

This course is designed to help students develop an appreciation that diversity issues may influence the way individuals act, the way their problems are expressed and conceived in their milieu and by outsiders, and the way

assessment and interventions are treated. Through this course students will develop a solid understanding of the social bases of behavior. The course will examine from a cross-cultural perspective selected topics in psychology and human development pertaining to normative and pathological patterns of behavior in children and youth.

VOTE. Permission of the instructor is required.

F 22. Advanced Proactive Behavioral and Cognitive Behavioral Interventions

This course will provide an advanced examination of proactive behavioral and cognitive-behavioral approaches used with children for the remediation of skill deficits associated with defiance, aggression, impulsivity, depression, and anxiety. Students will be required to develop treatment approaches to case presentations and/or develop clinical workshops for use with parents, teachers or other intervention agents.

F 22. Developmental Trajectories and High-Risk Environments

In this course we consider emotional, cognitive and behavioural development in children in the context of high risk environments. We examine recent theory and research on developmental trajectories or pathways. We consider within-family variations in development. High-risk environments include problematic family contexts, negative peer and community influences.

F 226. Research Methods and Doctoral Thesis Preparation in Human Development and Applied Psychology

This course focuses on current research and methods in human development and applied psychology. The course emphasizes the integration of research methods, statistics, and research content. The focus is on the thesis preparation process. Students will develop research expertise through work on their own projects and will broaden their understanding of the field through seminar discussion.

Prerequisite: One graduate course in quantitative analysis, and permission of the instructor.

F 227. Multi-level Modeling in Social Scientific and Educational Research

This is a graduate-level advanced statistics course designed for students in education and the social sciences whose research involves analyses of multi-level and/or longitudinal data. Examples of multi-level data include students nested within classrooms and schools, teachers nested within schools and school districts, children nested within families and neighbourhoods, and employees nested within organizations. Examples of longitudinal data include repeated measures of child development, students' academic growth, teacher improvement, and organizational change. Multi-level modeling, also called hierarchical linear modeling (HLM), resolves the dilemma of units of analysis. More importantly, it enables researchers to partition variance-

covariance components with unbalanced data and to model cross-level effects with improved estimation of precision. This course will cover basic two-level and three-level models, growth curve models, and multi-level experimental and quasi-experimental designs. The objective is to equip students with knowledge and skills to apply multi-level models to their own research contexts.

Prerequisite: DP1237 or equivalent

F 22. Cognition and Emotion in Development

After a review of theoretical perspectives on emotion, we will discuss cognition-emotion interaction and the development of this interaction over the lifespan. Contemporary approaches to modeling development will be introduced, along with some grounding in the neural basis of emotion. Emotional constraints on cognition and learning will be a key focus. Clinical implications will be discussed in relation to the development of personality and psychopathology.

F 20. Understanding Narrative

In this course, we will explore how narrative is read and understood by people in schools and elsewhere, and how narrative is written, in fiction and other genres such as biography and autobiography. We aim to understand the psychological components of writing narrative literature and the psychological responses that occur during reading. We will also discuss the role of reading and writing narrative in the understanding of the self, and in therapeutic change. During the course we will discuss the following: a play by William Shakespeare, at least one nineteenth-century novelist, a case history of Sigmund Freud, a short novel by modernist writer Virginia Woolf, and a work by a recent or post-modernist writer. We will also discuss empirical work on responses to literature, and on the effects of reading and writing.

F 2. Psychodynamic Bases of Therapy

In this course we see an understanding of psychodynamic theory as a basis for individual therapy in schools and elsewhere. We will discuss Freud's early work on sexual abuse, and its later repercussions, then move to his full-length case histories in order to understand fundamental ideas of interpretation, transference, and resistance. We will then move to interpersonal and object relations theories in the work of Klein, Winnicott, Guntrip, Fairbairn, and Laing, as well as theorists who have developed psychoanalytic theories of development includingorney, Bowlby, Ericson, and Stern. Throughout the course we will see links to empirical data of human cognitive and emotional development, and we will end with findings of research on process and outcome in psychotherapy.

F 2. Special Topics in Human Development and Applied Psychology, Doctoral Level

Description as for DP 1232

F 2.0 Advanced Social and Emotional Assessment Techniques

This practicum course introduces the student to the world of clinical assessment. Questionnaire and projective tests are used to assist in developing a picture of the emotional experience and the social environment of the child/adolescent. These factors are integrated with measures of cognitive ability and academic skill development to obtain an overview of psychological functioning. This half-credit course is scheduled on alternate weeks for the academic year.

Open to School and Clinical Child Psychology students only.
Prerequisites: DP1216 or equivalent and DP1218 or equivalent and permission of the instructor.

F 2.1 Seminar and Practicum in Assessment and Intervention with Children (Pass/Fail)

This course supports and monitors the development of the Ph.D. students' clinical skills assessment and intervention in the field placement. Placements are typically in clinical settings. Seminars are scheduled on alternate weeks for the academic year. They focus on issues related to diagnosis, intervention and clinical practice.

VOTE: Open only to School and Clinical Child Psychology students. Students are expected to consult with Dr. Lin to arrange their practicum placement in the year prior to taking this course or as soon as they are accepted into the program.

Prerequisite: 1218 or equivalent and permission of the instructor.

F 2.2 Internship in School and Clinical Child Psychology (Pass/Fail)

This is a 16-hour placement completed in the third or fourth year of doctoral study.

Prerequisites: DP3241 and permission of instructor.

F 2.2 Individual Reading and Research in Human Development and Applied Psychology, Doctoral level

Description as for DP222.

F 2.3 Systemic Family Therapy

The aim of this course is to introduce students to family therapy concepts and interventions for use in the practice of school and clinical child psychology. Structural, strategic, narrative and transgenerational models are considered through discussion of readings, videotape analysis and practical exercises.

F 2.2 The Psychology of Critical Thinking in

This course examines current research and theory on the psychology of critical thinking and explores the philosophical and empirical foundations of the concepts of critical and rational thinking. The framework for the course will be provided by recent research in cognitive, developmental, and educational psychology. Individual differences and the development of critical thinking will be discussed as a context for evaluating educational efforts to foster critical thinking.

F 2.6 Developmental Neuropsychology

In this course we will focus on brain systems involved in human emotion and self-regulation and trace their development from birth to adulthood. We will pay particular attention to the ways in which experience modifies corticolimbic systems, leading to the consolidation of individual differences in temperament and personality. We will then explore the implications of these processes for atypical development and developmental psychopathology.

F 2.2 Advanced Psychoeducational Assessment and Psychoanalysis

The purpose of this course is for students to refine their skills in psychoeducational assessment by assessing children with a variety of complex learning and social and emotional problems. Traditional psychoeducational assessment techniques are combined with a systemic approach to assessment of cognitive, educational and social/emotional functioning of children. Assessment is seen as embedded in a counselling process in which the children, parents and teachers are assisted to understand the nature of the children's difficulties, how they learn best, and their adaptive strategies for coping in the social milieu. Students will undertake two assessments over the course of the academic year using the facilities of the Counselling and Psychoeducational Clinic.

VOTE: This course is intended for students in School and Clinical Child Psychology. Others by permission of the instructor.

Prerequisite: DP1216 and one of DP1218, DP 271, or DP 284.

F 2.7 Biological and Psychological Foundations of Attention Disorders

This course will focus on current knowledge of various low incidence disorders – those typically represented in one percent of the population or less, especially conditions that are first diagnosed in infancy or childhood. We will discuss both biological and psychological factors playing a role in the etiology and discuss characteristic profiles for specific disorders. We will also consider potential interventions for prevention and treatment of the various disorders. Disorders to be considered include but are not limited to mental retardation, autistic disorder, Rett's disorder, Asperger's disorder, tic disorders, selective mutism, pica, enuresis, stereotypy and feeding disorders. For covering course material, the problem-based learning model will be used.

F 2.7 Assessment and Remediation for Reading and Writing Difficulties

This full-year course is designed to bring theory and practice together in the area of reading, spelling, and writing difficulties. A practicum component involves implementing a theory-based assessment and remediation model with students of all ages, report writing, and consultation with teachers and parents. The course is intended to be useful in the training of psychometrists/psychologists.

VOTE: This course is normally limited to students in School and Clinical Child Psychology. Permission of the instructor is required.

F 2010 Research and Theories of Reading Disability

A survey of current empirical evidence and theoretical models of reading disability, focusing on basic research on reading disability deriving from cognitive and developmental psychology. Individual differences in reading acquisition will be discussed as a context for understanding reading disability. Students will conduct an in-depth analysis of a specific research problem relevant to reading disability and/or reading acquisition.

F 2011 Assessment and Intervention in Multicultural/Bilingual Contexts

The purpose of this course is to explore, from a multidimensional perspective, assessment and intervention issues and techniques arising when learners in second language or multicultural contexts experience learning difficulties. Through readings, classroom discussion, case studies, and client-work, the course is intended to help students become better aware and better prepared for work with individuals in culturally and linguistically diverse settings. Students are expected to integrate and apply such diverse areas as second language acquisition, learning disabilities, cognitive and affective functioning, and to consider alternative assessment and intervention practices.

VOTE: Open to doctoral students in School and Clinical Child Psychology only others by permission of instructor.

F 2012 Individual Reading and Research in Adaptive Instruction and Special Education, Doctoral level

Specialized study, under the direction of a faculty member, focusing on topics that are of particular interest to the student but are not included in available courses. While credit is not given for a thesis investigation proper, the study may be closely related to such a topic.

F 2013 Special Topics in Adaptive Instruction and Special Education, Doctoral level

A course designed to permit study in a formal class setting of specific areas not already covered in the courses listed in the current year. For further information, see the course schedules available in early March.

F 2014 Test Title

Test Description

Y S 2010 Cognitive Development and Applications

This course provides an introduction to a variety of topics in cognitive development that are of contemporary interest. Basic knowledge of cognitive development theory and findings from infancy to adolescence is assumed. We cover those topics that are currently consuming significant research interest among cognitive developmentalists. These topics currently include concepts and conceptual change in infants,

core domains in conceptual development, the organization of action in infancy, the onset of symbolic functioning, memory development, the use of the imagination, theory formation as a model for conceptual change, and scientific reasoning.

Y S 2011 Social Emotional Development and Applications

This course will review theories of social and emotional development, and then follow the child's social-emotional growth from birth through adolescence. Within the context of children's family and peer relationships we will consider the ways in which emotional and social experience becomes patterned, organized, and represented by the child and by others. We will examine the implications of these issues for problematic outcomes in families, daycares, and schools, and for prevention and intervention practices.

Y S 000 Advanced Methods in Developmental Science

The aim of this course is to introduce students to advanced methods in Developmental Science. Prior to taking this course all students will already have taken at least one graduate course in research design and statistics in which basic design and analytic methods in psychology will have been covered. This course will further students' methodological training by introducing them to the most current methods being utilized in developmental research. The course will cover approximately twelve topics. Each topic will be covered by a faculty member in the Developmental Science program with expertise in that particular area.

Y S 2012 Reading in a Second Language

This course will provide the student with a better understanding of current issues in reading in a second language (L2) by focusing on theoretical and practical questions. Theories and research on reading in a first language (L1) will be examined for their relevance to reading comprehension in L2. A cognitive developmental approach will be used to examine the applicability of research findings on topics such as background knowledge, text structure, comprehension strategies, study strategies, cultural differences and reading in various content areas. Students will be encouraged to develop their own research questions and to apply these to practical L2 reading contexts.

YF 000 Parenting: Multidisciplinary Perspectives

This course is designed to introduce students to a multidisciplinary range of approaches to the understanding of parenting.

Research, theory, and professional practice are surveyed in a number of disciplines. Levels of analysis extend from the psychology of parenting to the societal context. Synthesis of the material is achieved via an organizing framework based on the social ecology of human development and via critical comparisons of different disciplinary perspectives.

Offered jointly by OSE/ET, the Faculty of Social Work and the Department of Psychology

C, C+, C++, A

Sociology and Equity Studies in Education (SESE)

Département de sociologie et d'études de l'équité en éducation

The Department of Sociology and Equity Studies in Education offers a full range of research areas leading to M.Ed., M.A., Ed.D., and Ph.D. degrees. These areas reflect clusters of current faculty research and teaching interests. Students are encouraged to orient to these interests as well as to work across them through their course-taking and research work. Each of these clusters of interest offer students preparation in Sociology in Education with an emphasis on equity issues. Particular research areas include

- Indigenous Studies in Education
- Critical Pedagogy and Cultural Studies
- Critical Race and Anti-Racism Studies
- Feminist Studies and Gender Relations in Education
- Learning and Work

Sociology in Education is the study of the social context of education. The Department understands education as a broad, multi-faceted concept – that is, a social organization of knowledge, teaching, and learning which takes place both within and beyond schooling. Equity is the lens through which we approach these phenomena. We blend with this vision the principles of interdisciplinarity and community engagement. Throughout our history, we have worked across, and attempted to bridge, divisions between theory and practice, insisting that the complexity of formal education settings and educational practices more broadly warrant equally complex and critical theoretical analysis.

Faculty participate in several related interdepartmental research areas, collaborative programs, research centres and the OSE/ET initial teacher education program.

The Department is organized as a constitutional democracy with a general Assembly and standing committees which provide for policy and decision-making in departmental programs, selection of incoming students, etc. Our constitution is based on one person/one vote, and everyone in the Department – staff, faculty and registered students – has voting rights and is welcome to participate in the running of the department.

General Information

For application information and forms, visit the Registrar's Office Website www.utoronto.ca/ose

If you require further application information, contact Graduate Studies Admissions Unit, Room 4-407
Telephone 416-923-6641 ext. 2663

Chairs and Coordinating Faculty

George J. Sefa Dei, Ph.D. (Toronto)

Professor, Chair of the Department, cross-appointed to the Department of Anthropology, University of Toronto

gdei@oise.utoronto.ca

Kari Dehli, Ph.D. (Toronto)

Associate Professor, Associate Chair, SESE

aridehli@oise.utoronto.ca

Margrit Eichler, Ph.D. (Duke)

Professor, Graduate Coordinator SESE, cross-appointed to the Department of Sociology and New College, University of Toronto

meichler@oise.utoronto.ca

C. Paul Olson, M.A. (Princeton)

Associate Professor, Graduate Studies Academic Secretary

polson@oise.utoronto.ca

Faculty**Sandra Acker, Ph.D. (Chicago)**

Professor, cross-appointed to the Department of Theory and Policy Studies in Education, and Associate Dean of the School of Graduate Studies, University of Toronto

sac er@oise.utoronto.ca

Jacqui Alexander, Ph.D. (Tufts)

Professor, cross-appointed from the Institute for Women's Studies and Gender Studies, New College, University of Toronto

acqui.alexander@utoronto.ca

Nathalie Bélanger, Ph.D. (Sorbonne)

Assistant Professor, Head, Centre for Franco-Ontarian Studies CREFO and the Centre de recherche en éducation franco-ontarienne on leave

nbelanger@oise.utoronto.ca

Rose Baaba Folsom, Ph.D. (Carl von Ossietzky University of Oldenburg)

Associate Professor

rfolsom@oise.utoronto.ca

Edward B. Harvey, Ph.D. (Princeton)

Professor Emeritus

ebharvey@oise.utoronto.ca

Monica Heller, Ph.D. (California at Berkeley)

Professor, cross-appointed to the Department of Anthropology, University of Toronto and to the Centre de recherche en éducation franco-ontarienne

mheller@oise.utoronto.ca

Helen Lenskyj, Ph.D. (Toronto)

Professor

hlenskyj@oise.utoronto.ca

David W. Livingstone, Ph.D. (Johns Hopkins)

Professor, cross-appointed to the Department of Adult Education and Counselling Psychology and the Department of Sociology

dlivingstone@oise.utoronto.ca

Roxana Ng, Ph.D. (Toronto)

Associate Professor, cross-appointed from the Department of Adult Education and Counselling Psychology

rng@oise.utoronto.ca

Ruth Roach Pierson, Ph.D. (Yale)

Professor Emeritus

rrpierson@oise.utoronto.ca

Jack Quarter, Ph.D. (Toronto)

Professor, cross-appointed from the Department of Adult Education and Counselling Psychology

quarter@oise.utoronto.ca

Sherene H. Razack, Ph.D. (Toronto)

Professor

sraac@oise.utoronto.ca

Kathleen Rockhill, Ph.D. (California at Berkeley)

Professor on leave

krackhill@oise.utoronto.ca

Peter Sawchuk, Ph.D. (Toronto)

Assistant Professor

psawchu@oise.utoronto.ca

Roger I. Simon, Ph.D. (Yale)

Professor, cross-appointed to the Department of Curriculum, Teaching and Learning

rsimon@oise.utoronto.ca

Dorothy E. Smith, Ph.D. (California at Berkeley)

Professor Emeritus

dsmith@oise.utoronto.ca

D. Alissa Trotz, Ph.D. (Cambridge)

Assistant Professor, cross-appointed to the Institute for Women's Studies and Gender Studies, New College, University of Toronto

da.trot@utoronto.ca

Rinaldo Walcott, Ph.D. (Toronto)

Associate Professor

rwalcott@oise.utoronto.ca

Njoki Nathani Wane, Ph.D. (Toronto)

Associate Professor

nwane@oise.utoronto.ca

Terezia Zoric, B.A., B.Ed. (Toronto)

Lecturer, cross-appointed to the Department of Theory and Policy Studies

tzoric@oise.utoronto.ca

Faculty Teaching and Research Interests

Faculty and student interests represent a variety of approaches to sociology and equity studies in education. The current composition of the department provides particular opportunities for students who may wish to focus their activities in the five theme areas listed below. Students are not required to stay within a single theme area when selecting courses.

Indigenous Studies in Education

This research area addresses current issues, trends, perspectives, and models of indigenous education through historical, cultural, spiritual, social and political philosophies and themes. Specific foci include indigenous and marginalized knowledges in global contexts and pedagogical implications for educational change. The roles of media, institutions, governments, and historical and contemporary policy in producing conditions of constraint in images, in art, theatre, poetry, film and literature of indigenous peoples' social and class differences, dominance, control politics, and social inequalities in regard to indigenous peoples and a special interest in developing, promoting, and sustaining healing and wellness, indigenous and anticolonial thought in the academy and in community. The goal of this research area is to create spaces for indigenous knowledges. Faculty include George Sefa Dei, Paul Olson and Njoki Nathani Wane.

Critical Race and Anti-Racism Studies in Education

Courses in this research area provide students with an integrative view of social difference—race, class, gender, disability and sexuality—and a critical reading of multiple social oppressions revealed in different sites and sources: schools, universities, local communities, media, law and cultural production. Faculty include Dwight Boyd, Ari Dehli, George Sefa Dei, Rose Gaba Folsom, Monica Heller, Judy Serrano, Helen Lenskyj, Roxana Ng, Paul Olson, Sherene Razack, Alissa Trotz, Rinaldo Walcott and Njoki Nathani Wane.

Culture, Communication and Critical Education

Courses in this research area are intended for those who wish to concentrate their studies in critical inquiry into culture and communication and cultural aspects of education. Courses are also suitable for students who wish to add such courses to their program. Questions discussed include the complex practices, relations, ideologies and technologies of culture, including cultural production, representation, circulation and mediation, whether in institutional settings and everyday life—explorations of the pedagogical implications of contemporary modes of

communication, media and popular culture, including alternative, critical and independent media studies of the social organization of knowledge and cultural forms and relations of power cultural politics and policy studies of the formation of audiences, spectators, readers and viewers inquiry into language, text, discourse and communicative action investigations of aesthetic practices, representations, performance and display the production and circulation of historical and ethnological representations studies of the pedagogical implications of cultural practices and the cultural dimensions of pedagogical practices studies of sub activity, identity and agency research of history, cultural memory and ethics. Faculty members associated with this area of study include Sandra Ac er, athalie elanger, ari Dehli, Rose aaba Folson, Monica eller, udy se e- arnes, David Livingstone, Paul Olson, Peter Sawchu , Roger Simon, Alissa Trot , Rinaldo Walcott and o i athani Wane.

Feminist Studies and Gender Relations in Education

This research area offers courses on gender studies in the family, educational systems, and workforce feminist theories and practice gender, class, race, language, and cultural and biological reproduction gender and sexualities and womens health. Note that other courses offered by feminist faculty, but not listed in this research area, may be taught from a feminist perspective. Faculty include Sandra Ac er, ari Dehli, Margrit Eichler, Rose aaba Folson, Monica eller, elen Lens y, Sherene Ra ac , Alissa Trot , Rinaldo Walcott and o i athani Wane.

Earning and Learning

Core courses SES2942 and SES3949. This research area is devoted to a critical approach within teaching and research on the interrelations of organized/informal learning and paid/unpaid work in the context of societal change processes, and to identifying the roles of educators in improving these relations. Courses offer theories and methods for understanding political, economic and ideological forces associated with educational and workforce change. Some representative themes include influences of social class, gender, ethnicity, generation and disability on learning practices and workforce opportunities impacts of technological changes on labour markets, workforce democratization changing labour processes and related training the labour movement school and community relations teachers work and educational innovation and problems of underemployment and the future of work. Faculty include David Livingstone coordinator, Sandra Ac er, athalie elanger, ari Dehli, eorge Sefa Dei, Rose aaba Folson, Paul Olson, Peter Sawchu , o i athani Wane and Tere ia oric.

This research area is also associated with the following **Learning and Work Interdepartmental Research Area** see page 184 **Workplace Learning and Change** research area in Adult Education and Counselling Psychology **The Secondary Program 4 (Education and Work)** in the Initial Teacher Education Program see below

Initial Teacher Education Program

Faculty members in the Sociology in Education Program participate in the Initial Teacher Education program through course delivery, program support and guest lecturing as well as through the Secondary Program 4 Education and Work. This option is designed for initial teacher education students with an interest in workplace issues and who want to proceed to the M.Ed. This arrangement involves two initial teacher education disciplines Business Studies and Technological Studies and three graduate programs Sociology in Education, Adult Education and Community Development, and Counselling Psychology. However, initial teacher education students in other disciplines with an interest in workplace issues may also apply for admission. The M.Ed. has a co-ordinated set of offerings of courses related to workplace issues. In total, students complete 1 one-semester courses, including options from outside the research area, and a comprehensive paper consisting of an integrated discussion of workplace issues. Students can enroll in the M.Ed. either part-time or full-time. Part-time students can take up to 6 years to complete their degree, whereas it is possible for full-time students to complete the degree in one academic year plus two summers.

Further information is available from

Peter Sawchu psawchu@oise.utoronto.ca

Centres

Three special interest research centres are presently based in the Department

- Centre for Integrative Anti-Racism Studies
- Centre for the Study of Education and Work
- Centre for Media and Culture in Education

Through its faculty, the Department also maintains close associations with two externally-based centres at OISE/UT the Centre for Womens Studies in Education and the Centre de recherches en éducation franco-ontarienne. For more detailed information about these and other OISE/UT research and field centres, see pages 184 - 189 of this *Bulletin*.

Interdepartmental Research Areas

The following research areas are fully described in the Interdepartmental Research Areas section, pages 179 - 183.

Critical Pedagogy and Cultural Studies

See the Interdepartmental Research Areas section, page 181.

Études franco-ontariennes en éducation

voir le Interdepartmental Research Areas Section, page 181.

Gender Equity in Education

See the Interdepartmental Research Areas Section, page 181.

Earning and Learning

See the Interdepartmental Research Areas section, pages 181 - 182.

Collaborative Programs

Comparative, International and Development Education

Students in the Department of Sociology and Equity Studies in Education can participate in the Collaborative Comparative, International and Development Education program. For complete details on the program, please see page 172.

Further information is available from

Karen Mundy, Adult Education and Counselling Psychology or see <cide.oise.utoronto.ca>. E-mail cide@oise.utoronto.ca

Environmental Studies

Students in the Department of Sociology and Equity Studies in Education can participate in the Collaborative Environmental Studies Program. For complete details on the program, please see page 172.

Further information is available from

Colin Athani Wane
E-mail nwane@oise.utoronto.ca

OR

Roger Hansell, ES Coordinator of Graduate Studies
Telephone 416-978-6499
E-mail roger.hansell@utoronto.ca

Women's Studies (GWS)

Students in the Department of Sociology and Equity Studies in Education can participate in the Collaborative Women's Studies program. For complete details on the program, please see page 176.

Further information is available from

Margrit Eichler, SESE
E-mail meichler@oise.utoronto.ca

Degree Requirements

The programs leading to M.Ed., M.A., Ed.D., or Ph.D. degrees may be undertaken as follows

The M.Ed. degree may be pursued on a full-time or part-time basis under Options eight half-courses and a Major Research Paper (MRP), Option 6 half-courses and a thesis, or Option ten half-courses with other specific requirements as stated in the individual offer of admission. This degree program has a unique professional character and is distinct from the M.A. in that students are encouraged to orient toward applied and theoretical dimensions of professional educational practice understood as knowledge, teaching and learning which takes place within or beyond schooling.

The M.A. degree may be pursued full-time or part-time and requires a thesis.

The Ed.D. degree may be pursued on a full-time or part-time basis with specific course requirements stated in the offer of admission. Students in this degree program may begin their studies on a part-time basis, but they must register full-time for a minimum of two consecutive sessions, not including summer, of on-campus study and then maintain continuous registration full-time subsequently until all degree requirements are completed. This degree program has a unique professional character and is distinct from the Ph.D. in that students are encouraged to orient toward applied and theoretical dimensions of professional educational practice understood as knowledge, teaching and learning which takes place within or beyond schooling. In keeping with this focus, beginning in 2006-07 academic year, all Ed.D. students will be required to complete the Practicum in Sociology and Equity Studies in Education half-course.

Ph.D. students must maintain full-time status throughout their program of study. See Minimum Admission and Degree Requirements section, pages 21-27. All students in this degree program must also successfully complete a non-credit SESE Thesis Seminar course (SES1913) prior to comprehensive examination.

Both the Ed.D. and the Ph.D. require a dissertation but the Ph.D. requires, in addition, a comprehensive examination.

VOTE Effective September 2016, the Department will be admitting a small number of students to the new Flexible-time Ph.D. Flexible-time Ph.D. students will register full-time during the first four years, and part-time during subsequent years of the program. The flexible-time Ph.D. degree has been designed to accommodate demand by practicing professionals for a Ph.D. degree that expects continued employment in areas related to their fields of research. Flexible-time Ph.D. students must complete the requirements of their degree within 8 years. All Ph.D. students must also successfully complete the non-credit course SES1913 – the SESE Thesis Students Seminar prior to the comprehensive examination.

Students are free to take all their courses within the department but may also take a portion of their courses in other OISE/UT departments, elsewhere in the University of Toronto School of Graduate Studies, or with prior permission, at another accredited university graduate program. The number of courses which **must** be taken in the department will vary by the type of degree (Ph.D., M.Ed., etc.). The minimum number of half-courses which must be taken in SESE is listed in the table below.

Degree	Total of courses required	Minimum of courses in SESE required
EdN	6 half-courses	3 half-courses
	8 half-courses	4 half-courses
	11 half-courses	5 half-courses
MA	6 half-courses	4 half-courses
	8 half-courses	4 half-courses
	11 half-courses	5 half-courses
EdN	8 half-courses	4 half-courses
	9 half-courses	5 half-courses
	11 half-courses	6 half-courses
	12 half-courses	6 half-courses
PhD	6 half-courses	4 half-courses
	8 half-courses	6 half-courses
	11 half-courses	8 half-courses

Within these requirements, courses taken in another department will be credited on students transcripts with that department's designation. In special circumstances (e.g., students enrolled in some Collaborative Programs) SESE credit designation **may** be granted for a course offered by another department in partial fulfillment of the minimum SESE course requirement specified for their degree. SESE credit for out-of-department courses may not exceed one half-course of a student's program of study.

VOTE Students must consult with their faculty advisor before enrolling in an out-of-department course for which they require SESE credit.

Incoming students should consult, by telephone, in person, or by e-mail, their assigned advisor (please note that a student's faculty advisor does not necessarily serve as his or her thesis, dissertation or MRP supervisor) prior to selecting courses for their program of study. Incoming students may also make enquiries regarding their course selections from the Liaison Officer in the Registrar's Office, Graduate Studies Registration Unit, OISE/UT. Although there are no required courses, it is recommended that new students take appropriate courses in methods and theory as well as a core course in their preferred focus area or areas.

Master's level students are strongly encouraged to take a methods course at the SES190 level and doctoral students at the SES390 level. Students with little background in sociology in education are strongly encouraged to take SES190, SES191 or SES194. Students with little background in sociology are strongly encouraged to take SES194.

Course outlines are available for consultation in the Department. To help students articulate and focus their intellectual concerns, the Department offers:

- a designated faculty advisor for each student assigned to the student upon admission
- a supervisor to be recruited by the student for theses, dissertations and MRPs
- independent study and research courses
- access to related courses in other graduate departments
- course outlines and evaluations
- a speakers series

the Sociology and Equity Studies in Education, and, too, available on the SESE Website <www.oise.utoronto.ca/depts/sese> which includes information about departmental and OISE/UT organization, facilities, and resources notices and information via e-mail through the departmental e-mail conference SESE

In addition, some faculty members run thesis support groups for their students.

Distance Education

The Department offers courses off-campus as well as in distance mode to serve students in localities outside Toronto. Off-campus students typically complete their program by enrolling in courses on-campus during the summer and/or by enrolling as full-time students during a Fall Session and a Winter Session, consecutively.

Information about off-campus and on-campus courses to be offered in the 2016 Summer Session and the 2016 Fall Session and 2017 Winter Session will be noted in the ***Graduate Studies Course Schedule*** available on-line at www.oise.utoronto.ca

Admission Requirements

The Department welcomes applicants with diverse but relevant backgrounds. M.Ed. and Ed.D. applicants must have the equivalent of twelve months professional experience. M.A. and Ph.D. candidates who are admitted without sufficient previous study in sociology or a cognate discipline may be required to take a lengthier program of study.

In addition to the general requirements for admissibility as outlined in the Minimum Admission and Degree Requirements section (pages 21 - 27), applicants are required to submit the following:

- a) a careful statement of intellectual interests and concerns relevant to sociology and equity studies in education as well as reasons for undertaking a program of study here in the Department. Applicants **must** list at the end of this statement, the research area or areas in which they have primary interest. It is preferable that the student also list at least one or more faculty members whose work is of the greatest interest
- b) two letters of reference, preferably from university instructors with whom the applicant has studied or worked
- c) at least one sample of written work in the social sciences

Incomplete applications may be subject to processing delays or rejection.

Courses

The following list demonstrates the range of courses offered within the Department. Not all of the courses listed are offered in any given year. Courses listed in French are generally taught in distance mode. SES1900 to 2999 courses are generally intended for the master's level (please note that all of these courses are also available to doctoral students). SES3900-3999 courses are designed specifically for doctoral degrees. Master's students may enroll in the 3900 courses with the permission of the instructor.

VOTE The *Graduate Studies Course Schedule*, available on-line at www.ro.oise.utoronto.ca will record full descriptions of the 2006/2007 Special Topics in Sociological Research courses (SES2999 at the master's level, and SES3999 at the doctoral level).

SES : 00 Introduction à la sociologie de l'éducation

Ce cours a pour but d'examiner les possibilités, les promesses et les problèmes avec lesquels les perspectives sociologiques peuvent animer et enrichir la compréhension du processus éducatif. Il fournit une introduction aux aspects théoriques et pratiques de la sociologie de l'éducation, et leur intégration.

SES : 00 Introduction to Sociology in Education

An examination of the possibilities, promises, and problems with which sociological perspectives can enliven and enrich the understanding of the educational process. This course provides an introduction to and integration of theoretical and practical aspects of sociology in education.

SES : 02 Introductory Sociological Research Methods in Education

An introduction to basic research methods appropriate for teachers and other students of sociology in education. General consideration will be given to technical problems with emphasis on the underlying research process and its practical implications for schools.

SES : 03 Introduction to Sociological Theory in Education

This course will introduce students to some of the classical questions and arguments in sociological theory, and to some of the authors who provided definitions and disagreements that have shaped sociology as a discipline. The course concentrates upon and questions the foundations of sociology and its early institutionalization in Europe and the United States between 1800-1930. We will read and discuss how classical sociology in different ways attempted to illuminate, understand and/or contribute to changing key features of social relations of emergent modernity. Finally, we will read reflexively to trace the various strategies that sociologists have used to know and represent the social and to claim scientific authority for sociological representations. What is it, if anything, that marks sociological knowledge as different from and superior to everyday or common sense knowledge of the social? In addition to reading works by and about founding fathers Marx, Weber and Durkheim, the course will also reflect on the contributions of Simmel, Du Bois and Freud to sociology.

SES : 04 Qualitative Approaches to Sociological Research in Education

This course will provide practical training in qualitative sociological research in education. Stages of qualitative research such as identifying a topic, organizing projects and writing proposals, gaining access, collecting data by in-depth interviews and participant observation, using documents, analysing data, and writing reports will be covered. Students will do a small project using techniques of interviewing and participant observation. Issues such as ethics, working with school boards and other agencies, and feminist research will also be raised. The course is most suitable for students who have some background in sociology but who have not previously conducted ethnographic or other forms of qualitative research.

SES : 07 Education multilingue et multiculturelle. L'analyse sociologique

Ce cours est traité comme un séminaire. L'emphase est mise sur le développement des structures analytiques. L'intérieur desquelles on peut examiner la relation existant entre l'éducation et le pluralisme culturel de la société canadienne contemporaine. On accordera une attention particulière au concept de multiculturalisme et aux programmes de développement qui s'y rapportent, ainsi qu'aux questions relatives à l'institution des politiques. Parmi les sujets qui seront discutés, on compte les suivants : l'éducation des groupes anglophone et francophone minoritaires, particulièrement en ce qui concerne la langue, les programmes scolaires et les enseignants.

SES : 0 Eco Sociology

This course aims to combine a feminist, ecological, and sociological perspective on selected global problems. It includes an examination of ecofeminist writings.

SES : Sociologie de l'éducation spécialisée

Ce séminaire a pour but d'explorer, d'un point de vue sociologique et historique, et grâce à un ensemble de données théoriques provenant aussi bien de France, d'Angleterre que du Canada, la mise en place de l'éducation spécialisée. Cette forme d'éducation, constituée dans le but de répondre aux besoins des élèves désignés comme spéciaux, eut son heure de gloire une époque donnée, soit avant qu'émergent les courants d'intégration et d'inclusion scolaire. La situation des écoles de langue française en Ontario sera également analysée au regard de cette question.

SES : 2 Foucault and Research in Education and Culture. Discourse, Power and the Subject

This course will introduce students to central approaches, themes and questions in the work of Michel Foucault. We will discuss the relevance and utility of his work by examining how a number of researchers in education have made use of it. Students will also be able to explore the implications and usefulness of Foucault's work for their own research.

SES : SESE Learning to Succeed in Graduate School (VOV 1 E, IT)

This non-credit course is required for all SESE Ph.D. students, though SESE students from other degrees may enroll in the course. Most sessions will focus on providing practical advice and opportunities for discussion about topics such as the roles of advisors and supervisors, how to find a supervisor and a thesis committee, how to prepare applications for grants, how to complete ethical protocols, how to prepare and present conference papers, how to get published, and how to write a proposal, etc.. There will be some guest speakers. The coordinator will be Margrit Eichler. You must register for this course in order to receive credit.

SES : Education and Popular Culture

Learning does not only take place within the institutions of formal education, but through a myriad of practices of popular culture.

Considering popular culture as inherently pedagogical, this course will address the learning that takes place through various everyday cultural practices and consider its implications for the work of educators. Practices to be considered include television, film, radio, digital media, musical performance, as well as aspects of material culture such as forms of dress, games, and toys.

SES : 2 The Principles of Anti-Racism Education

The first half of the course provides a theoretical analysis of anti-racism and anti-oppression education and issues for students, educators, and staff interested in the pursuit of anti-racism and anti-oppression education in the schools. The second half focuses on practical anti-racism strategies aimed at institutional change in schools, classrooms, and other organizational settings. The intention is to ground theoretical principles of anti-racism education in the actual school practices of promoting educational inclusion, social change and transformation.

SES : 22 Sociology of Race and Ethnicity

This seminar reviews selected sociological theories and perspectives on race and ethnicity. The emphasis is on emerging debates and investigations on the interrelation of race, gender, and class in the construction of social and historical realities and identities. It explores the implications of these advances for curriculum and pedagogical practices.

SES : 2 Racism, Violence and the Law. Issues for Researchers and Educators

The course sees first and foremost to deepen awareness of the role of violence in maintaining racial hierarchies. Its approach is to explore the racial violence of colonialism, of periods of racial terror, lynching, the Holocaust, and of the New World Order, in particular, the post-9/11 environment, and the violence of peace-keeping and occupations, as well as police brutality and street violence. Through a feminist and anti-racist framework, we explore how racial violence is sexualized and gendered, and how it operates as a defining feature of relations between dominant and subordinate groups. The course examines how racial violence is linked to empire and nation building, and how individuals come to participate directly or indirectly in these racial and gendered social arrangements. Through an examination of how racial violence is dealt with in the law, the course considers how white society both schools its citizens in racism and actively maintains a colour line.

SES : 2. Modernization, development and Education in African contexts

An exploration of the issue of modernization and development in African contexts and the impact on education and educational reforms. It examines various theoretical conceptions of the socioeconomic development process and the role of formal and popular education programs within that process. There is a special emphasis on the impact of international finance capital and the World Bank's economic adjustment policies and programs on Africa's educational reforms. Among the specific topics covered are social aspects of political and economic development, social stratification and cultural pluralism, problems of national identity, political ideology, and the growth of nationalism, as well as ecological questions of peace, cooperation, and social justice.

SES : 2. Savoir indigène et d'colonisation

Ce séminaire examine diverses formes du savoir indigène et marginalisés dans des contextes locaux et globaux et les implications pédagogiques de ce savoir sur le changement éducatif. Au départ, nous offrirons un bref aperçu sur le processus de production, d'interrogation, de validation et de dissémination du savoir dans divers contextes sociaux. Il existe pratiquement une critique à l'égard des conceptions théoriques liées à ce que constitue un savoir légitime et comment un tel savoir est produit et disséminé sur les plans local et global. Ainsi, l'accent sera particulièrement mis sur la validation des épistémologies autres que occidentale et la contribution de ces épistémologies à travers des perspectives multiples et collectives de voir et interpréter le monde. Parmi les sujets étudiés, on compte les principes et les formes du savoir indigène, les rapports de pouvoir, les différences sociales et, finalement, l'identité et la représentation dans le processus de production du savoir indigène. Nous nous pencherons aussi sur l'appropriation culturelle et l'économie politique de production du savoir, le savoir indigène et la science de l'éducation, le savoir indigène, la mondialisation et la modernité, le savoir indigène et le changement social. Afin de bien saisir les implications pédagogiques du savoir indigène, nous utiliserons du matériel pédagogique tiré de plusieurs contextes sociaux de divers pays du monde.

SES : 2. Indigenous Knowledge and Decolonization: Pedagogical Implications

This seminar will examine indigenous and marginalized knowledge forms in transnational and global contexts and the pedagogical implications for educational change. It begins with a brief overview of processes of knowledge production, interrogation, validation and dissemination in diverse educational settings. There is a critique of theoretical conceptions of what constitutes valid knowledge and how such knowledge is produced and disseminated locally and externally. A special emphasis is on the validation of non-western epistemologies and their contributions in terms of offering multiple and collective readings of the world. Among the specific topics to be covered are the principles of indigenous knowledge forms, questions of power, social difference, identity, and representation in indigenous knowledge production, the political economy of knowledge

production, indigenous knowledges and science education, indigenous knowledge and global knowledge change, modernity, and indigenous knowledges. The course uses case material from diverse social settings to understand different epistemologies and their pedagogical implications.

SES : 26. Race, Space and Citizenship, Research Methods

Drawing on recent scholarship in critical race theory, law, critical geography, history and cultural studies, on how spaces are constituted by and constitute social relations, this course will explore the issues that arise for educators who wish to consider the production of racial subjects in the making of Canada. The course addresses a central question: how can subordinate groups contest the racialized and gendered structure of Canadian citizenship through educational practices when to do so is to call into question the dominant groups' sense of self? To explore this question through interdisciplinary scholarship on race and space, the course will work with the narratives that each region of Canada tells about itself. We will examine the specific pedagogical sites, where the nation teaches its citizens who they are: sites of cultural production and popular culture, political discourse and schools, and consider the educational practices required to interrupt the production of a raced structure of citizenship.

SES : 27. Global Economic Restructuring, International Migration, Immigration Policies (Canada, USA, Germany)

This course will look into different aspects of the trend known as globalization. Of particular importance for the course will be the examination of migratory movements of people from the South to the North on the one hand, and the subsequent processes of their re-socialization and resettlement in new societies under state immigration policy on the other. Throughout these processes, the impact of such factors as race, gender, class, language, sexualities, and education will be critically discussed as important markers with determining effects on social and professional advancement. We shall explore a variety of possible relations between the reciprocal movements of capital and labor taking place within the processes of globalization and also how nation-states are implicated in their immigration histories.

SES : 30. Student Deviance, Resistance and Educational Transformation

This course deals with theories of social deviance and a systematic examination of student deviance in relation to the school system, especially educational failure, as well as practical issues of typification, classroom order, streaming, discipline, special education, school violence and child abuse and child abuse prevention. The course will place a particular emphasis on kinds of deviance and resistance, theories of deviance, mechanisms of social control, the processing of deviance, measurements of deviance, and the social distribution of deviance in schools and society. The course will also focus on violence-free school policies and practices

school codes of behaviour, school discipline, and student suspension policies and practices and antiracist and ethnocultural equity policies and practices, including those pertaining specifically to the Aboriginal peoples.

SES : 7 • **'cole et la communaut'**

Dans plusieurs pays, et notamment au Canada, des formes éducatives sont entreprises afin de rendre les administrations scolaires plus autonomes, davantage responsables et redevables face aux communautés. En ce sens, le communautaire, notamment au travers de l'action des parents, est invité à jouer un rôle scolaire. Cette situation est issue de la critique d'un modèle scolaire considéré trop uniforme, peu enclin à pondérer des situations particulières et inapte à remplir son rôle en ce qui concerne la transmission des savoirs de base jugés prioritaires. Cependant, certains voient dans cette mise en marche de l'éducation un simple rôle d'apparat pour les parents et le retour à un schéma compétitif entre les élèves. Prenant en compte ces tensions et représentations différentes au sujet du rôle de l'école, ce séminaire a pour but d'examiner, grâce à des textes riches aussi bien du point de vue théorique qu'empirique, les liens qui unissent l'école et la communauté.

SES : 8 • **The School and the Community**

This course investigates changing relations within and between schools and communities however defined. We will review sociological and historical studies of community and discuss the ways in which different notions of community and forms of diversity have been employed by parents, teachers, administrators, trustees and others in struggles over the form, content, and outcomes of schooling. Students are encouraged to draw on their own experiences as parents, teachers, students, trustees and/or community activists.

SES : 9 • **Marginality and the Politics of Resistance**

This course examines the processes through which certain groups are marginalized and explores some strategies for resistance. The first section explores the meaning of subculturality and its relationship to political practice, experience, knowledge, and power. Section two looks more closely at gender, sexuality and race, exploring here both the concepts we have used to understand domination and the practices of marginalization themselves. Section three considers three strategies of resistance: writing, cultural production, and politics.

SES : 6 • **Social Relations of Cultural Production in Education**

This course will analyse how cultural meanings are produced, interpreted, legitimated, and accepted and/or rejected in educational settings, including but not limited to schools. Critical perspectives from feminism, Marxism, and poststructuralism will be explored to consider how culture has been investigated and taken up in/through sociology, cultural studies, and studies of education and schooling.

SES : 7 • **Disability in Theory and Everyday Life**

This course will investigate disability from the interplay/tension between everyday life experience and wider social context.

Theories of the body, of normalcy, of the subject, and of the production of differences are taken up in relation to the writings of people with disabilities. The course takes a cross-disability perspective and incorporates the work of disability activists and disability movements.

SES : 10 • **The Internet and Cyberspace: Issues of Culture, Identity, Access and Control**

Cyberspace: an expression linking people, computers and sources of information can be understood in many ways. What are the metaphors which define it? What are the discourses that emerge there? How are these produced in cultural negotiations? This course examines the development and practices of internet use and of Cyberspace as a site of cultural production and as a potential site of both retrenchment and resistance to dominant understandings of culture. Questions of identity and cultural politics will be examined in regard to interactions in Cyberspace. Students will discuss and analyse cultural, social, political and economic issues and controversies around access, parental and educator control over children's usage, privacy and security, content, copyright and intellectual property.

SES : 11 • **Theoretical Frameworks in Culture, Communications and Education**

This course examines a range of arguments concerning the ways in which theories of culture, communication and education impact our understanding of the everyday world. The course attempts to survey literature which places discussions of culture, communication and education in the foreground. The course will attend to the ways in which culture, communication and education are not settled terms but are terms deeply implicated in how we maneuver the everyday social world.

SES : 2 • **Women, Diversity and the Educational System**

This course examines the impact of the changing situation of women in society on educational processes and curriculum. Among topics covered are gender, biography, and educational experience: patterns of educational access and achievement; gender as an organizing principle in school and classroom practices and peer relations; teachers' careers; women's studies; feminist agendas and strategies for change.

SES : 12 • **Gender, Race and Historical Sociology**

This course will introduce students to a variety of approaches to sociological historical investigation and to debates surrounding the impact of postmodern concepts, the shift from women's history to gender history, and the extent to which gender has or has not been studied as mutually constitutive of the categories of class, race, sex, and sexuality.

SES1 : Women's Learning, Women's Health Movements and the Health Professions

The course will investigate recent social change movements in North America and internationally that have focused on women's health, broadly defined. Various feminist analyses of women's learning and women's health will be evaluated, with particular attention to factors such as social class, race/ethnicity, and sexuality. In examining women's health and the implications for women's learning, the course will include discussions of reproduction, sexuality, violence, mental health, body image, and recreation. Community education and development initiatives in these areas will be evaluated. Finally, health professionals' responses to women's health movements, and the implications for women in the health professions, will be investigated.

SES1 : Diversity and Social Justice Issues in Physical Education, Recreation and Sport

The main objective of the course is to develop a critical sociological analysis of interlocking systems of oppression: sexism, classism, racism, homophobia, ableism and their manifestations in physical education, recreation and sport. Feminist, socialist and antiracist analyses will be used, with a focus on the pedagogical implications. Readings and discussions will investigate the experiences of disadvantaged sociocultural groups, including girls and women, ethnic minorities, people living in poverty, lesbians and gay men, and people with disabilities, and will examine various social contexts, including schools, universities and communities. Developments since the 1990s will provide a context for current trends in Canada, the US, Australia and elsewhere.

SES1 : Black Feminist Thought

Various discourses, theoretical frameworks and ideological proclamations have been employed to analyze, criticize and interrogate everyday lived experiences of Black peoples. This course examines the multiple oppressions and social representations of Black women using a Black feminist theoretical framework. Part of the course will be devoted to Black feminist theory—a theory developed out of Black women's experiences and rooted in their communities. The course will also examine the following issues among other strands of feminisms with particular emphasis on feminisms as advocated by the visible minorities: the divergences and similarities of Black feminisms and the heterogeneous nature of Black women's experiences. The course will be sociological and historical in nature and will examine the intersections of race, class, gender and homophobia.

SES1 : 2. Feminism and Poststructuralism in Education

In this course, we will debate some of the key questions raised by feminist poststructuralist writers. These include the nature of power and the subject, the workings of discourse and the status and effects of knowledge. Detailed consideration will be given to feminist poststructuralist accounts of educational practice and feminist pedagogy.

SES2 : 0. Changes in Families and Policy Responses for Government and Education

An examination of recent and anticipated changes in Canadian families and the study of current government policies concerning families. An investigation of the present situation, government policy, and educational policy.

SES2 : Education, Gender Relations and Masculinity

This course deals with the historical construction and contemporary forms of regulating masculinity as the dominant, dominating feature of approved, privileged social identity within the centrally defining contexts of familial, educational, and occupational relations. The course format will be exploratory and workshop-oriented.

SES2 : 1. Diversity in Educational and Employment

Demographic and social changes have dramatically altered Canada's workforce and school populations. By the end of the century, over 80 percent of new workers will be women, members of racial minorities, including those of Aboriginal origin, and persons with disabilities. This course will analyze issues of equality of opportunity in employment and education. It will examine practical strategies for achieving needed changes and effectively valuing and managing the increasing diversity of our workforce and training institutions.

SES2 : 0. Ethnicity, Marxism and Education

This course provides a broad introduction to the range of theoretical concepts and methods of investigation in historical materialist thought. Past and present developments in Marxist theory and international practice will be reviewed. We will explore critical assessments of Marx's method of inquiry, the dynamics of the capitalist production process, class relations and class consciousness, ideological hegemony and popular culture, contemporary Marxist theories of education, the relations of education and work, and current challenges to Marxism. Specific topics will be developed dialogically in response to participant interests, helping students to better understand the relationship of their own projects to this tradition. The course will include guest lectures from a variety of SESE faculty in order to help participants situate Marxism in relation to other forms of theory/practice.

SES2 : Social Inequities and Education

Exploration of knowledge and power relations in the reproduction and modification of social inequities from class, gender, ethnic, age and disability standpoints, particularly as they affect educational and learning opportunities and the legitimacy of different forms of knowledge. The roles of family origins, schools and teachers receive particular attention.

SES2 . 2. Education and Work

An introduction to critical contemporary studies of relations between the realms of learning and work. Formal, nonformal and informal learning practices will be examined, as will paid employment, household labour and community service work. Special attention will be devoted to the connection between underemployment and lifelong learning.

SES2 70. Indigenous Peoples and Media. Theorizing Decolonizing Cultural Critique and Self-Determination

Cultural productions in which indigenous peoples engage to tell stories, resist subordination, and share cultural forms and practices include artists and activists' texts, images, films, and stories, media, film, photography, newspapers, written texts, research documents, literary texts, internet communications and web sites. These productions will help us question and challenge myths about indigenous peoples which replicate and reproduce stereotypic understandings of indigenous peoples, beginning a process of decolonizing our minds and embracing indigenous representations of indigenous peoples. This course will involve literature/productions from indigenous authors, storytellers, filmmakers, photographers and activists whose compelling stories and productions undertake a critical examination of imperialism, history, writing and theory in regard to indigenous peoples, focusing on strategies of resistance through writing and cultural production, and engaging in theorizing, decolonizing, cultural resistance through writing and cultural production and engaging in theorizing, decolonizing, cultural vitalization and self-determination.

SES2 . Individual Reading and Research in Sociology and Equity Studies in Education Master's level

Specialized study, under the direction of a staff member, focusing on topics of particular interest to the student that are not included in available courses. This study may take the form of a reading course combined with fieldwork in community groups and organizations, or independent study of any type. While credit is not given for a thesis investigation proper, the study may be closely related to a thesis topic.

SES2 . : Special Topics in Sociological Research in Education

Courses that will examine in depth topics of particular relevance not already covered in regular course offerings in the department. The topics will be announced and described in the schedule of courses.

SES : 00. Advanced Issues in Sociological Research Methods in Education []

This course focuses on the uses and techniques of sociological methods in actual research projects and problems. The course will blend both quantitative and qualitative methods and discuss their relevance to theory, interpretation, and philosophy of science. It will be especially appropriate for students undertaking doctoral work. Students will be expected to discuss in class their own research problems. The class will consider the strengths and pitfalls of alternative research approaches and the data they generate.

SES : 0. Research Seminar: Theoretical and Methodological Problems in Advanced Historical Sociological Research in Education []

This course will provide students who are at the stage of thesis writing with the opportunity to explore and discuss questions of research methods and problems of theorization.

SES : 0. Advanced Seminar on Race and Anti-Racism Research Methodology in Education []

This advanced graduate seminar will examine multiple scholarly approaches to researching race, ethnicity, difference and anti-racism issues in schools and other institutional settings. It begins with a brief examination of race and anti-racism theorizing and the exploration of the history, contexts and politics of domination studies in sociological and educational research. The course then looks at ontological, epistemological, and ethical questions, and critical methodological reflections on race, difference and social research. The course will focus on the ethnographic, survey and historical approaches, highlighting specific qualitative and quantitative concerns that implicate studying across the axes of difference. We will address the issues of school and classroom participant observation, the pursuit of critical ethnography as personal experience, stories and narratives, the study of race, racism and anti-racism projects through discourse analysis and the conduct of urban ethnography. Through the use of case studies, we will review race and anti-racism research in cross-cultural comparative settings and pinpoint some of the methodological innovations in social research on race and difference.

Prerequisite: SES1922 or permission of instructor.

SES : 1 Cultural Knowledge, Representation and Colonial Education

With the advent of colonialism, non-European traditional societies were disrupted. A starting point is an appreciation of the vast array of cultural diversity in the world. The course interrogates how various media have taken up these knowledge systems, presented to the world in the form of texts, films, and educational practices, and examines how colonial education sustains the process of cultural knowledges fragmentation. Our analysis will serve to deepen insights and to develop intellectual skills to cultivate a greater understanding of the dynamics generated through representations and the role of colonial education in sustaining and delineating particular cultural knowledge. We will also explore the various forms of resistance encountered in the process of fragmentation and examine how certain groups of people in various parts of the world have maintained their cultural base, and how this has been commodified, commercialized and romanticized. The course makes use of forms of cultural expressions such as films and critical theories on race, gender, sexuality, and class.

Prerequisite: Masters students need approval of instructor.

SES : 2 Race and Knowledge Production Research Methods

As a doctoral level course for students who already possess some familiarity with postmodern, feminist, or post-colonial theories, the course will consist of readings that explore the following two questions: How is knowledge production racialized? How can intellectuals challenge imperialist and racist systems through their research and writing? The course examines colonialism, imperialism, and gender researching everyday racism, racism and education, racial knowledge and the disciplines, and writing as resistance.

SES : 3 Intersection, Domination, Power Relations Based on Race, Gender, Class and Sexuality

Anti-racists, feminists and other critical scholars in the social sciences have amply demonstrated multiple ways through which asymmetrical power relations encode, normalize and sustain oppression. In their analyses, they have to a large extent focused their critiques of power relations involving domination on the written text as a primary site of investigation. The goal of this course is to explore covert ways through which power relations of domination are produced, perpetuated and contested in social, political and cultural spaces. We will attend to different forms of language which convey power relations of domination along race, gender, and class fault lines.

SES : 4 Anti-Colonial Thought and Decolonial Challenges

Contact between the imperial order and the colonial periphery continues to involve complex and creative encounters/resistances. The myriad forms of resistance help sustain the local human condition of the colonized other. This advanced seminar will examine the anti-colonial framework as an approach to theorizing issues emerging from colonial and colonized relations, using subversive pedagogy

and instruction as important entry points to critical social practice. Focusing on the writings and commentaries of revolutionary/radical thinkers like Memmi, Fanon, Cabral, Gandhi, Machel, Che Guevara, Yerere and Lumumba, the course will interrogate the theoretical distinctions between anti- and post-colonial thought, and identify the particular implications/lessons for critical educational practice. Among the questions explored will be the challenge of articulating anti-colonial thought as an epistemology of the colonized, anchored in the indigenous sense of collective and common colonial consciousness.

SES : 2 Language and Social Difference in Education: Comparative Perspectives

The purpose of this course is to examine the ways in which education is bound up with ideologies of language and social difference in specific political contexts. While the focus is on race and ethnic relations, the course also examines how these intersect with questions of gender and class.

SES : 0 Methods to Avoid Sexist, Racist and Ableist Biases in Research

This course will familiarize the student with a particular approach to identify biases in research based on social hierarchies - the AS FREE approach (Building an Integrative Analytical System for Recognizing and Eliminating Biases in Research and Policies). We will examine sexist, racist and ableist biases in research, how to recognize them in the literature, and how to avoid them in one's own work.

SES : 2 Women and Higher Education

This course enables students to take a close look, from a sociological perspective, at gender relations in higher education. The focus will be on women students and faculty members in universities and colleges, although it is understood that gender operates in tandem with race, class, age, sexual orientation and other sources of identity and positioning. We will consider questions of access, representation, experience, and career look at efforts to alter curriculum and pedagogy in accordance with ideas about women's needs or feminist process and review feminist and other critiques of the purposes and cultures of the university. Specific topics such as student cultures, thesis supervision, sexual harassment, the chilly climate, and so forth will be taken up through readings and student presentations.

SES : 3 Theories in Transnationality, Feminist Perspectives

This course seeks to critically interrogate notions of the transnational found in recent feminist theorizing. Transnational has been invested with a variety of meanings and political attributes, from descriptions of global capital to the politics of alliance and coalition-building, from the creation of sub activities through to the reconfiguration of imperialist ideologies and practices in the contemporary conjuncture. It is about linkages and unequal connections, engaging a broad and necessarily interdisciplinary

spectrum of work, this course seeks to trace the variety of methods and investments that feminists have brought to bear on their engagement with transnationality. What are some of the implications for theory, for activism, for imaginative and pedagogical practices

SES 222: Innovations in Education. A Comparative Analysis

This course uses data from a variety of societies - both developed and developing to identify factors that may influence the success of large-scale educational change efforts. A wide variety of types of reforms, in very different sociopolitical settings, are considered. The first section of the course examines a set of mostly failed attempts at large-scale, top-down and centrally-driven reform efforts, aiming to understand why they typically have failed. The second section examines a large set of successful change efforts, mostly in developing nations, which are radically altering the forms of formal schooling and achieving significant learning gains among very poor children, particularly girls. This section draws upon the resources of a large international research program involving students, academics, and practitioners from around the world which is analyzing a database of more than 100 such success stories. Finally, we consider what educators in wealthy nations such as Canada can learn from the successes of their colleagues in much poorer nations.

SES 223: Sociology of State Formation and Genealogies of Government

This course explores two approaches to the study of power: historical sociology of state formation and genealogies of government. The course is intended for students who plan to study some aspect of politics, policy, and political subactivity in their thesis research, and/or who are looking for ways to blend Marx and Foucault in their work.

SES 224: Advanced Studies in Learning and Work

A research seminar which will aid students to pursue thesis-related topics in this field. Topics will include a critical overview of theories of workplace learning in diverse cultural and historical contexts; general studies of the changing nature of paid and unpaid work and different forms of learning in contemporary societies; transitions between education and paid employment; class, gender, race, age and ability-based differences in learning and work relations; and relations between workplace redesign and educational reform alternatives.

SES 225: Individual Reading and Research in Sociology and Equity Studies in Education. Doctoral level

Description as for SES2999.

SES 226: Special Topics in Advanced Sociological Research in Education

Description as for SES2999, but at the doctoral level.

Cross listed courses

Always consult with your SESE departmental advisor as soon as possible about the cross-listed status of courses. In general, a letter signed by you and your advisor, and approved by the SESE Graduate Program Committee chair is required in order that a course not offered by SESE be counted toward your SESE departmental requirements. For those SESE students enrolled in Collaborative programs or interdepartmental Research Areas, core courses listed under other departments will be considered cross-listed without such a letter.

Individual reading courses will not be counted toward fulfilling your SESE departmental requirements unless they are taken under the course codes SES2999 (master's level) or SES3999 (doctoral level).

TEACH 201: Teaching, Conflict and Conflict Resolution

This seminar examines the theoretical and practical challenge of teaching young people and giving them opportunities to handle interpersonal and social conflict. The course examines the ways conflict may be silenced, avoided, confronted or resolved in the realms of school knowledge, pedagogy, hidden curriculum, peacemaking programs, governance, and social relations, from Canadian and international/comparative/cross-cultural perspectives. It focuses on analyzing how various kinds of education about conflict fit in, and can challenge, the regularized activities, assumptions, and curriculum of schooling, and also on how the management of conflict implies and shapes citizenship expectations, social exclusion and inclusion. The course emphasizes implicit and explicit conflict management and conflict learning in formal school settings, but also examines the relationships between schools and other cultural and socio-political institutions. Participants will become skilled in analyzing research and experience regarding the conflict learning opportunities and equity dilemmas that are embedded in patterns of institutional activity and curriculum, and in various initiatives to teach or facilitate conflict resolution.

YSA 207: Language, Nationalism and Post-Nationalism

The purpose of this course is to examine the relationship between ideologies and practices of language and nation, from the period of the rise of the nation-State in the 19th century to current social changes related to the globalized new economy which challenge prevailing ideas about language and nation. We will discuss the role of language in the construction of major European nation-States and in their colonial expansion; the role of language in post-colonial nation-building; the construction, positioning and repositioning of so-called linguistic minorities and indigenous rights movements; the concept of immigration is relevant, of course, but falls beyond the scope of what we can cover here; the commodification of language and identity in the current economy; language and globalization; and current debates on the ecology of language and language endangerment. Throughout we will also examine the role of linguists, anthropologists and other producers of discourse about language, nation and State in the construction of theories of nation, ethnicity, race and citizenship.

YTE : 2. Langue, culture et éducation

Le lien entre l'usage linguistique, les rapports sociaux, la culture et l'éducation, l'intérieur comme l'extérieur des écoles, sera examiné selon l'approche anthropologique de l'ethnographie de la communication. La première partie du cours sera consacrée à l'étude des caractéristiques et des origines des différences culturelles dans la façon de s'exprimer l'oral et l'écrit, et de même que le comportement adopté dans l'interaction sociale. La deuxième partie sera consacrée à l'étude des conséquences de ces différences culturelles en ce qui a trait au rendement académique et au développement linguistique des élèves en situation multilingue/multiculturelle. Finalement, nous examinerons l'utilité de l'approche ethnographique comme méthodologie de recherche et comme outil ou méthode pédagogique. Le cadre théorique et méthodologique établi dans ce cours servira l'examen des problèmes de l'éducation franco-ontarienne.

YTE : 2. Language, Culture and Education

The anthropological perspective of the ethnography of communication will be adopted to study the relationship between language use, social relations, culture and learning in and out of schools. The course will deal with the nature and origin of cultural differences in language use and patterns and social interactional styles with the consequences of those differences for school performance and with the usefulness of the ethnography of communication as both a research and a pedagogical tool in the development of curricula and teaching practices that account for such differences. The ethnography of communication will also be interpreted in the light of political economic perspectives on the issue of sociolinguistic diversity and educational success.

YTE2 2. Teachers, or, Classrooms, Careers, Cultures and Change

Although there is a long tradition of efforts to describe the characteristics of teachers as an occupational group, or examine the practice of teaching, it is only in the past few decades that scholars have explored the experiences and cultures of teachers in depth, drawing upon a greater range of theories, methods and ideologies. Some researchers have sought to probe the thinking processes of teachers, particularly the way in which knowledge is expressed in action others have explored the pivotal role of teachers in school effectiveness and innovation others have developed models of teachers as workers under threat still others have analysed the extent to which gender structures teachers' lives and careers. This course provides an introduction to such topics, at the same time encouraging students who are or have been teachers to reflect upon their own experience and the context in which it occurs.

We look at teachers as individuals using skills and creating identities as actors and negotiators in classrooms as colleagues in a workplace as members of an occupation. Throughout, we shall remain alert to the social policy contexts and constraints within which teachers must operate as strategists and decision-makers.

Theory and Policy Studies in Education (TFS)

The Department of Theory and Policy Studies in Education consists of three graduate programs

Educational Administration

Higher Education

History and Philosophy of Education

The History and Philosophy of Education Program represents cognate disciplines. The Educational Administration and Higher Education Programs represent the application of cognate scholarship to domains of practice. Each program offers courses of study leading to M.Ed., M.A., Ed.D. and Ph.D. degrees.

The Department also participates in two Collaborative Programs

Comparative International and Development Education

Graduate Collaborative Program in Women's Studies

The Department offers the Certificate in School Leadership and, as well, has an important initial teacher education function.

To be admitted to the Department, application must be made to a Program and to one of the following five fields

Educational Administration
Higher Education
Health Professional Education M.Ed. only
History of Education
Philosophy of Education

General Information

For application information and forms visit the Registrar's Office Website www.utoronto.ca

If you require further application information, contact Graduate Studies Admissions Unit, Room 4-408
Telephone 416-923-6641 ext. 2663
E-mail gradstudy@oise.utoronto.ca

Cecilia Morgan, Coordinator

Philosophy of Education

Dwight Boyd, Coordinator

Chairs of the Department

Nina Bascia, Ph.D. (Stanford)
Professor and Chair

Cecilia Morgan, Ph.D. (Toronto)
Associate Professor and Associate Chair

Interdepartmental Research Area

Gender Equity in Education

This interdepartmental Research Area focuses on the practical and professional relevance of gender equity issues for teachers and educational administrators. It is taken as part of the student's course load within any program in the Department of Theory and Policy Studies in Education. One course on Gender Equity in the Classroom taught in the Department of Sociology and Equity Studies in Education is required; two other courses are to be selected from a list of courses from various other programs. The Centre for Women's Studies in Education (CWSE) coordinates this interdepartmental Research Area.

Participating TFS Faculty

Stephen Anderson, Ina Ascia, Ruth Layhoe and Reva Oshee

The Collaborative Program in Comparative, International and Development Education C DE is jointly offered at the M.Ed., M.A., Ed.D. and Ph.D. levels in the Departments of Adult Education and Counselling Psychology Curriculum, Teaching and Learning Sociology and Equity Studies in Education and Theory and Policy Studies in Education. Students enrolled in any of the four collaborating departments receive a notation on their transcript identifying their specialization in Comparative, International and Development Education.

The C DE program will be of interest to Canadian students who wish to work and live in other cultures or want to better understand the educational and social systems of the many learners in Canada's multicultural society. It will also be of interest to international students who wish to relate their studies at OISE/UT directly to their own societies and learning systems.

Prospective applicants should review the detailed information about the C DE program available in the **Collaborative Graduate Degree Programs** section on pages 172 - 177 of this *Bulletin* and on the C DE Website at oide.utoronto.ca. You are strongly advised to contact one of the participating C DE faculty members listed above, to discuss your research interests and goals. You should also review the information provided in the **School of Graduate Studies Calendar**.

Courses

The following is a list of courses offered by the Department of Theory and Policy Studies in Education that are accepted for credit by C DE. Not all of the courses listed are offered in any given year. Students should also see course lists under the **Collaborative Degree Programs** section in this *Bulletin* pages 174 - 177.

TPS1 16	School Program Development and Implementation
TPS1 19	Diversity and the Ethics of Educational Administration
TPS1 22	Teachers and Educational Change
TPS1 47	Managing Changes in Classroom Practice
TPS14	The Origins of Modern Schooling Problems in Education before the Industrial Revolution
TPS141	The History of the Teaching Profession
TPS142	European Popular Culture and the Social History of Education
TPS1421	The History of Women and Education
TPS1422	Education and Family Life in the Modern World
TPS142	Class Formation and its Relation to the Schools
TPS143	Gendered Colonialisms, Imperialisms and Nationalisms in History
TPS144	Popular Culture and the Social History of Education
TPS1 33	Recurring Issues in Post-secondary Education
TPS1 36	Systems of Higher Education
TPS1 32	Comparative Education Theory and Methodology
TPS1 326	Comparative Higher Education
TPS1 332	East Asian Higher Education
TPS2 6	Educational Finance and the Economics of Education
TPS3 17	Problems in the Finance and Economics of Education
TPS3 2	Educational Change in the Post-Modern Age
TPS3 4	Educational Policy and Program Evaluation
TPS3423	Education and Family Life in the Modern World
TPS 3447	Theories of Modernity and Education
TPS 3 36	Case Studies in Comparative Higher Education
TPS 3 31	International Academic Relations

A wide selection of additional courses is available across participating departments. See the entry on pages 174 - 177 in this *Bulletin* or visit the C DE Website oide.utoronto.ca.

Graduate Collaborative Program in Women's Studies (GWS)

The Departments of Adult Education and Counselling Psychology, Curriculum, Teaching and Learning, Sociology and Equity Studies in Education and Theory and Policy Studies in Education participate in the university's Graduate Collaborative Program in Women's Studies (GWS).

All programs of study should be planned in consultation with the Graduate Women's Studies Program Director at New College and the Program advisor in the student's OSE/OT home department. Further information is available on page 176 of this *Bulletin* and from the *School of Graduate Studies Calendar*.

- John E. Davis, Ph.D. Toronto
- Edward S. Lickox, Ed.D. Cornell
- Stephen J. Lawton, Ph.D. California at Berkeley
- Donald F. Musella, Ed.D. State University of New York at Albany
- Richard J. Townsend, Ph.D. Chicago

Program Mission

The Educational Administration Program is devoted to the study and development of Policy, Leadership, Change, and Social Diversity in Education. Students may choose to focus their attention on courses in one of these four research areas or to explore the field more broadly. Several degree and non-degree programs of study are offered to meet the diverse needs of practitioners and scholars of educational administration.

Certificate in School Management

The Certificate in School Management serves the professional development needs of school business officials and other educational administrators who desire further study in school administration.

Admission and Fees

Admission requirements are

- a seven years experience as a school business official or in some other aspect of school administration
- b two letters of recommendation, one from an educational administrator for whom the applicant has worked directly, one from a professional colleague or a university professor who can speak to the question of academic competence
- c an educational background appropriate for work at an advanced level normally, a degree of high standing from a recognized university or equivalent.

The Certificate in School Management is operated entirely through the Educational Administration Program.

All correspondence and fees should be sent to

Marion Morgan
Telephone 416-923-6641 ext. 2472
E-mail mmorgan@oise.utoronto.ca

Full-time students pay the full graduate academic fee per annum plus incidental fees. Part-time students pay for each half-course. In 2012/2013, the full-time annual fee was 6,416. and the half-course fee was 1, . . .

Program Requirements

The requirements consist of

- a TPS1 4 and TPS1 41, which are strongly recommended as first courses
- b two half-courses related to school board management, which normally include TPS2 6
- c two elective courses, normally in Educational Administration.

Students may begin the program of study in the second term of Summer Session July/August or the Fall Session or the Winter Session. If full-time, the requirements may be completed in the Fall and Winter Sessions September to April. If part-time, the requirements may be completed through attendance in Fall, Winter and Summer Sessions.

Degrees

The M.Ed. and Ed.D. degree programs are designed to prepare practitioners for leadership careers at various levels. These degree programs concentrate on those elements of theory and research that are of direct assistance in understanding and resolving problems and issues confronting practicing administrators.

The M.A. and Ph.D. degree programs are intended particularly for those who are interested in educational administration as an academic field of study. Students are typically interested in the ideas in this applied field of study, and their research involves the application of ideas to practice.

The M.A. appeals to those with an excellent academic background who want to continue to the Ph.D. The Ph.D. is especially of interest to those considering a career in the university or in research.

Master of Education

The M.Ed. degree program is designed primarily for persons who are interested in learning the nature and practice of leadership in administration, policy, and planning.

Admission Requirements

In addition to the general requirements in the Minimum Admission and Degree Requirements section, pages 21 - 27, desirable departmental criteria for admission to an M.Ed. degree program are as follows

- a a four-year university of Toronto bachelor's degree, or its equivalent, preferably with a concentration and focus in an area relevant to the type of educational administration the applicant wishes to enter
- b an interest in the study and practice of administration
- c academic qualifications beyond the first degree
- d two letters of reference - see Application Procedures section, page 28. Whenever possible, one should be written by an educational administrator for whom the applicant has worked, and the second by a professional colleague

Degree Requirements

Beginning with the 2012-13 academic year, students will select from the following three options

Option II which is comprised of

- a three required courses
 - TPS1 33 Conducting Research in Educational Administration RM
 - TPS1 44 Educational Administration Introduction to Educational Administration Policy, Leadership and Change
 - TPS1 41 Educational Administration Social and Policy Contexts of Schooling

VOTE. TPS1 44 and TPS1 41 should preferably be the first courses taken in a student's program of study. TPS1 33 should be taken toward the end of the program of study. TPS1 44 is strongly recommended and should be taken at the beginning of the program.

- b five other half-courses, of which at least two must be in Educational Administration. Students may choose to focus on one of the four research areas Policy, Leadership, Change, and Social Diversity
- c a Master's Research Paper (MRP) to be carried out under the guidance of a faculty member

Option III which is comprised of

- a three required courses
 - TPS1 33 Conducting Research in Educational Administration RM
 - TPS1 44 Educational Administration Introduction to Educational Administration Policy, Leadership and Change
 - TPS1 41 Educational Administration Social and Policy Contexts of Schooling

VOTE. TPS1 44 and TPS1 41 should preferably be the first courses taken in a student's program of study. TPS1 33 should be taken toward the end of the program of study. TPS1 44 is strongly recommended and should be taken at the beginning of the program.

- b three other half-courses, of which at least one must be in Educational Administration. Students may choose to focus on one of the four research areas Policy, Leadership, Change, and Social Diversity
- c a comprehensive thesis to be carried out under the guidance of a faculty member

Option I which is comprised of

- a four required courses
 - TPS1 44 Introduction to Research Literacy in Educational Administration RM
 - TPS1 44 Educational Administration Introduction to Educational Administration Policy, Leadership and Change
 - TPS1 41 Educational Administration Social and Policy Contexts of Schooling
 - TPS1 44 Themes and Issues in Policy, Leadership, Change, and Diversity

VOTE. TPS1 44, TPS1 44 and TPS1 41 should preferably be the first courses taken in the student's program of study. TPS1 44 should normally be taken as the final course in the student's program.

- b six other half-courses, of which at least two must be in Educational Administration. Students may choose to focus on one of the four research areas Policy, Leadership, Change, and Social Diversity

Students contemplating applying to a doctoral program of study which requires a qualifying Research Paper (RP) before admission, should plan their M.Ed. courses particularly carefully with their faculty advisor. MRPs may meet the RP requirements.

The M.Ed. degree may be pursued either part-time or full-time. The Department strongly recommends completion of theses and MRPs within eighteen months of finishing course requirements. Once students are past the minimum period of registration or have begun their last required course whichever comes first they must continue to register until theses or MRPs are approved.

Any course offered by the Department, by the institute, or by another graduate faculty in the university of Toronto may be selected as an elective. Students selecting such courses should consult their faculty advisor. Students may begin their program of study in the second term of Summer Session July/August or in the Fall Session or the Winter Session.

Off-campus and Distance Education

Courses (EdNand certificate students)

Some sections of existing courses are offered off-campus and by computer conferencing in order to make them available to people in localities far from Toronto. The admission requirements are the same for the off-campus courses as for the regular on-campus courses. Information materials for both off-campus and on-campus courses will be available on-line at <www.ro.oise.utoronto.ca> in March. New applicants should apply by December 1, 2006.

Further information is available from

Gair Mascal, M.A./M.Ed. Coordinator
 Telephone 416-923-6641 ext. 232
 E-mail bmascal@oise.utoronto.ca

Doctor of Education

The Ed.D. program in Educational Administration is a cohort-based program intended to develop highly competent leaders for senior administrative positions in school systems, colleges, universities, and other educational institutions such as the Ministry of Education. The program is specifically designed to help working professional educators develop the intellectual and research skills to refine their practice as leaders in school systems and in post-secondary education. Candidates for this program have the opportunity to undertake a significant academic accomplishment while continuing to work at their current roles.

The focus of the program is on advanced, theory-informed, professional practice and accordingly, this program values the world of practice as a rich field for research and reflective practice. Reflective practice is used as the lens through which advanced theory and research on policy, leadership, change, and social diversity are applied to practical administrative problems. The program is designed to satisfy the needs of leaders who recognize the need for further professional inquiry and analysis to deal with the increasing complexity of problems related to the

operation of educational organizations. Through their studies in this program, candidates will seek to understand theory, make research-informed decisions, examine their own practice, critically evaluate policy, and engage others in collaborative endeavours to improve student learning.

Candidates to this program may be from post-secondary education, elementary and secondary schools, and other educational institutions. Diversity is valued and encouraged in order to build wider understandings of the world in educational leadership across organizations. Candidates should be aware this program takes a minimum of three years to complete and includes a thesis requirement.

Key aspects of the Ed. D. program include the following:
Cohort. The program is cohort-based in order to encourage the development of networking and communication skills, to build a collegial community of practice and quality connections between students and faculty.

Sequence. In order to support the cohort model, there is a specified sequence to the recommended courses.

Practice. The courses are based in the practice of educational administration and focus on reflective practice. Knowledge and theory are applied to address issues and problems the administrators are facing in their work.

Research. This program encourages candidates to lead future research and evaluation work in educational settings. There is, in addition, a strong reflective practice basis to the course offerings, including one reflective practice course.

Admission requirements

In addition to the general requirements given in the Minimum Admission and Degree Requirements, the Educational Administration program specifies the following for admission to the Doctor of Education program

- a) the applicant should hold a Master's degree with specialization in Educational Administration or an equivalent degree. Additional coursework may be required from those who do not have a background in administrative studies. A qualifying research paper (RP) will be required
- b) the applicant must be in a successful leadership position in education or must have held a leadership position successfully or must demonstrate potential for leadership. Evidence of this will be provided by at least one letter of reference that the applicant secures from a senior administrator to whom the applicant has reported, commenting on the applicant's achievement in identifying and solving educational problems and awareness of current social and educational issues. A curriculum vitae must be submitted

c the applicant must also furnish at least one letter of reference from a professor under whom the applicant has studied, commenting on the applicant's scholarly achievement

Degree Requirements

The Ed.D. degree program is organized into five complementary components

- 1 Ed.D. core courses are six mandatory half courses
 - TPS3 2 Personal and Professional Values of Educational Leadership examines the personal and professional values and ethics of educational decision-making and policy
 - TPS3 4 Administrative Theory and Educational Problems: People and Power in Organizations applies theory and research to problems of people, power, and policy in organizations
 - TPS3 41 Administrative Theory and Educational Problems: Doctoral Seminar on Policy Issues in Education examines the content, development, and significance of educational policy
 - TPS3 42 Field Research in Educational Administration a field research course where candidates examine methods of field research, action research and case studies in educational administration
 - TPS3 44 Internship/Practicum in Educational Administration there are three options all three practical experiences have the same structure a reflective practice core, an authentic growth problem, and work with a mentor/mentee
 - TPS3 47 Research Seminar on Research in Authentic Settings the focus is as a participant in the research reflective practice and/or action research
- 2 Two other half courses, one of which must be at the 3rd-level
- 3 Successful completion of a portfolio of reflective practice
- 4 A thesis proposal hearing
A doctoral thesis, one component of which may be a document of the kind used in the field, such as a policy document or policy handbook, white paper or restructuring plan.

Intake

Intake to the program occurs every three years, allowing the third year to be an intake year.

Program Description

- In Year 1, there are three required Foundation courses
- May/June 1 required course TPS3 4
 - July/August 1 required course TPS3 41
 - Sept - April 1 required online course TPS3 2 and 1 elective

- In Year 2, the course load is four courses
- May/June 1 required course TPS3 42
 - July/August 1 elective second elective
 - Sept-April 2 required courses TPS3 44 and TPS3 47

VOTE May/June courses are offered on Friday afternoon / Saturday to allow working professionals to take the program while continuing to work and to attend from a wider geographical region.

How this Ed.D. program differs from the Ph.D.:

- Application includes C and experience in administration
- course includes the internship/practicum
- Research course includes action research component

Master of Arts and Doctor of Philosophy

The M.A./Ph.D. degree program fosters the study of problems in the administration and leadership of educational programs. It will best serve those who have a commitment to scholarship and research as a means for deepening their understanding of administrative action in schools or in other educational and service institutions. While experience in teaching and administration is not an essential prerequisite for admission, such experience is a desirable background. It should be noted that M.A. students may also proceed to an Ed.D. degree program.

Applicants to the degree program must include with their application, a statement of their background and interests. The statement should describe the applicant's past professional and educational experience and should demonstrate how studies within the M.A./Ph.D. degree program would help in the attainment of future career goals.

Upon entry, the M.A./Ph.D. admissions committee will assign an advisor to assist the student in designing a specific program of study. This assignment will be made on the basis of the written statement of the student's plans and in light of his or her interests and preferences. The initial assignment of an advisor does not, however, determine the selection of a supervisor for the student's thesis research, as that relationship is to be later worked out mutually between the student and a faculty member.

For information not provided in this *Bulletin*, applicants should contact the M.A. or Ph.D. Program Coordinators in the Educational Administration Program.

Admission Requirements

Admission to the M.A. degree program requires a four-year university of Toronto bachelor's degree, or its equivalent, in a relevant discipline or professional program of study, completed with the equivalent of a university of Toronto **B** standing in the final year see the Minimum Admission and Degree Requirements section, pages 21 - 27 . The

M.A. program of study consists of eight half-courses and a thesis. Additional courses may be required of some applicants. The M.A. is available through both full-time and part-time studies.

Admission to the Ph.D. degree program requires prior completion of the University of Toronto M.A. degree or its equivalent, with standing equivalent to a University of Toronto A-. Students who have completed an appropriate master's degree that did not include a thesis or research project are required to complete a Qualifying Research Paper to a standard satisfactory to the M.A./Ph.D. admissions committee. Before undertaking a qualifying research project, students should first consult the Program Coordinator.

The minimum required number of courses for the Ph.D. degree program for those who have completed an M.A. within the Department, is six half-courses. Students with less background in educational administration at the graduate level are usually required to take either eight, ten, or twelve half-courses.

The general admission and degree requirements for M.A. and Ph.D. degree programs are set out in the Minimum Admission and Degree Requirements section, pages 21 - 27.

Degree Requirements

Master of Arts

At least half of the required courses for an M.A. degree program must be completed in the Educational Administration Program. The remaining courses may be selected from those offered in the Department, in other departments of OISE/UT, or in other graduate departments of the University of Toronto. Students are required to take the following courses: TPS1 3, TPS1 4 and TPS1 4. TPS1 41 is strongly recommended. Normally the courses chosen for the M.A. program of study will be at the 100-level.

Doctor of Philosophy

The Ph.D. degree program is comprised of at least six new half-courses, four of which normally must be TPS3 4, TPS3 42, TPS3 43, and one elective advanced-level 300 course in Educational Administration. Students who have already attained an acceptable level of competence in research methodology may be authorized to choose a course in a different area of specialization.

The Ph.D. program may be taken on either a full-time or flexible-time basis. To be admitted on a flexible-time basis applicants should be active professionals who demonstrate connections between their professional work and their proposed course program, or between their professional work and their proposed research.

As students' course selections are not formally authorized, it is the student's responsibility to ensure that the selected program of study meets the departmental requirements. Students are encouraged, but not required, to concentrate course selection on one of the four research areas: Policy, Leadership, Change, and Social Diversity. Any deviation from the program of study described above must be approved in writing by the M.A. or Ph.D. Program Coordinator.

Ph.D. candidates are required to pass a comprehensive examination and a thesis proposal hearing. A thesis is required.

Program Research Areas

Educational Administration students are encouraged to concentrate elective coursework in one of four research areas: Policy, Leadership, Change, and Social Diversity.

Policy

- TPS1 1 The Computer in Educational Administration
- TPS1 18 Political Skill in the Education Arena
- TPS1 24 Critical Conversations: Philosophy, Educational Administration and Educational Policy Studies
- TPS1 27 The Search for Educational Quality and Excellence in a Global Economy
- TPS1 27 La recherche de la qualité et de l'excellence en éducation dans le contexte de l'économie globale
- TPS1 28 Policy Delivery in Schools
- TPS1 3 The Legal Context of Education
- TPS1 36 Planning in Educational Organizations
- TPS1 4 Language Policy Across the Curriculum
- TPS2 6 Educational Finance and the Economics of Education
- TPS3 18 Governing Education: A Seminar on Politics
- TPS3 3 Advanced Legal Issues in Education
- TPS3 37 Strategic Planning in Educational Organizations
- TPS3 4 Educational Policy and Program Evaluation

Leadership

- TPS1 16 School Program Development and Implementation
- TPS1 26 Evaluation of Professional Personnel in Education
- TPS1 42 Educational Leadership and Cultural Diversity
- TPS1 47 Managing Changes in Classroom Practice

- TPS1 48 Educational Leadership and School Improvement
- TPS3 2 Personal and Professional Values of Educational Leadership
- TPS3 46 Gender Issues on Educational Leadership
- TPS3 47 Research Seminar on Leadership and Educational Change

Change

- TPS1 12 Organizational Culture and Decision-Making
- TPS1 2 Teachers and Educational Change
- TPS1 2 School Effectiveness and School Improvement
- TPS1 36 Planning in Educational Organizations
- TPS1 47 Managing Changes in Classroom Practice
- TPS1 48 Educational Leadership and School Improvement
- TPS3 2 Educational Change in the Postmodern Age
- TPS3 37 Strategic Planning in Educational Organizations
- TPS3 47 Research Seminar on Leadership and Educational Change

Social Diversity

- TPS1 19 Diversity and the Ethics of Educational Administration
- TPS1 42 Educational Leadership and Cultural Diversity
- TPS1 4 Language Policy Across the Curriculum
- TPS3 46 Gender Issues on Educational Leadership
- TPS3 Democratic Values, Student Engagement and Democratic Leadership

Courses

The following list demonstrates the range of courses offered within the Educational Administration Program. Not all of the courses listed are offered in any given year. A course is identified with the Educational Administration Program when the course prefix is TPS and the first two digits in the course number are 1 or 3.

Y-T2000 Froseminar in Educational Evaluation, Measurement and Policy Analysis

This course will survey the foundational concepts in evaluation, measurement and policy analysis, with special attention to their application in educational and other social organizations. It will focus on theory and research, with in-depth study of current policy cases as examples. Students with an interest in areas such as provincial assessment programs, investigating the success of equity or social initiatives, school district research or evaluation training programs should find this course particularly applicable. This is a joint offering with participation of faculty from both the Measurement and Evaluation Program M E in CTL and the Educational Administration Ed. Admin. Program in TPS.

Y-T200 Using Classroom Assessment to Enhance Student Learning

This course will focus on theory, research and practice connecting classroom assessment to student learning. It will include 1 understanding a variety of classroom assessment strategies 2 identify learning expectations and indicators 3 matching assessment to expectations 4 assessing students work and using feedback strategies for learning.

C

Y-T2 00 Advanced Froseminar in Educational Evaluation, Measurement and Policy Analysis

This course will survey the foundational concepts in evaluation, measurement and policy analysis, with special attention to their application in educational and other social organizations. It will focus on theory and research, with in-depth study of current policy cases as examples. Students with an interest in areas such as provincial assessment programs, investigating the success of equity or social initiatives, school district research or evaluation training programs should find this course particularly applicable.

VOTE This is a joint offering with participation of faculty from both the Measurement and Evaluation Program M E in CTL and the Educational Administration Ed Admin Program in TPS.

TFS 00 Conducting Research in Educational Administration

A seminar examining the strategies, techniques, and problems involved in the conduct of research in educational administration. This seminar prepares the student for defining research problems, reviewing relevant literature, writing research proposals, conducting research and writing reports in educational administration. During this course the student will prepare the proposal for their Master's Research Paper.

VOTE All master's candidates are strongly recommended to take this course towards the end of their program.

TFS 00. Research Literacy in Educational Administration

The goals of this course are to provide students with an introduction to the purposes of research in educational administration and to assist students in learning how to obtain, evaluate, interpret, and use research in their work as educators and in their graduate studies. Possible topics include overview of different research paradigms and research strategies used in studies of policy, leadership, and change how to critically analyze the strengths and weakness of research how to conduct a review of literature and build a bibliography dissemination of research the connections between research, policy, and practice the role of research and evaluation departments leadership roles in sponsoring, directing, using, and communicating research.

VOTE All master's candidates are strongly recommended to take this course at the beginning of their programs.

TFS 00 The Computer in Educational Administration

No computer experience required. Introduction to computers in education from an administrative perspective. Topics include issues related to policy, planning and implementation of information technology in educational settings impact of computer technology on educational organizations and culture and implications for staff development and curriculum delivery. Current applications of computers at the school, board and Ministry as well as post-secondary levels are presented.

TFS 02 Organizational Culture and Decision Making

An analysis of the organizational culture of educational organizations. The implications for action resulting from research and theory relating to organizational culture are examined. Case studies and field experiences are used as bases for the analysis of decision-making within the context of specific organizational cultures.

TFS 06 School Program Development and Implementation

An analysis of issues and problems in conceptualizing, operationalizing, and evaluating a total school environment in terms of a range of divergent goals and values. Major topics include strategies for program development and change in the context of education in Ontario, Canada, and internationally theoretical and empirical bases differentiating educational environments, the role of the program manager, and skills needed to manage program development, organization, implementation, and evaluation.

TFS 08 Political Skill in the Education Arena

Practical considerations in solving political problems in and about schools. Focus is on the five levels of local governance family/school, micro-politics within the school, neighbourhood, meso-politics the school and the central office, and the board. Special attention to understanding background variables such as the environment, institutions, power, and issues. Workshop activities centre around processes such as coalition-building, advocating, believing, and co-producing. Readings include procedural, fictional, and conceptual materials.

TFS 09 Diversity and the Ethics of Educational Administration

Administrators in education and teachers are continually asked to decide on matters of equity, to adjudicate between conflicting value positions, and to accommodate different rights and human interests in their planning. Often administrative practice in these areas is less than successful. This course will study various ethical schools of thought and modern approaches to social justice. It will apply that content

to administrative practice in education. Particular attention will be given to equity issues in areas of race, culture, gender, age, social class, national origin, language, ancestry, sexual orientation, citizenship, and physical or mental abilities.

TFS 020 Teachers and Educational Change

This course deals with how teachers contribute to and are affected by administrative processes. It looks at the determinants of teachers' classroom strategies, the work culture of teachers, teachers' careers, the role of teachers in school decision-making, the relationship of teachers' educational commitments to aspects of their broader lives such as age, religious and political beliefs, and gender identity, and the role of teachers in fostering or inhibiting educational change. The course will be of interest to elementary and secondary teachers and to educational administrators.

TFS 02 Interpersonal Relations in School Systems

The study of patterns of interaction among adults in loosely defined organizational settings. Class members discover their operational interactive values, analyse interpersonal events, study effects of sociality variations, articulate personal changes resulting from cross-person behaviours, create the instrumental relationship, and attempt to understand the administrative efficacy of interpersonal competence in programs of organizational change. To do this, the course uses detailed observations and descriptive notes, constructivist analysis of collaborative values priorities, and vignette validations towards leadership improvement.

TFS 02. Critical Conversations: Philosophy of Educational Administration and Educational Policy Studies

A philosophical inquiry of issues that arise in educational administration and policy studies. Examples of issues include Differing conceptions of administration and leadership power and authority in education the role of critical thinking standards and diversity bias in schools censorship and controversial issues the role of schooling in a pluralistic society indoctrination and parental rights common and separate schools. Case studies will be used to encourage students apply differing philosophical stances to practical situations.

TFS 02 School Effectiveness and School Improvement

This course examines the factors contributing to school effectiveness, including school climate and physical characteristics, instructional patterns, types of organization, and the use of time. It also considers the possibilities for school improvement in the context of a pluralist democracy and the use of total quality management (TQM) to improve educational institutions.

TFS 026 Evaluation of Professional Personnel in Education

Issues surrounding performance evaluation of teachers and administrators in school systems will be examined. Topics include current practices in evaluation, evaluation policies and procedures, the legal context, the political dimensions, and related areas such as recruitment and selection of personnel. The conceptual background centres around a systems approach to personnel development. The thrust of the discussions, however, will be on practical problems in evaluation in schools within the Canadian setting.

TFS 027 La recherche de la 'qualité' et de l'efficacité en éducation dans le contexte de l'économie globale

La globalisation de l'économie, les nouvelles technologies, le scepticisme du public à l'égard de l'éducation et les réformes éducatives ratées des dernières décennies servent de base pour une analyse critique des nouvelles réformes émergentes, tels que, les écoles entrepreneuriales, les écoles chartes, le système de bons scolaires, la privatisation, le partenariat école-entreprise, les conseils d'écoles et la qualité totale. Ce cours fait aussi l'analyse de l'impact de telles réformes sur la société, l'école et le curriculum.

TFS 027 The Search for Educational Quality and Effectiveness in a Global Economy

The global economy and its new technologies, public scepticism towards education and the failed systemic educational reforms of the past decades will serve as a background for a critical review of emerging new reform initiatives such as, entrepreneurial schools, charter schools, voucher schools, privatization, business-education partnership, school councils, and Total Quality Management. This course will also analyse the impact of such initiatives on society, school and curriculum.

TFS 028 Policy Delivery and Schools

Teachers and policy complications for management. Attention is given to agenda-setting, backward mapping, crafting alternatives, estimating feasibility, and coping with unanticipated consequences. Ethnographic work and school administration with some attention to administration of programs for students at risk.

TFS 029 Special Applications of the Administrative Process

Some unique problems, presented to the administrator placed in special structures or environments, are examined with a view to developing appropriate applications of administrative processes. Depending upon resources of staff and needs of students electing this course, it will cover the administration of any one of, or combination of, the following programs of special education, colleges and other institutions of higher education, large urban complexes, areas presenting special sociocultural problems, computer-assisted administration, and comparative educational administration.

TFS 030 The Legal Context of Education

An examination of the current context of legal discourse related to the practical exigencies of present-day school experience. A detailed study of statutory and common law sources under which educators operate. The law is not immutable. Emphasis on negligence, malpractice, human rights and the school system, teacher rights, and student discipline and the Young Offenders Act and Zero Tolerance.

TFS 036 Planning in Educational Organizations

This introduction to educational planning is designed to provide teaching and administrative personnel with basic knowledge and skills in educational planning. A variety of current approaches and paradigms of educational planning are examined in local, Canadian and international contexts. Theories and processes of planning are addressed, including corporate and institutional planning, strategic planning, long-term planning, operational planning and site-based planning. Topics include the relationship of educational planning to areas such as organizational change, leadership and culture.

TFS 030 Educational Administration I: Introduction to Educational Administration, Policy, Leadership and Change

This course provides an introduction to educational policy, leadership and change in general and to this program in particular by focusing on foundational concepts and theories significant to the understanding of education and educational administration. It offers a critical examination of a wide range of topics central to educational administration, educational policy, leadership and change, such as organization, community, power, authority, change, difference, leadership, and values. This examination will take into account major historical developments in the field as well as differing theoretical stances or paradigms, such as positivism, functionalism, interpretivism, critical pedagogy, feminism, post-structuralism and post-modernism. The course will help students understand how to use theory to make sense of educational practice in productive ways.

VOTE All master's candidates are strongly recommended to take TPS144 as the first course in their program and before taking TPS141.

TFS 0.1. Educational Administration II. Social and Policy Contexts of Schooling

This course will focus on the social and policy contexts in which elementary and secondary educators work. Students will be exposed to a variety of issues related to schooling in a diverse and complex environment such as differing purposes, philosophies, and values of education multiculturalism and social justice equity issues related to race, class, gender, and language parental influences on schooling the relationship of schooling to the labor market and the economy choice of school and program decentralization and centralization standards and accountability educational finance school reform educational and non-educational pressure groups and stakeholders. Through an exploration of these or related topics, this course will help students to continue to develop their understanding of different paradigms and methods used in research in educational administration, leadership, policy and change.

NOTE: All masters candidates are strongly recommended to take TPS1 41 as their second course after completing TPS1 4 .

TFS 0.2. Educational Leadership and Cultural Diversity

This course is designed to acquaint students with the practices and issues associated with administration, organization, and leadership in educational organizations with culturally diverse student populations. Students will have the opportunity to critically analyze and appraise the practices and issues involved in the administration and leadership of such schools. They will also have the chance to probe and clarify their own conceptions of, and attitudes toward, multiethnic and anti-racist education generally and leadership in such school organizations specifically, in ways that will assist them with their own administrative practices.

TFS 0.3. Language Policy Across the Curriculum

School language policy-making is a developing activity of importance for educational administrators in pluralist societies. A language policy is a firm plan for action addressing the first- or minority-language problems of a school, a college, a board, or some other educational agency. The goal of this course is for participants to identify language issues and problems that need addressing in a single educational setting of their own choice. The course addresses the administration of all kinds of language activities in education mother-tongue teaching second-language learning language maintenance bilingual education minority-culture schooling community-language teaching and gender and language. A subtext of the course's seminars is the integration of issues of social justice and power into the development of coherent and workable policies that are seen as agreed plans for action.

TFS 0.7. Language Changes in Classroom Practice

The course explores the meaning of classroom change from the teacher's perspective, addressing such issues as contemporary views of learning, the nature of teacher development, and the context of teaching. The perspective is then used to better appreciate how those in school leadership roles can facilitate efforts by teachers to improve their own practices, as well as meaningfully respond to out-of-school pressures for change.

TFS 0. Educational Leadership and School Improvement

A companion course to 1 47. Contemporary conceptions of leadership are examined for their value in helping present schools improve and future schools serve their publics well.

Understanding of expert leadership is developed through the study not only of expert leaders' behaviors, but also of their feelings, values, and problem-solving strategies. The formal and informal experiences that contribute to the development of leadership expertise will be examined.

TFS 0 2. Individual Reading and Research in Educational Administration. Master's level

Specialized study, under the direction of a staff member, focusing upon topics of particular interest to the student that are not included in available courses. While credit is not given for a thesis investigation proper, the study may be closely related to a thesis topic.

TFS2006. Educational Finance and the Economics of Education

This course is about the resources that support schools, colleges, and universities how the resources are raised how they are allocated how they are budgeted for, how they are economically justified, and how they are accounted for. The course is also about connections between investments in education and the larger economy, between the organizations of systems and the way funding is allocated and accounted for, between forms of budgets and the efficiency with which funding is deployed, and between funding and educational quality.

TFS 0 7. Problems in the Finance and Economics of Education

Problems of productivity in education, input/output relations, theories of grants-in-aid, cost/quality relations, taxation for education, the budgetary process, automatic and non-automatic remuneration for educational personnel, local property assessment, financing of capital outlay, federal/provincial/local sharing of educational costs, financing of long-term developments in education.

Prerequisite: 2 6 or permission of instructor.

TFS 010 **Governing Education: A Seminar on Politics**

Concepts, perspectives, and methods of political science are used to deal with educational issues in structured ways, while educational issues are used to exemplify and assess the relevance of political science concepts for understanding education.

TFS 020 **Educational Change in the Postmodern Age**

This course examines the social forces that are driving educational change in the postmodern age, and their impact upon both the substance, process and outcomes of educational change efforts. The course will investigate how students identities, teachers work and approaches to leadership are affected by these forces of change, along with the major change strategies that are being adopted to respond to them.

TFS 022 **The Investigation of School Culture: An Examination of the Daily Life of Schools**

This course is intended to place the norms, values, and practices of school life within an administrative context. The focus is on factors that promote or inhibit the development of community and the achievement of educational purposes. Students are invited to explore and apply a variety of interpretive frameworks to their understanding of institutional culture.

TFS 023 **Field Studies in Educational Leadership**

This course is designed to meet the needs of doctoral students working closely together on issues and problems in educational leadership. Such issues may include developing collaborative school cultures, school-based management, teacher leadership, gender and leadership, and the leadership implications of restructuring. Topics will vary, however, with student interests and concerns and with current field priorities. Issues will be analysed through practical study in the form of site visits, video case analysis, or sample participation in field exercises, through scholarly reading and discussions, and particularly through interaction between the two. The course will be particularly appropriate for students seeing a strong field focus in their doctoral program.

TFS 024 **Personal and Professional Values of Educational Leadership**

This doctoral level course examines theories and frameworks which accommodate the influence of values, both personal and professional, on educational leadership practices. The primary focus is on values manifested by individuals and their impact on administrative problem solving processes. Value conflicts are explored particularly as they occur when the values of individuals clash with the broader social, collective or meta values associated with organizations.

TFS 025 **Project Development Studies**

This course is designed to assist doctoral students who are developing either project or dissertation proposals. Interaction between individual students and the instructor is regularly scheduled in order for the students to develop a clear research design and a comprehensive review of relevant literature. Through computer conferencing, the interaction will be open to all class members, whose additional comments and suggestions will be an integral part of the developmental process. The course is designed to be taken by doctoral students who are no longer in residence but who have not developed a thesis proposal.

TFS 026 **Special Topics in Educational Administration**

This course permits the study of specific topics or areas in educational administration not already covered in the courses listed for the current year. The topics will be announced each spring in the Winter Session and Summer Session timetables.

TFS 030 **Advanced Legal Issues in Education**

Understanding education law is essential to the effective management and operation of schools. Schools function in a complex legal environment. It is essential for educators to be as current as possible of their legal rights and responsibilities. Focus on current issues, legislative and common law precedents.

TFS 037 **Strategic Planning in Educational Organizations**

In this seminar, concepts of strategic planning will be explored in terms of processes, issues, and applications in the educational system. The role of strategic planning will be examined in terms of the organization's mission, its stakeholders, and its environment.

TFS 040 **Administrative Theory and Educational Problems: People and Power in Organizations**

A review of major perspectives on the individual and the organization includes discussion of questions pertaining to the nature of society and the nature of people. Of immediate concern is the manner in which decisions and organizational outcomes are produced, as well as the bearing that these sets of arrangements have upon productivity and the well-being of those whose lives are touched by organized education. Of express concern is the manner in which power is exercised in everyday situations that may involve elected officials, appointed administrators, teachers, students, and the public at large.

TFS 0.1. Administrative Theory and Educational Problems II. Doctoral Seminar on Policy Issues in Education

This seminar examines significant policy issues in education, both historical and current, both Canadian and international. Emphasis is on acquiring an understanding of the content and significance of the policies, with a secondary interest in policy analysis and development. Various faculty in the Department of Educational Administration will be responsible for particular sessions.

VOTE Required for Ed.D. students. An elective suitable for Ph.D. students. Permission of course coordinator required for students outside Educational Administration.

TFS 0.2. Field Research in Educational Administration

The course explores naturalistic and ethnographic methods of research applied to field research and case studies in educational administration. The researcher as participant in as well as an observer of social reality the relationship of fact and value in social research, the limits of science in truth-making the relationship of such science-established truth to evaluation and administrative action and the problems of ethical inquiry into organizational and administrative realities.

TFS 0.3. Survey Research in Educational Administration

An exploration of the history and current use of survey research in educational administration. Topics will include an assessment of the strengths and limitations of the method survey, the selection of samples, questionnaire design, standard measurement instruments used in the field, methods of data analysis with a focus on using SPSS, the drawing of causal inferences, and presentation of results in a clear and effective manner.

Prerequisite: 1 3 or CTL2 4 or SES19 2 or permission of the instructor.

TFS 0.4. Internship/Practicum in Educational Administration

An advanced administrative experience, primarily for Ed.D. students, under the joint guidance of faculty members and senior administrators in the internship/practicum location. Placement and responsibilities relating to the internship/practicum are determined on an individual basis depending on the needs, interests, and aspirations of students and on the availability of appropriate locations.

TFS 0.5. Educational Policy and Program Evaluation

This course provides a working understanding of the political processes of policy formation, implementation and consequences, as well as program evaluation processes and methods, interpretation, and utilization, emphasizing their role in educational practice and using specific educational

issues, activities and actors to illustrate more broadly applicable concepts. The major project for the course will involve students' development of a piece of policy analysis or a program evaluation plan.

TFS 0.6. Gender Issues on Educational Leadership

This course examines gender issues and uses gender as a conceptual lens to explore policies, practices, relationships, and experiences in schools and other educational settings, with particular attention to implications for administration. Besides covering a broad range of educational issues and perspectives, this course focuses on gender rather broadly, considering the experiences of males as well as females, the impact of heterosexism on children and adults, and relationships between gender and other social characteristics such as race and ethnicity. Students are encouraged to bring in topics of particular interest and to use the course to explore practical problems and issues.

TFS 0.7. Research Seminar on Leadership and Educational Change

The course explores a variety of initiatives being taken to improve, reform, and/or restructure schools. The basic intents of these initiatives are examined in an effort to understand implications for productive change processes at the classroom, school, and school system levels. Emphasis is given to the role of leadership in fostering educational change. Students will be involved in a research project designed to illustrate the practical meaning of course concepts and to refine their research capacities.

TFS 0.8. Individual Reading and Research in Educational Administration. Doctoral level

Description as for 1 2.

TFS 0.9. Democratic Values: Student Engagement and Democratic Leadership

An examination and application of democratic values to issues of student engagement and leadership. The course will explore the relationship between student engagement and critical-democratic leadership, and the implications that arise for educational administration and curriculum from the nature of this relationship. This course should be of interest to both teachers and administrators.

Director, Higher Colleges of Technology, United Arab
Emirates

Vanaja Dhruvarajan, Ph.D. (Chicago)
Senior Scholar and Professor of Sociology
University of Winnipeg

John G. Dimond, Ph.D. (Toronto)
Secretary Emeritus, The Governing Council,
University of Toronto

Peter Dietsche, Ph.D. (Toronto)

ice-President of Research, Mohaw College of Applied Arts and Technology

Adam Dubrowski, Ph.D. (Waterloo)

Assistant Professor, cross-appointed from Wilson Centre for Research in Education, Faculty of Medicine

Jason Frank, M.D. (Ottawa), M.A. (Toronto)

Assistant Professor, Faculty of Medicine, niversity of Ottawa

Roy F. Giroux, Ph.D. (Wayne State)

ice President - Emeritus, umber College of Applied Arts and Technology

Robert A. Gordon, Ed.D. (Massachusetts)

President, umber College nstitute of Technology and Advanced Learning

Michael J. Hatton, Ph.D. (Toronto)

Assistant Principal, umber College of Applied Arts and Technology

Robert Hilliard, Ed.D. (Toronto)

Professor, Paediatrics, ospital for Sic Children and the niversity of Toronto

Avi Hyman, Ed.D. (Toronto)

Faculty of Medicine and Department of Theory and Policy Studies

Merle Jacobs, Ph.D. (York)

Assistant Professor, Department of Sociology, or niversity

Katharine Janzen, Ed.D. (Toronto)

Associate ice President, Seneca College

Gabrielle Kane, Ed.D. (Toronto)

Assistant Professor, Department of Radiation Oncology, Faculty of Medicine

Heather Lane, Ph.D. (Bowling Green)

Director of Student Life, niversity of uelph

Vicki LeBlanc, Ph.D. (McMaster)

Assistant Professor, cross-appointed from Wilson Centre, for Research in Education, Faculty of Medicine

Jing Lin, Ed.D. (Michigan)

Associate Professor, Department of Educational Policy and Leadership, niversity of Maryland-College Par

Lorelei Lingard, Ph.D. (Simon Fraser)

Assistant Professor, Paediatrics, ospital for Sic Children and the niversity of Toronto

Geraldine (Jody) Macdonald, Ed.D. (Toronto)

Senior Lecturer Chair, ndergraduate Program, Faculty of uring, niversity of Toronto

Jodi Herold McIlroy, Ph.D. (Toronto)

Assistant Professor, Faculty of Medicine

Ann Mullen, Ph.D. (Yale)

Assistant Professor, cross-appointed from Department of Sociology, Faculty of Arts and Science

Louise Mullins Nasmith, M.D., M.Ed., (McGill)

Professor, Department of Public ealth Sciences, Faculty of Medicine

Geoffrey Norman, Ph.D. (McMaster)

Professor, cross-appointed from the Department of Clinical Epidemiology and iostatistics, McMaster niversity

Terry O'Banion, Ph.D. (Florida State)

President Emeritus, League for nnovation in the Community College

Julia Pan, Ph.D. (Toronto)

Senior Research Officer

Peeter Poldre, Ed.D. (Toronto)

Associate Professor, Department of Medicine, University of Toronto

J. Robert S. Prichard, LL.M. (Yale)

Professor of Law, University of Toronto

Dennis Raphael, Ph.D. (Toronto)

Associate Professor, Health Policy and Management, University of Toronto

Scott Reeves, Ph.D. (City University, London)

Associate Professor, The Wilson Centre, Faculty of Medicine

Glenn Regehr, Ph.D. (McMaster)

Assistant Professor, Department of Psychiatry, University of Toronto

Richard K. Reznick, M.Ed. (Southern Illinois)

Associate Professor, Faculty of Medicine, University of Toronto

Dorothy Goldin Rosenberg, Ph.D. (Toronto)

Volunteer Education Co-ordinator, the Women's Healthy Environments Network WHE

Souraya Sidani, Ph.D. (Arizona)

Professor, Faculty of Nursing

Nicole Woods, Ph.D. (McMaster)

Lecturer, Department of Surgery, Faculty of Medicine

Stacey J. Young, Ph.D. (Toronto)

Policy Analyst, Ontario Ministry of Training, Colleges and Universities

Admission Requirements**Master of Education**

The Higher Education Program offers an M.Ed. in Higher Education as well as an M.Ed. in Health Professional Education. The programs can be completed on either a full-time or part-time basis. Students in the M.Ed. in

Higher Education are required to pursue the M.Ed.

Option I program of study and students in the M.Ed. in Health Professional Education will normally register in the M.Ed. **Option II** program of study. Professor Daniel Lang can provide more information on the M.Ed. in Health Professional Education.

Admission Requirements

Option I M.Ed. in Higher Education

- a full course, TPS183 - Recurring Issues in Postsecondary Education
- eight half-courses, of which at least three must be in Higher Education
- a written General Comprehensive Examination

Option II M.Ed. in Health Professional Education

- a full course, TPS183 - Recurring Issues in Postsecondary Education
- six half-courses, of which at least two must be courses in the Health Profession Education Field and two must be courses in general Higher Education
- a research project Masters Research Paper
- a written General Comprehensive Examination

Master of Arts

Applicants must submit evidence of their ability to define a research question or problem, to devise a research design, and to analyze and report research findings, all in an academically rigorous manner. This evidence must be submitted with the application. The evidence may be an undergraduate thesis, long essays or papers written for undergraduate courses, reports and studies written as part of employment, or other documents that demonstrate the applicant's ability to conduct research at the master's degree level.

Admission Requirements

- a full course, TPS183 - Recurring Issues in Postsecondary Education
- four additional half-courses, of which at least three must be in Higher Education
- a thesis
- a written General Comprehensive Examination

Off-Campus and Distance Education Courses

Some existing courses are offered off-campus and by computer conferencing in order to make them available to people in localities far from Toronto. The admission requirements are the same for off-campus courses as for regular on-campus courses. Information materials for both off-campus and on-campus courses will be available at www.ro.oise.utoronto.ca in March. New applicants should apply by December 1, 2006.

Doctor of Education

The Ed.D. degree program may be taken either full-time or part-time. In either case, however, a minimum of one-year of full-time study is required. The year of full-time study does not have to be contiguous.

Applicants who hold an M.Ed. or other non-thesis master's degree must submit evidence of their ability to define a research question or problem, to devise a research design, and to analyze and report research findings, all in an academically rigorous manner. This evidence must be submitted with the application. If the applicant is offered admission, this will constitute a qualifying Research Paper that otherwise would be required.

Degree Requirements

- a a minimum of eight half-courses beyond a relevant and acceptable M.Ed. or M.A.. In individual cases students with a highly relevant master's degree or other equivalent graduate degree may be admitted, but additional courses in higher Education will be required. Normally they would include
 - TPS1033 Recurring Issues in Post-secondary Education which is a full course. Students who completed TPS1033 as part of their M.Ed. or M.A. program must take two additional half-courses in higher Education.
 - at least two half-courses in higher Education
 - a half-course in research methodology approved by the faculty advisor
 - one half-course selected either in higher Education or in another graduate program at OSE/UT, or, with the approval of the faculty advisor, in another graduate department at the University of Toronto
 - a supervised applied research practicum equivalent to one half-course
 - a collaborative pro-seminar equivalent to one half-course
- b a written General Comprehensive Examination if not completed previously
- c a Doctoral Specialization Examination
- d a thesis reporting the results of original research on an applied topic in post-secondary education

Community College Leaders Research Area

- In 1998, the Doctor of Education in higher Education for Community College Leaders was initiated. The admission and degree requirements for the Community College Leaders research area are generally the same as for the regular Ed.D. degree program. The main differences are
- a the Community College Leaders research area is focussed on the study of community colleges
 - b is delivered in a cohort format
 - c requires two consecutive Summer Sessions of full-time attendance. Full-time registration must be maintained from September through August each year thereafter.

For more information about the Community College Leaders research area contact

Michael Soloni, Theory and Policy Studies in Education
E-mail msoloni@oise.utoronto.ca
OR

Ugil Laden, Theory and Policy Studies in Education
E-mail bvladen@oise.utoronto.ca

Doctor of Philosophy

The Ph.D. program may be taken on either a full-time or a flexible-time basis. To be admitted on a flexible-time basis applicants should be active professionals who demonstrate connections between their professional work and their proposed course program, and between their professional work and their proposed thesis research.

Applicants who hold an M.Ed. or other non-thesis master's degree must submit evidence of their ability to define a research question or problem, to devise a research design, and to analyze and report research findings, all in an academically rigorous manner. This evidence must be submitted with the application. If the applicant is offered admission, this will constitute a qualifying Research Paper that otherwise would be required.

Degree Requirements

- a a minimum of six half-courses beyond a relevant and acceptable M.Ed. or M.A.. In individual cases students with a highly relevant master's degree or other equivalent graduate degree may be admitted, but additional courses in higher Education will be required. Normally these would include
 - TPS1033 Recurring Issues in Post-secondary Education which is a full course. Students who completed TPS1033 as part of their M.Ed. or M.A. program must take two additional half-courses in higher Education
 - at least two half-courses in higher Education
 - a half-course in research methodology approved by the faculty advisor
 - one half-course selected either in higher Education or in another graduate program at OSE/UT, or, with the approval of the faculty advisor, in another graduate department at the University of Toronto
- b a written General Comprehensive Examination if not completed previously
- c a Doctoral Specialization Examination
- d thesis reporting the results of original research in post-secondary education

Courses

The following list demonstrates the range of courses offered within the Higher Education Program. Not all of the courses listed are offered in any given year.

TFS 01 The History of Higher Education in Canada: An Overview

An examination of selected themes in the history of Canadian higher education, including secularization, the experience of women, professionalization, student life and academic freedom.

TFS 02 Theory in Higher Education

This course surveys different theoretical approaches to the study of higher education and knowledge construction, focusing on key authors in each tradition. Different theoretical perspectives in the higher education literature include the political economic, social psychological, critical neomarxist, feminist, anti-racist, anti-colonial, and postmodern and poststructural, as well as writing based on scientific metaphors. Students will begin to identify the often unarticulated theoretical assumptions of writing in higher education, as well as to examine how theory is used by various writers and researchers in this field. The course is intended to assist students in choosing appropriate theoretical frameworks for their thesis or project research.

TFS 03 Recurring Issues in Postsecondary Education

An examination of some of the many issues that have been characteristic of postsecondary education in the past and are likely to continue to be faced in the future.

TFS 04 Issues in Medical/Health Professional Education

This course is intended to enable students to identify and analyze major current issues in medical/health professional education and to present clear, logically coherent and empirically justified analyses of those issues.

TFS 05 The Community College

This course reviews the history and politics of the several categories of institutions that have borne the name community college. Particular attention will be paid to the psychological, economic, and political assumptions that characterize the Colleges of Applied Arts and Technology in Ontario, past and present.

TFS 06 Systems of Higher Education

A comparative description and analysis of tertiary-level systems of education with special attention to their structure and governance and the relevant features of the societies in which they operate.

TFS 07 Strategic and Long-Range Planning for Postsecondary Systems

This course is designed to provide students with basic knowledge and skills in strategic planning as applied to college and university systems. Past and current efforts at planning for universities and community colleges at the provincial level in Ontario will be analysed and compared with counterpart activities in other jurisdictions of Canada and the United States.

VOTE. This course with a systems focus complements TPS1011, which has an institutional focus.

TFS 08 Research in Health Professional Education

This course addresses educational research approaches specifically in the health professions. It involves a critical examination of appropriate literature with respect to survey, qualitative, and quantitative research methods with the objective of enabling students to propose implementable research projects.

VOTE. The course is designed for students enrolled in the M.Ed. specialization in health professional education.

TFS 09 Administration of Colleges and Universities

A study of the practice of management and administration in colleges and universities including an examination of the processes of planning, organization, coordination, communication, control decision-making practices and the analysis of illustrative cases and present practices. The course will be organized mainly around case studies.

TFS 10 Evaluation of Competence and Professional Behaviour in the Health Professions

This course is designed to acquaint health professionals with the assessment formats used to evaluate the domains of clinical competence in health care professional training at both the undergraduate and postgraduate levels of training. The course will provide an introduction to the concepts of reliability and validity which are central to the analysis of the assessment methods to be discussed. Written examinations, oral formats, and Standardized Patient performance-based testing are amongst the methods that will be presented.

TFS 11 Institutional Research and Planning

A study of the practice of institutional research and strategic planning in community colleges and universities. This course is designed to examine the methodologies and the practice of institutional research and to provide students with knowledge and skills in strategic and long-range planning as applied to colleges and universities at the institutional level.

VOTE. This course with an institutional focus complements TPS107, which has a systems focus.

TFS 2. Education and the Professions

This course reviews theoretical debates regarding the nature of professions and professional education, placing them within their historical context in western societies. Contemporary issues that are addressed include the implications of globalization of the professions, diversity in the professions and the entrepreneurial university and the professions. Perspectives of practitioners as well as faculty teaching in the professions are considered.

TFS 19. Issues in Cognitive and Educational Psychology. Implications for Health Professional Education

This seminar course addresses a number of findings and theories in cognitive and educational psychology that are relevant to health professional education. Topics include theories of expert skills such as classification, problem solving, decision making, and technical expertise, as well as theories of expert development and their applications to health professional education. The course is designed around readings from the cognitive and educational psychology literature and relevant readings from the health professional education literature.

TFS 18. Curriculum in Institutions of Higher Education

This course examines the logic and current practices related to curriculum design in postsecondary educational institutions.

TFS 17. Teaching in Institutions of Higher Education

This course examines the issues and areas that define the instructor's perspective of teaching in postsecondary educational institutions.

TFS 7. Vulturin Professional Education

This course begins with the contemporary critique of professional education as ivory towerish, reductionist, exclusionary and monocultural and examines proposals for more practice-based, holistic, inclusionary and emancipatory approaches. Proposals for revitalizing professional education in the new millennium have emerged from a variety of theoretical orientations, including social psychological, critical, postcolonial and poststructural. In this course, we will focus on the writings of Freire, Bertell, Schon, Goodings, Lightgale, Watson, Shiva, Harding, Araway and Smith.

TFS 16. Educational Development. Examination of Strategies for Improving Teaching and Learning in Postsecondary Institutions

An exploration of a wide range of strategies for the enhancement of the education process with emphasis on the application of these strategies to the specific educational setting selected by the student.

TFS 15. Governance in Higher Education

This course addresses the arrangements for governance in higher education. It examines formal models and theories of governance the legal and institutional framework of higher education governance the role and characteristics of higher education intermediary bodies, governing boards, and academic senates and their relationships to one another and current challenges and issues pertaining to university and community college governance.

TFS 20. Special Topics in Higher Education. Master's level

A course that will examine in depth a topic of particular relevance not already covered in regular course offerings in the department. The topics will be announced each spring in the Winter Session and Summer Session O SE/ T course schedules.

TFS 2. Institutional Differentiation in Postsecondary Education

This course will examine the nature of institutional differentiation in postsecondary education, theories which have been advanced to explain observed trends and patterns in institutional differentiation, and policy implications. Particular attention will be given to the following distinctions degree and non-degree public and private comprehensive and special mission education sector and non-education sector traditional and nontraditional and teaching centered and learning centered. The course will look also at comparative study of institutions as an analytical tool in the study of postsecondary education.

TFS 22. The Idea of the University and the College

An examination of leading concepts of the primary nature of universities and colleges as institutions of higher learning, beginning with the rise of the universities in medieval Europe and including their development to the present day, with particular emphasis upon the evolution of the concept of the university in the nineteenth and twentieth centuries and the attendant and sometimes diverse role of colleges. The seminar involves selected readings.

TFS 2. The Planning of Facilities in Higher Education

This course is designed to acquaint university and community college decision-makers with the methods for planning and evaluating educational facilities. The interaction between changes in educational policies, innovations in technology and curriculum, available resources, existing facilities, and the means and methods of implementation will be explored. Structural and institutional alterations required by policy changes will be investigated, and methodologies for the preparation of educational specifications, facilities plans, architectural briefs, and other aspects of facilities planning will be surveyed.

TFS 26 Comparative Education Theory and Methodology

This course provides an overview of the evolution of comparative education as a field of study, covering historical-philosophical, positivistic, phenomenological and neo-Marxist approaches to the field. It also looks at how comparative education scholars have responded to the literature of postmodernism and globalization. Central themes of the course are the purpose of comparative education, the impact of diverse views of social change, and the idea of scientific method.

The role of such international organizations as the International Bureau of Education, UNESCO, and the World Bank in comparative education is discussed.

TFS 26 Comparative Higher Education

This course provides an overview of the field of comparative higher education, beginning with perspectives from the different civilizations which fostered higher learning in the pre-modern era. It considers theories from comparative education and disciplines such as history, sociology and anthropology as they apply to understanding higher education in global context. It also takes both a regional and a thematic approach in looking at higher education across different societies. Themes covered in the course include gender in higher education, curricular patterns across different societies, student issues and the relation of higher education to the state.

TFS 27 The Politics of Higher Education

What makes the politics of higher education different from politics in other arenas? What political relationships exist between postsecondary institutions and such external actors as government and faculty unions? What internal relations characterize political interactions between trustees, administrators, professors, students, and others? This course explores these questions from a research and experiential base.

TFS 28 Evaluation in Higher Education

The course examines models, methods, and concerns. Several levels of evaluation will be looked at: student learning, evaluation of instructor and course, program and institutional evaluation. Students will be required to write one short and one long paper and be encouraged to participate in class discussions. During class there will be practice in planning evaluations.

TFS 29 East Asian Higher Education

This course examines traditions of scholarship and scholarly institutions in East Asia, relating them to such major or religious and philosophical perspectives as Confucianism, Buddhism, Taoism and Shintoism. Modern universities and higher education systems in China and Japan are analysed comparatively, as they drew upon Western models of the university, yet also incorporated aspects of their own traditions. Comparison with the higher education of other East Asian societies will also be encouraged. The course will enable

students to grasp the main lines of difference between higher education in East Asia and the West, as well as differentiate some of the threads that have contributed to diversity within the region.

TFS 30 Academic Capitalism in Higher Education with a Corporate Agenda

Over the past twenty years research universities across many international jurisdictions have become increasingly entrepreneurial and aggressive in their pursuit of corporate relationships. This trend must be contextualized in terms of regional restructuring of higher education systems in an era of economic globalization. There is now abundant evidence that this trend influences many aspects of the university, including curricula, research, governance, and policy. In this course, students will be involved in critically examining the implications of academic capitalism, especially in terms of equity, human rights, and world environment issues.

TFS 31 Qualitative Research in Higher Education

This course is designed for students who are planning, collecting data, analyzing or writing up thesis or other qualitative research. Classes will involve reading about the theoretical paradigms e.g. interactionist, phenomenological, critical feminist, postcolonial/emancipatory and research methodologies and types of analysis and interpretations being used by students e.g. participant observation, thematic analysis, focus groups, individual interviews, ethnography, autoethnography, grounded theory, critical ethnography, participatory action research, life histories/narratives, institutional ethnography, textual analysis, policy or program analysis. Selected ethical issues that are often encountered in the process of doing research will also be covered. Special attention will be paid to analysis and interpretation of the data, with students presenting their changing views of their chosen topic at each session for feedback and referral to relevant literature.

TFS 7 Environmental Health Transformative Higher Education and Policy Change Education Toward Social and Ecosystem Health

In this course, environmental health is framed as a field of research, education, policy and advocacy endeavours that links the natural, health and social sciences with the worlds of the academy, community, business, economics, labour, governments and media. It includes physical, social, cultural, spiritual and societal relationships which are multidirectional and interlinked with the health and well being of all life. In the context of transformative higher education, the course will help students to develop critical thinking, investigative, analytical and practical skills to better understand the constraints of scientific certainty and uncertainty in today's complex world in order to address lifestyle as well as public policy changes. The issues are framed within the broad socioenvironmental perspectives on health promotion reflected in the goals of the Ottawa Charter for Health Promotion - strengthening community action, developing personal skills, creating supportive environments, helping in skills development to educate, enable, mediate and advocate. Readings will include selected works by Steingraber, Colborn, Hancock, Chu, Bertell, Davis, CELA/OCFPE C, C, and Esteri and Health Canada.

TFS 8 Continuing Education

The intent of this course is to explore current issues in continuing education including access, quality, cost, profit/nonprofit providers and the use of technology. Of particular interest are the needs of a diverse population of adult learners, especially with respect to part-time study and factors related to the successful completion of Continuing Education programs the roles of colleges, universities, the workplace and professional organizations in the provision of non-credit as well as baccalaureate and post baccalaureate programs the impact of educational technologies on the accessibility and the quality of continuing education.

TFS 9 Administration of Technology in Higher Education

This course will examine the administration of technology in higher education settings. Topics may include planning, procurement and implementation of technology infrastructures, including productivity technology for staff and faculty, student computing services and support, registrarial systems, online teaching systems, professional development, library systems, and academic and acceptable use policies.

TFS 10 Higher Education and the Labor Market

An examination of the interaction between higher education institutions and the labor market, with particular emphasis on the human resources aspects of planning in higher education.

TFS 11 Higher Education and the Law

This course will examine the legal framework of higher education, including laws, regulations, and judicial interpretations that impact upon the governance and conduct of higher education. Particular attention will be placed upon the tension between academic autonomy and individual rights as they affect students' rights, faculty status, sanctions against discrimination, and the conditions attached to government funding.

TFS 12 Individual Reading and Research in Higher Education Master's level

Individual Reading and Research courses are taken as specialized study, under the direction of a staff member, focusing on topics of particular interest to the student that are not included in available courses. While credit is not given for a thesis investigation proper, the study may be closely related to a thesis topic.

TFS2006 Educational Finance and the Economics of Education

This course is about the resources that support schools, colleges, and universities how the resources are raised how they are allocated how they are budgeted for, how they are economically justified, and how they are accounted for. The course is also about connections between investments in education and the larger economy, between the organizations of systems and the way funding is allocated and accounted for, between forms of budgets and the efficiency with which funding is deployed, and between funding and educational quality.

TFS 06 Case Studies in Comparative Higher Education

This is a seminar course designed for students interested in the comparative study of higher education.

TFS 10 International Academic Relations

This course begins with the literature of international relations to set the context for an examination of higher education's role and responsibilities in an international arena. It then looks at the critical challenges to accepted views of knowledge in the university that have arisen from social theorists such as Habermas, from feminist scholarship, and from non-Western scholarship. Topics for exploration and research include the following academic freedom in a global context the role of universities and colleges in international development relations between higher education institutions and international organizations scholar/student exchanges and human rights and higher education.

TFS 20 Special Topics in Higher Education Doctoral level

Description as for TPS12

TFS 2. Individual Learning and Research in Higher Education, doctoral level

Description as for TPS182

Other courses accepted for credit

For descriptions, see relevant department course listings

VOTE The following courses are accepted for credit in Higher Education

- AEC117 Developing and Leading High Performing Teams Theory and Practice
- AEC1114 Comparative and International Perspectives in Adult Education
- AEC1131 Teaching, Learning, and Working in Nonprofit Organizations
- AEC1146 Women, Globalization and Citizenship
- AEC1173 Creativity and Wellness Learning to Thrive
- AEC1181 Embodied Learning and Learning
- AEC1277 Counselling Topics in Sexual Orientation and Gender Identity/Diversity
- AEC3144 Political Economy of Adult Education in Global Perspectives
- AEC314 Post-Colonial Relations and Transformative Education
- AEC3173 Effecting Change Creating Wellness
- AEC3211 Counselling and Researching in Context Critical Perspectives on Counselling and Health Promotion Research
- C L 67 Teaching and Learning by the Health Professions Principles and Theories
- DP1216 Psychoeducational Assessment
- LAW384 Intellectual Property
- SES3932 Contemporary Perspectives on Women and Higher Education
- SOC619 The Sociology of Gender and Work

VOTE Higher Education students may choose one of the following courses to fulfill their research methods requirement for the doctorate

Adult Education and Counselling Psychology

- AEC114 Participatory Research in the Community and the Workplace RM

Curriculum Teaching and Learning

- CTL182 The Phenomenological Curriculum
- CTL1112 Interpretive Research Methods in Holistic and Aesthetic Education
- CTL136 Qualitative Research Methods in Education Concepts and Methods RM
- CTL189 Narrative and Story in Research and Professional Practice
- CTL181 Doctoral Seminar in Qualitative Research on Teaching
- CTL1861 Critical Ethnography RM

Human Development and Applied Psychology

- DP1288 Intermediate Statistics and Research Design RM
- DP321 Qualitative Research Methods in Human Development and Applied Psychology RM

Sociology and Equity Studies in Education

- SES19 Qualitative Approaches to Sociological Research in Education RM
- SES393 Advanced Seminar on Feminist Methodology and Education RM

Department of Public Health Sciences • University of Toronto

- C L 111 Qualitative Research Methods
- C L 11 Topics in Qualitative Research

Faculty of Nursing • University of Toronto

- R124 Qualitative Research Foundations, Methods and Designs

Courses that Fulfill the Health Professions Requirement for the MEdN Program

- AEC1181 Embodied Learning and Learning
- TPS184 Issues in Medical/ Health Professional Education
- TPS188 Research in Health Professional Education RM
- TPS181 Evaluation of Knowledge, Clinical Competence and Professional Behaviour in the Health Professions
- TPS182 Education and the Professions can be used for regular or health requirement
- TPS183 Issues in Cognitive and Educational Psychology Implications for Health Professional Education
- TPS187 Mentoring Professional Education can be used for regular or health requirement

History and Philosophy of Education Program

There are two Fields of Specialization within the History and Philosophy of Education Program

- History of Education
- Philosophy of Education page 16

Each field offers courses of study leading to M.Ed., M.A., Ed.D. and Ph.D. degrees.

Interdepartmental Research Areas

Students may participate in the following interdepartmental Research Areas

- Gender Equity in Education page 18
- Transformative Learning page 18
- Women's Studies/Feminist Studies page 18

Collaborative Graduate Programs

Students may also enroll in the following collaborative programs which allow them to take courses across a number of University of Toronto departments. Prospective students must be admissible to both their OSE/ T department and the collaborative program.

- Comparative, International and Development Education CDE see pages 172 - 17
- Graduate Collaborative Program in Women and Gender Studies CWS see pages 176 - 177

History of Education Field

Cecilia Morgan, Ph.D. (Toronto)
Associate Professor, Associate Chair and Program Coordinator

David Levine, Ph.D. (Cambridge)
Professor

Ruth W. Sandwell, Ph.D. (Simon Fraser)
Assistant Professor

Elizabeth M. Smyth, Ed.D. (Toronto)
Associate Professor, cross-appointed from Curriculum, Teaching and Learning on leave 2016-2017

Harold M. Troper, Ph.D. (Toronto)
Professor on leave 2016-2017

Professors Emeriti

Ruth Roach Pierson, Ph.D. - Yale
Alison Prentice, Ph.D. - Toronto
Stephen T. Rusa, Ph.D. - Alberta

Degrees

Students may register for the M.Ed., M.A., Ed.D., or Ph.D. degree in the History of Education field of specialization. The M.Ed. and Ed.D. degrees are intended primarily for educational practitioners while the M.A. and Ph.D. degrees are intended for research-oriented scholars who wish to apply their discipline to education. All degree programs require a thesis except the M.Ed. **Option II**, which requires a major research paper and the M.Ed. **Option I**, which requires 1 half-course only. The Ed.D. has a minimum period of full-time study. The M.Ed. and M.A. may be pursued on a full- or part-time basis. The Ph.D. must be undertaken on a full-time basis.

In addition to the Minimum Admission and Degree Requirements see pages 21 - 27, M.A. and Ph.D. applicants are normally expected to have a substantial undergraduate concentration in history. Candidates with undergraduate concentrations in one or more of several cognate disciplines in the social sciences, arts and humanities will also be considered for admission.

VOTE Program requirements may be subject to change. Please check with the program coordinator.

Master of Education

The M.Ed. degree in History of Education may be pursued under either **Option II** (eight half-courses, plus a major research paper) or **Option I** (11 half-courses). See the Minimum Admission and Degree Requirements section, pages 21 - 27, for admission and other degree requirements. Students enrolled in **Option II** are expected to take at least four half-courses in History of

Education students enrolled in **Option I** are expected to take at least five half-courses in history of Education. Completion of TPS146 History and Educational Research RM is mandatory in both options.

Doctor of Education

The Ed.D. degree is designed for career educators who wish to engage in the in-depth study of a problem or topic related to professional practice. See Minimum Admission and Degree Requirements section, pages 21 - 27, for admission and degree requirements. Applicants to this degree program are expected to have a clearly defined research thesis problem/topic when they enter the program hence a statement of the applicant's expected research focus must be submitted with the application. Applicants are also encouraged to submit a sample of their scholarly writing e.g., research report, ma or essay, thesis. Moreover, an interview with faculty in the applicant's proposed area of specialisation is normally required prior to the admission decision.

Applicants with specialisations other than history of Education in their master's degree are required to take additional courses either as prerequisites to admission or as part of their program of study. Applicants without a master's thesis or equivalent must submit a qualifying Research Paper, which must be approved by two faculty members prior to registration in the program.

The minimum Ed.D. degree requirements for candidates who have a master's degree equivalent to the history of Education M.Ed. or M.A. consist of eight half-courses, a minimum of one year of full-time study on campus and a thesis. Preferably, the required year of full-time study should occur late in the degree program and should be devoted primarily to thesis research and writing.

The core requirements include two mandatory Ed.D. seminars TPS349 - Ed.D. Seminar in the history of Education, and TPS3491 - Ed.D. Seminar in the history of Education, normally taken during the year of required full-time study. The remaining courses are selected by the student in consultation with the faculty advisor and may be taken before or after the year of required full-time study. Students are strongly encouraged, though not required, to take at least two half-courses before the year of required full-time study.

VOTE All Ed.D. students who began their program of study after July 1, 1992, are required to take a comprehensive examination.

Master of Arts

Qualified applicants who hold a four-year university of Toronto bachelor's degree, or its equivalent, with a ma or in history may be admitted to a one-year program of study comprising six half-courses and a thesis. Normally, four of the six half-courses must be selected from among history of Education course offerings and those accepted for credit in this degree program. See pages 162 - 163.

Applicants with undergraduate ma ors in related social science and humanities disciplines may be required to take some additional courses. See Minimum Admission and Degree Requirements section, pages 21 - 27 for admission and other degree requirements.

Doctor of Philosophy

Qualified applicants with a university of Toronto M.A. degree with a specialisation in history of Education or its equivalent including a thesis or equivalent ma or research paper may be admitted to a degree program, comprising six half-courses and a thesis. In this degree program, TPS1419 historiography and the history of Education is mandatory, unless it, or an equivalent, has been taken previously. Three of the remaining five courses should normally be in history of Education, selected in consultation with the faculty advisor. If the master's degree did not include a thesis or equivalent, a qualifying Research Paper must be submitted and approved by two faculty members before registration for the degree program.

Applicants who do not hold a master's degree with specialisation in history of Education will be required to establish equivalency with the O SE/ T master's degree program. This may entail the addition of courses beyond the minimum six half-courses required for the Ph.D. Applicants who have taken graduate courses with substantial history of education content in any of several related disciplines in the humanities and social sciences should submit descriptions of such courses along with their application to help determine equivalency or the number of additional courses to be taken.

Applicants to the Ph.D. degree program are requested to submit a statement of their research interests in as much detail as possible so that an appropriate faculty advisor can be designated. Applicants who have completed a master's degree elsewhere are encouraged to submit a sample of scholarly writing e.g., master's thesis, ma or research paper, published article with their application. All Ph.D. candidates are required to write a comprehensive examination.

Core Course Requirements

Candidates for the M.A., Ed.D. and Ph.D. degrees with a specialisation in History of Education are required to take TPS1419 unless it or an equivalent has been taken previously. Candidates for the M.Ed. degree with a specialisation in History of Education are required to take TPS146 History and Educational Research (RM).

Program Research Areas

To guide students in selecting their research areas of interest, the History of Education Field offers the following thematic foci

Feminist Studies

SES193 and TPS courses 1412, 1413, 1421, 1426, 143, 1483, 3417 and 3418

History of Women and the Family in Education

TPS courses 1412, 141, 1413, 1421, 1422, 1426, 1428, 1429, 3413, 3423.

Immigration, Ethnicity, and Multiculturalism in Education

TPS courses 141, 1421, 1424, 1428, 1429, 3428

The Origins of Modern Schooling

TPS courses 14, 141, 143, 14, 141, 142.

Theory and Practice of Schooling

TPS courses 14, 141, 143, 14, 147, 148, 146.

Courses

The following list demonstrates the range of courses offered within the History of Education field. Not all of the courses listed are offered in any given year.

A course is identified with History and Philosophy of Education when the prefix is TPS and the first two digits in the course number are 14 or 34. It should be noted that the initial digit 1 or 3 does not necessarily indicate course level - most courses may be taken by both master's and doctoral students. Courses are normally open to students in other programs of study as well.

TFS .00 The Origins of Modern Schooling I: Problems in Education Before the Industrial Revolution

This course presents an overview of education and schooling before the massive intervention of the modern state. It is concerned with those forms of educational communication that formed the background for contemporary educational systems.

TFS .0 The Origins of Modern Schooling II: Problems in 19th and 20th Century Educational History: Focus on Canada and the US/UK

Drawing chiefly on North American literature, this course explores the origins of state educational systems in the context of traditional patterns of socialization and formal schooling, and changing social, political, and economic conditions and ideologies.

TFS .0 History of Education in Canada

A survey course whose central theme is Canadian answers to perennial questions in education. Included among these questions are the following: Why educate? Who should be educated? Who should teach? What should be taught? By what methods? Who pays the piper? Who calls the tune? How can success in teaching and learning be evaluated? Each of these questions will be dealt with in historical perspective in relation to the following regions of Canada: Atlantic region, Quebec, Ontario, Western region. Additional topics to be considered will be: 1. Canadian educational historiography 2. Canadian education and its critics: an analysis of the ongoing criticism of Canadian education in historical perspective.

TFS .0 History of Rural Education in Canada

Before 1921, the majority of Canadian families lived outside of cities. This course will examine institutional structures, popular responses, and community involvement, and the ways that these factors interacted as state-run compulsory schooling was slowly accepted.

TFS .0 History of Education and Film: Selected Topics

This course is primarily designed for those with little or no background in historical research. It examines a variety of ways in which cinema is relevant to the study of education and contemporary society. Students will be introduced to the interpretive questions of evaluation, representation, and understanding.

TFS .06 Sexuality and the History of Education

This course explores the history of identity and the politics of the body which have been central elements in socialization and education in all societies.

TFS . The History of the Teaching Profession

This course explores the history of teaching as an occupation. Drawing on recent Australian, British, and American studies, as well as on the Canadian literature, it examines the following topics: the changing composition of teaching forces; teachers' work and status in the schools; professionalization; the organization of teachers' associations and unions; class, ethnicity, race, and gender in teaching.

TFS . 6. Ontario Education

This course analyses the interplay of gender, race, class, ethnicity and religion in the history of education in Ontario from the eighteenth through the twentieth centuries. The course is delivered through computer-mediated conferencing.

TFS . 11. Historiography and the History of Education

Central issues in historical writing - theory and philosophy, bias and representativeness - are considered together with modes of presentation, forms and methods of research, and styles of argument. Students are introduced to the main issues in current educational history through an intensive reading of selected, exemplary texts. Emphasis is placed on the manner in which arguments are developed in social-historical studies on schooling and education. In this way, the influence of critical theory, discourse analysis, feminism, post-modernism, and post-structuralism on recent debates within the field is discussed with reference to the central problems of history of education.

VOTE TPS1419 is compulsory for all students in the M.A., Ed.D., and Ph.D. programs who will be developing a thesis topic in the history of Education.

TFS . 20. European Popular Culture and the Social History of Education I

This course is concerned with the interaction between literacy and popular mentalities in the period before the creation of school systems. Its particular interest is with those individuals for whom we have detailed information and whose lives provide a distant mirror reflecting other realities. For many of them, living at the interstices of literacy and orality, the social function of education was central to their lives.

TFS . 22. Education and Family Life in the Modern World I

The history of the family as it relates to child-rearing and education in Great Britain, France, the United States, and Canada.

TFS . 2. The History of the Family in Canada

Although modern Canadians usually associate the family with the personal and private aspects of their lives, the institution of the family has also been at the centre of Canada's economic, political and cultural structures for hundreds of years. This course will focus on the changing and varied relations among many different kinds of parents, children, and the larger social formations within which they lived, emphasizing educational experiences and framing family life in the wider contexts of Canadian history.

TFS . 2. Religion and Social Movements in the History of North American Education

A historical overview of the process of change as influenced by social service organizations or movements inside and outside the formal school structures of the community.

Among the issues discussed in the seminar are institutional structure and ideology, the nature of reform, volunteerism, and related political culture.

TFS . 2. Working-Class Formation and Its Relation to the Schools

A review of selected topics and themes in the history of working people and the schools, drawn from the nineteenth and twentieth-century British, Canadian, and American contexts. This course will examine areas such as working-class communities' relationships to schools, the moral regulation of working-class students, and the class position and identities of teachers. We will also explore alternative forms of working-class schooling, such as adult education, and themes in popular culture. We will also examine areas such as working-class households and communities and their relations to schools. The course will pay attention to the relation of gender to working-class culture and will draw upon new scholarship that examines the relation of working peoples to imperialism, ethnicity, and race.

TFS . 26. The History of Gender and Education in Canada

This course explores the changing dimensions of gender relations in Canada from the late 18th to the 20th century. It will examine selected social, cultural, economic, and political developments, shifting meanings of femininity and masculinity in these developments, and their effect on formal and informal forms of education.

TFS . 27. History and Commemoration. Canada and Beyond. 1900s - 1990s

This course will examine historical literature that looks at the different ways in which historical commemorations and historical memory have been forged, the hegemonic meanings of the past created by elites, and the contestation of those meanings by those often formally excluded from these processes - women, members of ethnic and racialized groups, and the working classes.

We will look at areas such as state commemorations and the creation of tradition, the development of museums, historical tourism, and the designation of monuments and battlefields as sites of national memory. The course will conclude with an exploration of current debates over the place of history in the schools and universities.

TFS . 2. Immigration and the History of Canadian Education

A historical examination of immigration and immigration policy in shaping the social, economic, and political life of Canada with special reference to education. This course will explore such areas as the historically different agendas of immigrants and policy-makers, the shifts from migrant to immigrant, and the racial and organizational priorities of educators in meeting the needs of immigrants.

TFS . 2 Ethnicity and the History of Canadian Education

A historical exploration of ethnicity and race as a factor influencing Canadian civic culture, changing public policy, and shaping the contours of ethnic community life. Special attention will be paid to the historical development of ethnicity in Canada, the internal life of several communities, and the challenges ethnicity and race represented to keepers of the Canadian gate and educators in particular.

TFS . 0 Gendered Colonialisms, Imperialisms and Nationalisms in History

This course explores the ways in which gender relations have been an integral part of colonial and imperial expansion and national identities, from the mid-18th to the mid-20th centuries. We examine both how gender relations helped structure these historical developments and how gender relations were subject to change in various colonial contexts including settler societies such as Canada. The course readings explore the uneven and historically contingent ways in which processes of colonial and national expansion created new forms of gender asymmetry in both colony and metropole.

TFS . . Popular Culture and the Social History of Education. II

This course examines a range of themes in the history of education and popular culture, drawn primarily from nineteenth and twentieth-century Canadian history. Topics that will be covered include the impact of popular forms of amusement and education: theatre, tourism, public parades and festivals, and commercial exhibitions and museums. We also will also explore the relationship of various levels of the state and of capitalism to popular culture and the relation of high culture to mass culture. This course will pay attention to the influences of gender, race and ethnicity, class, and sexuality in shaping and, at times, challenging, particular forms of popular culture.

TFS . 2 Individual Reading and Research in the History of Education. Master's level

This course consists of specialized study, involving regular preparation of papers and tutorials under the direction of a staff member, focusing on specialized topics of interest to individual students and faculty members that are not provided for in seminar courses. Practical field experience may be included as part of the course. While credit is not given for a thesis investigation proper, the study may be related to a thesis topic.

TFS . 60 History and Educational Research [

A seminar course required of all M.Ed. students in History of Education, normally taken at or near the beginning of each student's program. The course will both explore selected topics in educational history with special reference to historical research methods in use in the history of education and assist students in undertaking their major research paper.

TFS . 6 Special Topics in History of Education

This course examines in depth a topic of particular relevance not already covered in the regular course offerings in the department. The topics will be announced each spring in the Winter Session and Summer Session schedules.

TFS . 2 Education and Family Life in the Modern World II

This course is designed as a follow-up to TPS1422. It is intended for students who are interested in pursuing the historical study of education and family life. This course is not a survey; rather, its primary concern will be a detailed examination of the major works in family history. Classroom discussions will be focused upon the major historiographical and methodological implications of monographic texts, each of which will be considered at length.

Prerequisite: TPS 1422 or permission of instructor.

TFS . 2 Minority Concerns and Education in Canadian History. Selected Topics

A research-oriented seminar on the historical tensions and concerns of immigrant and ethnic groups and their importance to the development of education in Canada.

Prerequisite: TPS 1422, TPS 1429, or permission of instructor.

TFS . 2 Individual Reading and Research in the History of Education. Doctoral level

Description as for TPS 1422.

TFS . 6 Special Topics in History of Education

A course that will examine in depth a topic of particular relevance not already covered in regular course offerings in the department. The topics will be announced each spring in the Fall/Winter Session and Summer Session schedules.

TFS . 0 Ed.D. Seminar in the History of Education

This is a required research seminar for Ed.D. candidates involving consideration of the problems of historical studies in a critical context. The seminar will include presentation and criticism of students' thesis/project proposals and progress reports.

TFS . Ed.D. Seminar in the History of Education. II

See description for course TPS 349.

TFS . Doctoral Practicum in the History of Education. I

This course supports special field-oriented experience for doctoral candidates relating to their particular areas of scholarly interest. The student's activities will be planned in consultation with faculty and will involve seminars or

tutorials as well as practical implementation in field situations. While credit is not given for a thesis investigation proper, the study may be related to a thesis topic.

TFS 3494 Doctoral Practicum in the History of Education II

See description for course TPS 3494

Other courses accepted for credit

The following courses are accepted for credit in the history of Education field. For descriptions, see relevant department course listings.

Higher Education

- TPS181 The history of Higher Education in Canada: An Overview
- TPS182 The section titled The University in an International Context: Ethics, Human Rights, Politics
- TPS1822 The Idea of the University and the College

Sociology and Equity Studies in Education

- SES194 Sociological Theory in Education
- SES193 Gender and Historical Sociology

Philosophy of Education Held

Dwight Boyd, Ed.D. (Harvard)

Professor and Program Coordinator

Megan Boler, Ph.D. (University of California Santa Cruz)

Associate Professor

Maureen Ford, Ph.D. (Toronto)

Assistant Professor

Brent S. Kilbourn, Ph.D. (Toronto)

Associate Professor, cross-appointed from Curriculum, Teaching and Learning

John Portelli, Ph.D. (McGill)

Professor

Professors Emeriti

- Deanne Logsdan, Ph.D. Toronto
- Dieter Misgeld, Dr. Phil. Heidelberg

Degree Requirements

Students may register for the M.Ed., M.A., Ed.D., or Ph.D. degree in the Philosophy of Education field of specialization. The M.Ed. and Ed.D. degrees are intended primarily for educational practitioners, while the M.A. and Ph.D. degrees are intended for research-oriented scholars who wish to apply their discipline to education. All degree programs require a thesis except the M.Ed.. The Ed.D. has a minimum period of required full-time study. The M.Ed. and M.A. may be pursued on a full- or part-time basis. The Ph.D. must be undertaken on a full-time basis. In addition to the Minimum Admission and Degree Requirements pages 21-27, M.A. and Ph.D. applicants are normally expected to have a substantial undergraduate concentration in philosophy. However, candidates with undergraduate concentrations in one or more of several cognate disciplines in the social sciences and humanities will also be considered for admission.

VOTE Program requirements may be subject to change. Please check with the program coordinator.

Master of Education

The M.Ed. degree in Philosophy of Education may be pursued under either **Option II** (eight half-courses, plus a thesis or research paper) or **Option I** (11 half-courses). See the Minimum Admission and Degree Requirements section, pages 21-27, for admission and other degree requirements. Students enrolled in **Option II** are expected to take at least four half-courses in Philosophy of Education; students enrolled in **Option I** are expected to take at least five half-courses in Philosophy of Education. Completion of TPS144 Introduction to Philosophy of Education is mandatory in both options unless a course deemed equivalent has already been taken.

Doctor of Education

The Ed.D. degree is designed for career educators who wish to engage in the in-depth study of a problem or topic related to professional practice. See Minimum Admission and Degree Requirements section, pages 21-27, for admission and degree requirements. Applicants to this degree program are requested to submit a statement of their research interests in as much detail as possible so that an appropriate faculty advisor can be designated.

Applicants who have completed a master's degree elsewhere are encouraged to submit a sample of scholarly writing (e.g., master's thesis, major research paper, published article) with their application.

Applicants with specializations in their master's degree other than Philosophy of Education may be required to take additional courses either as prerequisites to admission or as part of their program of study. Applicants without a master's thesis or equivalent must submit a qualifying Research Paper, which must be approved by two faculty members prior to registration in the degree program.

The minimum Ed.D. degree requirements for candidates who have a master's degree equivalent to the Philosophy of Education M.Ed. or M.A. specialization consist of eight half-courses (some or all of which may be taken part-time), a minimum of one year of required full-time study on campus, and a thesis. Preferably, the year of required full-time study should occur late in the degree program and should be devoted primarily to thesis research and writing. All Ed.D. students are required to take a comprehensive examination.

The core requirements include two mandatory Ed.D. seminars (TPS348 - Ed.D. Seminar in the Philosophy of Education), and (TPS349 - Ed.D. Seminar in the Philosophy of Education), normally taken during the year of required full-time study and (TPS144 - An Introduction to Philosophy of Education, unless it, or an equivalent, has been taken previously. Three of the remaining five courses should normally be in Philosophy of Education, selected in consultation with the faculty advisor. Courses from other departments, including the Graduate Department of Philosophy, may upon approval be substituted for Philosophy of Education courses. Students are strongly encouraged, though not required, to take at least two half-courses before the year of required full-time study.

Master of Arts

Qualified applicants who hold a four-year University of Toronto bachelor's degree, or its equivalent, with a major in philosophy may be admitted to a degree program comprising six half-courses and a thesis. In this degree program, (TPS144 - An Introduction to the Philosophy of Education, is mandatory unless it, or an equivalent, has been taken previously. Three of the remaining five courses should normally be in Philosophy of Education, selected in consultation with the faculty advisor. Courses from other departments, including the University of Toronto Graduate Department of Philosophy, may upon approval be substituted for Philosophy of Education courses. See pages 167-169.

Applicants with undergraduate majors in related social science and humanities disciplines may be required to take some additional courses. They are encouraged to submit, with their application, descriptions or outlines of courses that show content related to philosophy. See Minimum Admission and Degree Requirements section, pages 21-27 for admission and other degree requirements.

Doctor of Philosophy

Qualified applicants with a University of Toronto M.A. degree with a specialization in Philosophy of Education or its equivalent (including a thesis or equivalent major research paper), may be admitted to a degree program comprising six half-courses and a thesis. In this degree program, (TPS144 - An Introduction to the Philosophy of Education, is mandatory unless it, or an equivalent, has been taken previously. Three of the remaining five courses should normally be in Philosophy of Education, selected in consultation with the faculty advisor. Courses from other departments, including the University of Toronto Graduate Department of Philosophy, may upon approval be substituted for Philosophy of Education courses. See pages 167-169.

All Ph.D. candidates are required to write a comprehensive examination. If the master's degree did not include a thesis or equivalent, a qualifying Research Paper must be submitted and approved by two faculty members before registration for the degree program. Applicants who do not hold a master's degree with specialization in Philosophy of Education will be required to establish equivalency with the OSE/UT master's degree. This may entail the addition of courses beyond the minimum six half-courses required for the Ph.D.

Applicants who have taken graduate courses with substantial Philosophy of Education content in any of several related disciplines in the humanities and social sciences should submit descriptions of such courses along with their applications to help determine equivalency or the number of additional courses to be taken.

Applicants to the Ph.D. degree program are requested to submit a statement of their research interests in as much detail as possible so that an appropriate faculty advisor can be designated. Applicants who have completed a master's degree elsewhere are encouraged to submit a sample of scholarly writing (e.g., master's thesis, major research paper, published article) with their application.

Courses

The following list demonstrates the range of courses offered within the Philosophy of Education field. Not all of the courses listed are offered in any given year.

A course is identified with History and Philosophy of Education when the first two digits in the course number are 14 or 34. It should be noted that the initial digit 1 or 3 does not necessarily indicate course level; most courses may be taken by both master's and doctoral students. Courses are normally open to students in other programs as well.

TFS 202 Knowledge, Knowing, and Knowing Subjects

This course investigates knowledge, knowing, and knowing subjects as they are represented in modern and postmodern educational theory and practices. The course is designed to facilitate educators' self-reflection on questions of learning and teaching, constructions of knowledge and knowers, and the implications of power/knowledge. Selected topics include the impact of constructivism on teaching problems of epistemic dominance and marginalization. Whose knowledge counts and representations of learning styles/ability/disability.

TFS 203 Freedom and Authority in Education

This course focuses on the tension between freedom and authority as it affects both education and society at large. Traditional and contemporary philosophical theories of freedom and authority provide a context for examining the competing claims of libertarians or progressivists and authoritarians in education. This course does not presuppose extensive background in philosophy.

TFS 204 Democracy and Education

The course will consider major views of society and politics that have the development of democracy as their theme. The relation between projects of educational reform and democratic development will be examined.

TFS 206 Modernity and Postmodernity in Social Thought and Education

Recent debates in social theory, philosophy, and education regarding the meaning of modernity will be discussed. Theories of modernity and post-modern critiques of them will be reviewed. Experiences around the world of various types of crisis—human rights, ecological, cultural—may be considered.

TFS 207 Democratic Approaches to Pedagogy

This course explores the theoretical and practical aspects of democratic approaches to pedagogy by critically discussing selected writings of some of the major 19th century philosophers of education and educationists—e.g., John Dewey, Paulo Freire, and R. Martin, A.S. Mill, Bertrand Russell, bell hooks, and Freire. The exploration of this topic will also include a critical discussion of case studies arising from real classroom contexts.

TFS 208 Gender, Ethics, and Education: Philosophical Issues

This course will examine philosophical issues pertaining to the interrelationships of gender, ethical frameworks, and educational theory. Focus will be on recent feminist analyses of gender as a social construction, insights into how this construction is manifested and maintained, and critiques of and alternatives to mainstream ethical theory. How educational theory, on matters such as ideals, aims, curriculum content, and the teacher's role, would need to change in order to accommodate these perspectives will provide the context for the critical explorations.

TFS 209 An Introduction to Philosophy of Education

This course is an overview of the field of philosophy of education. It focuses on selected major thinkers, such as Plato, Rousseau, Wollstonecraft, Dewey, Peters, and Martin, with attention given both to classic texts and to contemporary developments, critiques, and uses of ideas from these texts. Emphasis is placed on the kinds of epistemological, ethical, and political questions that comprise the core of philosophy of education and that need to be addressed to the classic and contemporary literature.

TFS 210 Philosophical Dimensions of Moral Education

This course explores critical theoretical issues in moral philosophy as they impact moral education. The perennial question of the extent to which moral evaluation should be thought of as universally applicable or relative only to a particular person, group or society is taken as a motivating and anchoring concern. The course then focuses on how legacies of the Enlightenment—such as the conceptual dichotomies of public/private, the right/the good, duty/virtue, etc.—have shaped both contemporary Western thinking about morality and approaches to moral education. Examples are drawn from a variety of approaches, but with particular emphasis on Kohlberg's theory of moral development.

TFS . . 2 Cultural andacial difference in Education Philosophical Perspectives

This course is framed by the belief that contemporary Canadian society must be understood in terms of the facts of cultural diversity and raciali ed difference and the moral/political commitments to promote respect and equity through public education while also avoiding indoctrination and intolerance. t will focus on the political and philosophical assumptions that underlie these expectations and on the tensions that are revealed when they are held in con unction. n particular, the different inds of assumptions underlying liberalism and perspectives critical of liberalism will be ta en as an underlying theme. Throughout, the purpose is to facilitate critical reflection on the moral dimensions and implications of these assumptions.

TFS . . 6 The Teacher as Philosopher

This course starts from the assumption that teachers are already philosophers - i.e., their practice is informed by systems of beliefs and assumptions. Each student will have the opportunity to develop an initial articulation of his/her views on education in a personal interview with the instructor at the beginning of the term. These interviews will then be shared and will focus course readings, lectures, and requirements. The aim will be to examine the different ways in which philosophical assumptions form the foundation for educational beliefs. Topics addressed will include value, epistemological, political, and praxis questions within beliefs about educational aims, content, and teaching methods.

TFS . . 7 Technology in Education Philosophical Issues

This course will address the philosophical problems arising from the use of modern technology and its implications for theories of education and educational practices. The primary focus of the course will be on the nature of the relationship between humans, society, and technology. Among the issues that may be considered are the nature and validity of technological determinism as a model of explanation of personal and social change technological causation the conceptual distinctions if any between humans and machines the social, political, metaphysical, ethical, and epistemological commitments involved in the introduction and use of technology in education the distinctions between human understanding and artificial intelligence problems arising from the use of computers in education and related philosophical issues in education. The selection of topics will depend on the interests and bac grounds of the members of the seminar.

TFS . Individual eadn and esearch in the Philosophy of Education. aster s evel

This course consists of speciali ed study, involving regular preparation of papers and tutorials under the direction of a staff member, focusing on speciali ed topics of interest to individual students and faculty members that are not

provided for in seminar courses. Practical field experience may be included as part of the course. While credit is not given for a thesis investigation proper, the study may be related to a thesis topic.

TFS . 62 Women literature and Education

This course focuses on the representation of women in literature and film to illuminate political philosophies, epistemologies, and social concerns. The course introduces different theoretical and philosophical approaches from literary and film criticism that suggest diverse pedagogies and theories of reading as modes of educational engagement.

TFS . 6 Special Topics in Philosophy of Education

This course examines in depth a topic of particular relevance not already covered in the regular course offerings in the department. The topics will be announced each spring in the Winter Session and Summer Session schedules.

TFS . 7 Critical Issues in Education Philosophical Perspectives

This course examines philosophical dimensions of contemporary critical issues in educational practice. ssues selected vary each session examples are standardi ation and a common curriculum common schooling and school choice teacher testing and professional learning safe schools and ero tolerance policies and controversial issues in the classroom . The aim is to integrate our understanding of these issues as they are being played out in practice and uncover and analy e some of the underlying philosophical questions and stances.

TFS . 7 Research Seminar in Feminist Criticism and Fedat o y

This course will explore progressive, critical, feminist, and other radical pedagogies in their theoretical and historical contexts. The seminar will examine diverse contemporary debates regarding pedagogical questions surrounding such notions as voice , empowerment , and dialogue that have been advocated and contested within critical educational theory.

TFS . . Research Seminar in oral Education. Part I

This is an advanced seminar based on topics covered by TPS 1441 but dealing with a selection of these in more depth. Topics are selected on the basis of the research interests of students and instructor.

Frere .uisite Permission of instructor.

**TFS 100 Research Seminar in Moral Education
Part II**

This is an advanced seminar based on topics covered by TPS 1441 but dealing with a selection of these in more depth. Topics are selected on the basis of the research interests of students and instructor.

TFS 107 Theories of Modernity and Education

Theories of modernity and of societal and political modernization will be reviewed and their limits will be considered. Basic arguments will be derived from more recent traditions in social theory, such as Frankfurt school social theory, neopragmatism, Foucauldian postmodernism and from some examples of Third world thought, especially Latin American thought. All these theories will be addressed with reference to some features of Habermas' theory of democratic modernization.

TFS 108 Individual Reading and Research in the Philosophy of Education Doctoral Level

Description as for TPS 143.

TFS 106 Special Topics in Philosophy of Education

A course that will examine in depth a topic of particular relevance not already covered in regular course offerings in the department. The topics will be announced each spring in the Fall/Winter Session and Summer Session schedules.

TFS 100 EdD Seminar in the Philosophy of Education I

This is a required research seminar for Ed.D. candidates involving consideration of the problems of philosophical studies in a critical context. The seminar will include presentation and criticism of students' thesis/proposal proposals and progress reports.

TFS 100 EdD Seminar in the Philosophy of Education II

See description for course TPS343.

TFS 100 Doctoral Practicum in the Philosophy of Education I

This course supports special field-oriented experience for doctoral candidates relating to their particular areas of scholarly interest. The student's activities will be planned in consultation with faculty and will involve seminars or tutorials as well as practical implementation in field situations. While credit is not given for a thesis investigation proper, the study may be related to a thesis topic.

TFS 100 Doctoral Practicum in the Philosophy of Education II

See description for course TPS 344.

Other courses accepted for credit

The following courses are accepted for credit in Philosophy of Education. For descriptions, see relevant department course listings.

Curriculum Teaching and Learning

CTL1 32 Learning and Teaching

Theory and Policy Studies in Education (Educational Administration Program)

TPS1 24 Critical Conversations Philosophy, Educational Administration and Educational Policy Studies

TPS3 Democratic Values, Student Engagement and Policy Studies

Collaborative Graduate Degree Programs

Addiction Studies

The graduate units of Adult Education and Counselling Psychology Anthropology Biomedical Engineering Criminology Information Studies Medical Science Pharmaceutical Sciences Pharmacology Psychology Public Health Sciences Social Work and Sociology, in collaboration with the Centre for Addiction and Mental Health, the Canadian Centre on Substance Abuse, and the Ontario Tobacco Research unit, participate in this collaborative program. Note that this program is associated with M.A. and Ph.D. degrees only.

The purpose of the program is to develop and integrate graduate training in the multidisciplinary field of addictions, an area that includes the use and abuse of alcohol, tobacco, and psychoactive substances, as well as gambling and other addictive behaviours.

Master's students are required to take PAS37 Multidisciplinary Aspects of Addictions, plus a half-year course from a list of approved courses, or a directed reading course. Doctoral students are required to take PAS37 Multidisciplinary Aspects of Addictions, if they have not already done so, plus one additional half-year course not taken previously from a list of approved courses, or a directed reading course. In addition, students must complete the degree requirements of their home department. For a list of approved courses please see the *School of Graduate Studies Calendar*.

NOTE Students who successfully complete the program will have noted on their transcripts completion of the Collaborative Program in Addiction Studies in addition to the degree from their OSE/UT department.

Aging and the Life Course

The Department of Adult Education and Counselling Psychology AECP as well as other University of Toronto departments, participate in the Collaborative Program in Aging and the Life Course, offering M.Ed., M.A., Ed.D. and Ph.D. degree programs. This Collaborative Program prepares students for specialization in the field of aging, an area that includes individual human aging and population aging, with an emphasis on viewing aging issues within the perspective of the life course. Students must apply to and register in either the Adult Education and Community Development Program or the Counselling Psychology Program within AECP, and follow a course of study acceptable to AECP and the Collaborative Program in Aging and the Life Course.

Admission Requirements

Applicants must meet the minimum OSE/UT requirements see Minimum Admission and Degree Requirements section, pages 21-27, and the departmental requirements as outlined on pages 3-62. Applicants must also forward application material to the Program Committee of the Collaborative Program in Aging and the Life Course. See the *School of Graduate Studies Calendar* for more information.

Program Requirements

Individual student programs of study must meet the requirements of both AECP as outlined on pages 3-62 and the Collaborative Program. Master's students are required to take A/E2 - Principles of Aging plus one elective from a list of approved courses. Doctoral students are required to take A/E3 - Advanced Research Seminar in Aging and the Life Course plus one elective from a list of approved courses. For a list of approved courses please see the *School of Graduate Studies Calendar*. It is expected that the student's thesis or practicum whichever is included in their program of study would be in the area of aging and the life course.

NOTE Students who successfully complete the program will have noted on their transcripts Completed the Collaborative Program in Aging and the Life Course in addition to the degree from the Department of Adult Education and Counselling Psychology.

Fax 416-978-4771

Website www.utoronto.ca/lifecourse/collaborative**Community Development**

Community development is the study of change in the social, economic, organizational, or physical structures of a community that seeks to improve both the welfare of community members and the community's ability to control its future. It entails a variety of citizen-led efforts, carried out within or on behalf of a community, to define problems, develop solutions, and attract the resources necessary to implement activities that address the identified problems. It is a process, not an end in itself; the process of organizing, learning, and implementing practices that increase a community's ability to achieve existing goals and increase a community's ability to reach toward higher-level goals in the future.

The hub for this Collaborative Program is the Centre for Urban and Community Studies (CCS) which promotes and disseminates multidisciplinary research and policy analysis on urban and community issues and the Collaborative Program is a partnership involving four University of Toronto departments/faculties and five graduate programs

Adult Education and Community Development

M.A. and M.Ed. at OISE/UT

Counselling Psychology M.Ed. at OISE/UT

Program in Planning M.Sc. Pl., in the Department of Geography

Public Health Sciences M.Sc. in the Faculty of Medicine

Faculty of Social Work M.S.W.

Application Procedures

1. Applicants first apply for admission to a participating graduate department/program and comply with the admission procedures of that department/program in their home department/program.
2. After they have been accepted by one of the participating graduate departments/programs, applicants then send the following to the Program Committee of the Collaborative Program:
 - a a copy of the letter of acceptance into one of the participating graduate departments/programs
 - b a copy of the Application form which was submitted to the participating graduate department/program
 - c copies of official undergraduate and graduate transcripts from all institutions previously or currently attended
 - d a résumé or curriculum vitae
 - e a letter explaining how their program of study and specific research interests relate to community development i.e., why do you want to enroll in the Collaborative Program in Community Development.

Send the Collaborative Program application to:

Grace Ramire, Registrar

Collaborative Program in Community Development

Centre for Urban Community Studies

University of Toronto

4 Spadina Avenue, Suite 4

Toronto, Ontario, Canada M5S 2E6

Telephone 416-978-8888

Fax 416-978-7162

E-mail grace.ramire@utoronto.ca**Program Requirements**

Students register in degree programs in their home department/program and complete its degree requirements, as well as those of the Collaborative Program. To fulfill the requirements of the Collaborative Program, students must complete the following. With the exception of the non-credit Seminar, the courses are options within regular departmental/program degree requirements, not additional courses.

1. The core course Community Development Theory and Practice, a half-course
2. Two additional half-courses in the subject area of the program, to be approved by the program director; at least one of these two additional half-courses must be external to the home graduate degree program
3. Mandatory participation in a non-credit coordinating seminar on community development
4. Where required by the home graduate degree program, either a thesis or the master's or research paper on a topic related to community development.

Common Learning Experience

The Collaborative Program in Community Development will contribute to a common learning experience for enrolled graduate students through the following

The required core course Community Development Theory and Practice.

A new one-year non-credit seminar series that all students registered in the Collaborative Program are required to attend.

Speakers, seminars, and workshops from time to time. Students in the Collaborative Program are expected to participate in these events including decisions on the themes, topics, speakers, format, etc.

Courses

Comparative International and Development Education

Program Directors

Jared Rudy Adult Education and Counselling Psychology
Joseph F. Harrell Curriculum, Teaching and Learning Comparative and International Development Education Centre, 7th Floor, O SE/ T

Contact

Website cide@oise.utoronto.ca
E-mail cide@oise.utoronto.ca

The Collaborative Program in Comparative, International and Development Education (CIDE) provides the opportunity for students enrolled in any of O SE/ T's four participating departments to receive a notation on their transcript identifying their specialization in Comparative, International and Development Education.

CDE is one of the world's largest, most diverse and dynamic graduate programs in the field of comparative education. All CDE students and faculty bring with them extensive international experience. Faculty interests span an exciting range of theoretical and practical issues from the study of ethnicity and identity to the issues of globalization and global governance from non-formal learning and citizenship education, to concrete problems of educational reform, social equality, language education, conflict resolution and community development. We approach these issues from a range of theoretical and disciplinary frames that is unparalleled in other comparative education programs. More traditional sociological, historical and philosophical approaches are taught alongside vibrant interpretations of feminist, critical, post-structuralist and cultural theories.

In addition, CDE students have access to courses and professors with related geographic and thematic interests at one of the world's pre-eminent research universities. Students can take courses in political science, development studies, international relations, feminist studies, sociology, geography and beyond. The CDE program is linked with events and programs at the Munro Centre for International Studies at the University of Toronto, where a vibrant community of scholars and students interested in international issues congregates.

The CDE program will be of interest to Canadian students who wish to work and live in other cultures or want to better understand the educational and social systems of the many learners in Canada's multicultural society. It will also be of interest to international students who wish to relate their studies at OISE/UT directly to their own societies and learning systems.

The CDE program is available to students enrolling in the M.Ed., M.A., Ed.D. and Ph.D. degree programs in the following departments

Adult Education and Counselling Psychology

Adult Education and Community Development Program

Curriculum, Teaching and Learning

Curriculum Studies and Teacher Development Program
Second Language Education Program

Sociology and Equity Studies in Education

Sociology in Education Program

Theory and Policy Studies in Education

Educational Administration Program
Higher Education Program
History and Philosophy of Education Program

Requirements

Applicants should apply to the appropriate degree program in one or more of the collaborating departments, listed above, that corresponds most closely to their general background and interests.

In addition to meeting the minimum OISE/UT admission requirements (see Minimum Admission and Degree requirements section in this *Bulletin*, pages 21-27), and department requirements, applicants to this Collaborative Program are ordinarily expected to have had at least one year of international or cross-cultural experience.

Prospective applicants should review the detailed information about the CDE program available on the CDE Web page at cde.oise.utoronto.ca. You are strongly advised to contact one of the core CDE faculty members in the department to which you are applying to discuss your research interests and goals. A list of CDE core faculty members appears below. Their contact information is available on the CDE Web page.

Program Requirements

Individual student programs of study must meet the requirements of both their home department as outlined in the various department pages in this *Bulletin* and the Collaborative Program. Formally, a careful selection of courses will satisfy this requirement without any additional course load. Collaborative Program requirements include

CDE1 Introduction to Comparative, International and Development Education
Two other CDE core or specialization courses
Regular participation in and attendance at the CDEC Seminar Series for both Master's and Doctoral level students. Doctoral level students are also required to make at least one major presentation related to their research/development work in addition to regular participation.

For Master's students, preparation of a thesis, Master's research paper or comprehensive paper depending upon the requirements of the home department which relates to and demonstrates Master's level understanding of the research/theory base of CDE as certified by a participating faculty member in the home department.

For Doctoral level students, development of a doctoral thesis that contributes to the research/theory base of CDE as certified by a participating faculty member who is also a member of the thesis committee from the home department.

Faculty Advisors

Students are advised by participating CDE faculty from their home department listed below. They may also see advice and information from the Comparative, International and Development Education Centre, **Email Address: oise@utoronto.ca** and the CDE Program Directors.

Courses

IE or Joint Comparative Education Courses

IE 00 Introduction to Comparative International and Development Education

This course serves as the basic core course for the OSE/ T graduate studies concentration in comparative, international and development education. It focuses upon the various theoretical conceptions of the socio-economic development process and the role of formal and non-formal education programs within that process. The basic purpose of the course is to introduce students to the comparative literature regarding education in advanced and developing nations, to evaluate the various ways in which comparative data may be used, and to examine the relative utility of various theoretical perspectives for understanding formal and non-formal education policy problems common to many societies. CDE students only or by permission of instructor.

IE 00 Special Topics in Comparative International and Development Education

A course designed to permit the study in a formal class setting of specific areas of comparative, international and development education not already covered in the courses listed for the current year.

College Graduate Degree Core Courses

- AEC1114 Comparative and International Perspectives in Adult Education
- AEC314 Political Economy of Adult Education in Global Perspectives
- AEC3131 Special Topics Popular Education
- AEC3131 Comparative and International Perspectives
- AEC3131 Special Topics Citizenship Learning and Participatory Democracy

- AEC3179 Work, Technology and the Knowledge Economy
- AEC3131 Global Governance and Educational Change
- C E1 1 Introduction to Comparative, International and Development Education

Developmental Science

The M.A./Ph.D. in the Collaborative Program in Developmental Science prepares students for academic and research careers in Developmental Science. This program links developmental psychology, cognitive science, biological approaches, educational psychology, and intervention science, as applied to children and their families, to form a coherent program of studies dedicated to research on child development and its applications. This integration addresses a major shift within the field toward a cross-disciplinary approach to child development, centered in psychology but encompassing related disciplines. The program includes faculty from the O SE/ T Department of Human Development and Applied Psychology, and the Department of Psychology. See page 19 for further information.

VOTE Upon fulfillment of the program requirements, transcripts will denote completion of the Collaborative Program in Developmental Science in addition to the degree from their O SE/ T department.

Further information is available from

Marc Lewis
 Telephone 416-923-6641 ext. 2443
 E-mail mlewis@oise.utoronto.ca

Environmental Studies

O SE/ T and the University of Toronto Centre for Environment collaborate in M.Ed., M.A., Ed.D. and Ph.D. degree programs in Environmental Studies. This program is offered out of the Transformative Learning Centre O SE/ T and is administered in the Departments of Adult Education and Counselling Psychology and Sociology and Equity Studies in Education.

Typically, between two and four courses are chosen from the graduate courses listed with the Centre for Environment. Courses of particular interest include

- ES1 1F Environmental Decision Making
- ES1 2S Environmental Management Case Studies
- ES12 S Current Issues of Environmental Change
- ES12 2S Environmental Issues in Developing Countries
- ES17 Ecological Economics
- ES17 1F Environmental Law
- ES17 F Corporate Perspectives on the Environment
- P 12 1S Politics, Bureaucracy and the Environment
- P 2147F Environmental Philosophy
- ME19 1F Technology, Society and the Environment

At the master's level, the arrangement is for students to take between two and four half-credit courses from the courses listed with the Centre for Environment.

Internships for students in this program are sometimes available through the Centre for Environment. The remaining courses are to be taken from the courses listed at OSE/ T. These courses are to be approved through an Academic Advisor from one of the two participating OSE/ T departments.

The doctoral program of study normally consists of eight half-courses. Two to four half-credit courses are to be taken from the courses listed with the Centre for Environment and the remainder from the two participating OSE/ T departments.

NOTE Students who successfully complete the program will have noted on their transcripts Completed Collaborative Program in Environmental Studies in addition to the degree from their OSE/ T department.

Graduate Collaborative Program in Women's Studies (GWS)

The following OSE/ T Departments

Adult Education and Counselling Psychology
Curriculum, Teaching and Learning
Sociology and Equity Studies in Education
Theory and Policy Studies in Education

as well as other University of Toronto departments, participate in the Graduate Collaborative Program in Women's Studies (CWS) offering M.Ed., M.A., Ed.D. and Ph.D. degree programs. The CWS provides a formal educational opportunity for qualification in the field of women's studies through the pursuit of original interdisciplinary research in women's and gender studies and advanced feminist scholarship.

The program provides a central coordinating structure to facilitate and disseminate women's studies research through student and faculty research seminars, colloquia, circulation of work in progress, study groups, conferences, and publications. The CWS contributes to the development of an integrated research community in women's studies at the University of Toronto. Applicants to the program are expected to meet the admission and degree requirements of both their OSE/ T department and the CWS.

All programs of study should be planned in consultation with the program advisor in the student's OSE/ T home department and with the CWS Coordinator. See CWS address below.

NOTE Students who successfully complete the program will have noted on their transcripts Completed Collaborative Program in Women's Studies in addition to the degree from their OSE/ T department.

The Department of Curriculum, Teaching and Learning's Curriculum Studies and Teacher Development program participates in the Knowledge Media Design (KMD) Collaborative Program. The Knowledge Media Design Institute (KMDI) in the School of Graduate Studies is dedicated to research and graduate education in all aspects of knowledge, media and design. It is the first institute of its kind in Canada with more than 60 faculty from 20 academic disciplines. Other participating departments participating in the KMD Collaborative program are the following: Faculty of Architecture, Landscape, and Design (ALD); Computer Science (CS); Faculty of Information Studies (FIS); Institute of Medical Science (MS); Mechanical and Industrial Engineering (MIE); and Sociology (SOC). KMD challenges both the technological utopians and dystopians with a vision that is constructively critical and sees itself to be a catalyst for collaborative endeavours and cross-disciplinary research. KMD provides a specialisation for graduate students from a variety of academic backgrounds to engage in the design, prototyping, evaluation, and use of media intended to support and enhance the ability of individuals and groups to think, communicate, learn, and create knowledge. Applicants to the program are expected to meet the admission and degree requirements of both their OSE/UT department and the KMD.

All programs of study should be planned in consultation with the program advisor in the student's OSE/UT home department and with the KMD Director. See KMD address.

VOTE: Students who successfully complete the program will have noted on their transcripts "Completed Collaborative Program in Knowledge Media Design in addition to the degree from their OSE/UT department."

Program requirements

The Collaborative Program in Knowledge Media Design offers an interdisciplinary specialisation to a regular departmental degree program. Students must satisfy the following requirements:

1. Students must meet all the requirements of their home department. The specialisation in KMD cannot be conferred if the home unit degree has not been completed.
 2. Masters students must successfully complete MD1 1, MD1 2 and two half-course electives. At least one of these half-courses must be from the MD 2 1-2 4 series. The other may be from a list of recognised departmental courses (KMD affiliate courses).
 3. Collaborative program courses taken beyond MD1 1 and MD1 2 may count towards the home department degree requirements or may be in addition to the degree requirements, depending on the participating departments' individual program regulations.
 4. Doctoral students are required to take MD1 1 and MD1 2 if not already taken in the masters program, one half-course from the MD 2 1-2 4 series, and to have a dissertation topic in the field of knowledge media design. The thesis advisor and at least one other committee member must be from participating units.
- The home graduate unit and the students' supervising committee will determine further requirements. The collaborating units cooperate in jointly developing a program that is individually tailored to meet the needs of each student.

Further information is available from:

The School of Graduate Studies Calendar
 The student's OSE/UT departmental Liaison Officer
 The KMD Collaborative Program Office

Graduate Collaborative Program in Neuroscience (FIV)

The Program in Neuroscience Post offers the M.A. and Ph.D. degree specialisation. The Collaborative Program aims to enrich the training of graduate students in neuroscience. Post sponsors, monitors, and coordinates neuroscience courses, runs a Distinguished Lecturer Series of neuroscience seminars, organises informal meetings for graduate students with invited speakers, and represents neuroscience research at the university level. Research areas are very diverse and cover most aspects of current neuroscience, including cognitive neuroscience, developmental biology, developmental neuropsychology, neural modeling, clinical neurophysiology, and physiological psychology.

Requirements

Admission to the program is open to all M.A. and Ph.D. students who are registered in the DAP Developmental Psychology and Education Program or other member departments e.g., Psychology. The student shall meet the admission requirements of both the home graduate unit and the Collaborative Program.

VOTE Students who successfully complete the program will have noted on their transcripts Completed Collaborative Program in Neuroscience in addition to the degree from their OSE/ T department.

Degree Requirements

1. The thesis topic must be in the neuroscience area.
2. The student's supervisor must be a member of the Program in Neuroscience.
3. The student must have an adequate background in general neuroscience.
4. The student must complete at least one half-course for the M.A. degree and at least one full course or equivalent for the Ph.D. degree from the list of courses approved by the Program in Neuroscience.
DP3205 Developmental Neurobiology is a half-course offered by DAP that can meet this requirement.
5. The student must attend the Annual Post Poster Day and present his/her work at least once.
6. The student must attend at least 75% of the lectures in the Post Distinguished Lecturers Series.

Students are also expected to participate in the Program through organising and participating in sports i.e., baseball team, socials, the annual symposium and other events or activities.

Further information is available from:

Interdepartmental Research Areas

Faculty in a number of departments collaborate in the development of interdepartmental research areas to facilitate program selection and planning for students who wish to pursue research interests which involve two or more OSE/ T departments. The interdepartmental research areas described herein vary in breadth, detail, and availability of courses from year to year. They are intended to serve as guides to students' program planning at OSE/ T in relation to their professional roles, interests, and long-term goals.

It must be emphasized that an interdepartmental research area does not constitute a program, and hence a student cannot enroll in an interdepartmental research area or obtain a degree in an interdepartmental research area. A student who participates in an interdepartmental research area must be enrolled in a departmental program, and must be receiving basic training in an educational discipline or disciplines. However, applicants interested in one of these areas are encouraged to specify so at the time of application within the Application Admission Forms, as well as their Statement of Intent.

Aboriginal Education

This research area draws upon the diverse cultural and spiritual philosophies and practices of Aboriginal nations. We seek to examine a diverse range of issues, trends, perspectives, and models of education from local, to national and international connections. Students focussing on Aboriginal Education will develop knowledge and skills and have a greater understanding of the needs, aspirations and knowledges of Aboriginal Inuit, Metis, mixed-race Aboriginal, non-status Indians, status Indians and Indigenous Peoples. The content and methods, and academic development and advancement of this research area are developed in collaboration with Aboriginal organizations, Elders from various communities, the Indigenous Education Network and participating departments of OSE/ T.

Aboriginal perspectives form the basis of the research area which

respects, values and draws on the lived experiences, stories and oral traditions of Elders, traditional teachers and Aboriginal educators develops understandings of Aboriginal Ways of life

builds relationships connecting local Aboriginal/ Indigenous communities with those around the world encourages scholarship in linguistic and cultural policy studies, structures of formal education for Aboriginal peoples, tuition agreement issues, and Aboriginal curriculum development in their historic and contemporary contexts

advocates making changes in educational policy and practice in Canada by examining issues related to self-determination in public education systems and current literature and research including the Report of the Royal Commission on Aboriginal Peoples examines various educational institutions, policies and practices that produce and maintain conditions of constraint, images of nativeness, social and class differences, dominance, control politics, and social inequities in regard to Aboriginal peoples. Countering stereotypes is critical to this examination develops the physical, spiritual, emotional, and intellectual wellbeing of each student grounded in Aboriginal perspectives

Courses are offered at the B.Ed., M.Ed., M.A., Ed.D., and Ph.D. levels. Faculty members supervise master's research projects, qualifying research papers, and both master's and doctoral theses.

Courses with Aboriginal focus or content are listed in associated departments [see website for details](#)

Faculty actively working in this research area are in the departments of Adult Education and Counselling Psychology AECPC Curriculum, Teaching and Learning CTL Sociology and Equity Studies in Education SESE and Theory and Policy Studies in Education TPS. Faculty include E. Antone AECPC Cummins, Sefa Dei, A. Agne, P. Olson, and Wane SESE M. Ford, Magnusson, C. Morgan and Ryan TPS.

Critical Pedagogy and Cultural Studies

This research area is concerned with how education broadly construed has fostered symbolic dominance often in conjunction with physical and material oppression, and how such injustice might be transcended by a critical pedagogy. Substantive research interests include the relevance and social construction of sexuality, gender, disability, ethnicity, race, language and class to social, educational, and communicative competencies and capacities critical ethnography analysis of cultural forms and practices of representation in writing, text, music, film, television, and youth styles the culture of the school and its communities global peace and education critical multiculturalism and anti-racism in education Aboriginal education comparative and Third World education education and the labour market the political economy of education teachers as workers studies of state formation and moral regulation ideologies issues of history, memory and pedagogies of space and time critical reformulations of humanities curricula and development of critical and reflexive teaching materials and strategies.

Faculty actively working in this research area are A. Miles, S. Moab, R. Ng, E. O'Sullivan, S. Quarter and D. Schugurensky AACP. In addition, C. Conle, J. Cummins, J. Gallagher, D. Girin-Laioie, T. Goldstein, D. Hodson, M. Hooy, R. Morgan, E. Pedretti, J. Sykes and P. Trifonas CTL. Delhi, Sefa Dei, R. Folson, M. Keller, J. Lensky, D.W. Livingstone, C.P. Olson, P. Sawchuk, R. Simon, S. Études franco-ontariennes en éducation

Le Département de curriculum, d'enseignement et d'apprentissage, en collaboration avec le Département de sociologie et d'études de l'éducation, proposent des études supérieures multidisciplinaires qui s'intitulent études franco-ontariennes en éducation et qui se donnent entièrement en français par le biais de l'éducation distance.

Des cours sur place sont également offerts. Trois cours sont obligatoires. Il s'agit des cours CTL1 Fondements de l'étude des programmes scolaires, SES19 Introduction à la sociologie de l'éducation et un cours de méthodes de recherche quantitative, CTL ou qualitative, CTL136. Il est noté que les études distance sont ouvertes également à la clientèle étudiante de Toronto. Pour de plus amples détails sur les cours, veuillez consulter les sections Department of Curriculum, Teaching and Learning et Department of Sociology and Equity Studies in Education. Les étudiants et les étudiantes doivent tenir compte des conditions d'admission en vigueur au Département de curriculum, d'enseignement et d'apprentissage ou au département où ils sont inscrits.

Four tout renseignement concernant les demandes d'admission, veuillez contacter

Gender Equity in Education

Gender Equity in Education is designed as a research area for educators who are interested in the professional applications of women's studies in schools. It is especially appropriate for students who are working teachers or otherwise professionally active as educators. Though this research area is coordinated by the Centre for Women's

Studies in Education CWSE, it involves faculty and students in a number of OSE/ T programs. Students may pursue research in this area in combination with the listed programs offered by the following departments

Sociology and Equity Studies in Education

Sociology in Education

Theory and Policy Studies in Education

Educational Administration

Higher Education

History and Philosophy of Education

The basis for this research area includes the large number of feminist scholars on the OSE/ T faculty, the availability of extensive resources on women and schooling as well as curriculum materials in the OSE/ T Education Commons Library and in the Women's Educational Resources Collection. The CWSE provides support and facilities to students in this research area.

Individual student programs of study must meet the requirements of the department in which they are registered. Students are advised to contact staff at the CWSE early in their program of study to learn more about the research area and about the support and facilities available to them through the Centre.

Examples of courses which focus on Gender Equity in Education include AEC116, AEC123 and AEC312 CTL111, CTL114, CTL433 SES191, SES193, SES192, SES2912 and SES2914 TPS143, TPS141, TPS1416, TPS1418, TPS1421, TPS1426, TPS1436, TPS1439, TPS1447, TPS341 and TPS329.

Language and Critical Pedagogy

Linguistic and cultural diversity has always characterized human societies and has played a central role in mediating power relations between dominant and subordinated groups. In the subordinated Canadian context, the suppression of the languages and cultures of First Nations and Inuit peoples, of francophone and immigrant minorities, and of the deaf has contributed substantially to social inequality. Linguistic factors also intersect in complex ways with unequal relations of gender and class.

Students who are interested in exploring how language use and language learning interact with dimensions such as class, race, ethnicity, and gender in mediating power relations within education are encouraged to consult with the following faculty members: Cummins, D. (OISE), LaPlante, J. (Labrie) and T. (Goldstein) CTL M. (Miller) SESE.

Learning and Work

This research area is devoted to pursuing critical investigations of all aspects of learning that may be relevant to work. Learning includes formal schooling and continuing education courses, but also informal self-directed and collective learning in workplace, household and community spheres. Work includes various forms of paid employment, domestic labour and community volunteer activities. Many aspects of learning-work relations are addressed: connections between early family socialization and career choices, learning and the creation of socially responsible work, economic restructuring and technological education, as well as the treatment of work in school curricula, the relevance of vocational schooling and informal learning for getting a job, the array of continuing and informal learning activities in work organizations, comparisons of the learning practices involved in housework and paid employment, systemic underemployment of learning capacities in relation to class, gender, racial, generational and disabilities, learning practices of unemployed people, and the democratization of learning and work.

Most faculty teaching in this area are associated with either the Learning, Work and Change research area in the Department of Sociology and Equity Studies in Education or the Workplace Learning and Change research area in the Department of Adult Education and Counselling Psychology as well as the Secondary Program Education and Work in the Initial Teacher Education Program. Much of the relevant research is conducted through the Centre for the Study of Education and Work (CSEW), which is jointly sponsored by these departments.

Faculty associated with this research area include M. Lai (OISE), Mirchandani, S. (Moab), R. (Gang) (OISE), Quarter (AECPS), Acers, (OISE), Langer, (OISE), Dehli, (OISE), Sefa Dei, Margrit Eichler, R. (OISE), Folson, D. Livingstone, P. Olson, P. Sawchuk, W. Seccombe, (OISE), Wane and T. (OISE) SESE

The Nature and Development of Literacy

Literacy is a term that denotes forms of competence and sociocultural cognitive and linguistic relations important in understanding and participating in the notational systems of modern society. This research area is concerned with the forms of thinking and the forms of social action that literacy makes possible, and that make literacy possible, in school and societal settings.

Research interests pursued within this area include literacy, language and learning literacy and the structure of competence literacy and knowledge-building literacy and political formations the development of oral language proficiency and its relation to literacy development in monolingual and multicultural/multiethnic contexts assessment of literacy the social contexts of adult literacy culture, context, and second-language learning literature and literacy literate computer environments literacy and gender social literacies the sociocultural organization of literacy events and critical literacy. Students are encouraged to refer to program requirements in their home department.

Faculty involved in teaching and research on literacy include E. Antone, J. Acson and D. Schugurensky AECP J. Allen, D. Booth, L. Cameron, A. Cumming, J. Cummins, M. Cooy, J. Labrie, J. Mason, R. Morgan, S. Peterson, M. Scardamalia and P. Trifonas CTL C. Creiter, E. Eeva, and D.M. Willows DAP J. Langer and M. Miller SESE J.

Further information is available from:

J. Acson AECP, A. Cumming CTL or E. Eeva DAP and M. Miller TPS J.

Transformative Learning

The Transformative Learning interdepartmental research area involves faculty and students from OSE/UT departments who are taking an interdisciplinary approach to global ecological and social issues as they relate to education. In both master's and doctoral programs students can specialize in global issues while also registered in one of the following departments

**Adult Education* and Counselling Psychology
Curriculum Teaching and Learning
Sociology and Equity Studies in Education
Theory and Policy Studies in Education**

This research area is grounded in the assumption that the pressing global concerns of today cannot be understood through a conventional paradigm or through a single disciplinary approach. It integrates such areas as ecology,

peace studies, anti-racist education, social justice issues, development studies, indigenous knowledge, native studies, religious studies, world-views and ways of life, social economy, theory of democracy, adult education and social change, participatory research, popular education, feminism, reproductive technologies, alternative futures, international migration, multiculturalism, popular culture, and family change.

Through the research area its members have links with the International Institute for Global Education, the Faculty of Environmental Studies at York University, the Nicaraguan Institute of Popular Education and Research (IES), the Global Education Project of the Ontario Teachers Federation, and a variety of community-based organizations.

Faculty involved in the Transformative Learning research area include J. Burstow, A. Goodman, A.R. Miles, S. Moab, R. G. Quarter and J. Sumner AECP J. Miller, and R. J. Simon CTL J. Sefa Dei, M. Eichler, D. Livingstone, J. J. Wane SESE and M. Miller TPS J.

Courses which focus on the Transformative Learning research area include AEC1131, AEC1143, AEC1146, AEC1148 and AEC3119 CTL111, CTL127, SES19 J, SES193, SES199, SES192, SES1921, SES1922, SES1924, and SES2914 TPS14 J, TPS142 J, TPS1422, TPS1428, TPS1429, TPS1436, TPS1447, TPS4323, and TPS3428.

Women's Studies/Feminist Studies

Women's Studies/Feminist Studies at OSE/UT involves faculty and students from a number of departments who share interests in this large and growing field of scholarship, activism, and research. Women's Studies/Feminist Studies faculty in these departments may be consulted in the design of individualized programs of study.

Programs of study include courses at OSE/UT and at other departments of the university in the areas of women's/feminist studies, gender relations, and sex differences and similarities. The bases for this research area include the large number of feminist scholars on the OSE/UT faculty, a variety of research projects, the many students working in the area, the Women's Educational Resource Collection, and the Centre for Women's Studies in Education (CWSE), which has a strong and active research program. Where required, doctoral students take comprehensive examinations planned by Women's Studies/Feminist Studies representatives of the home department to meet the degree requirements of the department and of the research area.

VOTE There is also the Gender Equity in Education interdepartmental research area which is coordinated by the Centre for Women's Studies in Education (CWSE). See page 18.

Faculty who are participants in the Women's Studies/Feminist Studies interdepartmental research area include: Jasell Dean, Kirsten, A. Cole, A. Goodman, Jackson, M. Lai, A.R. Miles, S. Mirchandani, S. Moab, Mundy, R. Ng, Piran, L. Stermac and M.S. Schneider (AECPC). In addition, L. Cameron, Gallagher, D. Green-LaOie, T. Goldstein, M. Kieswandt, S. Peterson, E. Smyth and S. Sykes (CTL). S. Acers, S. Dehli, R. Folson, M. Eichler, S. Eames, S. Lensky, S. Racine, D.A. Trotter and S. Wane (SESE). S. Ascia, M. Coler, D. Doyd, M. Ford, R. Goshee, L. Magnusson, C. Morgan and L. Muir (TPS).

Students are advised to contact the Centre for Women's Studies in Education (CWSE), early in their program of study to learn more about this research area and about the support and facilities available to them through the Centre. A complete list of courses taught by feminist faculty and courses taught with a pro-feminist perspective is provided in a handbook available from the Centre for Women's Studies in Education (CWSE) Website.

Research and Field Activities

The research and development program of OISE/UT fosters improvement in Ontario education and complements the academic programs of OISE/UT departments. OISE/UT's research and development program is among the largest in education in the world. Most faculty spend a significant portion of their time on research and development projects. Students may participate in research and development projects through graduate assistantships or through joint research designed as a portion of their graduate program.

Findings of completed studies are often published by OISE/UT or by the sponsoring agency, or appear in journals produced by OISE/UT *Curriculum Inquiry*, *Or, it, Resources for Feminist Research/Documentation sur la recherche féministe*, in international journals or in other publications. OISE/UT Research Reports can be found in the OISE/UT Education Commons Library.

Research and Development Centres

The departments noted in each of the following descriptions currently offer graduate studies programs which are congruent with the research and development work of centre faculty who hold major appointments in the departments concerned. For more information about the work of any of the centres and related courses, please contact the respective centre.

Centre for Applied Indigenous Science (CAIS)

Head: Michel Ferrari
 Department: DAP
 Location: 22loor Street West, Room 9-132
 Telephone: 416-923-6641 ext. 2 66

Through a number of research and development projects, the CACS explores cognitive structures and cognitive processes in a variety of content domains. CACS is characterized by attempts to integrate contributions from a number of fields (e.g., psychology, linguistics, philosophy, and computer science) into the study of human development and education. CACS is also involved in the development of instructional approaches based on cognitive theory and computer technology.

The Centre hosts a number of regular research seminars and group meetings devoted to particular topics in which students are invited to participate. It is home to principal investigators in a number of large-scale inter-related

research programs, including the National Centre of Excellence Program on Telelearning, the University of Toronto's Knowledge Media Design Institute and the University of Toronto Joint Centre for Bioethics.

Centre for Franco Ontarian Studies (CFOS)

Head: Diane Farmer
 Department: SESE
 Location: 22loor Street West, Room 6-1 4
 Telephone: 416-923-6641 ext. 312
 Fax: 416-926-4714
 E-mail: dfarmer@oise.utoronto.ca
 Website: www.oise.utoronto.ca/CREFO/

CREFO is defined as an interdisciplinary research centre dedicated to the study of the social and linguistic practices of Francophones in a minority setting, with an emphasis on the processes that create social differentiation and inequity. Centre research focuses on linguistic plurality and language mix, multilingual language repertoires, the construction of social identity and the processes of social inclusion and exclusion. CREFO activities are based on a recognition of diversity, whether it be that of Francophone communities within an English-dominant society, or the diversity within the Francophone community itself due to ethnocultural background, social class, gender or sexual orientation.

As proactive participants in the social processes that affect the entire Francophone community, we believe that our objective must be to develop knowledge and understanding that have a solid base in reality and are relevant to the development of Francophone communities. Given the minority context in which we work, CREFO staff naturally take an interdisciplinary perspective in their studies of the relationships between language, culture and society on the one hand, and between education and training on the other. Our multi-faceted research program in fact covers a wide variety of education and training issues, from school-based programs to adult literacy and workplace training, including the transition from school to work.

Centre de recherches en éducation franco-ontarienne (CREFO)

Directrice Diane Farmer
 Département SESE
 Téléphone 416-923-6641 poste 312
 Télécopieur 416-926-4714
 Courriel électronique dfarmer@oise.utoronto.ca
 Lieu 22 rueloor Ouest, 6-14
 Site internet www.oise.utoronto.ca/CREFO/

Le CREFO est un centre de recherche interdisciplinaire, où l'on étudie les pratiques sociales et les pratiques langagières des francophones vivant en milieu minoritaire, en mettant l'accent sur les processus de construction des différences et des inégalités sociales. On s'intéresse au phénomène du pluralisme et de la mixité linguistique, aux pratiques plurilingues, à la construction identitaire et aux processus sociaux d'inclusion et d'exclusion. Les activités du CREFO favorisent la reconnaissance de la diversité, que ce soit celle apportée par les communautés francophones dans une société anglo-dominante, ou celle existant au sein même des communautés francophones, en fonction de l'origine ethnoculturelle, en fonction des classes sociales, en fonction du sexe ou de l'orientation sexuelle.

En tant qu'acteurs engagés dans des processus sociaux affectant l'ensemble de la collectivité, nous avons pour objectif de générer des savoirs ancrés dans la réalité et qui soient pertinents pour le développement des communautés francophones. Compte tenu du contexte minoritaire dans lequel on œuvre, il va de soi que les membres du centre favorisent une perspective interdisciplinaire pour l'étude des rapports entre la langue, la culture et la société, d'une part, et l'éducation et la formation, d'autre part. Nos recherches couvrent en effet de multiples facettes de l'éducation et de la formation allant du monde scolaire, l'alphabétisme des adultes et la formation en milieu professionnel, en passant par la transition du monde scolaire au monde du travail.

Centre for Integrative Anti-Racism Studies (CIARS)

Head Roxana G
 Department SESE
 Location 22loor Street West, Room 12-272
 Telephone 416-923-6641 ext. 2233
 E-mail ciars@oise.utoronto.ca

CIARS was established in the 1996-97 session, bringing together faculty and students whose research interests and political commitments are in anti-racism. The Centre provides a supportive research environment, linking communities of colour, marginalized communities, and the university. The mandate of CIARS, namely the fostering of interdisciplinary anti-racism studies in education, embraces a broad view of education. In CIARS view, education is defined as those processes that influence and

contribute to how individuals and their communities come to know the world and act within it. CIARS faculty and students working in the field of anti-racism are deeply committed to an integrative view: all systems of oppression are interlocked and a study of one such system, racism, necessarily entails a study of class exploitation, sexism, ableism and heterosexism. Recent research by associated faculty includes work on schooling and education, for example, research on inclusive schooling practices, and drawing from resources of the home, family and community in improving youth educational activities. In addition, CIARS core faculty interests include research on the judicial system, immigration, unions, community development, community-state relations and globalization and its effects on communities of colour.

Centre for Media and Culture in Education (CMCE)

Head Roger Simon
 Coordinator Diana Thorne
 Department SESE
 Location Room 12-216
 Telephone 416-923-6641 ext 227
 Website fcis.oise.utoronto.ca/cmce

Through critical inquiry and debate the Centre sees to foster innovative and interdisciplinary study of audio-visual cultural practices. Media and popular culture are often seen to pose one question for educators: how do we inoculate young people against their negative effects? Recent work in visual and cultural studies has put forward different ways of thinking about audio-visual representation, theorizing more complex relations between viewers and images, and expanding beyond mass media to consider the pedagogies of independent video and film, digitally-based new media, and media art.

The Centre provides access to a range of independent visual and media art productions through programs of screening, lectures, workshops and other events. We encourage connections and collaborations among educators and students, artists and cultural producers, curators and critics, and various engaged publics. The Centre conducts and coordinates critical and interdisciplinary research. We support curriculum and resource development, and have established an Artist-in-residence program for a media artist-in-residence at OISE/UT.

OISE/UT faculty and instructors affiliated with CMCE: Ari Dehli, Rose Folson, Robert Morgan, Roger Simon, Peter Trifonas, Margaret Wells, and Rinaldo Walcott.

Centre for Studies in Science, Mathematics and Technology Education

Head Erminia Pedretti
 Department CTL
 Location 2200 Street West, Room 11-2 ☎
 Telephone 416-923-6641 ext. 263
 E-mail epedretti@oise.utoronto.ca
 Website smt.oise.utoronto.ca

The Centre for Studies in Science, Mathematics and Technology Education provides major opportunities for faculty members, graduate students and others to engage in collaborative research and curriculum development.

The diverse activities of the Centre are intended to have immediate and significant impact on science, mathematics and technology curriculum practice both in Ontario and throughout Canada. In furthering its commitment to being a significant voice in international debate on science, mathematics and technology education, the Centre has undertaken a major publishing function including publication of the *Canadian Journal of Science, Mathematics and Technology Education* and *The OISE Papers in STSE Education* and has developed collaborative research projects with several groups outside Canada, notably in Hong Kong, New Zealand and the United Kingdom.

Centre for the Study of Education and Work (CSEW)

Head Peter Sawchu
 Coordinator D Arcy Martin
 Department SESE
 Location 2200 Street West, Room 12-23
 Telephone 416-923-6641 ext. 273
 E-mail dlivingstone@oise.utoronto.ca

The CSEW mandate is to expand scholarly and public awareness of the different forms of learning and work and their interrelations. The centre conducts research, policy studies and public forums to document relations between informal learning/schooling/further education and paid/unpaid work, identify major social barriers to integrating learning and work, and support new initiatives to overcome these barriers. Much of the research emphasizes the standpoint of workers as learners.

This centre is jointly sponsored by the Department of Adult Education and Counselling Psychology and the Department of Sociology and Equity Studies in Education. Faculty members involved with CSEW are listed with the Learning and Work Interdepartmental Research Area on page 181.

Centre for Teacher Development

Head Jac Miller
 Department CTL
 Location 2200 Street West, Room 1-12
 Telephone 416-923-6641 ext. 2633

The Centre for Teacher Development fosters and conducts research and development projects relevant to the personal, collaborative, and organizational experiences of teachers throughout their careers. Faculty interests include teacher development and inservice teacher education, new teacher induction and mentoring teachers' lives and careers professional and teacher knowledge holistic approaches to teaching and teacher development socially constructed learning improving classroom practice equity and gender issues women in education and multiculturalism. In addition, the Centre is committed to a wide range of research approaches including narrative inquiry, action research arts-based inquiry and other traditions of qualitative and quantitative research.

The Centre for Urban Schooling

Academic Director Kathleen Allagher
 Executive Director Jeff Uglar
 Department CTL
 Location 2200 Street West, Room 1-112
 Telephone 416-923-6641 ext. 284
 Website www.cus.oise.utoronto.ca

The Centre for Urban Schooling is a new Centre in the Department of Curriculum Teaching and Learning. The Centre has its focus on supporting inner city students, teachers, schools and communities. The philosophy of the Centre is one based on the notion that work in the inner city must be guided by a social justice and equity seeing perspective.

The Centre is currently involved in a number of partnerships with school boards such as The Inner City Model Schools initiative of the Toronto District School Board (TDSB). We are also currently in a partnership with the TDSB, the RDS and the Literacy and Numeracy Secretariat researching 20 successful schools operating in Challenging Circumstances. The Centre is helping to organize a national inner city conference in April 2007. At OISE/UT the Centre has initiated a process leading to the setting up of an inner city cohort for pre-service students.

Centre for Women's Studies In Education (CWSE)

Head Paula Bourne
 Location 22loor Street West, Room 2-23
 Telephone 416-923-6641 ext. 2368
 E-mail pbourne@oise.utoronto.ca
 Website www.oise.utoronto.ca/cwse

The Centre conducts, promotes, and distributes research in women's studies, and hosts an international human rights institute, Women's Human Rights Building a Peaceful World in an Era of Globalization. Recent and current projects include the Women's Educational Resources Collection the periodical *Resources for Feminist Research/ Documentation sur la recherche féministe* English-Language Education Expert Panel of the Ontario Government's Domestic Violence Action Plan Anti-Globalization and the Global Feminist Movement Women and Non-Traditional Skilled Trades Growing up Jewish, Female and Canadian A Longitudinal Study of Girls Aged 1 - 18 Canadian Women's History Sexual Harassment Resources for Elementary Schools A Feminist Critique of Schooling Redesigning Professional Education for Gender Equitable Schooling Women and Professional Education, Professional Women Historians in Canada, Canadian Women's Issues, Educational Campaign to Combat Date and Acquaintance Rape on College and University Campuses, Training Packages on Violence for Elementary Teachers Achieving Curriculum Consistency The Case of Family Studies in Ontario Secondary Schools. Information on all projects is available at the Centre.

The holder of the annual Dame Rita Arrow Distinguished Visitorship in Women in Development and Community Transformation is housed at the Centre. The CWSE also welcomes visiting scholars and educators who are working in women's studies and consults with educators outside OISE/UT in this and related areas. Speaker series, including the Popular Feminism lecture series, feature speakers from inside and outside OISE/UT, and brown-bag seminars feature visiting scholars, OISE/UT students and researchers working in progress. The Centre's annual newsletter provides information about activities of interest within and outside OISE/UT.

A complete list of OISE/UT's feminist courses is available from the Centre Website, as is a list of CWSE publications. For further information regarding graduate studies in the area, see Gender Equity in Education page 18 and Women's Studies/Feminist Studies page 12 in the Interdepartmental Research Areas section and Feminist Studies and Gender Relations in Education in the Department of Sociology and Equity Studies in Education page 12.

Comparative International and Development Education Centre (CIDEC)

Director Karen Mundy
 Department AECF
 Location 22loor Street West, Room 7-19
 Telephone 416-923-6641, ext. 234
 E-mail kide@oise.utoronto.ca
 Website kide.oise.utoronto.ca

Academic coordination of the interdepartmental CIDE Collaborative Program is provided by the Comparative, International and Development Education Centre, which is housed on the 7th floor in the AECF department. The centre is staffed by an administrative officer and boasts a state of the art smart room, research lab and resource centre. CIDE administers a wide variety of research and development projects. It also provides a gathering place to connect students and faculty with comparative and international education interests throughout OISE/UT via a seminar series, an electronic list serve, electronic newsletters, Website and research projects.

The IN NGWN Aidlaw Centre (IC)

Director Wang Lee
 Department DAP
 Location 4 Walmer Road CS
 Telephone 416-934-497
 Website www.oise.utoronto.ca/ics/

The Centre is dedicated to the support of applied multidisciplinary research in child development. Current research themes are aimed at understanding children and innovative programs to support their education and development. One thematic area is literacy, numeracy and science instruction, with supports for understanding through new technology. A second thematic area is early childhood development and integrated community-school supports for children and families. Particular studies within the first theme include metacognitive language and literacy development, vocabulary assessment and instruction, math and science instruction, and technology-supported knowledge building in school communities.

Studies in the second theme include children's school readiness and schools' readiness for diverse families, exemplary kindergarten practice, the integration of special needs students, the prevention of unintentional injury, and integrated community-school services to support young children and parents, including populations at risk. Research facilities and secretarial assistance are provided through the Centre. Research is also supported by collaboration among faculty, graduate students, and Laboratory School teachers and by community partner schools. The application of research to practice is fostered by links between research in the Laidlaw Centre and the combined research and professional training in the M.A. in Child Study and Education program, based on a teacher-researcher model.

Institute for Knowledge Innovation and Technology (IKIT)

Head Marlene Scardamalia
 Department CTL
 Location 9-13
 Telephone 416-923-6641 ext 2264
 Website www.ikit.org

The goal of this centre is to advance simultaneously the state of the art in education and knowledge creation by using and developing leading-edge work in the learning and knowledge sciences. It conducts research, develops technology, and helps build communities to advance beyond best practice in education and knowledge work, using new theories of knowledge and expertise to address the challenges of education for a knowledge Age. On this basis, it has developed a knowledge-building pedagogy that puts ideas at the centre and that moves problem-based learning to a new level. An international community from a variety of sectors is actively engaged in pooling intellectual resources and participating in its worldwide Knowledge Society network.

Modern Language Centre

Head Alister Cumming
 Administrative Assistant Michelle Pon
 Department CTL
 Location 222loor Street West, Room 1-244
 Telephone 416-923-6641 ext. 262
 Website www.oise.utoronto.ca/MLC/

The Centre is currently undertaking a number of formal research and development projects, including work related to second-language curriculum, materials development and evaluation, second-language teaching and learning, literacy in academic contexts, language policy, ESL teacher development, multiliteracies and multimedia in language learning, immigrant settlement and heritage language issues. The Centre's resource collection on second-language pedagogy, theory and research is located on the main floor of the OISE/UT Education Commons.

Transformative Learning Centre (TLC)

Head Daniel Schugurensky
 Department AECPC
 Location 222loor Street West, Room 7-119
 Telephone 416-923-6641 Ext. 219
 E-mail tlcentre@oise.utoronto.ca
 Website www.tlcentre.org

The Transformative Learning Centre (TLC) is a unique interdisciplinary centre for the study and practice of transformative learning in adult and community education contexts. It looks at ways of combining inter-disciplinary practices, new knowledges, and alternative strategies for local and global change. Faculty interests include the transformation of contemporary educational and social

paradigms the role of learning in local and global change and university and community partnerships in research and field development. Transformative learning is a process of learning, whether formal, non-formal or informal which begins with the daily experiences of women and men living in communities. Transformative learning relates personal and structural perspectives and sees understanding of relationships of power and knowledge. Learning implies dynamic, lifelong processes of discovering and re-discovering what we know about nature, and how we teach and learn from one another within our different environments. Ball and Sullivan, 1994

Objectives

- 1 to strengthen the theory and practice of transformative learning in the fields of Adult Education and Environmental Learning
- 2 to foster joint community-university partnerships in adult education research and field development
- 3 to support preservice and graduate instruction in Environmental Adult and Community Education
- 4 to provide a means for faculty and student participation in specific national and international policy networks requiring membership from a joint community-university base to provide opportunities for student research and involvement in community-based settings both locally and internationally

Field Development Activities

The purpose of OISE/UT's field development activities is to stimulate and facilitate beneficial change in education in Ontario, particularly to schools.

Because of their geographical location and their close association with the schools in their region, the Field Centres provide the main focus of OISE/UT's field development effort. However, OISE/UT as a whole is committed to field development work, and many of its academic departments are heavily involved. Field centres in turn make an important contribution to graduate studies by teaching distance education and off-campus courses, and to research and development through local research projects.

The activities of the Field Centres are determined collaboratively by centre staff and regional representatives, taking into account regional contexts and special needs as well as the individual expertise of the centre staff. Each centre has a small staff, generally not more than one or two people. There are consequently constraints on the assistance which the staff can offer, and they prefer activities that will have widespread influence in their regions. Some examples of field centre activities are given in the descriptions of individual centres below.

Field Centres

The following is a brief description of the three OISE/UT Field Centres. The departments listed with each centre currently offer off-campus courses in that region. For more information on OISE/UT courses, both off- and on-campus, contact the centre in your area.

Wayne Seller

Coordinator, Technology-Mediated and Off-Campus Programs

Thunder Bay Northwestern Centre

Telephone ☎ 7-47 -811

Fax ☎ 7-47 -8149

E-mail wseller@oise.utoronto.ca

Website www.oise.utoronto.ca/field-centres

Midwestern Centre

1 Ardelet Avenue
Kitchener, Ontario N2C 2R8

Head Lynne Annay

Contact Michelle Ran

Telephone ☎ 19-79-7837

Fax ☎ 19-79-837

The Midwestern Centre focuses on the processes involved in educational change for individuals, for schools, and for school districts. In particular, we are interested in the processes of reconstructing professional knowledge, evidence-based change, action research, and developing knowledge creating schools and school districts. We are pursuing these interests through research, field development projects, and graduate, Additional Qualification, and credit and not-credit short courses. All of our activities are done in full collaboration with our partners in educational settings as we are dedicated to promoting, generating, and enacting authentic school-university collaboration.

Northwestern Centre

Northwoods Foods R.P.O., Box 2027

Thunder Bay, Ontario P7E 6P2

Head Wayne Seller

Contact Margaret Perry

Telephone ☎ 7-47 -811

Fax ☎ 7-47 -8149

The Northwestern Centre focuses on assisting schools and school systems in understanding, planning and implementing change. By conducting research and field development projects with local practitioners, Centre faculty help to ensure that initiatives such as site based management, school councils, and new curriculum policy and programs are implemented in a manner consistent with the context and culture of the local jurisdictions.

Through its partnership with the Leamington District School Board and other local school districts, the Centre's work focuses on the development of leadership at the school and district levels through Additional Qualifications courses and professional development programs. Centre faculty teach Curriculum courses via computer conferencing.

Trent Valley Centre

1994 Fisher Drive

Peterborough, Ontario N9B 6G6

Head John Ross

Contact Carolyn Rioux

Telephone ☎ 7-742-9773 ext. 2293

Fax ☎ 7-742-114

The Trent Valley Centre specializes in curriculum processes. Special attention is given to the enhancement of students' ability to learn from peers, professional development programs for teachers and other educators, and the use of evaluation to strengthen programs and improve student achievement. The Centre offers on-line courses in Curriculum, Teaching and Learning. These courses focus on the application of research and theory to practical issues facing teachers and schools.

Hees

To be officially registered, tuition fees must be paid. Hees are subject to change by the Government Council of the University of Toronto.

Academic Hees Structure

Because the course of study in many graduate departments is unstructured and often cannot be described in terms of a specific number of courses, and because graduate education more often than not results from the sum of experiences encountered during the program, graduate School fees are assessed on a program basis rather than on the number of courses taken. The fee charged for the Fall and Winter Sessions also covers the Summer Session immediately following, except for part-time Special Students and for certain degree students.

All academic programs specify a minimum period of registration in order to qualify for the degree. For master's degree students, the minimum period of registration is stated on the student's Offer of Admission. This period establishes the minimum degree fee which must be paid before graduation.

Full-time master's students, once they are past the "minimum period of registration" or have begun their last required course (whichever comes first) must continue to register on a full-time basis and pay the full-time fee until all degree requirements have been completed.

M.Ed. students registered in Option are exempt from the above requirement.

Master's students proceeding to their degree on a part-time basis register in those sessions in which they are completing course requirements for the degree. Once they have begun their last required course, these students must register annually and pay the part-time fee until all other requirements have been completed.

Master's candidates must, in the session in which they complete degree requirements, pay additional fees if necessary such that in total their fees equal the minimum degree fees applicable.

VOTE If students pay more than the minimum degree fee, because of the time taken to complete degree requirements, they will not be entitled to/issued any refund of those fees.

Degree Hees

The length of the program into which students are admitted predetermines the minimum total Academic Fee that they must pay prior to graduation. This fee is called the Degree Fee.

At the time of graduation, the cumulative program fees paid by a master's student are calculated and, if the total is less than the Degree Fee, the student must pay the difference. This additional fee is most commonly charged to part-time degree students who take a heavy course load during the Fall and Winter Sessions and/or who take courses in the Summer Session. The additional fee is also most commonly charged to full-time students who accelerate their programs and finish the degree requirements in less time than the normal program length.

Calculation of Hees

At the time of publication of this *Bulletin* the fees schedule for 2006/2007 is not available. In the 2005/2006 academic year, the **one year full time** Academic Fee was as follows:

Canadian Citizens and Permanent Residents

M.A. Ph.D.	6,442.
M.Ed., M.A. T. M.T.	6,737.
M.A. Child Study and Education	6,737.
Ed.D.	6,364.

International Students

M.A. Ph.D.	12,000.
M.Ed., M.A. T., M.T., M.A. CSE	16,000.
Ed.D.	16,000.

For planning purposes, the calculation of fees applicable to each program is as follows:

VOTE In addition to Academic Hees, students are also required to pay Incidental Hees.

EdN Degree Candidates

The minimum program fee is 1.5 times the one-year full-time Academic Fee and is assessed for the academic year in which the program is begun.

VOTE Fees for students beginning their program in the Summer Session are based on the fees for the Fall/Winter Session immediately following that summer.

Master's and Non-degree candidates

Six or eight half course program

the minimum program fee is equivalent to the one-year full-time Academic Fee.

Ten half course program

the minimum program fee is equivalent to 1.5 times the one-year full-time Academic Fee.

Twelve to sixteen half course program

the minimum program fee is equivalent to 2 times the one-year full-time Academic Fee.

EdD Non-degree candidates

Fees will be assessed according to the pattern of registration. However, the full-time fee is charged for the minimum period of required full-time study and for subsequent registrations.

PhD Non-degree candidates

The full-time fee is charged each year throughout the program, except for students in the flexible-time Ph.D. program, who will pay the part-time fee during their years of part-time registration.

Fees for Final Year Doctoral Students

Academic fees for the final year for Ed.D. and Ph.D. students will be prorated, based on a 12-month academic year, for the number of months that elapse between September and including the month in which the final thesis including corrections required by the final oral examination committee is submitted to the School of Graduate Studies. Fees for the final month will not be charged if the requirements are met before the 16th day of the month.

VOTE Flexible-time Ph.D. students are not eligible for the pro-rated fee.

Summer Students

Students beginning their degree program in the summer pay the Summer Session fee. This fee will be in addition to the Fall and Winter Session fees charged in September.

VOTE Students in the following programs of study who are fulfilling the minimum period of full-time study during the Summer Session (May - August) will be assessed fees equal to half of the one-year full-time fee.

The **EdD in Higher Education** in the Higher Education Program

The **EdD for Community College Leaders** in the Higher Education Program

Special Students

Full-time Special Students pay annually the one-year full-time Academic Fee plus incidental Fees.

Part-time Special Students pay the Academic Fee for each half-course, plus incidental Fees. In the 2012/13 academic year the Academic Fee for a half-course was \$1,174 for International Students, \$2,179 for

International Student Fees

In accordance with the recommendations of the Ontario government, students who are not Canadian Citizens or Permanent Residents will be charged the higher fee unless exempt on the basis of their status in Canada. For detailed information on status contact Canadian immigration authorities. All prospective International Students will be required to have a student authorization from a Canadian immigration Office abroad, before they present themselves for admission to Canada. No visitor will be allowed to apply for student status from within Canada. In order to obtain a student authorization for study in Toronto, immigration officials abroad require that applicants provide evidence of sufficient financial resources to support themselves during the period of study.

Estimated cost of maintenance for twelve months is between \$14,000 and \$18,000 plus tuition fees for a minimum total of approximately \$31,000.

The University Health Insurance Plan (UHIP) is a compulsory non-Academic Fee for international students. In 2012/13 the cost for twelve months was \$2,000 for a single student, \$1,000 for a family of two, and \$1,500 for a family of three or more.

Further information is available from:

The UHIP Office

Telephone 416-978-2929

Website www.uhip.mercer.ca

Late Payment Fees

A late payment fee of \$44 plus \$5 for each day of delay will be assessed against any student enrolled in Fall and Winter Session courses but whose fees are not received at the Office of Student Accounts by the dates to be announced in the registration material which will be sent to students.

Minimum Payment

The minimum payment of fees for other than those registering for only one session consists of 60% of the Academic Fee and 100% of incidental Fees. The due date for minimum payment will be announced in the registration material sent to students in July. The balance of the required fees is due without further notice and is subject to a service charge.

Refund of Fees

Refund of fees, if any, will be determined by the date of receipt of a written notice of withdrawal in the Office of Registrar s Office, Graduate Studies Registration Unit. There is a minimum charge for withdrawals on or after the published date for the first day of classes in the Fall and Winter Sessions. In the 2016/2017 academic year the minimum charge was \$173.

Service Charges

All outstanding fees, regardless of the source of payment, are subject to a service charge first assessed on November 1. In the 2016/2017 academic year the service charge was \$1.00 per month, compounded.

Fees/Convocation

Degree requirements for all students must be completed and fees must be paid before the appropriate dates for eligibility to convocate. Transcripts will not be issued if students have not paid in full, university housing dues, library fines, bookstore debts, or health service charges, etc., see Outstanding Fees and Other University Obligations, below. At the time of convocation such students will, however, be allowed to participate in the ceremony and have their names appear on the convocation program.

M.Ed. and M.A. students must indicate their intent to graduate on ROS.

Outstanding Fees and Other University Obligations

The following academic sanctions will be imposed on students who have outstanding financial obligations to the Office of Registrar s Office and the university including fees, residence charges, library fines, loans, bookstore debts, health service accounts and unreturned or damaged instruments, materials, and equipment

Statements of results and/or official transcripts of record will not be issued.

Payments made by continuing or returning students shall be applied first, to outstanding Office of Registrar s Office and university debts and second, to current fees. Thus, registration may be refused to a continuing or returning student.

Financial Support

Notices pertaining to awards, other than those listed here, are posted outside the OISE/UT Registrar's Office, Graduate Studies, 4th floor and on the Student Services Website at www.oise.utoronto.ca/student-services. In addition, a Graduate Awards Database system is available at the School of Graduate Studies, 63 St. George Street, or at Robarts Library, 4 St. George Street.

Unless stated otherwise, all values listed in this section relate to the 2012/13 academic year.

OISE/UT Graduate Assistantships

To support programs of full-time graduate study, OISE/UT offers financial assistance in the form of Graduate Assistantships having a work requirement involving educational research. Graduate Assistantships are remuneration for full-time graduate students who are engaged in research- and/or field-development-oriented projects contributing to their academic and professional development. OISE/UT is committed to principles of equity in employment and particularly encourages applications from women, Aboriginal persons, racial minorities, and persons with disabilities.

It is important to note that an OISE/UT Graduate Assistantship is for the specified amount and does not cover payment of fees. Payment of fees is the responsibility of the student who should be in a financial position to fulfill this obligation at the beginning of the academic year.

Graduate Assistants at OISE/UT are represented by Canadian Union of Public Employees, Local 397
222loor Street West, Room 114
Telephone 416-926-4726

Applications will be considered on the basis of the applicant's ability to assist in research and/or field development activities. Departmental recruitment needs and seniority in the bargaining unit will be considered on an equal basis. All new applicants to a full-time degree program are eligible to apply.

Current students continuing in the same degree program should refer to the information on the application form regarding eligibility requirements. From September 2011 to April 2016, a Graduate Assistantship had a value of \$11,260 plus 4 weeks vacation pay. The value of the assistantship is determined each year.

Applicants to those programs supported by the Guaranteed Minimum Funding need not apply for a Graduate Assistantship. Students receiving the Guaranteed Funding will be offered a Graduate Assistantship upon admission and in each year that they are eligible to hold the Funding Package. Please refer to the following section for information regarding the Graduate Funding Package.

Applications are available from
www.oise.utoronto.ca/student-services/financialinfo/gradasst.php

Applicants to a non-guaranteed funded degree program must submit two copies of their completed Graduate Assistantship application with their application for admission to the Registrar's Office by December 1, 2016.

Students continuing in a non-guaranteed funded degree program must submit two copies of their completed Graduate Assistantship application to the Student Services Office, 4th floor, OISE/UT by December 1, 2016.

OISE/UT Graduate Student Guaranteed Funding Package

OISE/UT will provide a funding package to registered students for the first year of full-time M.A. study (excluding the M.A. in Child Study and Education and the Master of Teaching programs) and for the first four years of study in the Ph.D. program (excluding the Flexible-time Ph.D.).

The funding package valued at \$12,000 plus the cost of tuition and incidental fees, and in the case of international students, single coverage Private University Health Insurance Plan, and is guaranteed subject to the conditions of the Funding Package.

It is the student's responsibility to ensure that they are fully aware of the conditions and procedures pertaining to the Guaranteed Funding Package. Complete details regarding these conditions and procedures, including those of the mandatory work component, can be found on the Student Services website at
www.oise.utoronto.ca/student-services/financialinfo/minfund.php

VOTE Students in years one and two of the M.A. in the School and Clinical Child Psychology (SCCP) program in the Department of Human Development and Applied Psychology may receive guaranteed funding for both years of the M.A., but are then eligible for guaranteed funding in years one to three only of their Ph.D. programs.

Financial Support

VOTE Students receiving the O SE/ T guaranteed Funding Package are required to fulfill a mandatory work requirement.

Admission applicants are strongly encouraged to apply for the Ontario Graduate Scholarship O S and the Social Sciences and Humanities Research Council of Canada SSHRC scholarships as eligible simultaneously with their applications. Please refer to the section below for further details on these awards.

OISE/UT Scholarship for Aboriginal Students

The scholarship, with a value of \$12,000, will be awarded annually to an Aboriginal student who will be registered on a full-time basis in a graduate degree program at O SE/ T. Aboriginal candidates include, but are not limited to, Status Indian, Non-Status Indian, Aboriginal Members of First Nations, or Métis who are new applicants to a graduate degree program or current students continuing in the same degree program are eligible to apply. The recipient will be selected on the basis of academic merit and previous and intended contribution to his/her community. Preference will be given to new applicants to a graduate degree program.

Application forms are available from
www.oise.utoronto.ca/student-services

OISE/UT Student Services Office
22loor Street West, 8th floor, Room 822
Toronto, Ontario M5S 1G6
Telephone 416-923-6641 ext. 817
Fax 416-926-476

E-mail stuserv@oise.utoronto.ca

Application deadline is December 1. Payment of fees is the responsibility of the scholarship holder.

Margaret Ingham Scholarship

The Ontario Institute for Studies in Education now O SE/ T established the Margaret Ingham Fund in memory of the Institute's first Registrar. The fund is intended primarily for persons over thirty-five years of age who are residents of Canada and who are returning to continue their studies after being out of the workforce for a number of years. The fellowship has a value equivalent to the annual income to a maximum of \$5,000. Funds will be available to both full-time and part-time students. Criteria for the award will be firstly, demonstrated potential and promise of service to the educational community and, secondly, financial need. A statement pertaining to past contribution to education must accompany the application.

Application forms are available from

O SE/ T Student Services Office
22loor Street West, 8th floor, Room 822
Toronto, Ontario M5S 1G6
Telephone 416-923-6641 ext. 817
Fax 416-926-476
E-mail stuserv@oise.utoronto.ca

Application deadline is December 1. An outline of the applicant's financial position must be included.

Wilfred Russells Fellowship

The Wilfred Russells Fellowship was established in honour of Wilfred Russells, an O SE/ T faculty member, by his wife. The fellowship has a value equivalent to the annual income to a maximum of \$1,000 per academic year. In order to qualify for consideration an applicant must plan to study on a full-time basis, read Dr. Russells thesis entitled 'The Effect of the Form of Presentation on the Form of Reproduction of Prose Passages,' and submit a 2,000-word essay on the thesis. The thesis is available from both the O SE/ T Education Commons and the University of T. Roberts Library.

The essay must be submitted by January 31 to
Mary MacDonell

O SE/ T Student Services Office
22loor Street West, 8th floor, Room 822
Toronto, Ontario M5S 1G6
Telephone 416-923-6641 ext. 817
Fax 416-926-476
E-mail stuserv@oise.utoronto.ca

In keeping with O SE/ T's commitment to unfettered scholarship and to combating all forms of discrimination, applicants are encouraged to attend to the sociological and historical contexts in which Dr. Russells thesis was submitted and accepted by the University of Toronto in the 1930s. Applicants are also encouraged to submit essays that consider the development of our understanding of the origins, functions, and implications of racism in education, should this aspect of the thesis prove of interest to them. The fellowship will be awarded on the basis of academic merit, financial need, and the quality of the essay.

Application forms are available from

O SE/ T Student Services Office
22loor Street West, 8th floor, Room 822
Toronto, Ontario M5S 1G6
Telephone 416-923-6641 ext. 817
Fax 416-926-476
E-mail stuserv@oise.utoronto.ca

Application deadline is December 1. An outline of the applicant's financial position must be included.

Christopher Fair Memorial Fund

The fund was established through a foundation at the Ontario Institute for Studies in Education (OISE) to provide a one-time grant to support full-time graduate students with disabilities to enable them to continue their studies when financial emergencies occur. Under the terms of the fund, preference is given, but not limited to, students with hearing impairments. Applications will be considered as they are received.

Application forms are available from

OISE/OT Student Services Office
 2200 Street West, 8th floor, Room 822
 Toronto, Ontario M5S 1A6
 Telephone 416-923-6641 ext. 317
 Fax 416-926-476
 E-mail stuserv@oise.utoronto.ca

OSOTF - Anne Millar Graduate Student Fellowship

To be awarded to one student each year who is entering the Master of Teaching Program. Financial need must be demonstrated. The award will be given to a student who best exemplifies the following qualities: a demonstrated commitment to the teaching profession and to the education of young people, an understanding of the contemporary education context, positive leadership skills, care and concern for others, fairness and integrity. The same student will be awarded the Anne Millar Graduate Student Fellowship upon entry into year two of the program subject to confirmation by the Master of Teaching academic faculty. Applications are made to the Admissions, Awards and Program Committee at OISE/OT.

The Anne Millar Graduate Student Fellowship

The fellowship will be awarded to the prior year's recipient of the OSOTF - Anne Millar Graduate Student Fellowship upon entry into year two of the Master of Teaching Program, subject to confirmation by the Master of Teaching academic faculty. The student should exemplify the following qualities: a demonstrated commitment to the teaching profession and to the education of young people, an understanding of the contemporary educational context, positive leadership skills, care and concern for others, fairness and integrity. Applications are not required.

James Fair Bursary

This bursary was established by the Institute of Child Study in memory of Dr. James Fair who was associated with the Institute from 1970 to 1989. Two bursaries of \$1000 each will be awarded to students in the Child Study and Education program who have demonstrated financial need and who perform a service benefiting children in the Institute Laboratory School. The application deadline is September 30. Applications should be directed to the Leighton McCarthy Committee of the Institute of Child Study.

Margaret Jidd Award

The fund is designed to provide small grants (normally less than \$1000) to assist students in the Child Study and Education program in attending conferences that will enrich their professional education and their potential for participation and innovation in the care and education of young children. The fund was established to recognize Margaret Jidd's lifetime of professional achievement in this area.

Applications for grants are accepted in one Fall and one Winter competition. The competition is administered by the O.C.S. Leighton McCarthy Committee, which acts as the Institute's scholarship and awards committee. Awards are based on the student's record, the relevance of the proposed conference to the education and care of young children, and plans to report back on the conference to the O.C.S. community. Preference is given to students in the second year of the Master of Arts in Child Study and Education program.

Interested students should submit a one page proposal by October 1 or February 1 depending on the session in which they plan to attend a conference. The proposal should be directed to the Leighton McCarthy Committee of the Institute of Child Study.

Leighton McCarthy Memorial Scholarship Fund

Established in 1977 by the Hope Foundation in memory of Mr. Leighton McCarthy, a former governor of the University of Toronto, who gave his residence at 4 Walmer Road to the university. This residence is now the home of the Institute of Child Study. \$1000 is awarded annually to one or two second-year students in the Master of Arts in Child Study and Education program. Selection is made by the Leighton McCarthy Committee of the Institute of Child Study on the basis of scholastic excellence and contribution to the life of the Institute. Financial need may also be considered.

Robert Seth Jingsley Graduate Student Scholarships

Established in 1993 in memory of Robert Seth Jingsley who was a student in the Laboratory School. A minimum of \$1,000 is to be awarded to one or two students in the M.A. in Child Study and Education program or the M.A./M.Ed. in Developmental Psychology and Education program. Awards will be made to students who have completed one or more years of study, on the basis of financial need as well as potential for excellence and leadership in special education, demonstrated by an ability to work with special needs children and to integrate scholarship and practice. Applications should be directed to the Leighton McCarthy Committee of the Institute of Child Study.

Keith A. McLeod Scholarship

Keith A. McLeod, a professor of education at the University of Toronto for over 20 years, established a scholarship with an award or awards to total \$1,000 per year. The purpose of the award is to give support to students in graduate studies in education at the University of Toronto. Specifically, the support is for assisting graduate students in education who are

- Focussing their study on culturally oriented community organizations and their educational endeavours, or who are studying the educational roles of libraries, museums, galleries, conservatories, or voluntary associations
- Studying the cultural context of a school community or educational communities examining how schools, museums, libraries and/or similar community institutions or programs reflect or provide for ethnocultural diversity or multiculturalism, antiracism, human rights, and equity, or Canadian culture

Adjudication of the applications will be based upon how well the above criteria are reflected in the proposal and on the following: clarity of the intent and focus; coherence of the proposal; relevance and applicability; originality and creativity; contribution to the state of knowledge and practice; evidence of theoretical content and analysis; and feasibility.

Application forms are available from

O SE/ T Student Services Office
2200 Street West, 2nd floor, Room 222
Toronto, Ontario M5S 1G6
Telephone 416-923-6641 ext. 217
Fax 416-926-476
E-mail stuserv@oise.utoronto.ca

Applicants should submit an application form, a proposal, and at least one letter of reference to the Student Services Office, O SE/ T by March 1.

Ontario Graduate Scholarship Program (OGS)

Ontario Graduate Scholarships are available to students with a high level of academic achievement. A Scholar receives \$1,000 per session. Awards will be for two or three consecutive sessions. International students are eligible for this scholarship. Scholarships had a value of \$1,000 in 2006/2007.

Application forms are available from
osap.gov.on.ca

- For students currently enrolled in a graduate program applications must be submitted to your department by the deadline. The deadline, usually mid-October for the following academic year, will be announced on the Student Services Website www.utoronto.ca/student-services in early Fall.
- For prospective full-time graduate students Applications should be submitted to the Ontario Graduate Scholarship Program Student Support Branch Ministry of Training, Colleges and Universities 100 Red River Road, 4th floor P.O. Box 400, Station P Thunder Bay, Ontario P7B 6J9

The deadline for submitting applications for the following academic year is set by the Ministry of Training, Colleges and Universities.

Social Sciences and Humanities Research Council of Canada Scholarships (SSHRC)

Awards offered by the Social Sciences and Humanities Research Council of Canada are available to Canadian citizens or permanent residents of Canada living in the country at the time of application. Scholarships have a value of \$2,000 in 2006/2007. Scholarships of \$3,000 are also available to students of high academic merit.

Application forms are available at www.sshrc.ca

- For students currently enrolled in a graduate program, applications must be submitted to your department by the deadline. The deadline, usually mid-October for the following academic year, will be announced on the Student Services Website www.utoronto.ca/student-services in early Fall.
- For prospective full-time students, applications must be postmarked November 1 for the following academic year.

Ontario English Catholic Teachers Association (OECTA) Scholarships and Fellowships up to \$10,000

The Ontario English Catholic Teachers Association offers three scholarships for graduate study up to amounts of \$10,000 each. It also offers three fellowships for Religious Studies in the amounts of \$10,000 each graduate or undergraduate. These awards are available to statutory or voluntary members in good standing with the Association.

Application forms are available from

Ontario English Catholic Teachers Association (OECTA)
6 St. Clair Avenue East
Toronto, Ontario M4T 2E2

Applications must be submitted by April 1.

The William Faehnam Fellowships

Two Awards - \$10,000 Each

Recipients of these awards must pursue full-time study in education in the Fall and Winter Sessions in which they hold the award at the University of Toronto, or at some other university approved by OISE/UT. Applicants must be residents of Ontario, holding a bachelor's degree and a teacher's certificate valid in a Canadian province, and must submit a record of professional experience and evidence of ability to make a contribution to education in Canada as a result of further work.

Application forms are available from

OISE/UT Student Services Office
222loor Street West, 3rd floor, Room 322
Toronto, Ontario M5S 1G6
Telephone 416-923-6641 ext. 317
Fax 416-926-476
E-mail stuserv@oise.utoronto.ca

Application deadline is March 1.

Ontario Secondary School Teachers Federation (OSSTF) Scholarships and Awards

These awards, totalling 26,900 include the Eric Robb Memorial Scholarships for Educational Research, the Dr. S. J. Robinson Travelling Fellowship, the S. J. Hunter Henry Memorial Fellowship, the W. Ansley Memorial Award for Educational Research, the OSSTF Educational Enhancement Scholarship for first undergraduate degree or diploma. All awards are granted only to current OSSTF members in good standing.

Application forms are available from

Dev Tindall
Scholarship Committee
Ontario Secondary School Teachers Federation
6 Mobile Drive
Toronto, Ontario M4A 2P3

Applications must be submitted by January 31.

OISE/UT Bursary

The OISE/UT bursary program is designed to provide financial aid to as many students as possible. Assisting students in greatest financial need is the most important guiding principle. Students are expected to apply for OSAP first. Those in exceptional circumstances, or those who are ineligible for assistance from OSAP, will be considered on a case-by-case basis. Bursary applications are considered monthly and names of applicants are processed regularly throughout the year. For complete details of the bursary program, and to complete an online bursary application, please visit the Student Services Website www.oise.utoronto.ca/student-services

Emergency Student Loans

OISE/UT has a small short term loan fund for full-time students experiencing an unexpected emergency financial situation. Students must be able to demonstrate that their need is urgent, of an unanticipated nature, and from what resources the loan would be repaid. Emergency loans are not awarded in order for the student to pay another outstanding debt to the University, such as tuition or library fines.

Application forms are available from the reception desk in the Student Services Office, 3rd floor, Room 322, OISE/UT.

Emergency Assistance International Students

To be approved for study in Canada, international students must show they have sufficient financial resources to meet their needs. Although not eligible for bursary assistance, international students may apply for emergency assistance. Circumstances qualify as an emergency when the precipitating event is of an unanticipated nature. Applications are available in OISE/UT Student Services, 3rd Floor, Rm 322 or may be downloaded from the Student Services Website

www.oise.utoronto.ca/student-services

Student Services and Facilities

On the following pages is brief information about some of the student services and facilities available at OISE/UT and at the University of Toronto. OISE/UT students have full access to student services and facilities provided by the University. Information on all major student services and facilities is provided in the handbook, *Getting There*. It describes the Career Centre, art house activities, the Athletic Centre, Legal Aid, Health Service, Housing Service, the International Student Centre, the work of the University Ombudsperson, and the services of the Students Administrative Council (SAC), the Association of Part-time Undergraduate Students (APUS) and the Graduate Students Union (GSU). Copies of the handbook are given to all students at orientation in September.

OISE/UT Services and Facilities

Alumni Association

For information about the OISE/UT Alumni Association, please contact the Development and Alumni Affairs Office, located on the twelfth floor.

Contact: Office of Development and Alumni Affairs

Telephone: 416-923-6641 ext. 2234

Education Commons

In partnership with academic programs and research initiatives, the Education Commons provides the services traditionally associated with libraries, distance learning, computing, and media centres to meet the information and technology needs of the OISE/UT community. At the main campus and through field operations, in person and through electronic means, the Education Commons sees to provide one-stop-shopping for knowledge services. It supports and promotes the use of technology, including computers and multimedia, in all aspects of OISE/UT activity.

Students will have access to

A specialized collection in the field of education including

Extensive reference materials

Over two thousand journal titles in the library and over 14, electronically-available journal titles

Complete microfiche holdings of the ERIC document as well as online access to 1993 documents in full text

Materials on teaching the theory and methodology of curriculum from preschool through adult levels
School board curriculum materials, textbooks and content resources used in Ontario schools
A representative collection of children's literature
A varied and extensive collection of computer software, videotapes, and other multimedia materials
A collection of over 9 million items plus over million microforms located in the numerous libraries of the University of Toronto Library System
A wide range of internet resources including remote library catalogues
Reference assistance in accessing information on courses and research assignments
Instruction in the use of online catalogues, the searching of electronic databases and the location of education resources on the internet
A variety of computers that support standard productivity tools, specialized research software, and teaching/learning resources
Face-to-face mediated learning opportunities and telephone and in-person user support, for goals including technology operation, software use, and the educational application of technology
A variety of multimedia production and viewing resources, including support for telecommunication, interactive video and computer graphics
Learning opportunities and knowledge through technology-mediated program delivery, electronic conferencing systems, email and the World Wide Web

Complete information on how the Education Commons and its staff can support your work at OISE/UT can be obtained from the Websites listed below

Graduate Students Association

The Graduate Students Association (SA) of OISE/UT is the official graduate student government at OISE/UT and is affiliated with the Graduate Students Union of the university. All OISE/UT graduate students are members of the SA. It is an advocacy group which lobbies on

behalf of students in any and all social, cultural, and political events of interest to students. The SA promotes and coordinates activities of students in the various departments and decision-making bodies of OSE/ T.

Location. 221loor Street West, Room 11
Telephone. 416-923-6641 ext. 4724
E mail. gsa@oise.utoronto.ca

Indigenous Education Vector (IEV)

The IEV is a self-determining organization founded, within OSE/ T in 1999, by Aboriginal students. It provides an Aboriginal presence at OSE/ T and a forum for discussion on issues relating to Aboriginal education and research. The IEV includes an Aboriginal Student Caucus which is a peer support group providing direction to the IEV. Co-chairs representing both faculty and students lead the IEV.

The IEV supports Aboriginal students and their study interests in education while at OSE/ T promotes Aboriginal education advances research on Aboriginal issues in relation to education and supports the development of Aboriginal curriculum at all levels of education. IEV is comprised of Aboriginal students, alumni, and faculty in initial teacher education and graduate studies in all departments at OSE/ T plus non-Aboriginal faculty and students interested in Aboriginal education and research. The IEV invites interested faculty and students to participate in its network.

A special effort is made to welcome students from abroad and to meet their special needs. On one hand, the Canadian student benefits greatly from the opportunity to work, formally and informally, with educators from other countries. On the other, we consider it an honour and an obligation, in a world so rapidly decreasing in size, to make our resources available insofar as we can, to students who plan to return to their own countries on completion of their studies.

Major essays or other individual projects constitute an important part of each course. Wherever possible, international students are encouraged to select topics which will permit them to explore systematically the possible implications that the concepts under discussion have for their home situation.

In addition, within the Collaborative Program in Comparative, International, and Development Education many courses are offered which deal specifically with educational issues in non-Canadian contexts, and which are particularly suited to international students.

International Students Association (ISA)

OSE/ T's International Students Association (ISA) arranges buddies for incoming students from abroad holds an orientation meeting and monthly luncheon meetings for academic and cultural exchange, and holds social and cultural events and activities. It works jointly with other organizations to serve international students interests and represents international students on committees and councils established at OSE/ T. It helps international students become inextricably woven into the fabric of the OSE/ T community. The ISA represents the international students perspective on issues, concerns and problems that require a collective solution and looks into the specific needs of the international students. The ISA is also represented on the SA General Council.

Location. 221loor Street West, Room 117
Telephone. 416-926-4733
E mail. isa@oise.utoronto.ca

Childspace Daycare

Childspace Day Care is a non-profit centre that provides daycare for children of staff, students, and faculty at OSE/ T. Childspace is licensed to care for a maximum of 24 children between the ages of 2 1/2 and 11/2. The children are cared for by qualified teachers who provide group and individual activities designed to promote gross and fine motor skills, language development, cognitive skills, and social and emotional growth. Children wishing to attend junior or Senior kindergarten are accompanied to Huron Public School in the afternoon. Childspace is open Monday to Friday from 8 a.m. to 6 p.m. Part-time care is sometimes available. Fee subsidies are available but must be applied for from the Metro Toronto Children's Services Department.

University of Toronto Student Services and Facilities

Aboriginal Student Services and Programs First Nations House

The First Nations House is located on the St. George Campus and houses the Office of Aboriginal Student Services and Programs (OASSP) and the Native Students Association. The Office provides culturally supportive student services and programs to Aboriginal students at the University of Toronto. Founded in 1992, the focus of the Office has been to support and assist Aboriginal students in entering and achieving academic success, and to create a space at the University of Toronto where Native people from across Canada can work and grow in a community environment which reflects the distinctive culture of Aboriginal Nations. The First Nations House provides a home for Aboriginal people on campus, is a place for the Native community in Toronto to interface with the university, and a place where the university community can learn about Native people.

Accommodation	7,000
Books/Supplies	1,000
Clothing	600
Food	3,000
Health insurance (for international students) ...	2,000
Local transportation	1,120
Miscellaneous	3,600
TOTAL	\$18,083

Career Centre

The University of Toronto Career Centre provides programs and services to assist Masters and Doctoral students in planning, developing and managing their careers. We recognize that the needs of graduate students are different from those of undergraduates. To this end, a list of resources that will help the graduate student plan for employment within and without the academy has been put together. Working in collaboration with deans and/or

divisional chairs, the Career Centre will offer tailored career management courses within graduate departments to meet the unique needs of students within that discipline.

Location. Offler Student Services Centre
214 College Street
Toronto, Ontario M5T 2R9
Telephone. 416-978-2227

Disability Services for Students

The mandate of this service is to facilitate the inclusion of students with disabilities and chronic health conditions into all aspects of university life. Their focus is on skills development, especially in the areas of self-advocacy and academic skills. Services are provided to students who have a physical, sensory or learning disability, mental health disorder, acquired brain injury or chronic health condition. Students who have temporary disabilities (e.g. broken dominant arm) are also eligible to receive services. All discussions are confidential and information is disclosed only with permission of the student.

Art House

At Art House, you'll find everything a body needs in a uniquely soul-restoring environment. Whether you're interested in art, music, debates, photography, fitness, film, drama, chess, bridge, scuba diving – you name it, you can find it at Art House. For many students, Art House is a home away from home. As a student, you're automatically a member. Within Art House are a full-service athletic facility, serene common rooms with fabulous fireplaces, two restaurants, a renowned art gallery, and library. Visit Art House for a meal, a beer or a workout. Listen to the latest music in the Record Room, or meet with friends in one of the comfortable sitting rooms. Art House also offers use of a beautiful farm north of the city on the Niagara Escarpment.

Location. 7 Art House Circle

Telephone. 416-978-2424

Website. www.utoronto.ca/harthouse

Health Services

Health Service offers a wide range of services for all of our students. The health team includes Family Physicians, Registered Nurses, a Community Health Coordinator, a Health Promotion Nurse, support staff and peer educators. Physician services include comprehensive medical care, counselling and referrals. Nurses provide information and a range of services including dressing care, immunizations and travel health education. Diagnostic tests and procedures, ordered in the clinic, are performed by a full-time lab technician in the on-site laboratory.

All students need health insurance coverage – for example, OAP, other provincial plans, **UHIP**, or other private insurance plan. Students with no health insurance are responsible for health care costs of visits, lab work, etc. The University Health Insurance Plan (UHIP) is compulsory for international students. Please contact www.library.utoronto.ca/isc/ for more information.

International Student Centre (ISC)

The goal of the ISC is to provide services that promote and support international education at the university. All members of the university community, both international students and Canadians are welcome to come to the ISC and meet in a relaxed and informal atmosphere. The facilities of the Centre are used for social events, cultural programs and other activities of an international nature. In addition to programs organized by the many cultural, ethnic, and other student groups which use the ISC, the Centre organizes events and activities to introduce international students to Canada and help to bring the world to all students of the university.

Status of Women Office

The Status of Women Office was established in 1984 in order to address inequities experienced by women at the university and to promote policy development in areas of particular relevance to women. The mandate of the Status of Women Office encompasses the improvement of the status of all women in the university community—students, staff and faculty. This involves the identification and removal of systemic and other barriers, which in turn necessarily involves changes in policy, practice and attitude.

Policies and Regulations

VOTE Students should consult the 2016/2017 *School of Graduate Studies Calendar* when it becomes available, or visit the Website <www.sgs.utoronto.ca> for full details on the following policies and for additional Policies and Regulations governing graduate studies at the University of Toronto, e.g.

- Code of Behaviour on Academic Matters which includes offences such as plagiarism
- Code of Student Conduct
- Intellectual Property
- Research Ethics

Grading Practices

The O SE/ T Graduate Studies Grading Practices falls within the general framework of the University of Toronto School of Graduate Studies S S grading system, and has the following features

AN Evaluation Procedures

- 1 As early as possible in each course, and no later than the final date to enroll in courses, the instructor will make available to the class the methods by which student performance will be evaluated and the relative weight of these methods.
- 2 After the methods of evaluation have been made known, the instructor may not change them or their relative weight without the consent of at least a simple majority of the students enrolled in the course.
- 3 Commentary, appropriate in the instructor's judgment, on assessed work, other than final examinations, and time for discussion of it will be made available to students. Commentary, appropriate in the instructor's judgment, on final examinations and time for discussion of it will be made available to students at their request.
- 4 The deadline for submission of papers will be determined by the instructor to allow for sufficient time to meet the University of Toronto School of Graduate Studies grade submission deadlines.

Grades are to be determined on the basis of the instructor's best judgment according to the evaluation procedure established in the course. The assigning of grades is solely the instructor's prerogative and will not be based on any system of quotas.

- 6 Should a dispute over an academic or procedural matter relating to a grade not be resolved through the recommended channel of discussions with the instructor and within the O SE/ T department, the student may make an appeal through the School of Graduate Studies, Graduate Academic Appeals Board.

Any student whose work is judged to be unsatisfactory by O SE/ T may be required to withdraw at any time.

BN Conditions for Final Standing

- 1 The grading system has a primary classification of **A**, **B**, and **H**, which have the following meanings:
 - A** original work, very well organized and expressed, sound critical evaluations, clear command of techniques and principles of the discipline, etc.
 - B** good grasp of the topics, accurate knowledge, some evidence of critical evaluation, ability to synthesize and to discriminate relevant issues, etc.
 - H** glaring inaccuracy and confusion, little or no grasp of techniques and principles, trivial and irrelevant treatment of topics in general, a failure to demonstrate the minimal knowledge and skills for effective work in the discipline.
- 2 The instructor is asked to make secondary distinctions within the first two classes, **A** and **B**, by using **A+** and to signify a grading within each class from high to low, and will assign a letter grade of **A+**, **A**, **A-**, **B+**, **B**, **B-**, or **F**.
- 3 A small number of graduate courses, graded as Credit/ No Credit (CR or CR) are offered at O SE/ T. Such courses must have the prior approval of O SE/ T and the School of Graduate Studies before they can be offered in this manner.

The School of Graduate Studies defines the following non-grade course reports that may appear on transcripts. All grade revisions must be submitted to the School of Graduate Studies according to these revised grading procedures.

IV - Incomplete Assigned as a final report on the basis of incomplete course work (e.g., medical reasons or when there are no grounds for assigning a failing grade). **IV -** carries no credit for the course and is not considered for averaging purposes.

IF In Progress. Assigned by the instructor as the report for a course which is continued in a subsequent session or program. The final grade for the course will appear only once and only for the last enrollment period. **IF** carries no credit for the course and is not considered for averaging purposes.

S. H Standing Deferred. Assigned by a graduate unit review committee to a student who has been granted an extension for the completion of course work beyond the S. S deadline for completion of course work, pending receipt from the instructor of a final course report. A final course report is due no later than the S. S deadline for completion of course work and grade submission following the original one for the course. If, by that date, a final grade is not available and the student has not submitted the outstanding course work, then the report of **S. H** will be replaced by a final report of **C**. **S. H** carries no credit for the course and is not considered for averaging purposes.

T. H Program Transfer. Assigned by the School of Graduate Studies to a continuing research/seminar course begun but not completed in the first program and not required in the new program to which the student has been officially transferred.

Withdrawal without academic penalty. Assigned by a graduate unit review committee, when there are extenuating circumstances, upon approval of the student's request for late withdrawal from a course. It carries no credit for the course and is not considered for averaging purposes.

F E exemption. Granted on the basis of credit for work done elsewhere. It carries credit for the course but is not considered for averaging purposes.

VOTE. An incomplete or Failed course may be taken again, but a course resulting in a passing grade cannot be repeated.

Student Appeals

Should a dispute arise over an academic or procedural matter, O. S.E./ T and the university offer students a formal appeals procedure summarized below.

The student appeals process consists of four levels

1. The first level involves dialogue with the immediate source of the disagreement typically the instructor in an attempt to resolve the matter.
2. If the appellant is not satisfied, a formal appeal can be made to the appropriate O. S.E./ T Department Academic Appeals Committee, using the notice of Appeal Form.

3. If a satisfactory resolution at this level cannot be found, further appeals may be made to the School of Graduate Studies, Graduate Academic Appeals Board no later than eight weeks after the decision being appealed has been communicated in writing to the appellant.
4. Should the problem still not be resolved, a notice of appeal should be filed by the student with the secretary of the Governing Council's Academic Appeals Committee of the University of Toronto in accordance with its guidelines and procedures. This must be done within ninety days after the decision being appealed has been communicated, in writing, to the appellant.

Detailed information on the appeals procedures is available from the O. S.E./ T Registrar's Office, Graduate Studies Registration Unit, or from a department chair, *the School of Graduate Studies Calendar* or from the S. S Website <www.sgs.utoronto.ca>.

At any stage, students have the right to appeal to

The Office of the Ombudsperson
University of Toronto
222 College Street, Suite 161
Toronto, Ontario M 5T 3L1
Telephone 416-978-4874
Fax 416-978-3439

Outstanding Fees and Other University Obligations

The following academic sanctions will be imposed on students who have outstanding financial obligations to O. S.E./ T and the university including fees, residence charges, library fines, loans, bookstore debts, health service accounts, and unreturned or damaged instruments, materials, and equipment. See also page 192.

Statements of results and/or official transcripts of record will not be issued.

Registration will be refused to a continuing or returning student. Payments made by continuing or returning students shall be applied first, to outstanding O. S.E./ T and university debts and second, to current fees.
